4. For purposes of this Article the term "family" (*vide* Article 25) shall not be held to include parents, sisters, or minor brothers.

5. For journeys by Government steamer, free transport is allowed of the officer himself, his family, servants, and their *bona fide* personal effects, also of conveyances and horses up to the limit prescribed in sub-clause (*iv*). An officer is also entitled to draw the daily allowance ordinarily admissible to him.

(B) For Journeys by Road.—

(*i*) *For self.*—One extra mileage at the rate to which he is entitled under Chapter LII.

(*ii*) *For family.*—A single extra mileage if two members of the family are conveyed; two extra mileages if more than two members of the family are conveyed.

(*iii*) Free transport of goods up to the maundage limits given in (A) (*iii*) above according to a rate to be laid down by the Local Government. This rate will prescribe the average cost per mile of conveying a maund of goods by the cheapest method of conveyance.

(C) The term "personal effects" is not subject to definition, but controlling officers should satisfy themselves of the reasonableness of the claim for reimbursement. Where tents are supplied by Government, they will not be included in personal effects for the purpose of clause (A) (*iii*); in other cases they may be conveyed as personal effects.

(D) If any member of the officer's family does not travel with him, his or her journey may be charged for within the above limits, provided that he or she follows the officer within two months (if a gazetted officer) and six months (if a non-gazetted officer) of the date of his transfer or precedes him by a period not exceeding one month.

(E) For the purpose of drawing the allowances on account of a family shown at (A) (*ii*) and (B) (*ii*) or the higher maundage allowance under (A) (*iii*) or (B) (*iii*), a certificate must be furnished by the officer of the number and relationship of the members of his family [as defined in Rule 4 to clause (A) above] for whom the allowance is claimed. All allowances claimed under (A) (*iii*), (A) (*iv*) and (B) (*iii*) must also be supported by a certificate that the actual expense incurred was not less than the sum claimed, and the claim under (A) (*iv*) must give details of the conveyances or horses transported.

(F) The above allowances do not apply to officers in inferior service who are on transfer entitled to travelling allowances under ordinary rules.

Note.—[Inferior servants should not be transferred save in exceptional cases in which there may be special reasons for a transfer.]

Exceptions.—1. Police officers below the rank of Assistant Superintendent transferred from one station to another in the same district are not entitled to travelling allowance except for journeys by rail or steamer in which case they are also entitled according to their class to the further concessions described in clause (A) (*iii*) and (*iv*) above. For journeys by road they may be allowed the actual cost of conveyance of their necessary baggage. In Burma and Assam such officers when so transferred are, however, allowed their actual expenses for journeys by boat on production of a certificate from the District Superintendent that this is the ordinary mode of travelling for persons of their class and that the amount charged is reasonable.

2. In the United Provinces, Tahsildars and Revenue and Judicial ministerial officers in superior service, transferred from one tahsil to another, or to or from the district headquarters (sadar) station from or to a tahsil in the same district, are allowed actual expenses not exceeding the allowances admissible under Chapter LII.

Note.—[Officers of the Forest Department, whether belonging to the superior or to the subordinate staff, deputed to attend the annual course of instruction at the Forest School at Dehra Dun or the Burma Vernacular Forest School, members of the subordinate police force in the United Provinces selected for training at the Police Training School, and Hospital apprentices and medical pupils attending under orders a medical school or college, are considered to be transferred for the public convenience from one station to another, but may not be granted, except in the case of Burman students deputed to the Forest School at Pyinmana, travelling allowance for their families.]

This amendment takes effect from the 3rd January 1921.

Article 1096.—For the Note under Article 1096, the following shall be substituted, namely:—

"Note.—[Survey officers may, at their option, exchange the allowances admissible under this Article for those admissible under Article 1094.]"

This amendment takes effect from the 3rd January 1921.

Article 1097.—For clause (*a*) of Article 1097, the following shall be substituted, namely:—

"(*a*) An officer of the classes specified below is, in case of transfer, entitled to free passage or refund of passage-money for journeys by sea or in a river steamer for each member of his family actually travelling with him, at the rates admissible for himself or at half those rates, according as, by the rules of the vessel, full or half passage-money is payable for such member:—

(*i*) Departmental Officers and Warrant Officers;
(*ii*) Non-Commissioned Military Officers;
(*iii*) European Soldiers; and
(*iv*) Officers of the second or third class whose pay is less than Rs. 200."

This amendment takes effect from the 3rd January 1921.

Article 1098.—Article 1098 shall be cancelled.

This amendment takes effect from the 3rd January 1921.

Article 1107.—For Article 1107, the following shall be substituted, namely:—

"1107. When on return from long leave an officer is posted to a station other than that at which he was posted when he proceeded on leave, the controlling officer may allow him to recover the allowances provided under clauses (A) (*iii*) and (*iv*) and (B) (*iii*) of Article 1094 for the carriage of personal effects and conveyances from the station from which he proceeded on leave to the station to which he is posted."

This amendment takes effect from the 3rd January 1921.

Article 1114.—For the Note under Article 1114, the following shall be substituted, namely:—

"*Note.*—[In applying the ordinary rules to halts at hill stations under this Article, general exemptions from the rule laid down in Article 1056 made by Local Governments under that Article shall be held to be inapplicable. Provincial Governments may sanction specific exemptions under this Article without limit of time, and other Local Governments, including authorities exercising the powers of Local Governments, may sanction specific exemptions up to 30 days.]"

This amendment takes effect from the 3rd January 1921.

Article 1121.—For Article 1121, the following shall be substituted, namely:—

"1121. Save as provided in this Section, or by special order of the Government of India or in the case of officers paid wholly or in part from Provincial revenues of a Provincial Government, an officer is not entitled to travelling allowance for a journey on proceeding on, on rejoining from, or during, leave of any kind, or on retirement or dismissal from the public service.

Note.—[Exemption should be given only in exceptional cases. Half-yearly statements of exemptions granted by Provincial Governments must be submitted to the Government of India.]"

This amendment takes effect from the 3rd January 1921.

Article 1121-A.—For the Note under Article 1121-A., the following shall be substituted, namely:—

"*Note.*—[In the case of officers paid wholly or in part from Provincial revenues, a Provincial Government may exercise the powers which are conferred on the Government of India by clauses (ii) and (iii) of this Article.]"

This amendment takes effect from the 3rd January 1921.

Article 1127.—For Rule 2 under Article 1127, the following shall be substituted, namely:—

"2. An officer, who on recall from leave is ordered to proceed to a station other than that from which he went on leave, may draw travelling allowance under Article 1094 for his family, if the conditions of that Article are satisfied, from the place at which the order of recall reaches him to his new station: Provided that the amount so drawn must not exceed the travelling allowance admissible under Article 1094 for taking his family from his original to his new station."

This amendment takes effect from the 3rd January 1921.

Article 1133.—In Note 4 under Article 1133, for the words "a Native State" and "Native State" in lines 1 and 3 respectively, the words "an Indian State" and "Indian State" shall be substituted.

This amendment takes effect from the 3rd January 1921.

Article 1135.—For Article 1135, the following shall be substituted, namely:—

"1135. As an exception to Article 1133 and 1134, Patwaris and Jemadars and Chaukidars of the rural police in the United Provinces and Patwaris in the Central Provinces, summoned as witnesses in Criminal Courts, receive their expenses at the same rates as persons of their rank in life who are not Government servants."

This amendment takes effect from the 3rd January 1921.

Appendix 1.—For items 4, 5 and 6 of the list of officers in the Note to the entry in column 3 in Part III of Appendix No. 1 against Item No. 40, the following shall be substituted, namely:—

"(4) The Political Agent in Kathiawar, in respect to the members of the Kathiawar Police; and

(5) The Commissioner of Police, Calcutta, in the case of the Calcutta and Suburban Police."

This amendment takes effect from the 3rd January 1921.

Appendix 4-A.—(1) For the words "Note 2 to Article 81" in the headline of Appendix No. 4-A., the words "Note 3 to Article 81" shall be substituted.

(2) For Rule 1 in the Appendix, the following shall be substituted, namely:—

"1. A member of the Indian or Statutory Civil Service or of the Commission of a Non-Regulation province, or an officer of the Provincial Civil Service holding a listed post of Collector or Deputy Commissioner, who is employed as a Settlement Officer, draws (*a*) the pay or salary which would be admissible to him if serving in the regular line and not holding a special appointment and (*b*) a deputation (duty) allowance of Rs. 150 *per mensem*."

These amendments take effect from the 3rd January 1921.

Appendix 6.—(1) For "Article 163" in the headline of Appendix No. 6, "Article 167" shall be substituted.

(2) For the entry under Item "(*b*) Salt" in the Appendix, the following shall be substituted, namely:—

"An Inspector of the Northern India Salt Revenue when placed in charge of the duties of a Superintendent or Assistant Superintendent	25"

(3) For the entry under Item "(*g*) Education" in the Appendix, the following shall be substituted, namely:—

"An officer of the Indian Educational Service appointed to hold charge, in addition to his own duties, of the current duties of another officer included in that Service—an allowance not exceeding one-fifth of his salary, or Rs. 200 a month, whichever is less."

These amendments take effect from the 3rd January 1921.

Appendix 7-A.—(1) For the entry "Attendants, warders, and keepers in Lunatic Asylums....., etc.," in Part I of Appendix No. 7-A., the following shall be substituted, namely:—

"Attendants, warders and keepers in Lunatic Asylums other than Asylums in the Bombay Presidency and warders in Jails whose service has not been specially declared as superior."

This amendment takes effect from the 23rd June 1925.

(2) For the entry beginning "Lunatic Asylums, Bombay Presidency," in Part II of the Appendix, the following shall be substituted, namely:—

actually paid by them, whatever the conveyance may be, subject to the condition that it should be limited to the daily allowance admissible to them under the ordinary rules or to that admissible under special orders issued by the Local Government from time to time."

This amendment takes effect from the 3rd January 1921.

Appendix 32.—For Appendix No. 32, the following shall be substituted, namely:—

"APPENDIX NO. 32.

Rules for the grant of additional leave to officers for the study of scientific, technical or similar problems or in order to undertake special courses of instruction.

The following rules relate to study leave only. They are not intended to meet the case of officers deputed to other countries at the instance of Government, either for the performance of special duties imposed on them or for the investigation of specific problems connected with their technical duties. Such cases will continue to be dealt with on their merits under the provisions of Article 85 of the Civil Service Regulations. The rules apply to the Archæological Department, the Sanitary and Bacteriological Departments (other than as regards officers of the Indian Medical Service, to whom special rules apply), the Botanical Survey (including the officers of the Royal Botanic Garden, Calcutta), the Civil Veterinary Department, the Factory Department, the Geological Survey, the Agricultural Department, the Meteorological Department, the Railway Department, Traffic, Locomotive and Engineering Branches, the Telegraph Department, the Zoological Survey, the Education Department, the Public Works Department, and the Forest Department (except in respect of continental tours to which special rules apply). The rules may be extended by the authorities empowered to sanction study leave under Rule 1, to any officer including an officer of a Provincial Service, not belonging to any of the departments mentioned above, in whose case the sanctioning authority is of opinion that leave should be granted in the public interests to pursue a special course of study or investigation of a scientific or technical nature.

Note.—[The extension of these rules to the Public Works Department does not affect the existing rules under which officers of less than 12 years' service are allowed to visit engineering works when on leave in Great Britain, travelling expenses only being reimbursed.]

1. Extra furlough for the purpose of study may be taken either in or outside India. It may be granted to an officer of any of the Departments named above by the Local Government or Administration under which he is serving, provided that when an officer borne permanently on the cadre of one province or department is serving temporarily in another province or department the grant of leave is subject to the conditions (*a*) that the sanctioning authority can make local arrangements to carry on his work in his absence, and (*b*) that the sanction of the province or department to which he is permanently attached is obtained before leave is given. Study leave should not ordinarily be granted to officers of less than five years' service or to officers within three years of the date at which they have the option of retiring, or, if they have the option of retiring after 20 years' service, within three years of the date at which they will complete 25 years' service.

2. The grant of study leave should be made with due regard to the exigencies of the public service. In no case should the grant of this leave, in combination with ordinary leave, involve an absence of over two years from an officer's regular duties, or exceed two years in the whole period of an officer's service; nor should it be granted with such frequency as to remove him from contact with his regular work or to cause cadre difficulties owing to his absence on leave. A period of 12 months at one time should ordinarily be regarded as a suitable maximum, and should not be exceeded save for exceptional reasons.

3. An officer whose study leave is combined with any other kind of leave should be required to take his period of study leave at such a time as to retain, at its conclusion, a balance of other previously sanctioned leave sufficient to cover the period spent in returning to duty.

4. When an officer has been granted a definite period of study leave and finds subsequently that his course of study will fall short of the sanctioned period to any considerable extent, his absence from duty should be reduced by the excess period of study leave unless he produces the assent of the sanctioning authority in India to his taking it as ordinary furlough.

5. Except as provided in rule 6, all applications for study leave should be submitted with the audit officer's certificate to the Head of the Department through the prescribed channel, and the course or courses of study contemplated and any examination which a candidate proposes to undergo should be clearly specified therein.

6. Officers on furlough or other leave in Europe or America, who wish to have part of it converted into study leave, should address the Under Secretary of State, India Office, and should attach (1) a statement showing how they propose to spend the study leave, and (2) documentary evidence that their application for the particular course of study or examination proposed has the approval of the proper authorities in India. Similarly, officers on furlough or other leave in Europe or America, who desire to have it extended for purposes of study, should address the Under Secretary of State, but in addition to the above requirements they must support their applications with

documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave.

7. A lodging allowance, which for the present has been fixed at 12*s.* a day but which is liable to revision, will be granted for the period spent in prosecuting a definite course of study in Great Britain at a recognised institution or in any definite tour of inspection of any special class of work, as well as for the period covered by any examination at the end of the course of study. The rate to be granted to officers who take study leave in other countries, including India, will be specially considered by the Secretary of State or the Government of India, as the case may be, in each case. In no case will subsistence allowance be granted in addition to lodging allowance and ordinarily travelling expenses will not be paid, but in exceptional cases claims will be considered on their merits by the Government of India in consultation, if necessary, with the Secretary of State.

8. Lodging allowance will be admissible up to 14 days for any period of vacation. A period during which an officer interrupts his course for his own convenience cannot be considered as vacation. In the case of an officer retiring from the service without returning to duty after a period of study leave the lodging allowance will be forfeited. If the officer is under civil leave rules the study leave will be converted into furlough to the extent of the furlough standing to his credit at the date of retirement. Any balance of the period of study leave mentioned above which cannot be so converted will be excluded in reckoning service for pension.

9. Officers granted study leave are ordinarily required to meet the cost of fees paid for courses of study. In exceptional cases the Secretary of State or the Government of India, as the case may be, will be prepared to consider proposals that such fees should be paid by Government.

10. On completion of the study the certificates of examinations passed or the certificates of special study, which should show the dates of commencement and termination of the course, with any remarks by the instructor, shall, when the study leave has been taken in Europe or America, be forwarded to the Under Secretary of State, India Office, and, when the study leave has been taken in any other country, to the authority which sanctioned the leave. In the case of a definite course of study at a recognised institution the lodging allowance will be payable at the India Office or in India, as the case may be, on claims submitted by the officer from time to time, supported by proper certificates of attendance. When the programme of study approved under rule 5 does not include or does not consist entirely of such a course of study, the officer shall submit to the India Office or to the authority in India which sanctioned his leave, as the case may be, a diary showing how his time has been spent, and a report indicating fully the nature of the methods and operations which have been studied, and including suggestions as to the possibility of applying such methods or operations to India. The Secretary of State, or the sanctioning authority in India, as the case may be, will decide whether the diary and report show that the time of the officer has been properly employed, and will determine accordingly for what period the lodging allowance referred to in rule 7 may be granted.

11. Study leave will count as service for promotion and pension but, except so far as it may be taken during privilege leave, not for furlough or any other leave. It will not affect any leave which may already be due to an officer; it will count as extra furlough, and will not be taken into account in reckoning the aggregate amount of furlough taken by the officer towards the maximum period admissible under the Civil Service Regulations.

12. An officer on privilege or combined leave may be permitted to commence a course of study before the end of his privilege leave, and to draw for such period the lodging allowance admissible under rule 7, without forfeiting his privilege leave allowance during such period. With the foregoing exception an officer, during study leave, will draw furlough pay. For all purposes of record and subsequent calculation of leave, the full amount of study leave taken shall in such cases be post-dated as if it commenced at the end of the privilege leave.

Military officers in civil employ will be entitled to draw furlough pay as follows:—

(*a*) To an officer taking study leave while under military leave rules: the rate of furlough pay admissible to him under those rules.

(*b*) To an officer taking study leave while under civil leave rules: the rate prescribed in Article 316 of the Civil Service Regulations for an officer on ordinary furlough subject to the limits laid down in Article 316 (*a*).

13. On an application for study leave in Europe or America being sanctioned by the Government of Madras, Bombay or Bengal, the Local Government should inform the India Office of the particulars of the case. When such leave is sanctioned by any other Local Government or Administration, a report should be made to the Government of India who will inform the India Office. It will be necessary for the officer concerned to place himself in communication with the Secretary of State who will arrange any details and issue any letters of introduction that may be required. In all cases in which study leave in any other country is sanctioned the particulars should be reported to the Government of India."

This amendment takes effect from the 3rd January 1921.

Form 21.—(1) In Form No. 21,—

This amendment takes effect from the 17th January 1928.

Form 22.—In Form No. 22, for the words " Referred to in Article 747 " in the headline, the words " Referred to in Article 746-A. (*b*) " shall be substituted.

This amendment takes effect from the 22 March 1927.

Form 30.—For Form No. 30, the following shall be substituted, namely:—

" Form No. 30.—*Cancelled* ".

This amendment takes effect from the 19th May 1924.

RESOLUTION VII.

In exercise of the powers conferred by sub-sections (2) and (3) of Section 96-B of the Government of India Act, the Secretary of State for India, with the concurrence of the majority of votes at a meeting of the Council of India, held this 5th day of September 1928, hereby makes the following amendments to the Civil Service Regulations, namely:—

1. At the beginning of Section II of Chapter XIX of the Regulations, the following Note shall be inserted, namely:—

"*Note.*—[The rules in this Section are to be read as superseded by Rules 13 and 14 of the 'Superior Civil Services (Revision of Pay, Passage and Pension) Rules, 1924', to the extent indicated in those rules.]"

2. At the end of Section II of Chapter XXI, the following new Article shall be inserted, namely:—

" In Case of Commutation of Pension.

524-B. In the case of a pensioner who is re-employed in Government service or in the service of a Local Fund and who commutes a portion of his pension before or after such re-employment, the amount of pension which the pensioner is entitled to draw under the rules in this Section shall be the amount to which he would have been entitled had there been no commutation, less the amount commuted ".

3. The illustration under Article 530 shall be omitted.

4. For clause (*a*) of Article 541, the following shall be substituted, namely:—

" (*a*) If a gratuity received for the earlier service has not been refunded, gratuity or pension (as the case may be) may be allowed for the subsequent service, on condition that the amount of such gratuity or the present value of such pension *plus* the amount of the previous gratuity shall not exceed the amount of gratuity or the present value of the pension that would have been admissible had the gratuity received for the earlier service been refunded."

5. In Section IV of Chapter XXI, after Article 531, the following new Article shall be inserted as Article 531-A., namely:—

"531-A. For the purposes of Articles 530 and 531, the capital or present value of a pension shall be calculated in accordance with the table prescribed by the Governor General in Council under the 'Civil Pensions (Commutation) Rules'."

6. In Chapter XXXVIII as revised with effect from 22nd March 1927 by a separate Resolution, for Article 737, the following shall be substituted, namely:—

" 737. Subject to the provisions of the 'Civil Pensions (Commutation) Rules,' the recipient of a pension awarded under the rules in this Chapter may be allowed to commute a portion of it."

7. For the second sentence of clause (*a*) of Article 941, the following shall be substituted, namely:—

" The amount of the life annuity will be determined by the table prescribed by the Governor General in Council under the 'Civil Pensions (Commutation) Rules,' while that of the temporary life annuity will be determined in each case in consultation with the Actuary to the Government of India on the assumption of the same rates of interest and mortality on which the table prescribed by the Governor General in Council under the 'Civil Pensions (Commutation) Rules' is based."

8. Appendix No. 10 to the Regulations shall be cancelled.

E. BURDON,
Secretary to the Government of India.

Educational Notices.

NOTIFICATION.

Annual Examination of Pleaders in Surveying, 1929.

(*See* Government notification No. 3157J., dated the 25th November 1909, modified in Government notification No. 320J.D., dated the 16th July 1914.)

1. The next examination will be held in February 1929 and will be conducted at the following centres (provided that not less than five names be registered at each centre):—B. E. College and Dacca in Bengal, and Patna in Bihar and Orissa.

2. Each examination is complete in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the examiner in it.

3. Candidates practising in the Courts of the Presidency, Rajshahi and Burdwan Divisions will be required to present themselves at the B. E. College; those practising in Patna, Tirhoot, Bhagalpur, Orissa and Chota Nagpur Divisions, at Patna; and those in Dacca and Chittagong Divisions and in Assam, at Dacca.

4. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

5. No candidate will be admitted to the examination unless he has been enrolled as a pleader and—

(*i*) has obtained credit for attendance at the special course of instruction at the B. E. College, Patna or Dacca, in 1925, 1926, 1927 or 1928, and has not previously appeared at the examination more than twice, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer examination, or

(*iv*) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(*v*) has been specially exempted from the operation of this rule by the Board controlling the examination.

6. Candidates wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose Court he is enrolled, and forward the same so as to reach the office of the Principal, Bengal Engineering College, in the case of candidates practising in the law courts of Bengal and Assam, and to the office of the Principal, Bihar College of Engineering, in the case of candidates of Bihar and Orissa, not later than the 7th January 1929. The form may be had from the Principal, Bengal Engineering College, or from the Principal, Bihar College of Engineering.

7. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, which fee will in no case be returned.

8. The exact date of the examination and the proposed programme will be communicated to candidates by the office who has registered their names.

T. H. RICHARDSON,

Secretary, Pleaders' Survey Examination Board.

CALCUTTA, *the 23rd October 1928.*

NOTIFICATION.

Pleaders' Survey Training Classes, 1929.

1. Classes for the training of pleaders in surveying will be opened in January 1929 in connection with the Bengal Engineering College, the Bihar College of Engineering, Patna, the Ashanulla School of Engineering, Dacca, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the heads of the institutions, who will also decide the exact locality in which the classes will be held and date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hour for each day. The attendance must be distributed over the course so that no subject is neglected.

5. Candidates who desire to undergo the course of training must apply to the Principal, Bengal Engineering College, in the case of candidates practising in the law courts of Bengal and Assam, and to the Principal, Bihar College of Engineering, in the case of candidates of Bihar and Orissa, for registering their names not later than the 30th November 1928. The application of a candidate must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Bengal Engineering College, Patna or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Secretary, Pleaders' Survey Examination Board.

6. The registering officer will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the candidates as to the locality and the date of opening of the class.

7. The following is the syllabus of instruction:—

No definite text-books are prescribed—

(*a*) Practical work—

Chain surveying, prismatic compass surveying, plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments, construction of scales, measuration of area, plotting, variation of compass, preparation of field-books from maps, elementary principle of levelling and plotting of level sections.

Candidates who obtain the required percentage of attendance at this course are qualified to appear at the Pleaders' Survey Examinations to be held in 1930, 1931, 1932 and 1933.

B. C. Wallis. Macmillan's Geography Exercise Book (India).

A. Bose. Outlines of Geography.

Ideal Advanced Regional Geography published by the Grant Educational Company, Limited.

The following books are recommended for the use of teachers:—

Blandford. The Rudiments of Physical Geography for the use of Indian Schools.

Frew. A Regional Geography of the Indian Empire (Blackie and Son).

Wallis. The Teaching of Geography (Cambridge University Press).

O'Malley. Bengal, Behar and Orissa, Sikkim (Macmillan and Co.).

The following book is recommended for the use of teachers in connection with the teaching of " Sand Modelling " in the lower class of schools:—

A. F. Frye. The Child and Nature.

[*N.B.*—Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list:—

I. (The total cost need not exceed Rs. 65.)

(1) A measuring tape and metre scale and foot-rule.
(2) A magnetic compass.
(3) Squared paper and tracing paper.
(4) Clay, dry sand, paper pulp for modelling.
(5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude and outlines only of the land masses marked upon it.
(6) A map of the school locality on a scale of 4″ or 6″=1 mile.
(7) A map of the district in which the school is situated 1″=1 mile.
(8) A coloured map of the province.
(9) A coloured political map of India.
(10) A physical map of India.
(11) A relief map of India.
(12) A map of the world on Mollweild's equal area projection and a map of Asia.

It is esential that the students should be provided with atlases, or with the necessary hand map, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography:—

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-gauge.

(4) A small collection of typical rocks; in particular, those of the province and India.

(5) A small museum of typical products.

(6) A good standard atlas.

(7) Geographical pictures.

(8) Magic lantern and slides.

(1) The attention of teachers is invited to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Dutt, Head Pandit, Habigunj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Phillip and Son, London, W., and A. K. Johnston, London, and Messrs. Ruddiman, London. Small hand globes of German make can be obtained through the Indian School Supply Depot for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by Geogre Phillip and Son is good and up to date; so also are the Geographical wall maps published by Edward Standford Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps, also ordinary and relief maps of the province.

Babu L. M. Basu, the Drawing Master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, named on one side, and the same map without names on the reverse, published by Armond Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps showing river systems and a few towns, published by the same Company, are excellent for class use.

The autograph hand maps, with hill shading in brown, published by Messrs. Edward Standford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15" map of the world on Mollweild's equal area projection is specially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Horns Hachette of Paris, Messrs. Holzel of Vienna, and Messrs. Longmans Green and Company. They cost, delivered in India, from two or three rupees each.

Map lantern slides and view slides specially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Burlington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.]

Elementary Mechanics.

The following books are recommended:—

A. N. Sen. Elementary Mechanics.

Briggs and Bryan Matriculation Mechanics.

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination:—

Plumb-line and level.

Simple lever (including brass slotted weight).

Roman steelyard.

Lecture apparatus for experiment on movements.

George's New Atwood's Machine.

Stop watch.

Glazebrooke's apparatus (to demonstrate movement of a body).

Hick's Ballistic Balance.

Compound Wheel and Axle.

4 Single Brass Pulleys.

2 Triple Brass Pulleys.

Weston Differential Pulleys Blocks (½ ton).

16 feet of Chain at 6*d.* per foot.

Inclined Plane.

Parallelogram of Forces apparatus.

Wall Crane.

Becker's New Physical Balance.

Set of gramme weights (200 grams to 1 mgr.).

2 Composition Ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list, specially for demonstration purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.

Elementary Hygiene.

No text-books are prescribed or recommended. The subject is to be studied in accordance with the syllabus prescribed in the Regulations.

SYLLABUS IN HYGIENE.

I. *Definition of Hygiene—Personal and Public.*

II. *General structure of the human body.*—The skeleton; muscles; nervous respiratory, circulatory, secretory and excretory system. Organs of special sense.

III. *General functions of human body.*—Locomotion; Innervation; Physiology of Respiration, Circulation and Digestion.

Secretion and Excretion.

IV. *Air.*—Its average composition. Functions of Oxygen. The air before and after respiration. Other sources of impurities. Air of crowded rooms. Evil effects of impure air. Increased incidence of Tuberculosis in India. Dust and its dangers. Air-borne diseases.

Means of purification of air, *natural* and *artificial*; *part* played by plants. Ventilation. Minimum air-space for each person in schools and dwelling houses.

V. *Water.*—Its composition. Natural waters.

The need for water and the quantity required per individual.

Chief sources of water-supply in Bengal and how they are polluted.

Chief impurities of water and their significance. Hard and soft waters.

How to keep the sources of water (wells, tanks, etc.) free from pollution.

Means for purification of drinking water; distillation; filtration; use of chemicals; boiling.

Evil effects of the impure or scanty supply of water. Water-borne diseases.

VI. *Food.*—Its five nutritive principles (Proteids, Fat, Carbo-hydrate, Salts and Water), their respective functions and the quantity of each required in health for people of different ages and vocations.

Composition of common foodstuffs:—

Milk; Meat; Fish; Eggs; Poultry; Flour, Rice, *Dal;* Butter, Ghee and Oil; Sugar; Potatoes; various fresh vegetables, fruits and nuts.

Character of good meat, fish and milk.

Common adulterants of food.

Food in relation to diseases.

Accessories of food—condiments and *chutneys.* Good drinks and harmful drinks—tea, coffee and cocoa; aerated waters; alcohol.

Construction of suitable diet—Scales for different people. Eating of food and time of eating, intemperance in eating, insufficiency of food.

Cooking, storage and distribution of food.

Some preserved foods.

VII. *Dwelling Houses.*—Selection of site; houses to be constructed on well-thought-out plans; plenty of light and air; protection against damp; good drainage; privies, cowsheds and stables at some distance from the main building; sufficient open space between contiguous houses; adequate arrangements for disposal of refuse and filth.

Huts in villages; low lands to be avoided; plinth well-raised; sufficient number of openings for light and air in each room; situation of latrines and cowsheds; arrangements for drainage and disposal of sewage.

VIII. *Preventive Medicine.*—Epidemic and endemic diseases. Malaria, Cholera, Small-pox, Plague, Influenza, Typhoid fever, Kala-azar, Dysentery, Tuberculosis, Consumption, Hook-worm and other common parasitic diseases—a brief study as to their origin and modes of spread and the measures for their prevention.

Insects in relation to spread of diseases.

Small-pox and vaccination.

A general knowledge of antiseptics, disinfectants, and inoculations.

Disinfection of rooms, clothing, beddings, excreta and discharges.

IX. *Personal Hygiene.*—Care of teeth, hair and skin. Baths. Clothings—Materials and forms used should be adapted to the climate, habits and occupation of the people. Clothing of children.

Work and Exercise.—Out-door and in-door games.

Fatigue, Rest and Sleep.—Amount of sleep required for persons of different ages.

Importance of attitudes and postures. Eye-sight and its preservation.

Bad habits.

X. *Evil effects of the use of Intoxicating Drugs.*—Tobacco, Opium, Indian hemp, Cocaine.

NOTE.—It is not intended that candidates should be examined in Chemistry, Anatomy, Physiology or like contributory subjects, but the students should be taught, with the aid of experiments, such simple facts in these contributory subjects as may be essential for an elementary scientific knowledge of hygiene

The schools which apply for recognition in Hygiene are expected to provide the following appliances:—

		Quantity.
1	Human skeleton (articulated)	1
2	A complete set of human bones (disarticulated).	
3	Charts:—	
	(*a*) Circulatory system.	
	(*b*) Respiratory system.	
	(*c*) Digestive system.	
	(*d*) Secretory system.	
	(*e*) Nervous system.	
4	Charts showing the different carriers of the most common infective diseases:—	
	(*a*) Mosquitoes.	
	(*b*) Flies.	
	(*c*) Fleas, etc., and their life history.	
	(*d*) Common parasites—itches, etc.	

5 Charts showing the life cycles of malarial parasites in man and in the mosquitoes.

6 Charts showing common intestinal parasites such as round worm, thread-worm, hook-worm, etc.

7 Charts showing the microbes of common infective diseases:—

Cholera, tuberculosis, plague, diphtheria, influenza, typhoid fever, dysentery, etc., etc.

Logic.

The subject of Logic is to be studied as defined by the syllabus. Students are recommended to use one or more of the following books, or select portions thereof, with special reference to the course laid down in the syllabus:—

Carveth Read. Logic, Deductive and Inductive.
Bain. Logic, Deductive and Inductive.
A. C. Mitra. Principles of Logic, Deductive and Inductive.
P. K. Ray. Deductive and Inductive Logic.
R. R. Thomas. Students' Logic (Deductive and Inductive).
Welton and Monahan. Intermediate Logic (Second Edition).

Preparatory reading.

Students are advised to read the following books before joining the regular course:—

Creighton. Inductive Logic, Parts I, II.
Jevons. Elementary Lessons in Logic.
P. D. Shastri. Elementary Text-book of Inductive Logic.

History.

BOOKS RECOMMENDED.

Paper I—History of England.

G. T. Warner and C. H. K. Martin. Groundwork of British History
Mowat. A History of Great Britain (Oxford University Press).
Tout. An Advanced History of Great Britain (No. 3) (Longmans).

Paper II.—History of Greece and Rome.

Bury. History of Greece for Beginners.

(*N.B.* -This book comes down only to 322 B.C.)

Edmunds. Greek History for Schools (Cambridge University Press).

Shuckburgh. Smaller History of Rome.

Pelham. Outlines of the History of Rome.

Breasted. Ancient Times (Ginn and Co.), Parts III, IV, and V. 221-716 (covers the entire histories of Greece and Rome prescribed in the Syllabus).

N.B.—Candidates are required to have a knowledge of Historical Geography. Gardiner's "School Atlas of English History" and Grundy's "Classical Atlas for Schools" (Murray) are recommended for consultation.

Elements of Civics.

Books recommended to be used by students in accordance with the syllabus:—

Raleigh. Elementary Politics.

Anderson. British Administration in India.

Penson. Economics of Every-day Life.

The Outlines of Indian Economics will be taught to students in connection with this paper, for which no text-books are recommended.

Commercial Geography.

Books recommended to be used by students in accordance with the syllabus:—

C. B. Thurston. Economic Geography of the British Empire (University of London Press, Limited.)

Philips. Commercial Atlas of the World.

Herberston and Berrell. Chamber's Commercial Geography of the World (new edition).

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

NOTIFICATION.

No. 2794L., dated Calcutta, the 1st November 1928.—In pursuance of the provisions of sub-section (*3*) of section 81 of the Government of India Act, the following Act of the local legislature of Bengal, having been assented to by the Governor-General on the 16th October, 1928, is hereby published for general information:—

BENGAL ACT III OF 1928.

THE BENGAL MEDICAL (AMENDMENT) ACT, 1928.

An Act to amend the Bengal Medical Act, 1914.

WHEREAS it is expedient to amend the Bengal Medical Act, 1914, in the manner hereinafter appearing; Ben. Act 1914.

It is hereby enacted as follows:—

Short title and commencement.

1. (*1*) This Act may be called the Bengal Medical (Amendment) Act, 1928.

(*2*) It shall come into force at once:

Provided as follows:—

(*a*) the term of office of the members of the Council constituted under the Bengal Medical Act, 1914, as in force at the commencement of this Act, shall continue, as if this Act had not been passed, until a date to be appointed in this behalf by the Local Government by notification in the *Calcutta Gazette;*

(*b*) the term of office of members nominated or elected after the commencement of this Act to fill casual vacancies in that Council shall also continue until the said date.

New section for section 4 of Bengal Act VI of 1914.

2. For section 4 of the Bengal Medical Act, 1914 (hereinafter referred to as the said Act), the following shall be substituted, namely:—

Constitution of Council.

"**4.** The said Council shall consist of the following members, namely:—

(*a*) a president to be nominated by the Local Government;

(*b*) three members to be nominated by the Local Government of which one is to be from the staff of the School of Tropical Medicine;

(*c*) one member to be elected from among the members of the Faculty of Medicine by the Senate of the Calcutta University;

(*d*) one member to be elected by and from among the staff of each medical school or college affiliated to the Calcutta University or the Dacca University or to any other University hereafter established within Bengal;

(*e*) one member to be elected by and from among the staff of each institution in Bengal other than those mentioned in clause (*d*) which is or may hereafter be recognised by the Bengal Council of Medical Registration for admission of its students to the final Licentiate or Membership standard of examination of the State Medical Faculty of Bengal;

The Bengal Medical (Amendment) Act, 1928.
(Sections 3-7.)

DARJEELING, THE 17TH OCTOBER 1928.

RESOLUTION—No. 615T—A. I.

Minister-in-charge: The Hon'ble Raja Bhupendra Narayan Sinha Bahadur, of Nashipur.

READ—

Annual Reports of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College for the year 1927-28.

I.—Civil Veterinary Department, Bengal.

Mr. P. J. Kerr held charge of the office of the Director of Civil Veterinary Department and Veterinary Adviser to the Government of Bengal, with a short period of absence owing to illness, from the beginning of the year until 23rd September when he proceeded on long leave. Mr. R. T. Davis officiated for him for the remainder of

the year. Rai Sahib S. C. Pal and Babu N. N. Mazumdar, Assistant Directors, were in charge of the Western and Eastern Ranges, respectively, throughout the year.

2. The Director, not without justification, couches his general remarks in a tone of some despondency—want of funds have prevented several important schemes being brought into being, such as the free supply of serum, the appointment of 9 extra Staff Veterinary Assistant Surgeons, and the appointment of a Veterinary Inspector for propaganda work. Nor has it been possible to make any progress with the long-standing question of the revision of the pay of the Veterinary Assistant Surgeons. On the side of local bodies who employ and bear two-thirds of the cost of the subordinate veterinary staff there is too often evident an apparent failure to appreciate the important bearing that the control of epidemic diseases, together with the ordinary care of animals, has on the prosperity of the country. This attitude is reflected also, as the Principal, Bengal Veterinary College, observes, in the steady fall in the number of District Board stipends awarded to students at the college. Consequently, the staff shows little or no expansion and in one case a local body has got rid of the Veterinary Assistant Surgeon whom it had hitherto been entertaining. It must be admitted, however, in all fairness to local bodies, that the increasing calls which are made upon limited financial resources particularly on the side of medical and public health work make it inevitable that they should cut down expenditure somewhere and veterinary interests are not the only ones that have suffered.

A noticeable exception, however, is the Nadia District Board who were enterprising enough to organise a travelling exhibition in which the Veterinary as well as the Public Health and Agriculture Departments took part.

The scheme for thana veterinary dispensaries under the administration of Union Boards, to which reference was made in last year's review, has not yet materialised, as the amendment to the Village Self-Government Act, which was necessary in order to make it possible, had to be dropped after being introduced in the present session of the Legislative Council. The future of the Bill is still, however, under consideration.

3. The year was a mild one so far as epidemic diseases were concerned, but, as Mr. Davis points out, these things go in cycles, and diminution of outbreaks in a particular year is no indication that such diseases are dying out.

The total number of deaths from epidemic diseases was 15,459 as against 35,719 in the previous year. The deaths from rinderpest, which accounted for 76 per cent. of the total, fell from 33,405 to 11,790. Hæmorrhagic septicæmia, on the other hand, showed a slight increase from 1,492 to 1,899. Tippera heads the rinderpest list with 1,611 deaths, closely followed by Chittagong with 1,521, and Mymensingh with 935. The casualties in Khulna and Bakarganj fell from over 4,400 each to 473 and 688, respectively. The deaths in Sodepur Pinjrapole fell from 189 to 142.

During the year 113,757 inoculations were performed as against 206,616 in the previous year, but this was in respect of a number of outbreaks which was less by more than half than that of the previous year. The death rate among inoculated animals was negligible. It is satisfactory to observe that there is very little opposition to inoculation. There was again an increase of patients treated by Veterinary Assistant Surgeons on tour, viz., 169,385 as against 126,661, an increase of over 33 per cent., while the number of cases treated at dispensaries and hospitals rose from 56,184 to 71,159, or by over 26 per cent. (the rate of increase last year was 10 per cent.). These figures indicate that the animal-owner at any rate is appreciating more and more the value of veterinary attendance, and show that there is a need for more dispensaries and a bigger staff. Yet no new hospital or dispensary was opened during the year and there was no increase of staff.

The Hon'ble Minister is glad to note, however, that the Mymensingh District Board have undertaken the construction of a serum cellar at their Sadar Dispensary; that the Pabna District Board have allotted Rs. 12,000 for the construction of a Veterinary Hospital and quarters for the Veterinary Assistant Surgeon at Pabna; and that the Rajshahi District Board have constructed a serum cellar at the headquarters veterinary hospital.

The Department participated once more in the Eastern Bengal Railway Demonstration Train.

4. His Excellency, acting with his Minister, notices with pleasure the names of officers of the Department who did good work during the year and desires also to acknowledge the care and attention which Messrs. Kerr and Davis devoted to their duties.

II.—Bengal Veterinary College.

5. Mr. A. D. MacGregor held charge as Principal throughout the year. Mr. R. T. Davis was Vice-Principal from 1st April up to 22nd September when he was appointed to act as Director, Civil Veterinary Department, and Mr. S. S. Ahmad did Mr. Davis' duties as Vice-Principal up to the end of the year. Rai Sahib Dibakar Dey, the Assistant Principal, was on leave from 5th May to 1st November and in his absence Babu D. K. Sen and Mr. S. S. Ahmad acted for him at different periods.

The Hon'ble Minister records with regret the death during the year of Babu N. L. Mitter, a lecturer and a member of the Provincial Service.

6. The number of students again showed an increase and there were 144 on the rolls at the close of the session as against 125 in the previous year. Of these, 46 were from Bengal as against 32 last year, but the Bihar and Orissa students fell from 66 to 53. The rest included students from Persia, Ceylon, Bhutan, Penang and Iraq. On the results of the annual examinations, the Board of Examiners stated that they considered the results were highly satisfactory and that the students as a whole had been well taught. Though it is a source of satisfaction to have the college well filled with students, it is still more important that there should be sufficient employment for them after they have finished their course, and unless there is an expansion of veterinary activity among local bodies it is to be feared that the employment for all passed students may not be forthcoming.

A four months' training class for farriers and dressers was opened during the year and promises to be popular.

7. During the year 2,561 patients were treated and 469 operations performed as against 2,562 and 374, respectively, last year. The college was self-supporting to the extent that the fees realised from patients just balanced the cost of feed (including both patients and college animals). Fodder crops were again grown successfully and the sale of surplus fodder realised Rs. 2,590, or Rs. 1,000 more than in last year.

The new Dissection theatre, which was opened during the year, will be a valuable addition to the equipment of the college.

Useful work was as usual carried out at the Raymond Research Laboratory, where 138 brains of animals suspected of rabies and many other pathological specimens were examined.

8. The Committee of Management held three meetings during the year, which were, on the whole, well attended.

9. His Excellency, acting with his Minister, notices with pleasure the names of those of the staff whom the Principal mentions for good work during the year and desires to acknowledge also the services of Mr. MacGregor himself.

10. The Minister would conclude this resolution by stating that he has to discharge the duty of reviewing the administration of a year in the policy or supervision of which he had no hand and so naturally he had to proceed on records as he found them. The difficulties of his delicate task have been further enhanced by the fact that he had to undertake this duty even before he had a reasonable time to shape his own policy.

By order of the Government of Bengal
(Ministry of Agriculture),

R. N. REID,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORTS ON INLAND EMIGRATION UNDER THE ASSAM LABOUR AND EMIGRATION ACT, 1901 (VI OF 1901), FOR THE YEAR ENDING THE 30TH JUNE 1928.

GOVERNMENT OF BENGAL.

Revenue Department.

Emigration.

DARJEELING, THE 29TH OCTOBER 1928.

RESOLUTION—No. 606 T.-R.

READ—

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1928, submitted by the Superintendent of Emigration, Calcutta and the District and Assistant Superintendents of Emigration.

There was an increase in the number of emigrants despatched to the labour districts during the year under review as compared with the previous year.

2. Recruiting operations in Bengal were conducted, as in previous years, in the districts of Bankura, Birbhum, Burdwan and Midnapore and in addition in the district of Murshidabad. The number of garden sardars employed during the year was 512 (including 98 sardarins) as against 340 in the previous year. All worked under the supervision of licensed local agents. The number of local agents' licenses was 11 as compared with 13 issued in the previous year. The total number of emigrants recruited in Bengal was 912 as against 147 in the previous year, the largest number coming from Birbhum, viz., 776. The total number of recruits from Bengal and other provinces embarking at Goalundo was 12,688 (including those recruited in the Bombay Presidency outside the Act) as compared with 11,212 in the preceding year.

3. The rest-houses for emigrants at Asansol, Kharagpur, Naihati and Goalundo maintained by the Tea Districts Labour Association were frequently inspected and their condition was found to be, in all respects, satisfactory.

4. Six deaths occurred among the emigrants on transit, viz., 1 at the halting station at Naihati and 3 at Goalundo, while 2 infants died on the journey between Naihati and Goalundo. No deaths occurred at other halting places. Out of the total number of emigrants who arrived from the different recruiting districts in and outside the Presidency of Bengal, 3 deserted, viz., 2 from Kharagpur and 1 from Goalundo, and 13 were released because they were either physically unfit for labour or unwilling to emigrate. This number included 2 dependents. There was no death or desertion amongst emigrants during their journeys by steamer from Goalundo or by railway from Chandpur to their final destination.

5. In connection with the transport of labour to Assam receipts increased from Rs. 565 in the preceding year to Rs. 697 during the year under review, while the expenditure decreased from Rs. 17,777-7-6 to Rs. 16,756-4. The decrease in the expenditure is due to the fact that, as the work of the Emigration Agency office at Goalundo has diminished on account of the despatch of large numbers of emigrants by rail to Assam *via* the Santahar-Rangya-Amingaon route, owing to the construction of the Lower Ganges Bridge at Sara, the post of the Assistant Superintendent of Emigration and Embarkation Agent at Goalundo has been filled during the year under review by a retired I.M.D. Officer at a lower rate of remuneration than that drawn by the officer on the active list of that department by whom the post was previously filled.

6. Lieutenant-Colonel A. Denham White, I.M.S., held the office of the Superintendent of Emigration, Calcutta, from the beginning of the year up to 11th April 1928, when he proceeded on leave, and Major W. O. Walker, I.M.S., for the remaining period of the year.

The thanks of the Governor in Council are due to them and to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

W. H. NELSON,
Secretary to the Government of Bengal (offg.).

REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN BENGAL, FOR THE YEAR 1927-28.

NOTIFICATION.

No. 596T.—A.I.—The 12th October 1928.—The following extracts from the report of the Commissioner of Excise and Salt on the administration of the Excise Department in Bengal, during the year 1927-28, are published for general information.

R. N. Reid,
Secretary to the Government of Bengal.

No. 4101 E., dated Calcutta, the 8th August 1928.

From—S. K. Raha, Esq., Rai Bahadur, Commissioner of Excise and Salt, Bengal (offg.),

To—The Secretary, Government of Bengal, Department of Agriculture and Industries.

I have the honour to submit the following report on the administration of the Excise Department in the Presidency of Bengal for the year 1927-28.

I held charge of the Department throughout the year except from the 19th October to the 4th November 1927 and from the 7th to the 31st March 1928 during which periods Mr. G. P. Hogg, I.C.S., was in charge.

* * * *

4. Administrative changes and reforms.—(1) The powers and duties of the Licensing Boards, appointed for the districts of the 24-Parganas, Dacca, Rangpur and Chittagong, were clearly defined and incorporated in statutory rules and orders during the year (vide Notifications Nos. 6492 Ex., 6493 Ex., 6494 Ex., 6495 Ex., 6496 Ex., 6497 Ex. and 6498 Ex., dated the 10th December 1927).

(2) The Licensing Board for the Calcutta Municipality was reconstituted (vide Notification No. 6217 Ex., dated the 25th November 1927).

(3) The rates of duty on, and retail selling price of, ganja were raised, with effect from the 1st April 1928, from Rs. 32-8 to Rs. 40 and Rs. 97-8 to Rs. 105 per seer respectively and those of charas, with effect from the same date, from Rs. 50 to Rs. 70 and from Rs. 140 to Rs. 160 per seer respectively, to check the tendency towards increase in consumption (vide Notifications Nos. 1487 Ex., 1490 Ex., 1493 Ex. and 1496 Ex., dated the 14th March 1928).

(4) The graduated scales of license-fees of country spirit, ganja and charas shops throughout the Presidency were revised, and the revised scales were given effect to under orders of Government with effect from 1st May 1928.

(5) A Committee was appointed by Government early in the year under report for an exhaustive investigation into the present conditions of the consumption of opium in Calcutta and in the industrial centres of Barrackpore and Serampore. The Committee concluded their enquiries and submitted their report to Government in December 1927.

(6) The age-limit for sale of opium was raised from "16 years" to "20 years" (vide Notification No. 4488 Ex., dated the 11th August 1927).

(7) To prevent interprovincial smuggling, the retail price of excise opium in five border shops of the Midnapore district was raised from Rs. 120 to Rs. 130 per seer owing to similar rise in the neighbouring shops of the province of Behar and Orissa (vide Notifications No. 558T.—A.I., dated the 15th September 1927, and No. 614T.—A.I., dated the 24th September 1927).

(8) The sale of weak country spirit of the strength of 75° U. P. was introduced in thanas Fatikchery and Rangunea of the Chittagong district, to check the excessive consumption of illicit liquor by tea-garden coolies (vide Notification No. 785 T.—A.I., dated the 26th October 1927).

* * * *

5. **Temperance movements.**—Besides the work of the various temperance organisations in Calcutta, specially the Calcutta Temperance Fedaration, reports of temperance movements during the year were received from the following districts :—

(*i*) *Murshidabad.*—The local missionaries convened a temperance meeting at Saidabad.

(*ii*) *Dacca.*—A temperance movement was started amongst the Indian Christians in the Joydevpur, Kaliganj and Sadar thanas by local missionary gentlemen. The movement was solely directed against the use of country liquor.

(*iii*) *Mymensingh.*—It is reported that the aboriginals in the district are trying to give up their habit of pachwai drinking, under the influence of Christian missions and a growing desire to rise in the social scale.

(*iv*) *Dinajpur.*—Some workers of the Suddhi movement devoted their attention to bring about abstinence from drink among the aboriginal tribes.

(*v*) *Bogra.*—It is reported that the Hindu Mission of Hili preached temperance among the Santals in the district, as a result of which they were gradually giving up the habit of taking pachwai.

(*vi*) *Darjeeling.*—It is reported that some newly started temperance associations and some Christian missionaries directed their attention to the cause of temperance, but there was no tangible effect on the consumption of intoxicating articles.

6. **Excise Licensing Boards.**—The *Calcutta Licensing Board* held 5 meetings and adopted the measures indicated below :—

(*a*) The following licensed shops were abolished with effect from the 1st April 1928 :—1 country spirit, 2 tari, 1 ganja, 1 opium and 1 restaurant. The privilege of "on" sale was withdrawn from one country spirit shop with effect from the same date.

(*b*) Transfer of sites was approved in the following cases, viz., 4 country spirit, 1 restaurant, 1 siddhi and 1 tari shops.

Transfer of sites was recommended in the following cases, the present sites having been considered unsuitable either for insufficient accommodation or for other reasons, viz., 1 country spirit, 6 ganja, 1 siddhi, 1 charas, 4 opium, 1 tari and 1 foreign liquor public "off."

(*c*) One new foreign liquor public "off" license and one new restaurant license were sanctioned.

(*d*) Objections made against the existing location of the following licensed premises were rejected, viz., 8 country spirit, 1 foreign liquor "on," 1 charas, 5 opium and 1 siddhi shops.

(*e*) Three applications for new foreign liquor public "off" licenses, 3 for new restaurant licenses, 2 for conversion of country spirit "off" licenses into "on" and "off" licenses, 1 for a new ganja license and 1 for a new siddhi license, were rejected.

The Licensing Boards for the Municipalities of Howrah and Bally held one meeting each during the year.

The *Howrah Board* sanctioned the abolition of 1 country spirit and 1 tari shop with effect from the 1st April 1928. Objections against the existing location of 2 country spirit, 3 tari and 1 foreign liquor public "off" shops were rejected by them.

The *Bally Board* effected no change in the number and location of shops during the year. One application for a new foreign liquor public "off" license at Belur was rejected by them.

The *Sadar Licensing Board of the 24-Parganas district* held two meetings. One country spirit and 5 tari shops were abolished on their recommendations.

The *Barrackpore Licensing Board* held two meetings. The Board recommended no alterations in the number and location of the existing licensed premises for the year 1928-29.

The *Dacca Licensing Board* held two meetings. The Board recommended no change in the number of licenses but directed the change of sites of one country spirit shop and one ganja shop.

The *Rangpur Licensing Board* held one meeting. On their recommendations, 2 country spirt, 1 opium and 3 ganja shops were abolished; the sites of 1 country spirit, 1 opium and 1 ganja shop were changed and 1 new tari shop was sanctioned.

The *Chittagong Licensing Board* held one meeting and recommended the conversion of 1 country spirit "on" license to an "off" license and change of site of 1 ganja and 1 opium shop. The first recommendation of the Board was not

accepted while the other recommendation was given effect to.

7. **Excise Advisory Committees.**—In areas other than those mentioned in paragraph 6 above, the local Excise Advisory Committees advised the Collectors as regards the number and location of excise and opium shops. All their recommendations were carefully considered and most of them were accepted.

In accordance with their recommendations, 2 country spirit, 4 tari, 7 pachwai, 1 ganja and 2 opium shops were abolished. Their recommendations for change of sites of 15 country spirit, 10 tari, 13 pachwai, 1 opium and 3 ganja shops were accepted. One country spirit, 2 pachwai, 1 foreign liquor, 3 opium, 2 ganja and 9 bhang shops were newly opened with effect from the 1st April 1928 on their recommendations.

While most of the Advisory Committees showed due discretion and appreciation of existing conditions in their recommendations, a few recommended total abolition of all excise and opium shops from their jurisdictions.

* * * *

The recommendations referred to above for total abolition of all drink and drug shops, in particular localities, were not accepted as total prohibition is not the policy of the Government regarding alcoholic liquors and intoxicating drugs.

8. **Total revenue and charges**

* Excludes cost price of opium, as well as an amount of Rs. 90,060 adjusted on account of excess cost price of opium.

The decrease was mainly due to decreased consumption of country spirit in Jalpaiguri, as well as in several districts of the Burdwan, Presidency and Rajshahi Divisions. The reasons for the decrease in consumption in Jalpaiguri were special, whereas the decrease in the other districts was chiefly due to bad economic conditions resulting from failure of crops, low price of jute, and general depression in trade. The decrease of consumption of country spirit amongst the tea-garden coolies in the district of Jalpaiguri has been fully explained in paragraph 16 of the Report.

9. **Actual receipts.**—Deducting the advance collections (Rs. 1,36,057) for 1928-29 and adding the revenue (Rs. 1,06,352) which was collected in advance in 1926-27, the actual receipts on account of 1927-28 were Rs. 2,23,49,292 against Rs. 2,25,19,571 (after similar adjustment) of the preceding year. To the actual receipts of 1927-28, a sum of Rs. 90,060 may be added on account of adjustment of excess payment in the cost of excise opium supplied to Bengal from 1st November 1925 to 31st March 1927, bringing up the total receipts to Rs. 2,24,39,352.

10. **Excise charges** * * * * * * —The total expenditure of the Excise and Salt Department, excluding the cost price of opium payable to the Government of India, was Rs. 15,21,327 during the year, against Rs. 15,29,926 during 1926-27.

11. **Revenue under different heads** * * * * —The largest increase of revenue (Rs. 2,97,459) occurred under "Total receipts from country fermented liquors other than malt liquors." The revenue from "Pachwai" (rice beer) advanced by Rs. 1,53,361, while that from "Tari" by Rs. 1,44,098. Receipts under "Miscellaneous" showed an increase of Rs. 94,674. Receipts from "Commercial spirits" came next with an increase of Rs. 14,298. The largest decrease (Rs. 3,00,238) occurred under the head "Country spirit," followed by a decrease of Rs. 1,49,698 from "Potable foreign liquors," Rs. 39,417 from "Total receipts from hemp drugs" and Rs. 16,588 from "Opium."

12. **Demand and collection** * * * * —Of the gross demand of Rs. 2,24,16,683, a sum of Rs. 2,23,78,997 or 99·8 per cent., was realised. Rs. 15,723 was remitted as irrecoverable. The incidence of excise revenue per head of population was 7 annas 8 pies as in the previous year.

* * * *

SECTION II.—Country Liquor.

* * * *

COUNTRY SPIRIT.

14. **System of supply and sale.**—There were no changes in the system of supply and sale.

15. **Retail licenses.**—The number of licenses for the sale of country spirit was 931 against 938 in 1926-27, showing a decrease of 7 licenses.

16. **Consumption.**—The total consumption of country spirit in the Presidency amounted to 591,935 L. P. gallons as compared with 627,962 L. P. gallons in the preceding year, showing a decrease of 36,027 L.P. gallons. Consumption decreased in 18 districts and increased in 8 districts. A large decrease of 24,236 L.P. gallons or 34·3 per cent., occurred in the district of Jalpaiguri. Weak spirit of the strength of 75° U.P. was introduced in the tea-garden areas of the district, east of the Teesta, with effect from 1st January 1926, specially with a view to compete with cheap illicit liquor. This led, however, to very excessive drinking amongst the tea-garden coolies and necessitated a substantial increase in the price which was accordingly raised. The Deputy Commissioner has reported that the decrease in consumption was partly due to the increase in the price, and partly to other contributory causes, which were the lower price of jute, and late plucking of tea in the season as well as higher price of paddy, and the abolition of two country spirit shops in the tea-garden areas.

There was a general decrease in the majority of the districts of the Burdwan and Presidency Divisions and was due to the bad economic conditions, owing to the high price of rice and low price of jute as well as to the closure of some rice mills. Several of the districts in North Bengal as well as the districts of Dacca and Faridpur showed decrease in consumption due to economic causes brought about by higher price of rice and lower price of jute, and consequent depression of trade.

The increase, in the districts where it occurred, was nominal, except in Midnapore and in Chittagong. The increase in Midnapore was partly due to the detection of illicit distillation cases in the jungle area of the district. The increase in Chittagong has been attributed to the development of the town as a major port and also to the opening of three shops for sale of a cheap weak liquor of 75° U.P. in the garden areas of the district.

17. **Total revenue from country spirit.**—The total revenue (license and distillery fees and duty) from country

spirit was Rs. 87,58,135 against Rs. 90,58,373, a decrease of Rs. 3,00,238. The revenue derived from duty and distillery fees decreased by Rs. 2,49,678 and that from license fees decreased by Rs. 50,560.

18. **Convictions for drunkenness and action taken against licensees for permitting it.**— * * *

* * * *

* * * In Calcutta 4,226 persons were convicted of drunkenness as compared with 3,241 persons in the previous year, but no statistics were taken to show what proportions of these cases were due to country spirit, tari and foreign liquor respectively. The Commissioner of Police cannot assign any special reason for this increase. The Magistrate of Howrah reported that the increase in the number of convictions from drunkenness within the municipal limit of Howrah, was due to better detection of cases of drunkenness on the part of the Police.

19. **Distilleries and warehouses.**—There was no change in the number of distilleries. The rates fixed for cost price of country spirit from 1st July 1927 were—(1) Messrs. Carew & Co., Re. 1-12-4 per L.P. gallon; (2) Messrs. D. Waldie & Co., Re. 1-9-9 per L.P. gallon; (3) Messrs. Hajee Ismail Sait & Sons, Re. 1-7-0 per L.P. gallon. These rates continued till the 30th June 1928.

Adequate supply of liquor was generally maintained throughout the year from the distilleries to the bonded warehouses and though on several occasions the stock fell below the prescribed minimum the issues to the "retail" premises were not affected.

TARI.

20. **General.**—During the year under report licenses for the retail sale of fermented tari were settled by auction in the tree-tax as well as in the other areas of the Presidency.

21. **The tree-tax system in Hooghly, Howrah, the 24-Parganas and Calcutta.**—The system worked satisfactorily during the year under report.

22. **Statistics.**—The total receipts under the head "Tari" increased from Rs. 8,34,452 to Rs. 9,78,550. The number of retail licenses decreased from 537 to 519. The bulk of the tari revenue was derived, as in previous years, from the Burdwan and Presidency Divisions and the district of Malda, which altogether contributed Rs. 9,43,342 out of the total revenue of Rs. 9,78,550. The increase in revenue was due to the better working of the tree-tax system as well as the settlement of licensed shops at higher bids during the last auctions in Calcutta and 24-Parganas.

PACHWAI.

23. **Licenses.**—The total number of licenses issued for "retail sale," "home-brew (annual)" and "manufacture of pachwai on special occasions" was 59,980 as compared with 54,952 in 1926-27.

	Number of licenses issued in—	
	1926-27.	1927-28.
Retail sale	1,201	1,186
Home brew (annual) ..	52,992	58,784
Manufacture on special occasions.	759	1,057

The increase in the number of licenses permitting "home brew" of pachwai was due mainly to increase in the number of such licenses in the district of Jalpaiguri, where under a special system such licenses are issued to the tea-garden labourers by the managers of the gardens.

24. **Revenue.**—The revenue in license fees from "retail vend shops" increased from Rs. 10,05,382 to Rs. 11,50,854. The increase was marked in Burdwan (Rs. 1,03,325), Birbhum (Rs. 21,808), Bankura (Rs. 16,392), and Midnapore (Rs. 15,487), while there was a decrease of Rs. 13,848 in Murshidabad. The increase in revenue in Burdwan, Birbhum and Bankura was mainly due to increase in consumption owing to the close supervision over pachwai shops, as well as more frequent sampling of diluted pachwai for strength. In Murshidabad the low class Hindu and Santal cultivators were the chief consumers of pachwai. As the cultivator classes were practically out of employment owing to drought there was fall in consumption as well as in revenue.

25. **Consumption.**—The consumption in the districts of Burdwan, Birbhum, Bankura, Midnapore and Hooghly where the Bengal fixed fee system was

in operation from previous years and accurate figures of consumption from the licensed shops were available, amounted to 217,355 maunds of rice against 201,982 maunds of rice during the previous year as detailed below :—

The fixed fee system was introduced in the pachwai shops of the Murshidabad district during the year under report and the consumption in that district amounted to 8,778 maunds of dry rice.

	Maunds of rice.	
	1926-27.	1927-28.
Burdwan	97,101	107,615
Birbhum	62,663	64,131
Bankura	26,732	29,397
Midnapore	2,064	3,567
Hooghly	12,522	12,645
Murshidabad	....	8,778
	2,01,082	2,26,133

Out of 1,186 licenses in the Presidency for the manufacture and vend of pachwai 926 worked under the fixed fee system during the year under report.

26. **Control over manufacture and sale of pachwai and of bakhar.**—The control over the manufacture and sale of pachwai was made increasingly effective in all the districts where the fixed fee system of licensing was in force. The Collectors have reported that considerable improvement has been made in the strengths of diluted pachwai, due to frequent sampling of pachwai by the Ebullioscope. Neatness and cleanliness in manufacture were enforced by personal instructions of inspecting officers. The quality of bakhar used was improved by elimination of undesirable and unskilful manufacturers as far as possible, and close supervision was exercised both over the manufacture and sale by the executive staff.

The consumers are generally getting accustomed to the prescribed strengths and cases of overdilution are reported to inspecting officers. Several of the worst cases of overdilution of pachwai by licensees were dealt with by cancellation or non-renewal of licenses.

27. The number of licenses issued for the manufacture and sale of bakhar during the year were as follows :—

District.	Number of licenses issued	
	Manufacture and sale of bakhar.	Sale of bakhar.
Burdwan	6	8
Birbhum	15	7
Bankura	19	10
Midnapore	73	....
Hooghly	....	2
Murshidabad	2	3

The number of licenses issued in Birbhum for the manufacture and sale of bakhar was further curtailed during the year. The Superintendent of Excise, Birbhum, Mr. D. N. Mukherjee, continued his investigations regarding "bakhar" during the year, and the question of further control over the manufacture and sale of "bakhar" is under consideration at present.

* * * *

30. **Free brew of pachwai on special festivals.**—The concession of "free brew" of pachwai was permitted as in previous years to the aboriginal tribes in Burdwan, Birbhum, Bankura and Midnapore during special festivals.

SECTION III.—Foreign liquor.

* * * *

32. **Import from foreign countries and clearances.**—The following statistics furnished by the Collectors of Customs show clearances of foreign liquor on payment of duty from the Custom Houses in Calcutta and Chittagong :—

The Collector of Customs, Calcutta, has commented on the statistics for the Port of Calcutta in 1927-28 as follows :—

"The public taste in liquors is singularly conservative and the demand responds very little to change in price.

Beer, whisky and brandy, the three drinks most in demand, were imported during 1927-28 in very much the same quantities as in the year 1907-08 nor have any of these quantities shown very large fluctuations in the intervening years except in the case of beer. During the War when brewing in the United Kingdom was restricted, imports were naturally reduced but this beverage has steadily regained its popularity and the record figure of 1912-13 has now been exceeded. This is mainly due to the improvement in quality of the light beers brewed in the United Kingdom for tropical consumption and the import of British beers during the year amounted to 706,000 gallons. Japanese beers continued to lose ground, the imports being only 53,000 gallons as against 475,000 gallons during the year after the War. Imports of German beers have also fallen during the year from 352,000 to 316,000 gallons, but Dutch beers have improved from 31,000 to 35,000 gallons.

"There have been no noteworthy fluctuations under any of the other heads."

The following statistics show imports and issues of spirits in L.P. gallons at the Calcutta Custom House :—

Year.	Brandy, whisky, rum and gin.	Java arrack.	White and rectified spirit.	Total.

1927-28 ..	228,952	5,029	22	233,981 proof and 22 liquid gallons.

33. **Import and manufacture of Indian made brandy, whisky, gin and rum.**—The figures below show the total quantity of spirit used in the manufacture of brandy, whisky, gin and rum in Bengal, as well as the imports thereof from other provinces :—

Distilleries from which issued.	Manufactured in the distilleries themselves and issued on payment of full duty.	Bengal made spirit issued from distilleries to compounders and blenders of foreign liquor on payment of full duty.	Total.

Total ..	5,151	12,809	17,960
Figures of 1926-27	7,133	18,600	25,733

Besides the above, 39·8 L.P. gallons of rum were imported from the Dyer Distillery, Lucknow.

34. **Manufacture of beer.**—Two brewing licenses were issued during the year under report. But only the Victoria Brewery at Sonada worked, yielding an outturn of 17,028 gallons, of which 12,286 gallons were sold to the Military authorities, 1,987 gallons to the public and 2,755 gallons to the provinces outside Bengal.

35. **Duty on Indian made potable foreign liquors and beers.**—The duty on potable spirits and beer manufactured in India amounted to Rs. 4,18,899 against Rs. 5,90,177 and Rs. 7,53,882 in the two previous years. The decrease during the year under report was partly due to the preference shown by consumers of the cheap brands of foreign liquor, for the imported article in place of the article manufactured locally, as well as to the fact that there being no fixed standard sizes for bottles of the imported article, the locally manufactured stuff could not successfully compete with the cheap foreign stuff which was imported in small-sized bottles. This question is under separate consideration.

36. **Licenses and fees.**—The total number of licenses issued for "Trade" and "Public" vend was 1,610 against 1,582 in the preceding year. The increase occurred under "Trade" (3), "Retail off" (2), "Hostels, etc." (3), "Railway refreshment room" (1), "Canteen" (2), "Late closing" (22), while a decrease occurred under "Temporary bars" (5).

The total receipts from license fees on foreign liquor licenses, levied under the Bengal fixed fee system, were as follows :—

	Rs.
1923-24	2,74,698
1924-25	3,05,907
1925-26	2,95,784
1926-27	3,09,946
1927-28	3,30,113

MEDICATED WINES.

37. **Licenses and revenue.**—The number of licenses for the retail sale of medicated wines was 222 against 189 in the preceding year. The revenue from license fees was Rs. 7,225 against Rs. 10,615 in the previous year showing a decrease of Rs. 3,390. The decrease was due to larger realisation of license fees in advance during the year 1926-27.

II.—INDUSTRIAL SPIRITS (EXCLUDING DENATURED SPIRITS).

* * * *

38. **Revenue.**— The total revenue derived from rectified spirit and absolute alcohol used for medicinal, scientific or other industrial purposes in the Presidency was Rs. 5,22,413 against Rs. 5,00,895 in the previous year.

* * * *

39. **Issue of rectified spirit from distilleries and warehouses.**—The following quantities of rectified spirit were issued during the year for medicinal, industrial and scientific purposes from distilleries and excise warehouses in Bengal :—

Place of manufacture.	Duty free issues to Government Departments, Colleges, &c., (L. P. gallons).	For manufacture of tinctures and other medicinal preparations (L. P. gallons).	
		To bonded laboratories.	By permit holders.
1	2	3	4
Asansol ..	1,886	85,800	5,800
Konnagar ..	....	14,322	....
Russa ..	24	1,750	1,740
Bahir-Mirzapur ..	6,622	26,169	1,157
Total ..	8,532	128,041	8,697

Besides the above, 164·6 L.P. gallons of rum were issued, duty free, from the Konnagar Distillery for use in hospitals and 20·5 L. P. gallons from the Russa Distillery to the Deputy Commissioner, Naga Hills.

Duty free issues of rectified spirit and absolute alcohol, as shown in column 2 above, were made to the following institutions :—

Indian Medical Store Depot.
Zoological Surveyor of India.
Officer-in-charge, Mathematical Instrument Office
School of Tropical Medicine.
Dacca University.
Bethune College.
Calcutta Corporation.
Mines Board of Health.
Deputy Controller of Stationery and Stamps.
Assistant Director of Agriculture, Dacca.
Civil Surgeon, Champaran.
Head Chemist, Excise, Bengal.

40. **Manufacture of tinctures and medicines.**—Six bonded laboratories in Calcutta and one in Konnagar continued to manufacture tinctures and medicinal preparations during the year under report; 60,888 L.P. gallons of rectified spirit contained in tinctures and medicinal preparations were issued from the seven laboratories on payment of duty against 60,466 L.P. gallons issued during the year 1926-27. The duty realised on tinctures issued from bonded laboratories at Rs. 5 per L. P. gallons on the spirit contents were Rs. 3,04,440 against Rs. 3,02,330 in the preceding year. Medicinal preparations containing 21,556 L.P. gallons of spirit were issued, duty free, to the charitable dispensaries and hospitals in the various provinces in addition to 6,283 L.P. gallons of rectified spirit and 1,607 L.P. gallons of absolute alcohol. Sixty-six L.P. gallons of rectified spirit and 217 L. P. gallons of absolute alcohol were issued, duty free, to the following institutions from the Konnagar Laboratory :—

Calcutta Corporation.
Scottish Churches College.
Zoological Laboratory.
Presidency College.
Director of Agriculture, Behar and Orissa.
Thomson Engineering College, Roorkey.
Chief Chemist, Marhaura Distillery (Behar and Orissa).
Hygiene Institute, Lucknow.
Calcutta Research Tannery.
Military Food Laboratory, Kasauli, Punjab.

Permit-holders in Bengal took supplies of 18,062 5 L P gallons of rectified spirit and absolute alcohol from the distilleries and bonded laboratories on payment of Rs 90,312-8, as duty

Besides 134 8, 142 4 and 75·2 L P gallons of rectified spirit and absolute alcohol were supplied to permit holders in Assam, Behar and Orissa, and United Provinces, respectively on payment of duty in those provinces

The latest rules enforcing strict adherence to prescribed B P standards and approved recipes, have decidedly helped in the healthy growth of the pharmaceutical industry It is a matter of satisfaction that bonders are paying much greater attention to quality. Many of them have already well equipped analytical laboratories and important preparations are often sent by them to the School of Tropical Medicine for physiological test and standardization at their own cost The working of the bonded laboratories during the year was, on the whole, satisfactory.

* * * *

41. **Issues of rectified spirit and absolute alcohol from bonded laboratories and distilleries for medicinal, industrial and other purposes on payment of full duty.**—Six thousand nine hundred and eighty-five L P gallons of rectified spirit and absolute alcohol were sold on payment of full duty from the distilleries and bonded laboratories, for industrial, medicinal and scientific purposes to licensed chemists, druggists, etc.

SECTION IV.—Hemp Drugs.

GANJA.

47 **Retail licenses.**—The total number of licenses issued in the Presidency for the retail sale of ganja was 1 208 against 1,218 in 1926-27. Under the orders of the Licensing Boards 2 shops were abolished in Calcutta, 3 in Chittagong and 4 in Rangpur

A new shop was opened in the district of Nadia on the recommendation of the Excise Advisory Committee. One shop, each in the districts of Jalpaiguri and Malda, was abolished as being unnecessary.

48 **Consumption.**—The total quantity of ganja consumed in the Presidency amounted to 1,670 maunds 21 seers against 1,691 maunds 38 seers, showing a net decrease of 21 maunds 17 seers or 1·2 per cent

The consumption fell in 16 districts and increased in 10 districts, viz , Midnapore, 24 Parganas, Calcutta, Khulna, Mymensingh, Chittagong, Noakhali, Jalpaiguri, Rangpur and Bogra The increase in Khulna and Noakhali was nominal while in the other districts it ranged from 6 to 3 04 per cent.

49. **Total revenue.**—The receipts for the year amounted to Rs 46,86,329 against Rs 47,67,560 in the previous year, the net decrease being Rs 81,231 The revenue from license fees decreased by Rs 60,693 and that from duty by Rs 20,918 while that from gola rent increased by Rs 380

50 **Incidence of taxation.** The incidence of license fee per seer of ganja consumed was Rs 36 2 and that of duty Rs 32 5. The total taxation was Rs 68·7 per seer, as compared with Rs. 68 7 in the previous year

* * * *

53 **Cultivation and outturn of ganja at Naugaon in Rajshahi.**—The following figures indicate the position regarding the operations of ganja cultivation in Naugaon in Rajshahi district during the last six years :—

Year	Number of cultivators licensed	Area licensed	Total outturn	Average outturn per bigha		Total exports from Naugaon
		Bighas	Mds	Mds	Srs	Mds
1922 23	3 038	2 899	4 761	1	25	4 723
1923 24 ..	3 681	2 899	8 641	2	48	3 995
1924-25	3,810	2 002	6 689	3	17	4 252
1925-26 .	3,099	1 761	4 598	2	24	4,961
1926 27	2 996	1 800	5 256	2	36	4 722
1927 28	3 010	1 796	6 078	3	15	4 709

The area sanctioned for cultivation during the year 1927-28 was 1,800 bighas and the average outturn per bigha was more satisfactory than in any of the preceding years

There was no case of surrender of any license and no license was cancelled during the year The area actually cultivated was 1,798 bighas 6 cattahs and 4 chittaks against 1,812 bighas 11 cattahs and 1 chittak of the last year

The prospect of the ganja was on the whole good till the second week of December last when the cessation of rain for a considerable period caused the spread of red spider and white ants on the ganja fields Scarcity of water was keenly felt but was partly met by artificial irrigation. The rain during the latter part of January did some good to the standing crop Some damage was done to the crop by insects and by plant diseases commonly known as "Hitkali" and "Amballa." The outturn of ganja notwithstanding the scarcity of water, was satisfactory As I remarked in my report for the year 1926-27, the assurance of a proper price has increased the interest of individual cultivators to get as good an outturn as possible from the area cultivated

BHANG.

58. **Licenses and revenue.**—The total number of retail licenses for the sale of bhang was 316 against the same number during the previous year. The total number of druggists' permits issued was 550 against 518 in the previous year The total revenue from license fees and and duty amounted to Rs. 2,03,251 as compared with Rs. 1,85,310 in 1926-27 —an increase of Rs. 17,941.

59. **Consumption.**—The principal demand for bhang was confined to most of the West Bengal districts. In most of the districts in East Bengal, the demand for its use as an intoxicant is very small The total consumption in the Presidency amounted to 427 maunds 10 seers against 407 maunds 19 seers in the previous year—an increase of 19 maunds and 31 seers The consumption increased generally in almost all the districts of the Presidency. To some extent this increase may be due to a substitution of this intoxicant for ganja which is a much more potent as well as a dearer drug than bhang. (In Calcutta or 24-Parganas increase was not more marked than in many other districts.)

60 **Exports.**—Three maunds of duty paid bhang were exported from Hooghly to French Chandernagore against 3 maunds and 10 seers in the previous year. Twenty seven seers of duty paid bhang were issued from Comilla to the adjacent State of Tripura, against 21 seers in the previous year.

61. **Abuse.** No case of abuse of medicinal preparations prepared from bhang was reported during the year.

CHARAS.

62 **Licenses and revenue.**—There were 34 retail licenses for the sale of charas in the year under review against 34 in the previous year The total number of wholesale licenses was 3 against 3 in the preceding year. The total receipts amounted to Rs. 3,26,948 as compared with Rs. 3,03,105 in 1926-27- an increase of Rs. 23,843 There was an increase of Rs. 19,185 under the head "License fees" and Rs 4,658 under the head "Duty" due to increase in the consumption of the drug in retail shops by 5 maunds and 19 seers in the year under report

63 **Import, export and consumption.** —The total quantity of charas imported into the Presidency was 71 maunds and 30 seers against 65 maunds and 30 seers in the previous year. The drug was, as usual, imported by the wholesale dealers of Calcutta and Birbhum direct from the Punjab and supplied to the retail vendors in the districts. The total issue to retail shops in the Presidency was 69 maunds and 37 seers as compared with 64 maunds and 18 seers in the preceding year, while the consumption in Calcutta amounted to 42 maunds and 14 seers against 40 maunds and 32 seers in the previous year.

With a view to check the increase in the consumption of the drug which is more potent than ganja or bhang, the Government have increased the retail selling price of the article from Rs 140 to Rs 160 per seer with effect from 1st April 1928.

Two maunds and 10 seers of charas were exported to French Chandernagore during the year against 1 maund and 4 seers exported during the previous year.

SECTION V.—Opium.

* * * *

64. **Restricted supply of opium.**—There was no change in the system of restricted supply of opium to shops in several districts in the Presidency.

65. **Consumption.**—The consumption of excise opium during the year under review was 994 maunds and 18 seers, as compared with 994 maunds and 32 seers in the preceding year.

Analysing the figures of consumption, district by district, it appears that consumption increased in 16 districts and decreased in 11. The increase was normal in most of the districts. It has been reported by the Collectors of Dacca and Tippera that the increase in these districts was mostly due to its larger use amongst older people on account of its medicinal properties.

66. **Licenses for retail sale.**—The total number of licenses issued for the retail sale of excise opium was 854, as compared with 861 in the previous year. Seven shops were abolished, viz., 1 each in Calcutta, Murshidabad, Khulna, Mymensingh and Rangpur, and 2 in Bakarganj. No new shop was opened.

67. **Permits and licenses under the Opium and Morphia Rules.**—The total number of permits and licenses issued was 1,547 as compared with 1,457 in the previous year. The number includes 34 licenses issued to manufacturing chemists, 598 to dispensing chemists, 59 to kabirajes and hakims, and 66 permits to permit holders (total 757 for intoxicating drugs), and 40 licenses issued to dealers, 620 to chemists, 44 to persons approved under Rules 21 (*1*) and 21 (*2*) of the Morphia Rules and 86 to persons authorised under Rule 22 of the same rules (total 790 for morphia drugs). The increase in the number of licenses was due to increase in the number of chemists and druggists in many districts in the Presidency.

68. **Revenue.**—The total receipts amounted to Rs. 47,98,712 as compared with Rs. 48,15,300 in 1926-27.

69. **Abuse of opium and morphia.**—The use of morphia as a substitute for opium does not appear to have been prevalent in any district. The Calcutta Opium Enquiry Committee looked into the practice of administering opium to children and the result of their enquiry has been embodied in their report. The report of the Committee is now under consideration of Government.

* * * *

SECTION VI.—Cocaine.

* * * *

72. **Licenses and revenue.**—Four hundred and fifty-five licenses were issued during the year to chemists and druggists for the sale of cocaine on prescriptions of qualified medical practitioners as compared with 420 in 1926-27. Seventy-one permits for the possession of cocaine were issued free to managers of hospitals or dispensaries not under Government supervision. Sixty permits were issued to qualified medical practitioners and dentists.

73. **Preventive operations and illicit transactions** in cocaine have been dealt with in paragraph 75, Section VII of the Report.

* * * *

SECTION VII.—Offences against the Excise and Opium laws.

* * * *

75. **Prosecutions and convictions.**—The prosecutions and convictions during the year did not show much noticeable fluctuation in regard to the number of cases and persons prosecuted and convicted, as the figures below would indicate :—

	1926-27.	1927-28.
Number of cases—		
Prosecuted	5,706	5,898
Convicted	5,498	5,622
Number of persons—		
Prosecuted	6,134	6,179
Convicted	5,546	5,500

The increase in the number of persons prosecuted was noticeable in Calcutta (317), Hooghly (131), and Murshidabad (87). The main heads, under which the increase occurred in these 3 districts, were illicit manufacture of country spirit, tari and pachwai, and in Calcutta, illicit trade in cocaine in addition.

The decrease in the number of persons prosecuted was marked in Midnapore (254), Burdwan (112), Dinajpur (64) and Bankura (52).

The situation regarding excise offences in the Presidency was clearly explained by me in paragraphs 74 to 77 of my report for the year 1925-26 and the course and method of illicit practices in intoxicating articles continued to be the same during the year under report.

The departmental officers successfully tackled offences under the Excise and Opium laws and regulations in most of the districts, and considerable help and co-operation were received from the Police and Customs officials towards the detection of excise offences. The

arrangement regarding the division of work in Calcutta by the Excise Detective Staff, the Police and the Customs officials continued to work with success during the year under review

The total seizures of opium throughout the Presidency were as follows during the last 3 years :—

	Mds	Srs
1925-26	11	8
1926-27	60	22
1927-28	30	15

Of the total quantity of opium seized during the year, 21 maunds and 19 seers were seized by the Excise Detective Staff in Calcutta, 5 maunds and 1 seer by the Railway Excise Staff, 2 maunds and 34 seers by the Excise Staff in the districts, 8 maunds and 28 seers by the Customs Detective Staff and 1 maund and 13 seers by the Police in Calcutta, Howrah and the 24-Parganas and the Government Railway Police, Howrah

The total seizures of cocaine during the last 3 years are noted below:—

	Ozs	grs
1925-26	2,023	27
1926-27	701	50
1927-28	2,789	100

The seizure of cocaine during 1927-28 was very successful Of the total quantity seized during the year, 1,973 ounces were seized by the Customs officers on board the vessels in the port of Calcutta, 725 ounces were seized by the Calcutta Excise Detective Staff, 72 ounces by the Excise Staff in the districts and 19 ounces were seized by the Police in Calcutta, Howrah and the 24 Parganas

No. 12518A.—The 6th November 1928.—The following is published for general information.

W. S. HOPKYNS,
Chief Secretary to the Government of Bengal (offg.).

EXAMINATIONS OF SELECTED CANDIDATES FOR THE INDIAN CIVIL SERVICE.

Regulations made under section 97 of the Government of India Act for the Probation in the United Kingdom and the further examination of Selected Candidates for the Indian Civil Service.

****The following regulations made by the Secretary of State for India in Council are liable to alteration from year to year.*

(1) Candidates selected at the Open Competition held in London will be required to remain in the United Kingdom on probation for one or two years, as may be decided by the Secretary of State for India in Council.

(2) Candidates selected at the Open Competition held in India and candidates selected in India otherwise than by competitive examination will be required to proceed to the United Kingdom on probation for a period of two years. But in the case of a candidate who has taken part in the Open Competition held in London, and has been selected in India otherwise than by Open Competition, the Secretary of State in Council may direct that the period of probation shall be one year only.

ONE-YEAR PROBATIONERS.

(3) One-year probationers will, at or about the end of the year of probation, undergo an examination called the Final Examination. The subjects and the marks allotted to them are as follows:—

Compulsory Subjects—

1.	Indian Penal Code	200
2.	Code of Criminal Procedure	200
3.	The Indian Evidence Act	200
4.	Indian History	400
5.	A vernacular language, or history	600
6.	Riding	200

Optional Subjects, one only to be taken—

7.	Hindu and Muhammadan Law, or Burmese Buddhist Law and Burmese History	400
8.	A classical language selected from Sanskrit, Arabic, Persian, Pali	400

TWO-YEAR PROBATIONERS.

(4) Two-year probationers will undergo two examinations—the Intermediate Examination at the end of the first year of probation and the Final Examination at or about the end of the second year.

(5) The subjects of the Intermediate Examination and the marks allotted to them are as follows. All the subjects are compulsory:—

1.	A vernacular language, or history	400
2.	Phonetics	200
3.	Jurisprudence	200
4.	Law of Evidence and Criminal Law	200
5.	Indian History	200
6.	Notes of Cases	200
7.	Economics	200

(6) The subjects of the Final Examination and the marks allotted to them are as follows:—

Compulsory Subjects—

1	A vernacular language, or history	600
2.	Indian Penal Code	200
3.	Code of Criminal Procedure	200
4.	The Indian Evidence Act	200
5.	Notes of Cases	400
6.	Indian History	400
7.	Economics	400
8.	Riding	200

Optional Subjects, one only to be taken—

9.	Hindu and Muhammadan Law, or Burmese Buddhist Law and Burmese History	400
10.	A classical language selected from Sanskrit, Arabic, Persian, Pali	400

ONE-YEAR AND TWO-YEAR PROBATIONERS.

(7) **Sub-section 1.**—Each candidate will offer for examination the vernacular shown in column 2 against his province in the following table unless he is already familiar with it or with a language closely allied to it. A probationer assigned to Madras who is familiar with one only of the vernaculars named will offer the other.

Col. 1.	Col. 2.	Col. 3.
Madras	Tamil or Telugu ..	....
Bombay	Marathi	Urdu.
Bengal	Bengali	....
United Provinces ..	Urdu	....
Punjab	Urdu	....
Burma	Burmese	....
Bihar and Orissa ..	Hindi	Bengali.
Central Provinces ..	Hindi	Marathi.
Assam	Bengali	....

Sub-section 2.—A candidate who is not required by sub-section (1) to offer a vernacular named in column 2 will offer the vernacular named in column 3 against his province if any such vernacular is named unless he is already familiar with the vernacular there named or with a closely allied one.

Sub-section 3.—A candidate who is not required under the preceding sub-sections to offer a vernacular will offer history instead. A one-year probationer will offer British history; a two-year probationer will offer British history for the intermediate examination and European history for the final examination.

Any question as to the interpretation and application of this regulation will be decided by the Civil Service Commissioners.

(8) The ordinary session of the Final Examination for the testing of riding will take place in advance of the rest of the Final Examination, and a special session will when necessary be held at a later date for the benefit of any candidate who may have failed at the ordinary session.

Candidates who at the ordinary session satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of all duties required of members of the Indian Civil Service will be awarded marks ranging between 101 and 200 according to the degree of proficiency displayed.

Candidates who at the ordinary session fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Local Government.*

*Such candidates will receive no increase to their initial pay until they have passed the further tests in question to the satisfaction of their Local Government.

Any candidate who at the ordinary session fails to show a minimum proficiency will be examined again at a special session. If he then attains adequate proficiency he will not be subjected to further tests in India. If he attains minimum proficiency he will be allowed to proceed to India under the same condition as if he had attained minimum proficiency at the ordinary session. No credit in marks will be given for any performance at a special session.

Probationers may also be examined in riding at such time or times as the Commissioners may appoint during the course of the probationary period.

(9) Such deductions as the Civil Service Commissioners may consider necessary will be made from the marks assigned to candidates at the Intermediate and Final Examinations in order to secure that no credit is allowed for merely superficial knowledge.

(10) The Civil Service Commissioners will prepare lists of the candidates in order of merit; the order for the one-year probationers being based on the sum of the marks obtained by the candidates at the Open Competitive and Final Examinations, the order for the two-year probationers being based on the sum of the marks obtained by the candidates at the Intermediate and Final Examinations.

(11) The selected candidates whose performance in the compulsory subjects* of the Final Examination is such as to satisfy the Civil Service Commissioners, and who have also satisfied the Commissioners of their eligibility in respect of nationality, age, health, character, and conduct during the period of probation, shall be certified by the Commissioners to be entitled to be appointed to the Indian Civil Service, provided that they shall comply with the regulations in force at the time, for that Service.

(12) If any candidate is prevented by sickness or any other adequate cause from attending the Final Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination. A selected candidate absent for such adequate cause from the Intermediate Examination may under similar conditions, be allowed to appear at the Intermediate Examination a year later or at a special examination, or may be excused the Intermediate Examination and allowed to appear for the Final Examination in regular course.

Any candidate who at the Intermediate Examination shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

ANNOUNCEMENTS

made by the Civil Service Commissioners with the authority of the Secretary of State for India in Council:—

(*i*) Selected candidates will be allotted to the various provinces upon a consideration of all the circumstnces, including their own wishes; but the requirements of the Public Service will rank before every other consideration.

(*ii*) An allowance of £300 a year, or, in the case of Selected Candidates possessing an Indian domicile, an allowance of £350 a year will be given to any candidate who passes his probation at one of the Universities or other Institutions that have been approved for the purpose by the Secretary of State for India in Council.

In the case of Selected Candidates on probation for one year the allowance will be payable in four equal instalments on the following dates respectively; December 24th after his selection, March 25th, June 25th and after signature of Covenant on appointment to the Service.

In the case of Selected Candidates on probation for two years the allowance will be payable in eight equal instalments, the first on the December 24th after selection, the second to the seventh on the six following quarter days and the eighth after signature of Covenant on appointment to the Service.

The payment of the various instalments of the allowance except the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the High Commissioner for India, through the authorities of the approved institution, of a certificate that the candidate had fulfilled up to date the requirements of the authorities and shown satisfactory progress.

If an Indian Government Scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate. He may, however, provided he has executed the agreement referred to in (*iii*) below, be granted on, or at any time after, the 1st October, an advance on account of the instalment of the allowance payable on the 24th December.

---

* The compulsory subjects include riding, and a candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N.B.—The Secretary of State for India gives notice that the amount of the allowances will be reconsidered in 1929, with a view to a possible reduction with effect from the instalment payable in December, 1929.

(*iii*) Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of:—

(*1*) his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or

(*2*) his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.

(*iv*) All candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.

(*v*) A First Class passage to India will be engaged for Selected Candidates with a view to their proceeding to India after they have signed their covenants

(*vi*) Candidates appointed to the Indian Civil Service after undergoing one year's probation will be senior to those appointed in the same year after undergoing two years' probation. The seniority of candidates of each class *inter se* will be determined by the order in which their names appear on the lists referred to in clause (10) of the regulations.

(*vii*) A candidate who fails to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected unless the Secretary of State in Council shall, after reference to the Civil Service Commissioners, allow him to sit for re-examination in the subject or subjects in which he failed. In general a candidate who is allowed re-examination will be required to forfeit the whole or part of the final instalment of his allowance, but if it appears to the Secretary of State in Council, after reference to the Civil Service Commissioners, that his failure to pass the examination was due to circumstances wholly exceptional and beyond his control, such forfeit of his allowance will not be required.

(*viii*) "Overseas pay" will not be admissible to Indian members of the Indian Civil Service selected at Open Competitive Examinations held in London in 1925 and subsequent years.

Orders and Notifications by the Government of India republished for general information.

FINANCE DEPARTMENT.

NOTIFICATION.

New Delhi, the 31st October 1928.

No. D.-5615-R.-II.—The following resolution by the Secretary of State for India in Council is published for general information:—

In exercise of the powers conferred by sub-sections (2) and (3) of section 96B of the Government of India Act the Secretary of State, with the concurrence of the majority of votes at a meeting of the Council of India held this 19th day of September 1928, hereby makes the following amendments to the Superior Civil Services (Revision of Pay, Passage and Pension) Rules, 1924, namely:—

1. In Rule 14 of the said Rules the words "compensation and invalid gratuity and of invalid or compensation pension" shall be substituted for the words "invalid gratuity and pension."

2. In the heading of the second column of the table attached to the said Rule 14 the words "Rate of gratuity or pension" shall be substituted for the words "Invalid gratuity or pension."

The 1st November 1928.

No. F.-81-R.-I/24.—The following resolution by the Secretary of State for India in Council is published for general information:—

In exercise of the powers conferred by Sub-section (2) of Section 96B of the Government of India Act the Secretary of State, with the concurrence of the majority of votes at a meeting of the Council of India held on the 5th day of September 1928, hereby makes the following amendment to the Fundamental Rules, namely:—

For Rule 115 of the said Rules the following shall be substituted, namely:—

"115. (*a*) While a Government servant is in foreign service, contributions towards the cost of his pension must be paid to general revenues on his behalf.

(*b*) If the foreign service is in India, contributions must be paid on account of the cost of leave-salary also.

(*c*) Contributions due under clauses (*a*) and (*b*) above shall be paid by the Government servant himself, unless the foreign employer consents to pay them. They shall not be payable during leave taken while in foreign service.

(*d*) By special arrangements made under Rule 123 (*b*), contributions on account of leave-salary may be required in the case of foreign service out of India also, the contributions being paid by the foreign employer."

NOTE 1.—*Pensions, throughout this chapter, include Government contributions, if any, payable to a Government servant's credit in a provident fund.*

NOTE 2.—*In the case of Government servants lent to His Majesty's Government or to British colonies or protectorates, the contribution is payable by the employer, except in the case of Government servants lent to the War Office, whose contributions are paid in accordance with special arrangements with the War Office.*

For Rule 116 of the said Rules the following shall be substituted, namely:—

"116. The rate of contributions payable on account of pension and leave-salary shall be such as the Governor-General in Council may by general order prescribe."

For Rule 117 of the said Rules the following shall be substituted, namely:—

"117. (*a*) The rates of pension contribution prescribed under Rule 116 will be designed to secure to the Government servant the pension that he would have earned by service under Government if he had not been transferred to foreign service.

(*b*) The rates of contribution for leave-salary will be designed to secure to the Government servant leave-salary on the scale and under the conditions applicable to him. In calculating the rate of leave-salary admissible, the pay drawn in foreign service, less, in the case of Government servants paying their own contributions, such part of pay as may be paid as contribution, will count as pay for the purpose of Fundamental Rule 9 (2)."

For Rule 123 of the said Rules the following shall be substituted, namely:—

"123. (*a*) A Government servant in foreign service out of India may be granted leave by his employer on such conditions as the employer may determine. In any individual case the authority sanctioning the transfer may determine beforehand, in consultation with the employer, the conditions on which leave will be granted by the employer. The leave-salary in respect of leave granted by the employer will be paid by the employer and the leave will not be debited against the Government servant's leave account.

(*b*) In special circumstances, the authority sanctioning a transfer to foreign service out of India may make an arrangement with the foreign employer, under which leave may be granted to the Government servant in accordance with the rules applicable to him as a Government servant, if the foreign employer pays to general revenues leave contribution at the rate prescribed under Fundamental Rule 116."

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

CALCUTTA, *the 8th November 1928.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 7th November 1928.

Summary.—During the week light rain fell in a number of places. Preparation of fields for and sowing of spring crops are proceeding freely. Reaping of early winter paddy has commenced in places. Distress continues to prevail in parts of Murshidabad, Birbhum and Bankura. In the latter two districts the number of persons employed on test-relief works was reported as 2,023 and 680 respectively. The average price of common rice for the province has fallen by about 1·56 per cent. as compared with that of the previous week.

INDIAN CIVIL SERVICE.

Open Competition of 1929.

An Open Competitive Examination for admission to the Indian Civil Service will be held in London in 1929. The *viva voce* test will take place in July, the written examination in Section B subjects will begin on the 25th July, and that in Section A subjects on the 1st August.

The number of persons to be selected at this examination will be announced hereafter.

No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received, on or before the **15th May, 1929,** *an application on the prescribed form, a copy of which is sent herewith. No allegation that an Application Form or a letter respecting such Form has been lost or delayed in the post will be considered by the Commissioners unless the person making such allegation produces a Post Office Certificate of Posting. Candidates who delay their applications until the last days will do so at their own risk.*

Acknowledgments of such Application Forms are sent, and any candidate who has filled up and returned the printed Application Form but has not received an acknowledgment of it within four complete days should at once write to the Secretary, Civil Service Commission, Burlington Gardens, London, W.1. Failure to comply with this provision will deprive the candidate of any claim to consideration.

Candidates will be notified in June of the date and place fixed for their viva voce test and of the manner in which the fee (£8) is to be paid. The time-table of the written part of the examination will probably be posted early in July to the address given on the Form of Application, and will contain instructions as to the time and place at which candidates are to attend.

NOTE.

If Open Competitive Examinations for the following Services, viz.:—

Eastern Cadetships in the Colonial Service;
Junior Grade of the Administrative Class in the Home Civil Service;

should be held in 1929 concurrently with the Open Competitive Examination for the Indian Civil Service, candidates duly eligible in respect of age, etc., will be admitted to compete for any two or all three of these Services, subject to the following conditions:—

(1) Every successful candidate who may have been admitted to compete for either the Indian or the Colonial Service (or both), as well as for the Home Service, will be called upon to declare, immediately after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the Indian or Colonial Service or on the list of candidates for the Home Service.

The name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for the Home Service.

(2) Every successful candidate who may have been admitted to compete for both the Indian and Colonial Services will be called upon to declare, immediately after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the Indian Service or on the list of candidates for the Colonial Service.

The name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for the Colonial Service.

(3) All declarations of choice are irrevocable.

(4) Candidates for all three or any two of the above-mentioned services will be required to pay a consolidated fee of £8.

CIVIL SERVICE COMMISSION.

September, 1928.

EXAMINATIONS FOR THE INDIAN CIVIL SERVICE.

Regulations for admission to the Indian Civil Service.

*** *The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year.*

1. An Examination for admission to the Indian Civil Service, open to all qualified persons, will be held in London in July and August of each year for such number of appointments to that Service as the Secretary of State may on each occasion determine. The date of the Examination will be announced beforehand by the Civil Service Commissioners.

2. Save as hereinafter provided a Candidate must be a British subject. If the Candidate (being a British subject) or his father or his mother was not born within His Majesty's Dominions and allegiance then at the time of his birth his father must have been a British subject or the subject of a state in India and such father must be or must have continued to be until his death a British subject or the subject of such state in India. Provided that a ruler or subject of any state in India in respect of whom the Governor-General in Council has made a declaration under section 96 A of the Government of India Act may be considered eligible.

3. A Candidate must have attained the age of twenty-one, and must not have attained the age of twenty-four on the first day of August of the year in which the Examination is held.

4. A Candidate who is a Native of India must obtain a certificate of age and qualification under Regulations 2 and 3 issued under Notification of the Government of India, No. 1114, dated 12th September, 1918, and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or, should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.*

5. A Candidate must be free from disease, constitutional affection, or bodily infirmity, unfitting him, or likely to unfit him, for the Indian Civil Service.†

6. A Candidate shall satisfy the Civil Service Commissioners that his character is such as to qualify him for employment in the Indian Civil Service.

7. No person who, in a previous year, accepted the offer of a nomination as a Selected Candidate for the Indian Civil Service and subsequently resigned his position as a Selected Candidate, will be admitted to the Examination.

8. Should the evidence upon the above points be *prima facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee, will be admitted to the Examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any Candidate should be unsatisfactory to them in any of the above respects he will be ineligible for admission to the Indian Civil Service, and, if already selected, will be removed from the position of a Probationer.

9. The Examination will include the following subjects.‡ The numerical value is shown against each subject.

SECTION C.—Subject to the instructions at the head of Section B of this rule an Extra Numerum subject may be offered carrying 100 marks and chosen from the following:—

General Anthropology.
Special Anthropology.
An auxiliary language.

10. The auxiliary language in Section A or Section C will be tested by means of translation from the language. The following languages may be offered: French, German, Italian, Spanish, Portuguese, Dutch, Norwegian, Swedish, Danish, Russian, Latin, Ancient Greek.

No Candidate may offer any language or General Anthropology or Special Anthropology twice in the examination.

No Candidate may offer in Sections A and C together two languages of the group Italian, Spanish, Portuguese or two of the group Norwegian, Swedish, Danish.

Only a Candidate who takes two modern languages in Section B may offer Latin or Ancient Greek as an auxiliary language.

Instead of an auxiliary language a Candidate whose mother tongue is an Indian language may offer as Subject 5 either General Anthropology or Special Anthropology.

11. In subjects 50 to 67 the civilization subject associated with a language can only be taken by Candidates who offer the language itself for examination.*

12. A Candidate desiring to offer subject 24 or any of the subjects 31 to 43 must produce evidence satisfactory to the Commissioners of laboratory training in an institution of university rank. For Astronomy (29), Geography (44), the Physical Anthropology branch of Special Anthropology (46), and Agriculture (47), other equivalent training will be required. There will be no laboratory test as part of the examination.

13. From the marks assigned to Candidates in each subject such deduction will be made as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge.

14. Moreover, if a Candidate's handwriting is not easily legible a further deduction will, on that account, be made from the total marks otherwise accruing to him.†

15. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be Selected Candidates for the Indian Civil Service, provided that they appear to be duly qualified in other respects.

Should any Selected Candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate.

16. Application for permission to attend an examination must be made in the handwriting of the Candidate, at such time and in such manner as may be fixed by the Civil Service Commissioners.

INDIAN CIVIL SERVICE GROUP OF COMPETITIONS.

Syllabus

for such competitions as may be held in London in the year 1929 for appointment to the following services:—

Indian Civil Service.
Junior Grade of the Administrative Class in the Home Civil Service.
Colonial Service: Eastern Cadetships.
Foreign Office and Diplomatic Service.
Consular Services (General, Levant, and Far East) and Intelligence Officer Grade in the Department of Overseas Trade.

Evidence of Training.—Candidates who desire to offer any of the subjects 24, 29, 31—44, 46 (Physical Anthropology branch only), or 47 must send to the Secretary of the Civil Service Commission, so as to arrive not later than 15th May 1929, the evidence of training described on pages 2, 3, 4, 5. Such evidence should be in the form of a certificate signed by a responsible officer of the institution. In the case of an institution not situated in the British Isles, the certificate must state that the institution in which the work has been done is authorized to prepare candidates in that subject for a degree.

SECTION A.

1. **Essay.**—An essay to be written on one of several specified subjects.

2. **English.**—A paper of questions to test the understanding of English and the workmanlike use of words. An optional exercise in the writing of verse will be included.

3. **Present Day.**—Questions on contemporary subjects, social, economic, and political. A liberal choice of questions will be given. Effective and skilful exposition will be expected.

* *e g* a candidate desiring to offer subject No. 51 (Roman Civilization), must also offer subject No. 50 (Latin Language).

† It is notified for general information that the number of marks deducted for bad handwriting may be considerable.

4. **Everyday Science.**—In this subject such knowledge will be expected as candidates will have who have studied science intelligently at school and have since then kept their eyes open. A liberal choice of questions will be given. Attention should be paid to orderly, effective, and exact expression.

5. **Auxiliary Language.**—Passages dealing with history and politics may be set, but no technical matter. Verse is not excluded. Accuracy and skill in the use of English will be expected.

6. **Viva Voce.**—The examination will be in matters of general interest, not in matters of academic interest; it is intended to test the candidate's alertness, intelligence, and intellectual outlook. The candidate will be afforded an opportunity of furnishing the record of his life and education. On the interview and record the Commissioners judge the value of the candidate's personality for each service for which he is entered. His value may differ for different services, and in that case the mark by which the Commissioners express their decision will differ for different services.

SECTION B.

HISTORY. Subjects 7—10. A history subject will deal with the life of the people as a whole, political, social, literary, artistic, scientific, economic.

Candidates should know something of the original authorities, and have such a knowledge of geography as is necessary to the proper understanding of the history.

When a fixed date is given for the end of a period, candidates will be expected to have some knowledge of the subsequent development of movements which continued beyond the period; similarly when a fixed date is given for the beginning of a period, they will be expected to know in general outline how the initial position was reached.

7. 8. **English History to 1660. British History, 1660 to the present day.**—Candidates will be expected to know so much of European history as will make the external action of this country fully intelligible and will explain those movements at home which had their beginnings abroad, *e.g.*, the Renaissance, the Reformation, and the reactions in this country of the French Revolution. In subject 8 the outstanding incidents and movements in the history of British possessions will be included.

9, 10. **European History.**—Period 1 from 400 to 1494; Period 2 from 1494 to 1763; Period 3 from 1763 to the present day. The history of the United States of America, of India, and of the Far East, will be included in so far as it influences European fortunes to an important degree.

11. **General Economics.**—The subject will be treated as a whole, and candidates should be prepared to illustrate the theory by the facts and to analyse the facts by the help of the theory. The history of economic thought will be included.

12. **Economic History.**—Candidates will be expected to have a general acquaintance with the early economic history of England; but special attention will be paid to the economic development of the British Isles and other portions of the Empire during the last two or three centuries, and so much knowledge of European and American conditions will be expected as is necessary for the understanding of British economic history.

13. **Public Economics.**—The questions will deal with the main forms of State action, central and local, in the economic sphere, together with public finance.

14. **Political Theory.**—Candidates will be expected to show a knowledge of political theory and its history, political theory being understood to mean not only the theory of legislation, but also the general history of the State and its connection with kindred studies such as Ethics, Psychology, Jurisprudence, Public International Law, and Economics. Candidates will be expected to show a knowledge of original authorities.

15. **Political Organization.**—This will include Constitutional Forms (Representative Government, Federalism, etc.) and Public Administration, central and local. The history of institutions is not included, but candidates will be expected to know the earlier stages from which existing institutions have directly developed.

16. **Constitutional Law.**—The Constitutional Law of the United Kingdom and of the British Empire, and the Law of English Local Government.

17. **Private Law.**—The following branches of English Private Law:—the Law of Real and Personal Property (including the Law of Succession), Contracts, and Torts.

18. **Roman Law.**—Roman Private Law and its history studied in connexion with the Institutes of Gaius and Justinian, including the history of the legislative and judicial processes. Passages will be set for translation and comment, but credit will not be given merely for capacity to translate the texts.

19. **International Law.**—Public International Law.

20. **Moral Philosophy.**—The history of the subject will be included. Candidates will have an opportunity of showing their strength either in Ancient Philosophy or in Modern Philosophy.

21. **Metaphysics.**—As for Moral Philosophy.

22. **Logic.**—The subject will be interpreted in a wide sense. Epistemology in its bearing on logical problems will be included, together with Formal Logic and Scientific Method. Questions may be set on Mathematical Logic, *i.e.*, on the Logic of Mathematics, Symbolic Logic, and the Logic of Probability; and also on the history of Logic. A considerable choice of questions will be allowed.

23. **Psychology.**—Questions on the history of the subject may be included.

24. **Experimental Psychology.**—A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of laboratory training in an institution of university rank.

MATHEMATICS. Subjects 25—28.—The use of the slide-rule and of mathematical tables will be allowed.

25. **Lower Pure Mathematics.**—Geometry of two and of three dimensions according to Euclid (synthetic geometry), to Descartes (analytical geometry), and to Monge (descriptive geometry dealing with three-dimensional figures by the use of plan and elevation). The method of vectors including scalar and vector products, with applications. Only the main properties of conics and quadrics, including those of poles, polars and polar planes, are expected.

Algebra: complex numbers; uniformly converging infinite series; the elements of the theory of equations, including the numerical solution of algebraic equations, but not including the formal solution of the cubic and quartic.

Infinitesimal calculus of real variables to partial differentiation and multiple integrals, with applications to geometry. Candidates should be able to deal with the types of differential equations occurring in elementary mechanics.

The proof of Taylor's series will not be required.

No great skill will be expected in solving complicated problems of an elementary nature. The questions will involve the use of mathematical instruments.

26. **Higher Pure Mathematics.**—Lower Pure Mathematics together with:—

The geometry of curves and surfaces. Tensor calculus.

Elementary analysis, including simple functions of a complex variable and contour integration.

Differential equations in one independent variable. Elementary treatment of partial differential equations, with special reference to the differential equations of mathematical physics. Existence theorems are excluded.

Mathematical theory of probability, including theory of errors, method of least squares, curve fitting, and correlation.

Calculus of finite differences, including numerical integration and summation and linear difference equations.

A considerable choice of questions will be allowed, so that full marks may be obtained by covering about half the range stated.

27. **Lowed Applied Mathematics.**—Statics, hydrostatics, dynamics, elementary theory of electricity and magnetism, including the induction of currents. Questions will be of an elementary character, but will not be confined to two dimensions; they will involve the use of the calculus. Candidates are free to use differential equations, but a knowledge thereof will not be necessary to answer the questions. Attention will be paid to problems which arise naturally and to general principles; artificial problems will be avoided. The questions will involve the use of mathematical instruments.

28. **Higher Applied Mathematics.**—Lower Applied Mathematics together with:—

Statics to a more advanced stage, including graphical treatment.

Dynamics to the equations of Euler and Lagrange and including the theory of the vibration of strings and other simple systems.

Hydrodynamics, including the elementary theory of the motion of solids through a liquid, surface waves, and vibrations in gases.

Elasticity, including the elements of the vibrations of rods, plates and bars.

Electricity and magnetism.

Thermodynamics, kinetic theory of gases, radiation.

A considerable choice of questions will be allowed, so that full marks may be obtained by covering about half the range stated.

29. **Astronomy.**—Geometrical optics will be included.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of at least 20 hours' practical training in an observatory.

30. **Statistics.**—Frequency distributions, averages, percentiles, and simple methods of measuring dispersion; graphic methods; elementary treatment of qualitative data, *e.g.*, investigation of association by comparison of ratios, consistency of data: the practice of the simplest graphic and algebraic methods of interpolation.

Practical methods used in the analysis and interpretation of statistics of prices, wages and incomes, trade, transport production and consumption, education, &c.; the more elementary methods of dealing with population and vital statistics; miscellaneous methods used in handling statistics of experiments or observations.

Elements of modern mathematical theory of statistics:—frequency curves and the mathematical representation of groups generally; accuracy of sampling as affecting averages, percentages, the standard deviation; significance of observed differences between averages of groups, &c.; the theory of correlation for two variables.

NATURAL SCIENCE. Subjects 31—42.—The standard of the higher division of a science will be that which is required in the main subject for an honours degree at the universities. The standard for the lower division of a science will be that required in a subject subsidiary to the main subject whether required at the final degree examination or at a preceding examination.

A candidate who desires to offer a science must produce evidence satisfactory to the Civil Service Commissioners of laboratory training in that science in an institution of university rank; the period of training required is one academic year, whether the candidate offers the higher division of the science or the lower division or both divisions.

35. **Lower Botany.**
36. **Higher Botany.**

} Vegetable Physiology will be included in each division.

37. **Lower Geology.**
38. **Higher Geology.**

} Mineralogy will be included in each division.

43. **Engineering.**—Strength of materials; theory of structures; mechanism and dynamics of machines; heat and thermodynamics; surveying; hydraulics, including hydraulic machines; electricity and magnetism.

The subject will be treated in a general manner and the questions will be confined to the more elementary parts of the subject. The candidate will be expected to be familiar with graphical methods and to have some skill in mechanical drawing.

A candidate who desires to offer Engineering must produce evidence satisfactory to the Civil Service Commissioners of training for at least one academic year in an institution of university rank.

44. **Geography.**—Geography as understood in the universities, not excluding topics which concern geography jointly with other subjects such as economics, history, physics, botany, and geology. There will be a practical test which will necessitate a knowledge of cartographical methods and notations, and for this test drawing instruments may be required.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of training for at least one academic year in an institution of university rank.

45. **General Anthropology.**—Primitive culture in its various aspects; including economic pursuits (food collecting, hunting, fishing, domestication of animals, agriculture); the general scheme of primitive social organisation; early religion and magic, mythology, beliefs, rituals and ceremonial; decorative art, music, dancing. Candidates will be expected to show some knowledge of the customs, institutions and beliefs of living races of rude culture rather than knowledge of prehistory, archæology, or evolutional or historical conjectures.

46. **Special Anthropology.**—Candidates will choose between Social Anthropology and Physical Anthropology.

Social Anthropology.—A fuller knowledge of primitive social organisation will be here expected: the tribe, the village community, kinship grouping and the family. Study of the manner in which law works among primitive people and of their forms of administering justice. The economic organization of the primary pursuits and industries; the types of distribution, exchange and trade. Exchange and the beginnings of currency. Adjustments of European economic systems, laws and morality to races on an earlier level or of a different type of culture. Early forms of magical and religious belief and ritual. The relation between faith and knowledge in primitive societies.

Physical Anthropology, with which are included prehistoric archæology and technology. Candidates will be expected to have such knowledge as may be acquired by laboratory and museum work, consisting mainly in the handling and study of specimens and exhibits. The subject will be treated with special, but not exclusive, reference to peoples of rude culture, including prehistoric civilizations.

A candidate who desires to offer Physical Anthropology must produce evidence satisfactory to the Civil Service Commissioners of training in an institution of university rank.

47. **Agriculture.**—Agricultural chemistry, agricultural botany, and agricultural zoology will be included.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of training in an approved institution.

48, 49. **English Literature.**—*Period* 1, from 1350 to 1700; *Period* 2, from 1660 to 1914.

Candidates should be prepared to show a first-hand knowledge of some of the works of the following authors and of their place in the history of their country:—

PERIOD 1.

Chaucer	Bacon
Malory	Milton
Spenser	Bunyan
Shakespeare	

PERIOD 2.

Dryden	Fielding	Scott	Keats
Congreve	Johnson	Jane Austen	Dickens
Defoe	Burke	Wordsworth	Carlyle
Swift	Goldsmith	Coleridge	Tennyson
Addison	Burns	Shelley	Browning
Pope			

Questions on other writers will not be excluded, but, on the whole, the questions will be directed to the best-known authors and their best-known works. Candidates should know so much of the history as is necessary to understand the literature in its relation to other activities of the nation.

Questions will not be set on the history of the language before Chaucer, nor, in general, on its morphological or phonological changes since his time; the history of workmanship, style, and prosody will not be excluded.

Civilizations and Languages. Subjects 50-67. In these the civilization subject associated with a language can be taken only by candidates who also offer themselves for examination in the language itself.

A civilization subject will include literature and history. It will deal with the life of the people as a whole, literary, political, social, economic, scientific, artistic.

In literature candidates will be expected to have a first-hand knowledge of the authors.

In history candidates will be expected to show a knowledge of the original authorities. They must also have such a knowledge of geography as is necessary to the proper understanding of the history.

50. **Latin Language.**—Translation, and prose or verse composition. The composition paper will be so arranged that candidates may confine themselves to prose composition or to verse composition or, if they prefer, may take some prose and some verse.

51. **Roman Civilization.**—In history the outlines of the history and development down to 180 A.D. should be known; but the main stress will be laid on the period 133 B.C. to 117 A.D.

52. **Greek Language.**—As for Latin.

53. **Greek Civilization.**—In history the main stress will be on the period 510 B.C. to 323 B.C.

54. **French Language.**—Translation, free composition, set composition, and conversation.

55. **French Civilization.**—The outlines of the history prior to 1589 should be known; the period from 1589 to 1660 in somewhat more detail; but the main stress will be on the period from 1660 to the present day.

56. **German Language.**—As for French.

57. **German Civilization.**—In history candidates should know in outline the history of the Medieval Empire, of the growth of the German cities, of the Reformation in Germany, and of the Thirty Years War; but the main stress will be on the period from the accession of Frederick the Great to the pesent day.

58. **Spanish, Italian, Language.**—As for French.

59. **Spanish Civilization.**—In history the main stress will be on the periods from the Union of Castile and Aragon under Ferdinand and Isabella to the liberation of the Netherlands, and again from 1800 to the present day.

Italian Civilization.—In history the main stress will be on the 15th century and the first half of the 16th century, and again on the period from 1789 to the present day. Sufficient should be known of the earler period to understand the position of the Pope and the Emperor in Italy, the rise of the towns, and the position of Dante.

60. **Russian Language.**—As for French.

61. **Russian Civilization.**—Only the broadest outlines of the history prior to Peter the Great will be required; the period from the accession of Peter the Great to 1800 should be known in somewhat more detail; but the main stress will be on the period from 1800 to the present day.

62. **Arabic Language.**—Translation, free composition, set composition, conversation. The examination will be in the modern language.

63. **Arabic Civilization.**—The main stress in both history and literature will be on the period from the middle of the 6th century A.D. to the middle of the 13th century A.D.

64. **Persian Language.**—Translation, free composition, set composition, conversation. The examination will be in the modern language.

65. **Persian Civilization.**—The main stress in both history and literature will be on the period 1000 A.D. to 1500 A.D. Candidates will be expected to have a general knowledge of the history of Persia before 1000 A.D. and from 1500 A.D. to the present time.

66. **Sanskrit Language.**—Translation, prose composition, and questions on Vedic and Sanskrit grammar. Both Vedic and classical Sanskrit passages will be set for translation; composition will be required in classical Sanskrit alone.

67. **Sanskrit Civilization.**—Sanskrit literature and the history of the civilization and thought of India from the Vedic period to A.D. 1200.

CIVIL SERVICE COMMISSION,

August 1928.

Admin. (Early Edition).

APPLICATION FORM.

For the use of candidates seeking admission to the concurrent open competitive examinations to be held in London in July and August, 1929, for appointment to services of the Administrative Group, namely:—

Home Civil Service: Administrative Class.
Indian Civil Service.
Colonial Service: Eastern Cadetships.

NOTE 1.—Male Candidates may include any or all of these three Services in their application (see paragraph 3 below); but it should be understood that the only competition yet announced as certain to be required in 1929 is that for the Indian Civil Service, the regulations for which are enclosed herewith.

An announcement as to whether competitions will be required in 1929 for the Home and Colonial Services will be made in due course.

NOTE 2.—This form is to be filled up and returned to the Secretary (C. Room 19), Civil Service Commission, 6, Burlington Gardens, London, W. 1, in time for delivery on or before *May 15th*, 1929. *No Application Form received after that date will be accepted.*

A Candidate who fills up and returns this Application Form and does not receive an acknowledgment of it within four complete days should inform the Secretary of the Civil Service Commission.

NOTE 3.—Candidates should, by consulting the regulations, make certain that they are eligible to compete for the services for which they make application, and that their selection of subjects conforms with the regulations. No scrutiny of the information which is given on this sheet is made by the Commissioners before the examination.

NOTE 4.—Should any of the particulars furnished by candidates be found to be false within their knowledge they will, if appointed, be liable to be dismissed; and, if otherwise entitled to Superannuation Allowance, they will forfeit all claim thereto. The wilful suppression of any material fact will be similarly penalised.

1. (*a*) Surname .. .. (*b*) Christian name, or names (in full)	
2. Postal Address (in full) .. .. .. (Any change of address should be at once communicated.)	—
3. Place your initials against the Service or Services for which you desire to be considered (*see page* 4).	Home Civil Service: Administrative Class —— Indian Civil Service —— Colonial Service: Eastern Cadetships ——
4. Date of birth (*see page* 4) .. .. .. Give place of birth, and state whether a natural born British subject.	Age last birthday ——
5. Father's Name .. .. „ Address .. .. „ Profession or Trade .. .. .. (If deceased, give the last address, profession, &c.) .. Give place of Father's birth and his nationality at birth. Give place of Mother's birth and her nationality at birth ..	
Only for natives of India:— 6. State your community, religion, caste, sect, etc. ..	
Only for candidate for Eastern cadetships:— 7. State whether you are of pure European descent, or of pure Ceylonese descent, or of mixed European and Ceylonese descent.	
8. Name, in order, the Schools you have attended since the age of 12, giving addresses with dates of entering and leaving.	
9. Have you been on any former occasion a candidatde before the Civil Service Commissioners? If so, state when, and for what appointment.	

10. Age on finally quitting School	
11. Have you been a student at any University ? If so, name it, and give the dates of entering and leaving. State any degrees, honours or prizes you have obtained. Name your College.	
12. Give the name of your Director of Studies or College Tutor, or of the Professor or other responsible person to whom reference can be made as being best acquainted with your conduct and the character of your work. You should give one name only, selecting the person to whom you think reference would be most useful. If you have been at more than one university, the referee should be chosen from your later university, unless you entered it at a later date than October, 1928.	
13. Have you had any special teaching for examinations for these situations ? If so, state where and by whom it was given, and the dates of beginning and ending. If it was part-time preparation state what fraction of your study time it occupied and whether by day or in the evening. Regular University courses are to be excluded.	
14. State any University or College colours, and any position of responsibility or distinction in University or College societies that you hold or have held.	
15. Give particulars showing dates, certificates obtained, and ranks of any service in :—Junior Division Officers Training Corps, Senior Division Officers Training Corps, Territorial Army, Territorial Cadets.	
16. Have you served in the Naval, Military, or Air Forces ? If so, state your rank (or rating) and official number if any Your corps, regiment or other unit .. .. Dates of your service	
17. If your time since leaving School is not fully accounted for by replies given above, account for the remainder here, with dates. If you have had employers, state their names and addresses in full.	
18. Give the names, professions, and *present* addresses (in full) of two referees, who should be responsible persons (not relations), well acquainted with you in private life, and unconnected with your School or College.	1. 2.
19. Are you free from pecuniary embarrassments ? If you are under liability to repay money advanced by an institution or party for your education, state the particulars.	
20. Signature and date	

ADMINISTRATIVE GROUP COMPETITION, 1929.

Selection of Subjects.

1. Do you take an auxiliary language under subject 5? If so, name it here. If you take a substitute for the auxiliary language show it in answer to question 6.

2. Do you take an auxiliary language as extra numerum subject? If so, name it here. If you take an Anthropology subject or a substitute for the extra numerum subject show it in answer to question 6.

3. Do you select any of the subjects for which evidence of training is required? If so, pin the necessary vouchers to this form, stating here the subjects to which each voucher applies.

4. If you are taking a degree examination any portion of which, written or oral, falls in July of this year, name it and the university here.

5. Is your mother tongue an Indian language? If so, name it.

6 In the following list place a cross, so, X, on the dotted line opposite each of the subjects you take in Section B, including any subject which is compulsory for the Service for which you are a candidate. If you are a candidate for more than one Service and you wish to offer different subjects for different Services, append a statement showing to which Serivce your selection applies, and the variations you desire for other Services. If you mark subjects in excess of the prescribed limitation, the Commissioners cannot undertake to avoid clashing among your subjects in the time-table.

PROCEDURE.

Immediately the results of the examination are known, all successful Candidates will be summoned to attend at the Civil Service Commission to be medically examined and to state their choice among the Services open to them and among the various Departments, Provinces or Colonies. That statement of choice is irrevocable.

EVIDENCE OF AGE.

A Candidate born in the United Kingdom must not send in a birth certificate with this form but must be prepared to produce it when required.

A European or Anglo-Indian who was born in India must be prepared to produce when required a certificate of baptism from the district in which he was baptized. If this does not also mention the date of birth it must be accompanied by a statutory declaration by one of the Candidate's parents, stating the date and place of birth.

An Indian born in India must send in with this form a certificate under Government of India Notification No. 1114 of 12th September, 1918. If the Candidate's family is resident in British India the Certificate must be signed by the Secretary to the Government of their province or by the Commissioner of their Division. If they reside in an Indian State it must be signed by the highest political officer accredited to that State.

FEE.

Fees are *not* to be forwarded by Candidates. Instructions respecting the manner of payment of the fee prescribed (£8), and respecting the time and place of the examination, will be sent to Candidates before the examination.

POLITICAL DEPARTMENT.

NOTIFICATION.

No. 13927P.—The 8th November 1928.—In pursuance of section 7, sub-section (*1*) of the Cinematograph Act, 1918 (II of 1918), as amended by the Cinematograph (Amendment) Act, 1919 (XXIII of 1919), the Governor in Council is pleased to appoint Mrs. F. Stanley to be a member of the Bengal Board of Censors constituted by notification No. 5109P., dated the 3rd April 1928, published in the *Calcutta Gazette* of the 12th April 1928, *vice* Mrs. A. R. Sankey resigned. She will hold office until the 15th April 1929.

W. S. HOPKYNS,
Chief Secretary to the Government of Bengal (offg.).

JAILS.

NOTIFICATION.

No. 2300 P.J.—The 10th November 1928.—In exercise of the powers conferred by sub-sections (*1*) and (*2*) of section 16 of the Bengal Borstal Schools Act, 1928 (Bengal Act I of 1928), the Governor in Council is pleased to make the following rules :—

Rules for the Control and Management of the Borstal School, Bankura.

1. **Control and management of the school.**—Subject to the orders of the Inspector-General of Prisons, Bengal, the control and management of the Borstal School shall vest in the Superintendent appointed by the Local Government.

2. **Appointment, powers and duties of officials.**—The Superintendent and other officials of the Borstal School shall be subject to the rules laid down in the Bengal Jail Code, except in so far as they are inconsistent with the Bengal Borstal Schools Act, 1928, or rules made thereunder.

3. **Visitors and Visiting Committee.**—(*a*) The following shall be visitors of the institution :—

(*i*) *Ex officio*, all the officers named in Jail Code rule 62 (*1*) and (*2*).

(*ii*) Two members of the Legislative Council who reside in the district of Bankura or represent the constituency within which the school is situated, to be appointed by the Local Government.

(*iii*) Members of the Visiting Committee prescribed in rule 3 (*b*).

(*b*) The Visiting Committee shall be appointed by the Local Government and shall be composed of—

(*i*) The District Magistrate } *Ex officio.*
(*ii*) The Civil Surgeon ... }

(*iii*) Five non-official visitors of whom the "After Care Association" may be asked to nominate three.

(*c*) The duties of the Board of Visitors at quarterly meetings prescribed in Jail Code rule 64 shall be undertaken by the Committee of Visitors, but every visitor may visit the school at any time as provided in that rule.

(*d*) The District Magistrate shall be Chairman of the Committee of Visitors.

(*e*) The visitors shall be subject to the rules regarding the appointment, duties and rights of visitors prescribed by the Jail Code except in so far as they are inconsistent with the Bengal Borstal Schools Act of 1928 or rules made thereunder.

4. **Classification and treatment of the inmates.**—(*a*) The inmates of the Borstal School shall be divided by the Superintendent into grades according to their industry and good conduct.

(*b*) There shall be four such grades, namely :—

(1) The Penal grade, (2) The Ordinary grade, (3) The Star grade, and (4) The Special Star grade.

The privileges of each grade in the above order shall be higher than those of the immediately preceding grade.

(*c*) All pupils on reception shall be placed in the Ordinary grade.

(*d*) Promotion shall be regulated by close personal observation of the inmates, attention being specially paid to their general behaviour, their amenability to discipline and their attention to instruction, both literary and industrial.

(*e*) There shall be an ascending scale of privileges enjoyed by inmates as they pass from one grade to another.

(*f*) An inmate shall remain in the Ordinary grade for at least six months. During this period he shall be carefully observed by the staff with special reference to his character, mental disposition and fitness for a special trade.

(*g*) He shall be permitted during this period, subject to good behaviour, games on Saturdays, to write and receive two letters, and two interviews once in three months.

(*h*) Promotions to the Star grade shall be made by selection by the Superintendent, the inmate so promoted being placed in a trade suitable to his individual taste and capacity. While in this grade, inmates shall be permitted to join in games twice a week, to accompany members of the staff on route marches, to write and receive a letter and have an interview once a month, and by exemplary conduct to earn badge money of one rupee a quarter.

(*i*) When after close observation of his general demeanour and efficiency, the Superintendent is satisfied that an inmate in the Star grade may be safely placed in a position of special trust, he may be promoted to the Special Star grade with the previous sanction of the Inspector-General of Prisons. Such inmates shall wear a distinctive dress. They may act as monitors in different capacities and may be placed in authority over other inmates on parade, in the workshops or recreation rooms and in other situations where they can assist the administration in various ways. They shall be permitted to take part in games every day and to play in school matches on extra-mural play-grounds; to accompany members of the staff on route marches; to write and receive a letter and have an interview once a fortnight; to sleep in association; and by exemplary conduct to earn badge money of Rs. 3 a quarter.

(*j*) The badge money awarded to inmates in the Star and Special Star grades may be spent by them on objects approved by the Superintendent or sent to their relations, or invested in the local Savings Bank.

(*k*) Where an inmate is believed to be exercising a bad influence he shall be placed by the Superintendent in the Penal grade for such period as the Superintendent considers necessary in the interests of the inmate himself or of the other inmates. While in this grade, an inmate shall be employed in separation on hard and laborious work and shall forfeit all privileges. The Superintendent shall record in his Journal particulars of the case of every inmate ordered by him to be placed in the Penal grade, with the reasons for such order, and stating the period during which the inmate is to remain so placed, but in no case shall an inmate be placed in the Penal grade for a period longer than three months without the special sanction of the Inspector-General of Prisons.

(*l*) If the inmate had previously been in the Star or Special Star grade, he shall not be restored thereto without passing through a period of probation in the Ordinary grade for such period as the Superintendent may determine.

(*m*) If the inmate is in the opinion of the Superintendent guilty of any misconduct, the Superintendent shall place him, for such period as he may deem necessary, in the Penal grade, if he had previously been in the Ordinary grade, and in the Ordinary or the Penal grade, if he had previously been in the Star or Special Star grade; but in no case shall an inmate be placed in the Penal grade for a period longer than three months without the special sanction of the Inspector-General of Prisons.

5. **Offences and punishments.**—(1) The punishments which may be inflicted on an inmate of a Borstal School for offences specified in the Prisons Act, 1894, and the rules made thereunder shall be in the following forms and no other:—

(*a*) Formal warning.

(*b*) Deprivation of any of the privileges of the grade.

(*c*) Reduction in grade.

(*d*) Separate confinement for not more than fourteen days.

(2) No punishment shall be awarded to any inmate by any official except the Superintendent of the School, or, in his absence, the officer appointed to act for him.

(3) An inmate shall not be placed in separate confinement unless the medical officer has certified that he is in a fit state of health to undergo the punishment.

6. **Hours of work.**—All inmates, provided they are medically fit, shall be required to labour for eight hours every working day. The day's work shall ordinarily be divided as follows:—

Drill and physical exercises	...	1 hour.
Literary instruction	...	2 hours.
Manual work (including agriculture)	...	5 „
Recreation	...	1 hour.

7. **Education and training.**—(*a*) Drill and physical exercises shall be conducted under the supervision of a qualified instructor.

(*b*) Literary instruction shall be in the inmate's own vernacular and limited to the elements of reading, writing and arithmetic. The Educational section shall be inspected annually by an officer deputed by the Director of Public Instruction, Bengal, on the requisition of the Inspector-General of Prisons, and a report of his examination of each class shall be submitted to the Inspector-General of Prisons.

(*c*) Such industries as the Superintendent of the school with the approval of the Inspector-General of Prisons considers suitable shall be taught under the guidance of specially trained instructors.

(*d*) The Director of Industries in the case of industrial operations, and the Director of Agriculture in the case of agricultural operations, will depute officers of their respective departments to inspect the institution from time to time and submit a report to the Inspector-General of Prisons.

(*e*) In deciding on the particular industry any inmate is to be taught, the Superintendent shall take into consideration the inmate's previous training, his social status, his physical and mental capabilities and his inclination.

(*f*) The instructors in the Educational section and workshops shall maintain registers showing the progress made by each inmate, which shall be produced before the Superintendent once a month.

8. **Holidays and religious and moral instruction.**—Religious and moral instruction shall, as far as possible, be given on Sundays to an inmate by persons of the same religious denomination or by honorary lecturers approved by the Inspector-General of Prisons. Rules in Chapter XVIIA of the Bengal Jail Code will apply to the inmates in the Borstal School.

9. **Dietary and clothing.**—The inmates in the Ordinary grade will be given the ordinary jail diet with double the allowance of oil, while inmates in the Star and Special Star grade may be allowed extra food in the form of four ounces of fish or meat a day and such other small luxuries as the Superintendent, subject to the control of the Inspector-General of Prisons, may direct.

Their clothing and bedding shall be on the following scale :—

European and Anglo-Indian inmates shall have the same diet as is prescribed for European and Anglo-Indian prisoners in the Bengal Jail Code.

10. If in the opinion of the Superintendent of the Borstal School an inmate requires medical treatment or a surgical operation which cannot be adequately or safely given or performed in the Borstal School hospital, he shall either—

(*a*) send the inmate to the local hospital escorted by a guard of petty officers who shall be in charge of the inmate until he is brought back to the Borstal School ; or

(*b*) apply through the District Magistrate and the Inspector-General of Prisons to the Local Government for the suspension of the inmate's sentence under section 401 of the Criminal Procedure Code for a period sufficient for the required treatment or operation in a hospital outside the Borstal School, forwarding with the application an undertaking by the inmate in Form 1 of the Appendix to these rules ; or

(*c*) in cases of extreme urgency make such other arrangements as are in his opinion necessary ; if in such cases it is necessary to leave the inmate without a petty officer guard, the guard shall not be removed until the Superintendent of Police has been informed and the District Magistrate has given his consent ; or

(*d*) with the previous sanction of the Local Government arrange for the transfer of the inmate to a jail hospital where segregation can be arranged or medical treatment or an operation can be provided or performed, there to be kept until he is discharged on the expiry of his sentence or brought back to the school on the completion of his treatment.

11. **Release and after-care of inmates.**—(*a*) When it appears to the Superintendent that any inmate should be released on licence under section 12, he shall place before the Visiting Committee of the school full particulars regarding the past history, character and conduct of the inmate, together with suggestions for his employment after release.

(*b*) The case of every inmate whose release is due within three months shall similarly be placed before the Visiting Committee, whether or not the Superintendent thinks he should be released on licence.

(*c*) The Visiting Committee shall sit at least once a month to consider such cases, and their recommendations for the release of inmates on licence shall be forwarded without delay by the Superintendent to the Inspector-General of Prisons, together with full particulars regarding each prisoner.

(*d*) The Inspector-General, if he accepts the recommendation of the Committee, shall decide under what authority and supervision the inmate is to live after release and shall issue orders accordingly with the least possible delay, in Form 2 of the Appendix to these rules. Such orders must in any case reach the Superintendent before the date on which the inmate's release is due.

(*e*) A copy of the release order, together with full particulars regarding the inmate shall be sent by the Inspector-General to the officer of Government, secular institution religious society or responsible person under whose supervision and authority the inmate is to live on release.

(*f*) The Superintendent shall at all times be in close touch with the Borstal Association and the Calcutta Prisoners' Aid Society in order to make arrangements for the after-care of inmates about to be released.

(*g*) When the Superintendent is of opinion that on medical or other grounds an inmate should be released, otherwise than on licence under section 12, before the expiry of the term of detention, he shall report the facts of the case to Government through the Visiting Committee, who may recommend the release of the inmate under section 401 of the Code of Criminal Procedure. When a release is urgently necessary on medical grounds, a recommendation may be sent by the Superintendent to Government through the Inspector-General, without reference to the Visiting Committee.

12. **Remission.**—The rules contained in the Bengal Jail Code relating to shortening of sentence by the grant of remission are not applicable to inmates of the Borstal School.

W. S. HOPKYNS,

Chief Secretary to the Government of Bengal (offg.).

"(*i*) Leave on average pay for four months at a time, not exceeding, in all, one-eleventh of the period of duty performed since the date on which he became subject to this rule *plus* the privilege leave which it would on that date be permissible to grant to him under the rules applicable to his case before that date:

"Provided that, if privilege leave under military rules has been taken in any calendar year, duty counting for leave on average pay will not commence until the beginning of the following year or the expiry of six months after the conclusion of such leave, whichever is earlier, but in any case will not commence from a date prior to that on which he became subject to this rule; and".

(This amendment takes effect from the 1st January 1922.)

Pages 137-8, Fundamental Rule 100.—Insert the following at the end of this rule:—

"Provided also that in the case of an officer holding substantively a permanent post for a fixed term, leave under sub-clause (*i*) of clause (*a*) may be granted so as to extend beyond the expiry of such term if the leave has been applied for in sufficient time before the expiry of the fixed term and refused owing to the exigencies of the public service."

(This amendment takes effect from the 1st January 1922.)

Pages 79-81.—Substitute the following for Fundamental Rule 45:—

45. A Local Government may make rules laying down the principles governing the allotment to officers serving under its administrative control, for use by them as residences, of such buildings owned or leased by it, or such portions thereof, as the Local Government may make available for the purpose. Such rules may lay down different principles for observance in different localities or in respect of different classes of residences, and may prescribe the circumstances in which such an officer shall be considered to be in occupation of a residence.

45A.—I. This rule applies, with effect from the 1st April 1924, to members of the services and to Government servants holding the posts included in the schedule to this rule and to Government servants who hold in a substantive capacity posts borne on the cadre of the services included therein.

II. For the purpose of the assessment of rent, the capital cost of a residence owned by Government shall include the cost or value of sanitary, water-supply and electric installations and fittings, but exclude the cost or value of the site (including expenditure on its preparation); and shall be either—

(*a*) the cost of acquiring or constructing the residence and capital expenditure incurred after acquisition or construction; or, when this is not known,

(*b*) the present value of the residence.

NOTE.—The cost of restoration or special repairs shall not be added to capital cost or present value, unless such restoration or repairs add to accommodation or involve replacement of the existing type of work by work of a more expensive character.

Provided that—

(*i*) a Local Government may make rules providing the manner in which the present value of residences shall be determined;

(*ii*) a Local Government may make rules determining what expenditure is to be regarded, for the purpose of sub-clause (*a*) above, as expenditure upon the preparation of a site;

(*iii*) a Local Government may, for reasons which should be recorded, authorise revaluation of all residences of a specified class or classes within a specified area to be conducted under the rules referred to in proviso (*i*) above, and may revise the capital cost of any or all such residences on the basis of such revaluation;

(*iv*) the capital cost, howsoever calculated, shall not take into consideration (1) any charges on account of establishment and tools and plant other than such as were actually charged direct to the work in cases in which the residence was constructed by Government, or (2) in other cases the estimated amount of such charges;

(*v*) a Local Government may, for reasons which should be recorded, write off a specified portion of the capital cost of a residence—

(*1*) when a portion of the residence must be set aside, by the officer to whom the residence is allotted, for the reception of official and non-official visitors visiting him on business, or

(*2*) when it is satisfied that the capital cost, as determined under the above rules, would be greatly in excess of the proper value of the accommodation provided;

(*vi*) in assessing the cost or value of the sanitary, water-supply and electric installations and fittings, a Local Government may by rules determine what are to be regarded as fittings for this purpose.

III. The standard rent of a residence shall be calculated as follows:—

(*a*) In the case of leased residences the standard rent shall be the sum paid to the lessor *plus* an addition determined under rules which a Local Government may make, for meeting, during the period of lease, such charges for both ordinary and special maintenance and repairs, and for capital expenditure on additions or alterations as may be a charge on Government and for the interest on such capital expenditure, as also for municipal and other taxes payable by Government.

(*b*) In the case of residences owned by Government, the standard rent shall be calculated on the capital cost of the residence, and shall be either—

(*i*) a percentage of such capital cost equal to such rate of interest as may from time to time be fixed by the Secretary of State in Council *plus* an addition for municipal and other taxes payable by Government and for both ordinary and special maintenance and repairs, such addition being determined under rules which a Local Government may make, or

(*ii*) 6 per cent. per annum of such capital cost, whichever is less.

(*c*) In both cases standard rent shall be expressed as standard for a calendar month and shall be equal to one-twelfth of the annual rent as calculated above, subject to the proviso that, in special localities or in respect of special classes of residence, a Local Government may fix a standard rent to cover a period greater than one month but not greater than one year. Where a Local Government takes action under this proviso standard rent so fixed shall not be a larger proportion of the annual rent than the proportion which the period of occupation as prescribed under Rule 45 above bears to one year.

NOTE 1.—For the purpose of sub-clauses (*a*) and (*b*) above, the additions for both ordinary and special maintenance and repairs shall not include anything for the establishment and tools and plant charges, except to the extent allowed under proviso (*iv*) to clause II.

NOTE 2.—A Local Government may by rule permit minor additions and alterations, the cost of which does not exceed a prescribed percentage of the capital cost of the residence, to be made during such period as the rule may determine, without the rent of the residence being increased.

IV. When Government supplies an officer with a residence leased or owned by Government, the following conditions shall be observed:—

(*a*) The scale of accommodation supplied shall not, except at the officer's own request, exceed that which is appropriate to the status of the occupant.

(*b*) Unless in any case it be otherwise expressly provided in these rules, he shall pay rent for the residence, and such rent shall be the standard rent as defined in clause III above or 10 per cent. of his monthly emoluments, whichever is less.

(*c*) Nothing contained in clause (*b*) above shall operate to prevent a Local Government from—

(*i*) grouping, after the standard rents have been calculated under the provisions of clause III above, a number of residences, whether in a particular area or of a particular class or classes, for the purpose of assessment of rent, subject to the following conditions being fulfilled:—

(1) that the basis of assessment is uniform; and

(2) that the amount taken from any officer shall not exceed 10 per cent. of his monthly emoluments;

(*ii*) taking a rent in excess of that prescribed in sub-clause (*b*) above from an officer—

(1) who is not required or permitted to reside on duty at the station at which the residence is supplied to him, or

(2) who, at his own request, is supplied with accommodation which exceeds that which is appropriate to the status of the post held by him, or

(3) who is in receipt of a compensatory allowance granted on account of dearness of living.

V. In special circumstances, for reasons which should be recorded, a Local Government—

(*a*) may, by general or special order, grant rent-free accommodation to any officer or class of officers, or

(*b*) may, by special order, waive or reduce the amount of rent to be recovered from any officer.

VI. If a residence is supplied with services, other than water-supply, sanitary or electric installations and fittings, such as furniture, tennis court, or garden maintained at the cost of Government, rent shall be charged for these in addition to the rent under clause IV. The tenant will also be required to pay meter hire and the cost

of the water, electric energy, etc., consumed. A Local Government may make rules prescribing how the additional rents and charges shall be determined, and such rules may also authorise the remission or reduction of the additional rent or charge in special circumstances for reasons which should be recorded.

VII. A Local Government may by rule prescribe that this rule shall apply, with effect from any date not earlier than the first of April 1924, to any Government servant or class of Government servants other than those mentioned in the rule.

VIII. Nothing contained in this rule shall so operate as to require payment of rent, for the occupation of residences supplied by Government, by those servants of the Crown in India, who have been exempted from such payment by order of the Secretary of State in Council, or to affect the amount of rent or charges payable by those servants of the Crown in India in whose case the amount so payable is prescribed by the Secretary of State in Council.

45B.—1. This rule applies to Government servants other than those to whom rule 45A applies or is made applicable under the provisions of clause VII of that rule, or than those occupying residences belonging to a State Railway, or rented at the cost of railway revenues.

II. For the purpose of sub-clause (*b*) of clause III, the capital cost of a residence owned by Government shall not include the cost or value of such special services and installations (including furniture, tennis courts and sanitary, water-supply or electric installations and fittings) as it may contain; and shall be either—

(*a*) the cost of acquiring or constructing the residence, including the cost of site and its preparation and any capital expenditure incurred after acquisition or construction; or, when this is not known,

(*b*) the present value of the residence including the value of site.

NOTE.—The cost of restoration or special repairs shall not be added to capital cost of present value, unless such restoration or repairs add to accommodation or involve replacement of the existing type of work by work of a more expensive character:

Provided that—

(*i*) a Local Government may make rules providing the manner in which the present value of residences, including sites, shall be determined;

(*ii*) a Local Government may make rules determining what expenditure is to be regarded for the purpose of sub-clause (*a*) above as expenditure upon the preparation of a site;

(*iii*) a Local Government may, for reasons which should be recorded, authorise a revaluation of all residences of a specified class or classes within a specified area to be conducted under the rules referred to in proviso (*i*) above, and may revise the capital cost of any or all such residences on the basis of such revaluation;

(*iv*) the capital cost, howsoever calculated, shall not take into consideration (1) any charges on account of establishment and tools and plant other than such as were actually charged direct to the work in cases in which the residence was constructed by Government, or (2) in other cases the estimated amount of such charges;

(*v*) a Local Government may, for reasons which should be recorded, write off a specified portion of the capital cost of a residence—

(1) when a portion of the residence must be set aside, by the Government servant to whom the residence is allotted, for the reception of official and non-official visitors visiting him on business, or

(2) when it is satisfied that the capital cost, as determined under the above rules, would be greatly in excess of the proper value of the accommodation provided;

(*vi*) in assessing the cost or value of the sanitary, water-supply and electric installations and fittings, a Local Government may, by rules, determine what are to be regarded as fittings for this purpose.

III. The standard rent of a residence shall be calculated as follows:—

(*a*) In the case of leased residences the standard rent shall be the sum paid to the lessor, *plus* an addition determined under rules which a Local Government may make, for meeting, during the period of lease, such charges for both ordinary and special maintenance and repairs and for capital expenditure on additions or alterations as may be a charge on Government and for the interest on such capital expenditure, as also for municipal and other taxes payable by Government.

(*b*) In the case of residences owned by Government, the standard rent shall be calculated on the capital cost of the residence, and shall be a percentage of such capital cost equal to such rate of interest as may from time to time be fixed by the Secretary of State in Council, *plus* an addition for municipal and other taxes payable by Government and for both ordinary and special maintenance and repairs, such addition being determined under rules which a Local Government may make.

(*c*) In both cases standard rent shall be expressed as standard for a calendar month and shall be equal to one-twelfth of the annual rent as calculated above, subject to the proviso that, in special localities or in respect of special classes of residence, a Local Government may fix a standard rent to cover a period greater than one month, but not greater than one year. Where a Local Government takes action under this proviso standard rent so fixed shall not be a larger proportion of the annual rent than the proportion which the period of occupation as prescribed under rule 45 above bears to one year.

NOTE 1.—For the purpose of sub-clauses (*a*) and (*b*) above, the addition for both ordinary and special maintenance and repairs shall not include anything for the establishment and tools and plant charges, except to the extent allowed under proviso (*iv*) to clause II.

NOTE 2.—A Local Government may by rule permit minor additions and alterations, the cost of which does not exceed a prescribed percentage of the capital cost of the residence, to be made during such period as the rule may determine, without the rent of the residence being increased.

IV. When Government supplies a Government servant with a residence leased or owned by Government, the following conditions shall be observed:—

(*a*) The scale of accommodation supplied shall not, except at the officer's own request, exceed that which is appropriate to the status of the occupant.

(*b*) Unless in any case it be otherwise expressly provided in these rules, he shall pay rent for the residence, and such rent shall be the standard rent, as defined in clause III above or 10 per cent. of his emoluments, whichever is less.

(c) Nothing contained in clause (*b*) above shall operate to prevent a local Government from—

(*i*) grouping, after the standard rents have been calculated under the provisions of clause III above, a number of residences, whether in a particular area, or of a particular class or classes for the purpose of assessment of rent subject to the following conditions being fulfilled:—

(1) that the basis of assessment is uniform, and

(2) that the amount taken from any Government servant shall not exceed 10 per cent. of his emoluments;

(*ii*) taking a rent in excess of 10 per cent. of his emoluments from a Government servant—

(1) who is not under its own administrative control, or

(2) who is not required or permitted to reside on duty at the station at which the residence is supplied to him, or

(3) who, at his own request, is supplied with accommodation which exceeds that which is appropriate to the status of the post held by him, or

(4) who is in receipt of a compensatory allowance granted on account of dearness of living.

V. In special circumstances, for reasons which should be recorded, a Local Government—

(*a*) may, by general or special order, grant rent-free accommodation to any Government servant or class of Government servants, or

(*b*) may, by special order, waive or reduce the amount of rent to be recovered from any Government servant.

VI. If a residence is supplied with one or more of the following or similar services, furniture, installations (including fittings) for water or electricity supply or for sanitary purposes, tennis court, or garden maintained at the cost of Government, rent shall be charged for these in addition to the rent payable under clause IV. The tenant will also be required to pay meter hire and the cost of the water, electric energy, etc., consumed. A local Government may make rules prescribing how the additional rents and charges shall be determined, and such rules may also authorise the remission or reduction of the additional rent or charge in special circumstances for reasons which should be recorded.

VII. Nothing contained in this rule shall so operate as to require payment of rent, for the occupation of residences supplied by Government, by those servants of the Crown in India who have been exempted from such payment by order of the Secretary of State in Council, or to affect the amount of rent or charges payable by those servants of the Crown in India, in whose case the amount so payable is prescribed by the Secretary of State in Council.

45C. For the purpose of rules 45A and 45B, "emoluments" means—

(*i*) Pay.

(*ii*) Fees (other than overtime fees) and commission if they are received in addition to pay as part of the authorised remuneration of a post.

(*iii*) Compensatory allowances, other than travelling allowance, whether drawn from general revenues or from a local fund.

(*iv*) Exchange Compensation Allowance.

(*v*) Pension, other than a pension drawn under the provisions of Chapter XXXVIII, Civil Service Regulations, or compensation received under the Workmen's Compensation Act, 1923, as subsequently amended.

It does not include allowances attached to the Victoria Cross, the Military Cross, the Order of British India or the Indian Order of Merit.

NOTE 1.—The emoluments of a Government servant paid at piece-work rates shall be determined in such manner as the Local Government may prescribe.

NOTE 2.—The emoluments of an officer on leave mean the emoluments drawn by him for the last complete calendar month of duty performed by him prior to his departure on leave.

Page 119, Fundamental Rule 81.—In sub-clause (*ii*) of clause (*b*) of this rule, after the words "four months," *insert* the words "or to such Government servant attached to the Kashgar Consulate-General, six months."

(This amendment takes effect from the 7th September 1927.)

Page 128, Fundamental Rule 87.—In the proviso to this rule, after the words "Government servant" *insert* the words "who was in service on the 24th day of August 1927," *substitute* the word "may" for the word "shall," and *add* at the end the words "if this pay be more than the average pay."

(This amendment takes effect from the 24th August 1927.)

Page 129, Fundamental Rule 89.—*Insert* the following at the beginning of this rule and re-number the existing rule as sub-rule (*2*):—

"89. (1) During the first four months of any period of leave on average pay, leave salary is subject to an absolute maximum of Rs. 4,000 per mensem, but this provision shall not apply to any Government servant, not being a member of the Indian Civil Service who held on the 28th September 1927, a post to which a salary is attached exceeding Rs. 4,000 a month, or to the person who at that date held the office of Auditor-General."

(This amendment takes effect from the 28th September 1927.)

Page 134, Fundamental Rule 94.—*Substitute* the following for clause (*a*) of the rule:—

"(*a*) Governors and Lieutenant-Governors, members of the Executive Council of the Governor-General, or of a Governor or Lieutenant-Governor during their tenure of office as such."

(This amendment takes effect from 28th September, 1927.)

Page 136, Fundamental Rule 97.—Substitute the following for this rule:—

"97. (1) When a Government servant, who has held the office of Governor, Lieutenant-Governor, or Member of the Executive Council of the Governor-General, or of a Governor or Lieutenant-Governor, takes leave after vacating such office, there shall be credited in his leave account a period equivalent to the leave which would have been earned under the rules in sections I to V if the duty rendered as Governor, Lieutenant-Governor, or Member had been rendered in one of the posts to which these rules apply; and any leave which he has taken during his tenure of office shall be debited to his leave account in the same way as if he had taken leave on half average pay under these rules. His leave salary will be subject to the maxima laid down in rule 89.

"(2) If leave is taken immediately on vacating any of the offices referred to in sub-rule (*1*), or the post of Chief Commissioner, the Government servant shall not retain, while on leave, a lien on the post which he has vacated, and, if he held such post substantively, may be left without a lien on any permanent post."

(This amendment takes effect from the 28th September 1927.)

Page 130, Fundamental Rule 90.—Substitute the following for Note 2 to this rule:—

"NOTE 2.—In the case of a military commissioned officer the minimum leave salary during such leave as may be added under rule 77 (*c*) to the leave earned by duty under these rules, or under the European Service Leave Rules of the Civil Service Regulations in the case of an officer who was subject thereto on the 31st December 1921, shall be that prescribed by the Military Rules to which the officer was subject immediately before he came under these rules or under the European Service Leave Rules of the Civil Service Regulations as the case may be. In the case, however, of an officer of the Royal Engineers who elects to take leave under Civil Leave Rules after completing 5 years' service the minimum for so much of the leave credited as has been earned by service in civil employment shall be at the rate of £55½ out of Asia, and Rs. 555 in Asia, or the pay last drawn by him on duty, whichever is less."

(This amendment takes effect from the 1st January 1922.)

Page 5, Fundamental Rule 9.—In clause (2) after proviso (*b*) of this rule *insert* the following:—

"(*c*) The average pay of a military officer who is granted rent-free quarters and thereby foregoes lodging allowance in lieu thereof, shall, if he gives up such quarters before going on leave, be calculated as though he had been drawing during the period of occupation the lodging allowance to which he would otherwise have been entitled."

(This amendment takes effect from the 20th December 1927.)

Page 11, Fundamental Rule 9.—In paragraph (*b*) of clause (21) of this rule after the word "officer" *insert* the following:—

"In receipt of the rates of pay introduced on July 1, 1924, pay includes the amount which he receives monthly under the following designations—

(*i*) Pay of appointment, lodging allowance and marriage allowance; and

(*ii*) Pay of rank, command pay, additional pay, Indian Army allowance, lodging allowance and marriage allowance;

In the case of a military officer in receipt of the rates of pay in force before July 1, 1924."

Page 114, Fundamental Rule 75A.—Insert the following at the end of this rule:—

"unless in the case of a person to whom the proviso in sub-rule 2 (*a*) of Rule 75 does not apply it is proved to the satisfaction of the appointing authority that he did not have his domicile in Asia on that date."

(This amendment takes effect from the 24th July 1923.)

Page 5, Fundamental Rule 9.—For proviso (*b*) to clause (2) in this rule *substitute* the following:—

"(*b*) In the case of an officer of the Royal Engineers who entered civil employ on or before the 17th September 1925 and who, during any period of the preceding twelve months, has undergone military training by being attached to a unit for one month, his pay for that particular month shall be assumed to be the pay which he drew in the month immediately preceding his training."

Page 85, Fundamental Rule 51.—Omit the words "subject to a minimum rate of 1*s.* 6*d.* per rupee" occuring at the end of this rule.

(This amendment takes effect from the 17th January 1928.)

Page 115, Fundamental Rule 77.—In sub-clause (*3*) of clause (*c*) of this rule, after the words "five-twenty seconds" *insert* the words "or two-elevenths,", and after the word "date" *insert* the words "according as he is subject to the special leave rules or the ordinary leave rules."

Page 117-8, Fundamental Rule 78.—In clause (*n*) of Note 2 of this rule, after the word "rules" where it occurs for the first time *insert* the words "other than such an officer who became subject to these rules after 1928 and is subject to the ordinary leave rules.".

Page 128, Fundamental Rule 88.—In the Note to this rule, for the words "subject to these rules" *substitute* the word "subject to the special leave rules.".

Page 130, Fundamental Rule 90.—In Note 1 to this rule, after the word "officers" *insert* the words "subject to the special leave rules,", and after the word "India" where it occurs for the first time, and after the word "Persia" *insert* the words "elsewhere than in Ceylon.".

Page 84, Fundamental Rule 49.—*Substitute* the words "pay (excluding overseas pay)" for the words "rupee pay" in clause (*b*) of this rule.

(This amendment takes effect from the 13th March 1928.)

Page 15, Subsidiary Rule 7.—*Add* the following:—

"NOTE.—Deputy Inspectors-General of Bengal Police are also empowered to condone variation from the age-limit"

Page 97, Fundamental Rule 65.—*Substitute* the following for clause (*a*) to the rule:—

(*a*) If a Government servant, who quits the public service on compensation or invalid pension or gratuity, is re-employed, and if this gratuity is thereupon refunded or his pension held wholly in abeyance, his past service thereby becoming pensionable on ultimate retirement, he may, at the discretion of the authority sanctioning the re-employment and to such extent as that authority may decide, count his former service towards leave.

Land Acquisition.

NOTIFICATIONS.

No. 18853L.A.—The 13th November 1928.—The following agreement is published for general information.

Burdwan.

W. H. NELSON,
Secretary to the Government of Bengal (offg.).

AGREEMENT.

MEMORANDUM OF AGREEMENT made this 10th day of November 1928, between the Indian Iron and Steel Company Ltd. (a Company registered under the Indian Companies Act, 1892) and having its registered office at Hongkong House in the City of Calcutta (hereinafter called the Company) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of the extension of the Works, viz., the development of Iron and Steel industry of the province the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of the piece or parcel of land (containing 0·30 acre or thereabout situate in the village of Nursingband, pargana Shergarh in the district of Burdwan) and more particularly described in the Schedule hereto and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal being satisfied on the report of the Collector that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

And whereas the said Government of Bengal has required the Company under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows:—

1 On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made or by the Court or Courts to which an appeal from the award of the said court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid courts or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligations of the Company under the last preceding clause not being thereby limited the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Colletor, may in anticipation estimate to be necessary for the purpose mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing first clause or in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the second clause) but not before possession shall have been taken under the provisions of the above-mentioned Act the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purposes of such an extension of the Works as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said extension of the Works shall be completed (and fully equipped in all respects ready for use) within five years from the date on which possession of the said land shall have been given to the Company.

6. Should the said Works not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twenty-four consecutive months, to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause then and in any such case the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon whether such buildings were erected before or after transfer of the land to the Company and thereupon the interest of the Company in the said land and buildings shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(*i*) Should the said Government sell the said land with the buildings the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company.

* Not printed herewith, but may be inspected in the office of the Special Land Acquisition Officer, Burdwan.

(*ii*) Should the said Government decide not to sell the land and buildings the said Government shall retain the said land and buildings thereon in which case the Secretary of State shall repay to the Company the market value as on the day of re-entry of all the buildings erected by the Company and all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of trees and buildings which are not in existence at the time of resumption) but will not repay any sums paid and received on account of costs, charges and expenses.

(*iii*) Should the said Government decide to sell the buildings only, upon such sale the Secretary of State after deducting the expenses of taking possession and selling pay the balance of the proceeds of sale to the Company together with the sum received from the Company in respect of the compensation for the land (less the statutory allowance of 15 per cent. and less any amount received from the Company on account of trees and buildings which are not in existence at the time of resumption) but will not repay any sum paid and received on account of costs, charges and expenses.

8. The Company shall give reasonable facilities to the public to enjoy the benefits of the acquisition of the said land and to this intent undertakes to comply with the following conditions and on terms as may be agreed upon with Government from time to time:—

(*a*) The Company shall furnish at its own expense 12 hydrants at convenient places outside the Works for the supply of drinking water to the public and shall supply such hydrants with a constant sufficient supply of water from the water works installed by the Company for its Works.

(*b*) The Company shall train not less than 8 apprentices per annum in the various processes carried on the Company's Works. The selection of such apprentices shall be made by the Company annually from a number of candidates nominated by the Director of Industries, Bengal, or such other officer as may be nominated by Government for the purpose. The Company shall not charge any fees or premium of any kind for such training.

9. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any convenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 14th November 1928.

Summary.—The week was practically rainless. Preparatory tillage for spring crops and their sowings are progressing favourably. Reaping of winter paddy is continuing in some districts. The outlook of spring crops is promising on the whole. Distress continues to prevail in parts of Murshidabad, Birbhum and Bankura. In the latter two districts the number of persons employed on test relief works was reported as 2,173 and 12 respectively. The average price of common rice for the Province has slightly risen as compared with that of the previous week.

DACCA, *the 16th November 1928.*

J. C. ROY, for *Director of Agriculture, Bengal.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for October 1928.

I. **Character of the season.**—During the month under review the rainfall was decidedly above the average especially in North and East Bengal. The usual rainfall statement is appended

II. **Progress of agricultural operations.**— Ploughing of fields for early spring crops and their sowings continued favourably. Harvesting of autumn crops were nearly finished.

III. **State of standing crops.**—Good rainfall during the month materially helped the development of transplanted winter paddy and the outturn in the affected districts remarkably improved. A normal outturn is expected for the province as a whole.

IV. **Prospects and probable outturn.**—The prospects of winter paddy were generally very satisfactory. The outturn of the sugarcane crop is expected to be 79 per cent. of the normal.

V. **Damage to standing crops.**—No damage except that by insect-pests in places of Nadia is reported.

VI. **Condition of agricultural stock.**—The condition of livestock was generally fair. Sporadic cases of cattle-disease were, however, reported from seven districts.

VII. **Failure of pasturage and fodder.**—The supply of fodder was generally sufficient except in parts of Murshidabad, Birbhum and Dinajpur where some shortage was reported.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in seven districts, fell in six and remained stationary in the rest of the province. It ranged from 8 seers per rupee at Burdwan to 5 seers per rupee at Rangpur and Faridpur.

IX. **Condition of agricultural population.**—The condition of the agricultural population was fair, on the whole, except in parts of Birbhum and Bankura where distress continued to prevail owing to a partial failure of the last winter rice crop. Test relief works continued to help the people of these districts. During the early part of the month test works have again been opened in parts of Murshidabad.

RESOLUTION ON THE ANNUAL REPORT OF THE DEPARTMENT OF AGRICULTURE FOR 1927-28.

GOVERNMENT OF BENGAL.

Agriculture and Industries Department.

Agriculture.

CALCUTTA THE 16TH NOVEMBER 1928.

RESOLUTION—No. 5531.

Minister-in-charge: The Hon'ble Raja Bhupendra Narayan Sinha Bahadur, of Nashipur.

READ—

The Annual Report of the Department of Agriculture for 1927-28.

Administration.—Mr. R. S. Finlow, Director of Agriculture, Mr. K. McLean, Assistant Director of Agriculture Dr. G. P. Hector, Economic Botanist, Mr. D. Dutta, who occupied the post of Second Economic Botanist, and Mr. F. J. Gossip, Live Stock Expert, held charge of their respective offices throughout the year. Mr. M. Carbery, Agricultural Chemist, was on leave for 6 months during the year and Babu Gosto Behari Pal, Assistant Agricultural Chemist, performed his duties in his absence.

The Western Circle was in charge of Mr. J. N. Sarkar, officiating Deputy Director of Agriculture, and the Northern Circle was in charge of Mr. A. R. Malik, a temporary officer, throughout the year. In the Eastern Circle Mr. F. Smith, Deputy Director of Agriculture, was on leave for 5 months and his duties were carried out in his absence by Rai Sahib J. K. Biswas.

The post of Headmaster, Dacca Secondary Agricultural School, which has now been raised to the status of a provincial service post, was held by Babu Raj Nath Roy. This change of status was made in view of extra responsibilities involved in the training of teachers from high English and middle English schools which is now undertaken there in connection with the introduction of teaching on agricultural subjects in such schools.

The Board of the Department of Agriculture and the Bengal Silk and the Bengal Cotton Committees met only once each during the year. These are bodies to which Government attaches considerable importance and it is desirable that more frequent and regular meetings should be held.

Since the close of the year under review, the Report of the Royal Commission on Agriculture has been received, and is under careful consideration. A Conference of provincial representatives was called by the Government of India to consider the Commission's proposal and was held at Simla on 1st October 1928. Representatives of this province participated.

2. **Agricultural education.**—The expensive scheme for an Agricultural Institute is still far off realisation owing to want of funds. The Royal Agricultural Commission have recommended such a scheme and have also given their decision as to what they consider to be a suitable standard of qualification for entrance to the Institute, viz., the I.Sc.

As in the previous year, the Secondary Agricultural School at Dacca was far from full. There were only 12 students in the first year of whom 4 left during the session. The Minister in charge is glad to observe that 7 Demonstrators were put through a "refresher" course of one year with beneficial results. The training of teachers in connection with the scheme referred to in paragraph 1 began at this school towards the close of the year under report. It is intended to admit 15 such teachers each year and the course will last for two years. It is obvious that some years must elapse before any conclusion can be drawn as to the success or otherwise of this scheme, for the teachers first have to be taught and then the effects of their teaching over a period of years will have to be watched. It is to be observed that the Royal Agricultural Commission recommend this which is known as the "Punjab" system of education, i.e., the ordinary curriculum combined

with arrangements to give it an agricultural bias, in preference to the purely vocational system to which Loni in Bombay has given its name.

It is gratifying to note that success continues to attend the primary schools which have been opened at Amriti, Piasbari and Kumarpur in connection with the sericultural nurseries.

The results of attempts to induce the sons of cultivators to come to the departmental farms for instruction continue to be disappointingly meagre. Yet it is difficult to see how real progress in modern methods can be attained unless such persons are willing to work in a practical way, i.e., with their own hands. On the other hand, those engaged in sericulture showed great eagerness to learn new methods. There was a marked increase in the numbers of those who came forward for such instruction at all schools except Berhampore and Kumarpur. The numbers thus under training at Piasbari increased from 26 to 115 and at Amriti from 32 to 62.

3. **Research and experiment.**—Work progressed on much the same lines as in the previous year both at the Central Research Station at Dacca and at the different district farms where attention is devoted to local problems, while the research students of Dacca University undertook the investigation of certain problems which were referred to them.

Dr. G. P. Hector's admirable work on rice continues, and he has evolved some promising strains by crossing early and late transplanted rices, one in particular being mentioned which, ripening on 6th November, yielded 39 maunds to the acre. The Director is able to state that the work of popularising the departmental paddies seems to be making really satisfactory progress.

Attention continues to be given to fodder crops. Mr. Finlow states that there is a type of *bajra* under investigation which promises to oust even Japanese millet.

The preparation and use of artificial farm-yard manure was extended to nearly all the farms. Dacca Central Farm made 6,000 maunds of artificial farm-yard manure, as against 3,000 maunds last year, and most farms increased their output.

As regards sugarcane, the popularity of C.O. 213 increased and out of 750,000 cuttings distributed 650,000 were of that variety.

The Director has some extremely interesting observations to make on the subject of irrigation. He points out that the problems is not so much one of distributing water (as in the Punjab) over tracts which are otherwise waterless, but of supplying a comparatively small quantity at the right moment. An irrigation organisation on a comparatively small scale, such as a pumping apparatus to draw water from a *bil* or river, or a tube-well, could supply sufficient moisture to rectify the failure of the monsoon to supply its moisture at a particular season. The extra inch or two at the end of the monsoon which means the difference between a good and an indifferent paddy crop could thus be supplied. Similarly, comparatively inexpensive plant could be utilised to furnish water for the fodder crops which are being recognised more and more to be a crucial factor in the improvement of cattle and which could thus be grown at a time when the land is otherwise lying idle.

It is evident that this matter of irrigation is exciting increased attention and the department is evidently alive to the possibilities of the situation.

The Director's remarks about the *Haor* tract in Mymensingh are interesting. Water-hyacinth has rendered the cultivation of deep-water paddy unremunerative. But the cultivators have come forward with the suggestion that *boro* paddy, a remunerative and high yielding crop, could be grown in the dry season by means of a system of pumping from the rivers. The Director of Agriculture has made arrangements for carrying out an experiment next cold weather, the department applying the pump and the channels being dug by the tenants and the proprietor. The results of this experiment will be important, both in respect of the particular problem to solve which they are being initiated, and also in respect of the information they are expected to furnish as regards this class of irrigation in general.

4. **Agricultural stations and farms.** Dinajpur, Malda and Mainaguri have come practically into full working order. At Rangamati reclamation is not yet completed. Work is in progress on the buildings and on reclamation at the Krishnagar Farm. There are great possibilities at the latter place where the whole of the great area of the "Company Began" has been handed over to the Agriculture Department.

A striking proof of the eagerness of the local inhabitants to learn improved methods of agriculture is to be found in the collection locally of Rs. 2,200 for the establishment of a small demonstration farm at

Rajbari in Faridpur district, which was largely due to the energy of Rai A. K. Mukherjee Bahadur, the then Subdivisional Officer.

The Kalimpong Farm will, with effect from the current year, come more definitely under the control of the department though the Homes and their founder will still continue to be closely connected with it. The Governor, acting with his Minister, desires to take this opportunity of acknowledging the excellent work that this farm, with the influence of Dr. Graham behind it, has done in the past in spreading better seeds, especially maize, wheat and mustard and better methods of farming in the Darjeeling district.

An interesting experiment is going on in Faridpur which was initiated by Mr. Burrows, lately Collector of that district, aided by the District Agricultural Officer, whereby *bhadralok* lads after training on the Faridpur Farm are to be settled on plots of khas-mahal land. The scheme has not yet been in operation long enough to come to any conclusion as to its possibilities.

The Hon'ble Minister desires again to refer with satisfaction to the excellent pioneer work that continues to be carried out on the farms of Rai Kumud Nath Mullick Bahadur at Ranaghat, Kumar Sarat Kumar Ray at Dayarampur, and many others.

5. *Seed distribution.*—Two thousand and sixty-nine maunds of guaranteed departmental jute seed, the whole amount raised, were sold as against 3,708 in the previous year. As before, the Indian Jute Mills Association guaranteed the loss, if any, which might fall on the Government selling agent through not being able to sell the whole of the amount raised, but they were not called upon to fulfil their guarantee. The reason for the smaller quantity produced was that in the previous year the selling agent was left with some quantity on his hands. The producers, therefore, were asked to produce less, and this reduced amount became still less owing to an unfavourable season.

The Director refers with satisfaction to the success of the experiment, which was made possible by the generosity of the London Jute Association, of distributing free packets of departmental jute seed. The Association made a payment of £1,500 which was spent partly in 1927 and partly in the succeeding year. As Mr. Finlow points out, the use of these higher yielding strains means that 25 per cent. more of the land, which was formerly under local varieties, is set free for other food or fodder crops.

Two hundred paddy-seed farms were in operation during the year. There were 270 in the previous year, and it has, as was anticipated last year, been found necessary to curtail the number to ensure more satisfactory working. Orders for 5,265 maunds of seed paddy were received, of which nearly 5,000 maunds were supplied, 74 per cent. of this amount being from private growers. Co-operative Societies play a part in this work of seed distribution which, if extended, will be invaluable. Thus the Naogaon Co-operative Bank purchased 160 maunds of *aus* seed and 700 maunds of *indrasail and dudshar* to distribute among their members. The high yields obtained from departmental *aus* paddy which Dr. Hector reports, ranging from 37½ to 45 maunds per acre or increases of from 3½ to 9 maunds over the local varieties, make the interest thus displayed not unnatural.

6. *Cattle breeding.*—The scheme drawn up by Mr. Gossip to which reference was made in last year's review is in process of being put into operation. It has two branches—(*i*) a premium bull system and (*ii*) an arrangement by which Co-operative Societies either of the ordinary type or formed specially for the purpose will purchase approved bulls and maintain them under supervision for breeding purposes. The district selected for the first working of the scheme is Malda where certain local people have shown great interest in its details. The popularity of good bulls is illustrated by the fact that more than thrice as many cows were covered by departmental bulls this year as compared with the previous year, viz., 769 against 234. The supply of departmental bulls in Bengal is far short of the demand, but provision has been made in the budget in the current year for increasing the herd at Dacca.

A most important event is the strides that have been made in the making of pit-silage since Mr. Gossip has taken charge. He has proved that from October to June as good pit-silage can be made in Bengal as anywhere else. This means that succulent feed can be made available during the dry months to the great advantage of the live-stock. It is gratifying to learn that in consequence of the manufacture of silage, Rangpur Farm instead of having to purchase fodder has had surplus paddy straw for sale. As the Agricultural Commission point out in Chapter VII of their report, the cultivation and storage of fodder crops and not the oft-advocated provision of grazing grounds, is the

key to increased fodder supply, and that the agriculturists know it is proved by the Director's statement that the cultivation of these crops is visibly on the increase.

A Catttle Committee was formed during the year to co-ordinate the work of the different departments of Government which are concerned in this matter.

A scheme has been administratively sanctioned by Government for setting up a properly equipped dairy at Dacca Farm with modern buildings. When funds are available for this, the herd, now housed in old and unsuitable quarters, will be moved there and it will be possible to instruct both Government's own officers and outside pupils as well in the correct methods of cattle management and dairying. The increasing interest in the problem of milk supply in large towns makes the implementing of this scheme a matter of prime importance.

7. **Agricultural associations.**—As in previous years, the quality of work accomplished by the different associations varied to a marked degree. Government have under consideration proposals for a reorganisation of these associations so as to arouse a keener interest among the members and to ensure that the grants given to the associations are spent to better advantage.

8. **Propaganda and exhibitions.**—It is regrettable that want of funds has prevented the appointment of the 7 District Agricultural Officers whose entertainment was administratively approved by Government two years ago. The Hon'ble Minister is satisfied that the department is fully alive to the need of active propaganda. As the Royal Commission has observed in its report, the best propaganda is to be found in the work of the demonstrator growing his improved seed at the door of cultivator. To this might be added the valuable results to be obtained from the ocular demonstration of plots grown under the share system by cultivators themselves as at Kishoreganj, Jamalpur and elsewhere, where one of the conditions on which they hold the land is that they shall grow departmental seeds. In connection with propaganda the Nadia District Board deserves special mention. It organised a touring exhibition containing Public Health, Agriculture and Veterinary Sections which was sent round most parts of the district in December 1927—January 1928. This venture cost the District Board about Rs. 2,200 which includes the price of a cinema machine. Such enterprise is an example of what can be done and its imitation is commended to other local bodies as well worthy of imitation.

Much may be done through Union Boards and the Governor, acting with his Minister, will watch with interest the progress of the experiments in this direction in Faridpur which were initiated by Mr. Burrows when Collector of that district.

The Co-operative Department is contributing appreciably to the work of popularsing improved seeds and the storage facilities which co-operative societies are in a position to provide are a valuable adjunct to the work. The Director of Agriculture also visualises the co-operative purchase of manures and implements, as also the joint financing of irrigation work, as a likely feature of the future.

The training of co-operative officers in agricultural matters by short courses at Dacca Farm is an excellent move which has the hearty approval of Government, and as the Director of Agriculture observes, the corollary to this, i.e., the training of Agricultural Officers in co-operative principles, can be productive of nothing but good.

Exhibitions are a most valuable vehicle for propaganda work, and full use was made of them. Lectures and demonstrations were given by officers of the department, and the magic lanterns, for which funds have been provided in the current year, will form a further means of bringing the work of the department in an attractive form to the notice of the public. The Eastern Bengal Railway exhibition train was again run, and was as in the previous year a great success. The cinema films which are under preparation will it may confidently be expected, be invaluable.

9. **Sericulture.**—The nature of the season, characterised as it was by an unusually prolonged drought together with frost in January, had an unfavourable effect on the mulberry crop, and consequently on the prices obtainable for seed cocoons. Though the output therefore of the 12 Government nurseries increased from 21,083 to 22,512 *kahans*, the prices realised were only Rs. 56,096 as against Rs. 62,192 in the previous year.

Attention continues to be given to the best methods of increasing by scientific manuring the output of leaf on the nurseries, and with success; and it is hoped that a stage may be reached when the purchase of

outside leaf may become unnecessary. The yield of leaf was increased by 5,000 maunds or over 60 per cent. this year. Further reports about the success of the use of tree-mulberry in place of the bush variety which has hitherto been popular will be awaited with interest. The advantage of the tree variety appears to be its greater powers of resistance to drought and its capacity for producing leaf irrespective of the season.

The outturn of seed cocoons by selected rearers fell during the year under report from 19,000 to 15,000 *kahans*, a reduction which is explained by the very unfavourable seasonal conditions. A sensible step was sanctioned by Government during the year in the closing of the sericultural school at Rajshahi and the starting of one at Piasbari in Malda district. Local interest as evidenced by the number of local students, had long been at low ebb in the former place and conditions were far less favourable to proper instruction than they are in Malda. Disappointing as this decision must have been to those who, like Professor H. D. Mukerji, really did take an interest in the work, the Minister feels that it is generally recognised as a right one.

Demonstration work in the villages was continued, especially in the district of Malda and there are unmistakable signs that the work is bearing fruit in the shape of improved methods of rearing and the use of better houses and appliances.

10. The Government of Bengal (Ministry of Agriculture) have read with pleasure the list of names submitted by the Director of Government officers and private persons who have rendered valuable assistance in the cause of agriculture during the past year. It would be invidious to particularise.

The Director himself and his staff deserve congratulation on the completion of another year of valuable work, and for the very prompt submission of the annual report.

In conclusion, the Minister feels bound to state that he has to discharge the duty of reviewing the administration of a year in the policy or supervision of which he had no hand, and so naturally he had to proceed on records as he found them. The difficulties of his delicate task have been further enhanced by the fact that he had to undertake this duty even before he had a reasonable time to shape his own policy.

(Ministry of Agriculture),

Secretary to the Government of Bengal.

CALCUTTA, THE 26TH NOVEMBER 1928.

RESOLUTION—No. 13160A.

The Governor in Council has heard with deep regret of the death in England of Mr. W. A. Marr, C.I.E., I.C.S., on the 18th November 1928. During his service of 32 years, Mr. Marr was in charge of some of the most important districts in Bengal, and after acting as a Commissioner on three occasions, he was confirmed in that grade in July 1925. He had recently been selected for the important appointment of Member of the Board of Revenue. His work was marked by exceptional ability and devotion to duty, and by his intimate knowledge of the problems of rural Bengal, in which he preferred to serve. His Excellency in Council desires to record his profound regret at the loss of an officer whose advice he highly valued, and to convey his sincere condolences to the relatives of Mr. Marr.

No. 19174L.A.—The 19th November 1928.—The following agreement is published for general information. 24-Parganas.

W. H. NELSON,

Secretary to the Government of Bengal (offg.).

AGREEMENT.

Memorandum of agreement made this 16th day of November 1928, between the Taki Central Co-operative Bank, Limited, a registered Society within the meaning of the Co-operative Societies Act, 1912, and having its registered office at Basirhat in the district of 24-Parganas (hereinafter called the Society) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of the construction of an office building and other necessary out-houses for the Taki Central Co-operative Bank, Ltd., the Society has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, I of 1894, of the piece of land containing 0·159 of an acre or thereabout situate in the village of Saipala in the district of 24-Parganas and more particularly described in the schedule hereto and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Society the piece of land hereinbefore described.

And whereas the said Government of Bengal has required the Society under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows:—

1. On demand the Society shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the court to which a reference under Part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligations of the Society under the last preceding clause not being thereby limited, the Society shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Society of all demands under the foregoing first clause, or, in the discretion of the said Government of Bengal (on deposit by the Society of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the abovementioned Act, the Secretary of State shall make over possession of the said land to the Society and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Society.

4. The said land shall be held by the Society for the purposes of its office buildings and other necessary out-houses as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said office buildings and other necessary out-houses shall be completed and fully equipped in all respects ready for use within one year from the date on which possession of the said land shall have been given to the Society.

6. Should the said office buildings and other necessary out-houses be not completed and fully equipped in all respects ready for use within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twelve consecutive months, to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause then and in any such case, the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon, whether such buildings were erected before or after transfer of the land to the Society and thereupon the interest of the Society in the said land and buildings shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(i) Should the said Government sell the land with the buildings the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Society.

* Not printed herewith, but may be inspected in the office of the Collector of the 24-Parganas, Alipore.

(ii) Should the said Government decide not to sell the land and buildings, the said Government shall retain the said land and buildings thereon in which case the Secretary of State shall repay to the Society the market value as on the day of re-entry of all the buildings erected by the Society and all sums received from the Society in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sums paid and received on account of costs, charges and expenses.

(iii) Should the said Government decide to sell the buildings only, upon such sale the Secretary of State after deducting the expenses of taking possession and selling, pay the balance of the proceeds of sale to the Society, together with the sum received from the Society in respect of the compensation for the land (less the statutory allowance of 15 per cent. and less any amount received from the Society on account of trees and buildings which are not in existence at the time of resumption) but will not repay any sum paid and received on account of costs, charges and expenses.

8. The public shall be entitled to use the land and buildings thereon for purposes incidental to the business and management of the Society within the hours during which the office will remain open.

9. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

In witness whereof (1) Babu Radhika Prasanna Chakrabarty, Deputy Chairman, (2) Maulvi Md. Sakhawatulla, Joint Secretary, (3) Munshi Sk. Abdur Raffey, Director and duly constituted attorney of the Taki Central Co-operative Bank, Limited, and W. H. [ILLEGIBLE], *for* Collector.

Advertisement of sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Nadia will be put up to sale at the Nadia Collectorate, Krishnagar, on the 11th January 1929, corresponding with 27th day of Poush 1335.

Conditions of sale.

1st—The estates to be sold to the highest bidders above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to revenue fixed for the term of the current settlement and liable to revision at each successive settlement.

2nd—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the Schedule of assessment prepared by the Revenue authorities.

3rd—If the amount of purchase money do not exceed Rs. 100 the whole amount to be paid down at once.

4th—If the amount of purchase money exceed Rs. 100 one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale :—

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

Acts of the Indian Legislature assented to by the Governor-General.

GOVERNMENT OF INDIA.

Legislative Department.

The following Act of the Indian Legislature received the assent of the Governor-General on the 20th September, 1928, and is hereby promulgated for general information:—

ACT No. XII OF 1928.

An Act to amend the Hindu Law relating to exclusion from inheritance of certain classes of heirs, and to remove certain doubts.

WHEREAS it is expedient to amend the Hindu Law relating to exclusion from inheritance of certain classes of heirs, and to remove certain doubts; It is hereby enacted as follows:—

Short title, extent and application.

1. (*1*) This Act may be called the Hindu Inheritance (Removal of Disabilities) Act, 1928.

(*2*) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

(*3*) It shall not apply to any person governed by the Dayabhaga School of Hindu Law.

Persons not to be excluded from inheritance or rights in joint-family property.

2. Notwithstanding any rule of Hindu Law or custom to the contrary, no person governed by the Hindu Law, other than a person who is and has been from birth a lunatic or idiot, shall be excluded from inheritance or from any right or share in joint-family property by reason only of any disease, deformity, or physical or mental defect.

Saving and exception.

3. Nothing contained in this Act shall affect any right which has accrued or any liability which has been incurred before the commencement thereof, or shall be deemed to confer upon any person any right in respect of any religious office or service or of the management of any religious or charitable trust which he would not have had if this Act had not been passed.

L. GRAHAM,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

Legislative Department.

The following Act of the Indian Legislature received the assent of the Governor-General on the 20th September, 1928, and is hereby promulgated for general information: —

ACT No. XIII OF 1928.

An Act further to amend the Indian Mines Act, 1923, for certain purposes.

WHEREAS it is expedient further to amend the Indian Mines Act, 1923, for certain purposes; It is hereby enacted as follows:— IV of 1923.

Short title and commencement.

1. (*1*) This Act may be called the Indian Mines (Amendment) Act, 1928.

(*2*) This section and section 7 shall come into force at once, and the remaining provisions of this Act shall come into force on the 7th day of April, 1930.

Amendment of section 23, Act IV of 1923.

2. In section 23 of the Indian Mines Act, 1923 (hereinafter referred to as the said Act), IV of 1923.—

(*a*) after clause (*c*) the following clause shall be inserted, namely:—

"(*d*) for more than twelve hours in any consecutive period of twenty-four hours "; and

(*b*) the section as so amended shall be numbered as sub-section (*1*), and the following sub-section shall be added, namely:—

"(*2*) No person shall employ or permit to be employed in a mine any person whom he knows or has reason to believe to have already been employed in any other mine during the preceding twelve hours."

Insertion of new sections 23A and 23B in Act IV of 1923.

3. After section 23 of the said Act the following sections shall be inserted, namely:—

Limitation of working hours.

"23A. Work shall not be carried on in any mine for a period exceeding twelve hours in any consecutive period of twenty-four hours except by a system of shifts so arranged that not more than one shift of persons employed in work of the same kind shall be at work in the mine at the same time.

Notices regarding hours of work.

23B. (*1*) The manager of every mine shall cause to be posted outside the office of the mine a notice in the prescribed form stating the time of the commencement and of the end of work at the mine and, if it is proposed to work by a system of shifts, the time of the commencement and of the end of work for each shift. A copy of each such notice shall be sent to the Chief Inspector, if he so requires.

(*2*) In the case of a mine at which mining operations commence after the 14th day of April, 1930, the notice referred to in sub-section (*1*) shall be posted not less than seven days before the commencement of work.

(*3*) Where it is proposed to make any alteration in the time fixed for the commencement or for the end of work in the mine generally or for any shift, an amended notice in the prescribed form shall be posted outside the office of the mine not less than seven days before the

change is made and a copy of such notice shall be sent to the Chief Inspector not less than seven days before such change, if he so requires or if the original notice was sent to him."

Amendment of sections 24 and 25, Act IV of 1923.

4. In sections 24 and 25 of the said Act, after the word and figures "section 23" the words, figures and letter "or section 23A" shall be inserted.

Amendment of section 28, Act IV of 1923.

5. (*1*) Section 28 of the said Act shall be renumbered as sub-section (*1*) of section 28, and to that sub-section after the word "employments" the following shall be added, namely:—

"and, where work is carried on by a system of shifts, of the shift in which each such person works."

(*2*) To the same section the following sub-section shall be added, namely:—

"(*2*) No person shall be employed in a mine until the particulars required by sub-section (*1*) have been recorded in the register in respect of such person, and no person shall be employed except during the hours of work specified for him in the register."

Amendment of section 30, Act IV of 1923.

6. In section 30 of the said Act, after clause (*c*), the following clause shall be inserted, namely:—

"(*cc*) for prescribing the forms of notices required under section 23B, and for requiring such notices to be posted also in specified vernaculars."

Amendment of section 31, Act IV of 1923.

7. In section 31 of the said Act,—

(*a*) in sub-section (*3*), the words "or rule", in both places where they occur, the words "in the case of a regulation", and the words "and in the case of a rule to every Mining Board constituted in the province" shall be omitted; and

(*b*) after sub-section (*3*) the following sub-section shall be inserted, namely:—

"(*3A*) No rule shall be made unless the draft thereof has been referred to every Mining Board constituted in the province for which it is proposed to make the rule, and unless each such Board has had a reasonable opportunity of reporting as to the expediency of making the same and as to the suitability of its provisions."

The following Act of the Indian Legislature received the assent of the Governor-General on the 25th September, 1928, and is hereby promulgated for general information:—

ACT No. XV OF 1928.

An Act to amend the Indian Trade Unions Act, 1926, for a certain purpose.

WHEREAS it is expedient to amend the Indian Trade Unions Act, 1926, for the purpose hereinafter appearing; It is hereby enacted as follows:— XVI of 1926.

Short title.

1. This Act may be called the Indian Trade Unions (Amendment) Act, 1928.

Substitution of new section for section 11, Act XVI of 1926.

2. For section 11 of the Indian Trade Unions Act, 1926, the following section shall be substituted, namely:— XVI of 1926.

Appeal.

"11. (*1*) Any person aggrieved by any refusal of the Registrar to register a Trade Union or by the withdrawal or cancellation of a certificate of registration may, within such period as may be prescribed, appeal—

(*a*) where the head office of the Trade Union is situated within the limits of a Presidency-town or of Rangoon, to the High Court, or

(*b*) where the head office is situated in any other area, to such Court, not inferior to the Court of an additional or assistant Judge of a principal Civil Court of original jurisdiction, as the Local Government may appoint in this behalf for that area.

(*2*) The appellate Court may dismiss the appeal, or pass an order directing the Registrar to register the Union and to issue a certificate of registration under the provisions of section 9 or setting aside the order for withdrawal or cancellation of the certificate, as the case may be, and the Registrar shall comply with such order.

(*3*) For the purpose of an appeal under sub-section (*1*) an appellate Court shall, so far as may be, follow the same procedure and have the same powers as it follows and has when trying a suit under the Code of Civil Procedure, 1908, and may direct by whom the whole or any part of the costs of the appeal shall be paid, and such costs shall be recovered as if they had been awarded in a suit under the said Code. V of 1908.

(*4*) In the event of the dismissal of an appeal by any Court appointed under clause (*b*) of sub-section (*1*), the person aggrieved shall have a right of appeal to the High Court, and the High Court shall, for the purpose of such appeal, have all the powers of an appellate Court under sub-sections (*2*) and (*3*), and the provisions of those sub-sections shall apply accordingly."

GOVERNMENT OF INDIA.

Legislative Department.

The following Act of the Indian Legislature received the assent of the Governor General on the 25th September, 1928, and is hereby promulgated for general information:—

ACT No. XX OF 1928.

An Act further to amend the Indian Life Assurance Companies Act, 1912, for certain purposes, and to provide for the collection of statistical information in respect of insurance business other than life assurance business.

WHEREAS it is expedient further to amend the Indian Life Assurance Companies Act, 1912, for certain purposes hereinafter appearing, and to provide for the collection of statistical information in respect of insurance business other than life assurance business; It is hereby enacted as follows:— VI of 1912

PART I.

Preliminary.

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Insurance Companies Act, 1928.

(*2*) It extends to the whole of British India, including British Baluchistan and the Southal Parganas.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

PART II.

Amendments to the Indian Life Assurance Companies Act, 1912.

Amendment of section 7, Act VI of 1912.

2. (*1*) Section 7 of the Indian Life Assurance Companies Act, 1912 (hereinafter in this Part referred to as the said Act), shall be re-numbered as sub-section (*1*) of that section, and to that sub-section, as so re-numbered, after clause (*b*) the following clauses shall be added, namely:— VI of 1912.

"(*c*) a statement showing—

(A) as regards new policies of life assurance in respect of which a premium has been paid in the year of account,—

(*i*) the number of policies,

(*ii*) the sums assured,

(*iii*) the amount received by way of single premiums (including all premiums paid at the outset where no subsequent premium is payable), and

(*iv*) the amount of yearly renewal premium income;

(B) as regards total life assurance business,—

(*i*) the number of policies in force at the end of the year of account,

(*ii*) the sum assured (including reversionary bonus additions thereto) under policies in force at the end of the year of account, and

(*iii*) the premium income for which credit is taken in the revenue account;

(C) as regards claims, the amount of the claims paid in the year of account under policies effected in India—

(*a*) to claimants in India, and

(*b*) to claimants outside India;

(*f*) a statement showing, in such forms as the Governor General in Council may prescribe, a classified summary of the investments of the company in India in government securities and in Indian concerns and the other Indian assets held by the company."

(*2*) To the same section as re-numbered the following sub-section shall be added, namely:—

"(*2*) For the purposes of clause (*e*) of sub-section (*1*), all items required to be stated shall be net amounts after deduction of the re-insurances of the company's risks, and for the purposes of sub-clauses (A) and (B) of that clause—

(*a*) the statement shall show separately the numbers and amounts in respect of policies effected in, and policies effected outside, India;

(*b*) where a sum assured is payable periodically, whether by way of an annuity or otherwise, it shall be stated separately from lump sum payments; and

(*c*) policies of assurance upon the lives of a group of persons whereby sums assured are payable in respect of several persons included in the group shall be excluded from the statement and be shown in a separate statement containing the like particulars."

Insertion of new section 26A in Act VI of 1912.

3. After section 26 of the said Act the following section shall be inserted, namely:—

Application of surplus assets in liquidation.

"26A. In the winding up of a life assurance company in a case where any proportion of the profits of the company was before the commencement of the winding up allocated to policy-holders, if, when the assets and liabilities of the company have been ascertained, there is found to be a surplus of assets over liabilities (hereinafter referred to as a *prima facie* surplus), there shall be added to the liabilities of the company in respect of its life assurance business an amount equal to such proportion of the *prima facie* surplus as is equivalent to such proportion of the profits allocated to shareholders and policy-holders as was allocated to policy-holders during the ten years immediately preceding the commencement of the winding up, and the assets of the company shall be deemed to exceed its liabilities only in so far as those assets exceed those liabilities after such addition as aforesaid:

Provided that, if in any case there has been no such allocation, or if it appears to the Court that by reason of special circumstances it would be inequitable that the amount to be added to the liabilities of the company in respect of the life assurance business should be an amount equal to such proportion as aforesaid, the amount to be so added shall be such amount as the Court may direct."

Amendment of section 33, Act VI of 1912.

4. In section 33 of the said Act, for the words and figures "sections 7 to 12" the words, figures and letters "clauses (*a*), (*b*), (*c*) or (*d*) of sub-section (*1*) of section 7, sections 8 to 12," shall be substituted.

Amendment of the First Schedule, Act VI of 1912.

5. Statement (D) in the First Schedule to the said Act shall be omitted.

PART III.

Provisions as to Insurance Business other than Life Assurance Business.

Definitions.

6. In this Part, unless there is anything repugnant in the subject or context,—

(*a*) "certified,", in relation to any copy or translation of a document required to be furnished by or on behalf of an insurance company, means certified by a responsible officer of the company to be a true copy or a correct translation, as the case may be;

(*b*) "insurance company" means any person who transacts in British India the business of effecting contracts of insurance against any risk;

(*c*) expressions used in this Act and defined in the Indian Life Assurance Companies Act, 1912, shall have the meanings assigned to them respectively in that Act. VI of 1912.

Deposit of accounts, etc., with Governor General in Council.

7. Every insurance company which does not transact life assurance business in British India shall, within six months after the close of each financial year or within such further period as the Governor General in Council may in any case for special reasons allow, deposit with the Governor General in Council four copies of every report on the affairs of the company, and of every balance sheet, revenue account and profit and loss account, in respect of that year, which has been submitted to its shareholders or policyholders, and also, in the case of a company whose head office is situated outside British India, four copies of such of the aforementioned documents as are required by law to be submitted to the Government of the country in which the head office is situated.

Statements to be appended to revenue account.

8. The following statements shall be appended to every revenue account (other than a life assurance revenue account) deposited by an insurance company with the Governor General in Council in compliance with section 7 or with the provisions of the Indian Life Assurance Companies Act, 1912, as respects the year VI of 1912. and the class of insurance business to which the revenue account relates, namely, statements showing—

(1) in respect of premium income for which credit is taken in the revenue account, the amount of premiums derived from business effected in India,

(2) in respect of claims, the amount of the claims paid in the year of account under policies effected in India—

(*a*) to claimants in India, and

(*b*) to claimants outside India.

Statement of Indian assets.

9. There shall be appended to every balance sheet deposited by an insurance company with the Governor General in Council in compliance with section 7 a statement showing, in such form as the Governor General in Council may prescribe, a classified summary of the investments of the company in India in government securities and in Indian concerns and the other Indian assets held by the company.

Signing of documents.

10. At least one copy of every document deposited by an insurance company with the Governor General in Council in accordance with the requirements of section 7, section 8 or section 9 shall be signed in the manner provided in section 11 of the Indian Life Assurance Companies Act, 1912. VI of 1912.

Certified copies of vernacular documents.

11. If any portion of any document required to be deposited under section 7, section 8 or section 9 by an insurance company with the Governor-General in Council is not written in the English language, a certified translation thereof shall be furnished along with each copy of the document.

Particulars to be filed.

12. Every insurance company which does not transact life assurance business in British India shall, within one month from the commencement of this Act or before it begins to carry on business, whichever is later, furnish to the Governor-General in Council—

(*a*) the full address of the principal office of the company in British India;

(*b*) the names of the directors, the principal officer and the auditor of the company in British India;

(*c*) a statement of the classes of insurance business carried on or intended to the carried on by the company in British India;

(*d*) a certified copy of the charter, statutes, deed of settlement or memorandum and articles of the company, or other instrument constituting or defining the constitution of the company, and, if the instrument is not written in the English language, a certified translation thereof;

(*e*) in the case of any such company established outside British India, the names and addresses of some one or more persons resident in British India, authorised to accept on behalf of the company service of process and any notice required to be served on the company;

and, in the event of any alteration being made in the address of the principal office or in such classes of business or in any such instrument as aforesaid or in the name of any such person, the company shall forthwith furnish to the Governor General in Council particulars of the alteration.

Custody and inspection of documents.

13. Every document deposited with the Governor General in Council, in compliance with section 7, section 8 or section 9, or a certified copy of such document, shall be kept by the Registrar, and any such documents or copies shall be open to inspection, and any person may procure a copy of any such document or of any part thereof on payment of a fee of six annas for every hundred words or fractional part thereof required to be copied.

Evidence of documents.

14. (*1*) Every document deposited with the Governor General in Council in compliance with section 7, section 8 or section 9 which has been certified by the Registrar to be a document so deposited shall be deemed to be a document so deposited.

(*2*) Every such document purporting to be certified by the Registrar to be a copy of a document so deposited shall be deemed to be a copy of that document, and shall be received in evidence as if it were the original document, unless some variation between it and the original document be proved.

Summary of accounts, etc., to be published.

15. The Governor General in Council shall, from time to time, cause to be published, in such manner as he may direct, a summary of the accounts, balance sheets and statements deposited with him in compliance with section 7, section 8 or section 9, and may append to such summary any note of the Governor General in Council thereon and any correspondence in relation thereto.

Penalty for non-compliance with Act.

16. Any insurance company which makes default in complying with any of the requirements of this Part, and every director, manager or secretary, or other officer or agent of, or partner in, the company who is knowingly a party to the default, shall be punishable in the manner provided in section 34 of the Indian Life Assurance Companies Act, 1912. VI of 1912.

Penalty for falsifying documents.

17. If any account, balance sheet, statement or other document required by the provisions of section 7, section 8 or section 9 is false in any particular to the knowledge of any person who signs it, such person shall be punishable in the manner provided in section 35 of the Indian Life Assurance Companies Act, 1912. VI of 1912.

Cognizance of offences.

18. No Court inferior to that of a Presidency Magistrate or a Magistrate of the first class shall try any offence under this Act.

Application of Part III to re-insurance business.

19. A person transacting the business of re-insuring contracts of insurance effected by any other person in the course of any class of business other than life assurance business shall not, by reason only of that fact, be deemed to be transacting insurance business of that class.

Exemption.

20. The Governor General in Council may, by notification in the Gazette of India and subject to such restrictions and conditions as he thinks fit, exempt from all or any of the provisions of this Act any provident insurance society registered under the Provident Insurance Societies Act, 1912. V of 1912.

Secretary to the Government of India.

GOVERNMENT OF INDIA.

Legislative Department.

The following Act of the Indian Legislature received the assent of the Governor General on the 29th September, 1928, and is hereby promulgated for general information:—

ACT No. XXI OF 1928.

An Act further to amend the Indian Succession Act, 1925, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Succession Act, 1925, for the purpose hereinafter appearing; It is hereby enacted as follows:— XXXIX of 1925.

Short title.

1. This Act may be called the Indian Succession (Second Amendment) Act, 1928.

Amendment of section 213, Act XXXIX of 1925.

2. In sub-section (*2*) of section 213 of the Indian Succession Act, 1925, for the word and figures "section 57" the words, figures and brackets, "sub-section (*1*) of section 57" shall be substituted. XXXIX of 1925.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Legislative Assembly on the 4th September 1928:—

L. A. BILL No. 27 OF 1928.

A Bill further to amend the Indian Succession Act, 1925, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Succession Act, 1925, for the purpose hereinafter appearing; It is hereby enacted as follows:— XXXIX of 1925.

Short title.

1. This Act may be called the Indian Succession (Amendment) Act, 192 .

Amendment of section 213, Act XXXIX of 1925.

2. In sub-section (*2*) of section 213 of the Indian Succession Act, 1925, for the word and figures " section 57 " the words, figures and brackets " sub-section (*1*) of section 57 " shall be substituted. XXXIX of 1925.

STATEMENT OF OBJECTS AND REASONS.

The Indian Succession (Amendment) Act, 1926 (XXXVII of 1926) was passed with a view to give effect to the recommendation of the Civil Justice Committee that all wills made by Hindus, Buddhists, Sikhs and Jains, even in areas outside those where section 57 of Act XXXIX of 1925 is in force, should be required to be reduced to writing, signed and attested. But it was not intended that the requirement of probate or letters of administration should apply to such wills. The new provision was inserted as clause (*2*) of section 57. No corresponding change was, however, made in section 213 exempting the wills specified in clause (*2*) of section 57 from the requirement of probate or letters of administration. The present Bill gives effect to the original intention and excludes wills falling under clause (*2*) of section 57 from the operation of clause (*1*) of section 213 by amendment of sub-section (*2*) of the latter section.

J. A. SHILLIDY.

L. GRAHAM,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Legislative Assembly on the 4th September 1928:—

L. A. BILL No. 29 OF 1928.

A Bill further to amend the Indian Penal Code for a certain purpose.

WHEREAS it is expedient further to amend the Indian Penal Code for the purpose hereinafter appearing; It is hereby enacted as follows:— XLV of 1860.

Short title.

1. This Act may be called the Indian Penal Code (Amendment) Bill, 1928.

Amendment of section 505, Act XLV of 1860.

2. In section 505 of the Indian Penal Code, after clause (*c*) the following clause shall be inserted, namely:— XLV of 1860.

"or

(*d*) with intent to promote, or which is likely to promote, unfriendly relations between His Majesty's Government and the Government of any Foreign State."

STATEMENT OF OBJECTS AND REASONS.

This Bill is designed to fill a dangerous gap in the Indian law, the existence of which has recently been revealed. There is no provision in the Indian Penal Code which penalises statements made with the intention of, or which are likely to have the effect of, interfering with the peaceful relations between India and a foreign country. The Bill adds a clause to section 505 of the Indian Penal Code, under which prosecution cannot be undertaken without sanction under section 196 of the Code of Criminal Procedure, 1898. The benefit of the existing exception under section 505 will of course be available to persons charged under the clause added by by this Bill.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 21st November 1928.

Summary.—The weather continued practically dry. Preparation of lands for and sowings of spring crops continue favourably. Harvesting of winter paddy is proceeding. Condition and prospects of standing crops are satisfactory on the whole. Distress continues to prevail in parts of Murshidabad and Bankura where the number of persons employed on test relief works was reported as 358 and 48 respectively. In Birbhum the relief works have been closed. The average price of common rice for the Province has fallen by about 1·62 per cent. as compared with that of the previous week.

Amendments.

For rule 36 (*b*) in Part VI of the said rules *substitute* the following:—

"36 (*b*) he shall attend once a month at the fortnightly parades at the police-station which will be held on days other than those fixed for union board parades under rule 6. This does not affect his liability to attend the thana on other occasions to fulfil any other statutory obligation."

For rule 38 (*g*) in Part VI of the said rules *substitute* the following:—

"38 (*g*) he shall parade at the police-station each week and shall also attend the muster parades held at the board's office in accordance with rule 6. He may, however, be required to attend the thana on other days to fulfil any other statutory obligation. He shall there report all cases of misconduct in chaukidars subordinate to him, explain the causes of absence of any chaukidar who is absent and see that all those present are dressed in proper uniform."

No. 5606Pl.—The 3rd December 1928.—Whereas the Governor in Council has reason to believe that the members of a gang of burglars and dacoits ordinarily residing in the jurisdictions of police-stations Thakurgaon, Baliadangi and Atwari in the district of Dinajpur, and commonly known as the "Bhelajan gang," are addicted to the systematic commission of non-bailable offences:

Dinajpur.

Now, therefore, the Governor in Council, in exercise of the power conferred by section 3 of the Criminal Tribes Act, 1924 (Act VI of 1924), hereby declares the said gang to be a criminal tribe for the purposes of that Act.

No. 5607Pl.—The 3rd December 1928.—In exercise of the power conferred by section 10 of the Criminal Tribes Act, 1924 (Act VI of 1924), the Governor in Council hereby directs that every registered member of the "Bhelajan gang," which has been declared by notification No. 5606Pl., dated the 3rd December 1928, to be a criminal tribe, shall, in the prescribed manner, report himself at fixed intervals, and notify his place of residence, any change or intended change of residence and any absence or intended absence from his residence.

Dinajpur.

CALCUTTA *the 20th November 1928*

The following draft of a notification which, with the previous sanction of the Governor in Council, the Commissioner of Police, Calcutta, proposes to issue under clauses (*b*) and (*c*) of sub-section (*1*) of section 62 of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), is hereby published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 13th December 1928, and any objection or suggestion received by the undersigned by that date will be duly considered:—

Draft notification.

In exercise of the power conferred by clauses (*b*) and (*c*) of sub-section (*1*) of section 62 of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), the Commissioner of Police, Calcutta, with the previous sanction of the Governor in Council, hereby makes the following amendment in the rules made for the regulation of traffic, etc., in the streets and public places of Calcutta and its suburbs, published at page 435, Part I of the *Calcutta Gazette* of the 8th March 1922, under the notification dated the 2nd idem, as amended from time to time.

Amendment.

In Part II (*a*) (*1*) of the said rules (Special rule for the regulation of traffic in Chowringhee Road), the existing rule shall be numbered as rule 1, and after the said rule the following rule shall be inserted, namely:—

"2. Vehicles shall not be permitted to park, or remain stationary for any period, on the east side of Chowringhee Road from its junction with Kyd Street to its junction with Park Street, between the hours of 5 p.m. and 8 p.m."

C. A. TEGART,

Commissioner of Police, Calcutta.

CALCUTTA, *the 27th November 1928.*

In exercise of the power conferred by clause (*c*) of section 62 (*1*) of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), the Commissioner of Police, Calcutta, with the previous sanction of the Governor in Council, hereby makes the following addition to the rules laid down for the regulation of traffic, etc., in the streets and public places of Calcutta and its suburbs, published at page 435, Part I of the *Calcutta Gazette* of the 8th March 1922, under notification dated the 2nd idem, as amended from time to time:—

Addition.

Add the following as a new section (*3*) (*a*) after section "(*3*) Corinthian Theatre, Dhurrumtolla Street" under paragraph "(*c*) At places of public amusement" in Part II of the said rules:—

(*3*) (*a*) Pearl Cinema, Dhurrumtolla Street.

(*1*) Vehicles may approach from the east and west.

Those approaching from the west will turn round the police officer on duty and drive up to the entrance.

After dropping their occupants, they will turn round and proceed direct to the park in Hospital Street.

(*2*) Owner-driven motor cars, not exceeding five in number, will be parked on arrival on the south side of Dhurrumtolla Street facing west, the bonnet of the first car being in line with the east end of the portico of Messrs. Lytton and Company.

(*3*) All other motor vehicles will be parked in one line on the east side of Hospital Street, facing south.

(*4*) Horse-drawn vehicles will be parked immediately in rear.

(*5*) No car shall leave the park until it has picked up its occupants. This rule may be relaxed in wet weather.

2. This cancels the order, dated the 25th June 1928, published at page 1433, Part I of the *Calcutta Gazette*, dated the 5th July.

DRAFT RULES.

MASONRY BUILDINGS.

1. **Conditions as to use of building sites.**—No piece of land shall be used as a site for the erection or re-erection of a masonry building (other than a Government building) intended to be used as a public building or a dwelling house, and no such building shall be erected or re-erected thereon, unless the site is certified by the Chairman to be dry and well drained or to be capable of being well drained.

2. **Particulars to accompany notice of erecting or re-erecting a masonry building.**—Every person who intends to erect or re-erect a masonry building shall forward to the Chairman, with the notice required by section 237 (*1*) of the Bengal Municipal Act, 1884, a plan and specification of the building and a site plan of the land on which he proposes to make the erection or re-erection. He must also indicate in the said notice the description of the building and its dimensions, and also the position of the site, the number assigned to it in the assessment book, its dimensions and such other particluars as may be prescribed by the Chairman.

3. **Floors of certain buildings of the warehouse class.**—The floor of every masonry building of the warehouse class intended to be used for the manufacture or storage of articles for human consumption shall be constructed of some impermeable material approved by the Chairman.

4. **Building over Municipal drain.**—A masonry building shall not be placed over any municipal drain except with the written consent of the Chairman.

5. **Level of floor.**—The floor or lowest floor of every masonry building erected or re-erected from the ground must be constructed at such level as will admit of the construction of a drain sufficient for the effectual drainage of the building, and placed at such level as will admit of the drainage being led into some municipal drain at the time existing or projected.

6. **Foundation.**—Except with the sanction of the Chairman, the foundation of a masonry building must rest on solid ground.

7. **Plinth.**—The plinth of a masonry building must be at least two feet above the level of the centre of the nearest street, and the plinth of stables and cow-sheds need not be more than one foot above such level.

8. **Walls in building exceeding one storey in height.**—(1) If a masonry building exceeds one storey in height—

(*a*) no part of any wall, other than a cornice or a moulding, shall overhang any part of a wall underneath it, and

(*b*) every wall must be of such thickness as the Chairman may consider necessary to ensure safety, regard being had to the height of the building, the materials of which it is constructed, and the purpose for which it is intended to be used.

(2) Nothing contained in sub-rule (1) shall prevent the placing of a second storey upon an existing masonry building, the walls and foundations of which are certified by the Chairman as being able to bear the load proposed to be put upon them.

9. **Interior courtyards and outward open spaces to be raised.**—Every interior courtyard and every open space must be raised at least one foot above the level of the centre of the nearest street, so as to admit of easy drainage into the street.

10. **Height.**—No masonry building exceeding fifty feet in height shall be erected without the special permission of the Chairman.

11. **Site-plan.**—The site-plan sent to the Chairman under rule 2 must be drawn to a scale of not less than one-fiftieth of an inch to a foot, must be sent in duplicate, and must show—

(*a*) the boundaries of the site and of any contiguous land belonging to the owner thereof;

(*b*) the position, form and dimensions of privies, urinals, drains, cess-pools, stables, cattle-shed, cow-houses, wells and other appurtenances of the building;

(*c*) space to be left about the building to secure a free circulation of air; admission of light and access for scavengering purposes; and

(*d*) such other particulars as may be prescribed by the Chairman.

12. **Building plan.**—The plan of the building (and the elevations and sections, whenever necessary), sent to the Chairman under rule 2, must be neatly and accurately drawn to a scale of not less than one-eighth of an inch to a foot, must be sent in duplicate and must show:—

(*a*) the level and width of the foundation of the building;

(*b*) the level of the lowest floor of the building; and

(*c*) the level of all courtyards and open spaces in the building or premises; and the plinth level of the building with reference to the level at the centre of the nearest street.

13. **Specifications.**—The specifications sent to the Chairman with any such plan must comprise full information as to the following particulars:—

(*i*) the manner in which roof and house drainage and the surface drainage of the land will be disposed of;

(*ii*) the means of access that will be available to scavengers to get to service-privies;

(*iii*) if the building is intended to be used as a dwelling house for two or more families, or as a place for carrying on any trade or business in which more than 20 people may be employed, or as a place of public resort, the means of ingress and egress; and

(*iv*) such other particulars as may be prescribed by the Chairman.

14. **Signature of plans, elevations and sections.**—The plan, elevations and sections referred to in rules 11 and 12 must be signed clearly and in a prominent place by the owner of the building, or if he is an illiterate man, by any other person authorised by him to sign in his behalf, in which case they must be marked with the owner's thumb-impression.

15. **Chairman to sign approved plans.**—The Chairman shall sign all passed plans in token of his approval.

16. **Restriction on application of certain rules.**—(1) Rules 2, 11, 12, 13, 14 and 15 shall not be applied in case of any alternation of, or addition to, a masonry buildings, unless one or more of the following works is or are undertaken, namely:—

(*a*) the construction of a roof or an external or party wall;

(*b*) any repairs to the building which involve the reconstruction of masonry wall after the same has been entirely or in a great part demolished;

(*c*) the closing of any door or window in an external wall;

(*d*) the construction of an internal wall or partition;

(*e*) any other alteration of the internal arrangements of a building which affects the alteration of its courtyard or courtyards, or its drainage, ventilation or sanitary arrangements, or which affects its security;

(*f*) the addition of any building, room, outhouse or other structure;

(*g*) the roofing of any space between one or more walls and buildings;

(*h*) the conversion into more than one place for human habitation of a building originally constructed as one such place;

(*i*) the conversion of two or more places of human habitation into a greater number of such places;

(*k*) the alteration of a building for the purpose of effecting partition amongst joint owners.

(2) In the case referred to in clause (*g*) of sub-rule (1) the said rules 2, 11, 12, 13, 14 and 15 shall apply only as regards the structure which is formed by roofing a space and not as regards adjoining buildings.

PRIVIES FOR MASONRY BUILDINGS.

17. **Site of privies.**—Every service privy shall be detached from the inhabited portion of a masonry building.

18. **Models and type-plans.**—Models and type-plans of privies approved by the Commissioners in meeting, with estimates of the cost of constructing privies in accordance therewith, shall be kept in the municipal office and shall be open to inspection by any person at all reasonable times without charge, but no person shall be bound to construct any privy in accordance with any such model or type-plan, if the same be constructed in accordance with the other rules on the subject contained in these rules.

19. **Drains.**—(1) A drain must be provided for every privy.

(2) Such drain must be constructed of some impervious material, and must connect the floor of the privy—

(*a*) with a drain communicating with a municipal drain, or

(*b*) with an impervious cess-pool the contents of which can be removed to a municipal drain, either by hand or by flow after filtration.

20. **Floor.**—(1) The floor of every privy—

(*a*) must, if the Chairman in any case so directs, be made of one of the following materials, to be selected by the owner of the privy, that is to say, glazed tiles, artificial stone or cement, or

(*b*) if no such direction is given, must be made of thoroughly well-burnt earthen tiles or bricks plastered with cement and

(*c*) must be in every part at a height of not less than twelve inches above the level of the surface of the ground adjoining the privy.

(2) The floor of every service privy must have a fall or inclination of at least half an inch to the foot towards the drain, as prescribed in rule 19.

21. **Walls and roof.**—The walls and the roof (if any) of every privy shall be made of such materials as may be approved by the Chairman.

Provided that in the case of service privies, the entire surface of the walls below the platform shall either be rendered in cement or be made as prescribed in clause (*a*), or clause (*b*) of rule 20.

22 **Platform.**—The platform of every privy must either be plastered with cement or be made of same water-tight nonabsorbent material.

23. **Ventilation.**—Every privy and water-closet situated in or adjacent to a building must have an opening of not less than three square feet in area in one of the walls of the privy, or water-closet as near the top of the wall as may be practicable and communicating directly with the open air.

24. **Receptacle for sewage.**—(1) Every service privy must be provided with a moveable receptacle for sewage.

(2) The following provisions shall have effect with regard to such privies and receptacles, that is to say:—

(*a*) the space beneath the platform of the privy must be of such dimensions as to admit of a moveable receptacle for sewage of a capacity not exceeding two cubic feet being placed and fitted beneath the platform in such manner and position as will effectively prevent the deposit, otherwise than in such receptacle, of any sewage falling or thrown through the aperture of the platform;

(*b*) the privy must be so constructed as to afford adequate access to the said space for the purposes of cleansing such space, and of placing therein, and removing therefrom, a proper receptacle for sewage;

(*c*) the said receptacle must be water-tight and must be made of metal, well-tarred earthenware or glazed stoneware, and must be of such construction and shape as will admit of its being easily removed and emptied of its contents;

(*d*) the door for the insertion and removal of the receptacle must be made so as to completely cover the aperture.

25. **Separation wall.**—Every water-closet and privy situated in a building must be separated by a masonry wall from kitchens, habitable rooms and rooms in which any person is, or is intended to be, employed in any manufacture, trade or business.

26. **Height.**—(1) The height of the ground-floor of the privy on which the moveable receptacle is to be placed must be not less than one foot above the ground level.

(2) The height of the wall between the ground-floor and the first floor or platform containing the aperture must be not less than three feet.

(3) The height of the wall between the first floor and the centre of the roof must be not less than five feet.

DRAINS FOR HOUSES (NOT BEING HUTS).

27. **Chairman may require provision for separate drain for foul water.**—The Chairman may, for sanitary purposes, require the owner or occupier of a house to provide for the separate drainage therefrom of foul, polluted water.

28. **House-drain may empty into municipal drain, subject to approval of Chairman.**—The owner or occupier of any premises shall, provided that he first obtained the written permission of the Chairman and that he complies with such conditions as the Chairman may prescribe as to the mode in which communications between house-drains and municipal drains are to be made, be entitled to cause his house-drain to empty into a municipal drain.

29. **Capacity of house-drain.**—Every house-drain must have an internal diameter of not less than four inches.

30. **House-drain must be laid upon a bed of concrete.**—Every such house-drain must be laid upon a bed of good concrete not less than six inches thick, and have a proper fall.

CESS-POOLS.

31. **Cess-pools not to be placed beneath an inhabited part of the masonry building.**—No person shall construct a cess-pool beneath any part of a masonry building which is used, or intended to be used, for human habitation, or in which any person is, or is intended to be, employed in any manufacture, trade or business."

NOTIFICATION.

Minister-in-charge: The Hon'ble Raja Bhupendra Narayan Sinha Bahadur, of Nashipur.

No. 19R.—The 27th November 1928.—Whereas an application has been made by Messrs. Gillanders Arbuthnot and Company of Calcutta for sanction to the construction of an aerial ropeway for the carriage of goods from Riyang to Kalimpong, in the Darjeeling district; Now therefore the Government of Bengal (Ministry of Public Works), after due consideration of the details supplied in accordance with section 5 of the Bengal Aerial Ropeways Act, 1923, is pleased to publish under section 6 the following draft of an order authorising the construction by Messrs. Gillanders Arbuthnot and Company of the said ropeway.

11. Any objection or suggestion which any person may desire to make with respect to the proposed order, received not later than the 1st February 1929, will be duly considered.

R. N. REID,
Secretary to the Government of Bengal.

Draft Order.

Preliminary.

1. This order may be called the Riyang-Kalimpong Ropeway Order.

2. In this order, unless there is anything repugnant in the subject or context, the expression " the Act " means the Bengal Aerial Ropeways Act, 1923.

3. The ropeway authorised by this order for the carriage of goods from Riyang to Kalimpong, in the district of Darjeeling, shall be constructed, maintained and worked subject to the provisions of the Act, or the rules from time to time in force under the Act and of this order and of any other order or orders, rules or regulations from time to time made or prescribed in connection with the working of the Riyang-Kalimpong Ropeway.

4. No powers or rights shall be deemed to have been conferred on the promoters or to have been relinquished by Government except as in this order expressly provided.

5. Messrs. Gillanders Arbuthnot and Company shall be the promoters for the purposes of this order, and are in this order referred to as the promoters.

Construction of Ropeway.

6. The promoters shall raise the capital required for the construction of the ropeway within a period of twelve months from the date of the confirmation of this order authorising the construction, and the construction shall commence within two years from the date of the confirmation of the order.

7. Within a period of eighteen months from the date of the commencement of the construction of the ropeway the promoters shall, in accordance with the provisions specified in this order, and also in accordance with plans and sections to be deposited by the promoters and to be approved by the Government of Bengal, construct and maintain the ropeway hereinafter described with all proper establishments, trestles, ropes, stations, offices, carriers and conveniences connected with the ropeway or required for the purpose thereof.

8. In the event of the said promoters failing to raise the capital required or to commence construction and to complete and equip the ropeway as provided in clauses 6 and 7 within the time specified, or within such further period as may be allowed for the purpose by the Government of Bengal, then and in any such case the said Government shall be at liberty to revoke this order.

9. In the event of this order being revoked by reason of the promoters failing to complete and equip and open for traffic the said ropeway within a period of three years and six months from the date of this order, or within such further period as may be allowed for the purpose by the Government of Bengal, the said Government shall have the option of taking over the ropeway and carriers or parts thereof at a reasonable valuation to be determined by the said Government.

If, however, the Government of Bengal do not desire to exercise the option of taking over the ropeway and the carriers or parts thereof as herein provided, then and in such case the ropeway may be dealt with under the provisions of the Act relating to the discontinuance of an aerial ropeway which has been proved to the satisfaction of the Government.

10. The ropeway authorised by this order is of the mono-cable type with detachable carriers within the district of Darjeeling, starting from Riyang to Kalimpong, with a total length of 7½ miles approximately and with a carrying capacity of 12½ tons per hour both ways.

11. The promoters may use free of cost for the construction of the ropeway an area of about 15½ acres of Government *khas* land to be described in a Schedule to be published hereafter, but such portions of the said area as lie in forest land shall remain reserve forest.

12. In the event of the profits of the company on the working of the ropeway exceeding 5 per cent. on the capital expended, the Government of Bengal reserve to themselves the right to require payment of rent for the land actually in occupation of the company at such rate as may be mutually agreed upon between the said Government and the promoters.

13. Such additional land as may be required by the promoters and deemed by the Government of Bengal to be necessary for the purposes of the ropeway shall be either acquired by the Government of Bengal on behalf of the promoters under the Land Acquisition Act, 1894, and the cost of acquisition shall be met by the promoters, or sold or leased by the said Government, on such terms as may be determined by them, to the promoters. The promoters shall not, without the consent of the Government of Bengal, sell or otherwise dispose of any land of which they may have been put in possession by the said Government for the purposes of the ropeway when such land is no longer required for such purpose.

14. The ropeway shall be constructed in accordance with drawings to be approved by the Government of Bengal, and the factor of safety in all cases except in anchorages or foundations shall not be less than 4. For foundation anchorages it shall be sufficient if the moment of resistance of the foundation exceeds the overturning moments by 50 per cent. The factor of safety of 4 shall be obtained in the case of the rope by dividing the actual breaking stress of the rope by the maximum direct tension to which it will be subjected. Station gears, trestles and sheaves shall be so designed and placed that lubrication can be performed safely whilst the ropeway is in motion, and the speed of the rope shall not exceed 180 yards per minute.

15. The minimum clearance of the ropeway from the ground except within station limits shall be 12 feet, and if in any place this clearance is less it will be open to the Government of Bengal to call upon the promoters to provide at the promoters' expense within 3 calendar months fencing on both sides of the ropeway for such length where the clearance is less than 12 feet, and the promoters shall be bound to comply with all such requisitions.

16. The promoters shall, at their own cost, construct and maintain all such stations, trestles, sidings and all other works in addition to those specified in or authorised by this order and shall also employ and maintain all such establishments, in addition to those specified in or authorised by this order as the Government of Bengal may from time to time consider to be expedient for the safe and efficient working of the ropeway or for the convenience and safety of the public. All such additional works shall be completed to the satisfaction of the said Government, and all the provisions of this order shall so far as applicable apply to such works.

Motive power, speed and signals.

17. The carriers used on the ropeway may be moved by steam power, and all driving stations shall be fitted with hand or automatic breaks to keep the speed of the rope within the maximum limit of 180 yards per minute.

18. For the purpose of giving signals the promoters shall instal telephones at all terminal and intermediate stations which will enable the ropeway to be stopped at any instant.

Maintenance and working of Ropeway.

19. The promoters shall at all times maintain and keep in good condition and repair to the satisfaction of the Government of Bengal or of any officer duly authorised in this behalf by the said Government, the entire ropeway, carriers and appliances and shall work the same in such manner as will, in the opinion of the said Government or of such officer as may be authorised in this behalf by the said Government, avoid all risks of danger or annoyance to the public.

20. The undertaking and all works stock, appliances and accounts appertaining thereto shall at all times be open to inspection and examination by any officer or officers whom the Government of Bengal may authorise for that purpose, and the promoters shall afford all reasonable facilities for inspection or examination to such officer or officers.

21. If, as a result of inspection of the ropeway or any portion thereof, or of any carriers used thereon, the officer making the inspection under clause 20 reports to the Government of Bengal that the ropeway or any part thereof cannot be used without danger to the public, or is no longer in a fit state for the carriage of any specific class of traffic, the said Government may direct that the ropeway or a portion thereof shall be closed to all traffic or to any specified class of traffic.

22. When the ropeway or any portion of it has been closed under clause 21, it shall not be reopened for the public conveyance of goods unless and until it has been inspected again by the officer referred to in clause 20 or any other officer authorised in this behalf, and its opening is sanctioned by the Government of Bengal as a result of such inspection.

23. When the Government of Bengal have under clause 21 prohibited the use of any carrier, the said carrier shall not be used again without further sanction by the said Government.

24. The promoters shall not, without the consent of the Forest officer in charge of the district, cut down or lop any tree growing along or by the side of the ropeway, provided that in case of emergency the promoters may remove or lop branches or any portion of a tree which stands in such a manner as to be a source of danger or impediment to the ropeway traffic, and in any such case they shall without loss of time report their action for confirmation by the Forest officer.

Traffic and traffic working.

25. The ropeway may be used for the purpose of conveying goods traffic only. All goods which will not, in the opinion of the ropeway management and of the Government of Bengal, interfere with the proper and safe running of the ropeway or the safety of the staff or public shall be carried, but the management shall have the right to refuse to carry such goods as are dangerous or obnoxious, or beyond the capacity of the ropeway. At the outset the maximum rate for the carriage of goods is fixed at six annas per maund, but the Government of Bengal reserve the right to increase or lower this rate.

Miscellaneous.

26. The Government of Bengal, or a local authority with the previous sanction of the said Government, shall, by giving to the promoters previous notice in writing of not less than two years, have the option to purchase the ropeway referred to in section 24 of the Act, either on the 31st day of March 1946, or on the 31st day of March in the last year of any subsequent period of ten years on payment of the value of all lands, buildings, works, materials, plant and apparatus of the promoters, suitable to, and used by them for purposes of the undertaking *plus* 20 per cent. of the value.

27. The promoters are authorised to transfer their entire rights in this undertaking to any other Company to be floated for the purpose of constructing and working the ropeway, and the consideration for such transfer shall be limited to the extent of the actual money spent by the promoters on this undertaking and in obtaining this order.

28. In case it be hereafter found that any portion of the alignment adopted by the promoters for the ropeway interferes with the location of any new lines of railway or roadway or the extension of any existing line of railway or roadway, the alignment occupied by the ropeway shall be forthwith, at the request of the Government of Bengal, abandoned in favour of the railway or the roadway, and the ropeway shall be diverted or altered in such way and in such manner as shall appear to the Inspector or other officer duly appointed in this behalf by the said Government to be fair and proper, provided that the actual cost incurred in this connection shall be borne by the authorities of the said railway or roadway.

29. In the event of any work required by the Act or by this order to be done by the promoters not being done by them, the Government of Bengal may cause a notice to be served on the promoters requiring them, within a period to be prescribed in the said notice, to execute the said work, and if within the period so prescribed such requisition is not complied with, the said Government may cause such work to be done and the cost thereof to be recovered from the promoters. The certificate of the Inspector or other officer appointed by the Government of Bengal in this behalf shall be conclusive evidence that all expenses referred to in such certificate have been incurred in carrying out such work and the promoters shall not be at liberty to dispute the same.

30. The promoters shall adopt and apply all such improvements in the ropeway and in the carriers and appliances thereon as the Government of Bengal may from time to time consider necessary or desirable for the safety or convenience of the public.

31. The promoters shall provide without unreasonable delay such statistics relating to the ropeway or to the traffic thereon as may time to time be required by the Government of Bengal.

32. It is hereby expressly provided that no concession granted under this order confers on the promoters any exclusive right as carriers over any part of the tract traversed by the ropeway.

Arbitrations.

33. (1) If any dispute, question or controversy shall at any time arise either between the Government of Bengal and the promoters, or the local authorities and the promoters, touching this order, or any clause or thing herein contained, or the construction hereof or any matter connected with this order, or the operation of the same, or the rights, duties, or liabilities of any of the parties in relation to the premises, then, and in every such case the matter in difference, unless special provision shall have been made in this order for the settlement of the matter so in difference, shall be referred to two arbitrators or to an umpire to be appointed by them, pursuant to and so as with regard to the mode and consequences of the reference, and in other respects to conform to the provisions in that behalf contained in the Code of Civil Procedure, 1908, so far as the same may be applicable.

(2) Upon every such reference the arbitrators and umpire shall respectively have power in accordance with the provisions of the Indian Arbitration Act, 1899, to examine witnesses upon oath or affirmation, and either to fix, settle, and determine the amount of cost of the reference and award respectively or incidental thereto to be paid by both the parties making the reference or by either party, or to direct the same to be taxed either as between Solicitor and client or otherwise, and to direct and award where and by and to whom such costs shall be paid.

Educational Notices.

NOTIFICATION.

Minister-in-charge: The Hon'ble Nawab Musharruf Hosain, Khan Bahadur.

No. 3059 Edn.—The 13th November 1928.—The following revised and unified Syllabuses of Studies for Secondary Schools of East and West Bengal, which have been sanctioned by Government (Ministry of Education), are hereby published for general information:—

These Syllabuses will come into force in all Government and Government-aided secondary schools in Bengal from the 1st January 1931, variations being permitted, as at present, to suit local circumstances, with the consent of the Inspector or Inspectress of Schools.

In classes VII—X, the instruction and examination in all subjects other than English may be conducted either in English or in the Vernacular. In classes below class VII, the instruction and examination in all subjects shall be conducted in the Vernacular only.

The syllabuses for classes I—III in the revised curriculum for primary schools (and maktabs) now in force in both parts of the Presidency, shall be adopted respectively in the infant class, class I and class II of middle schools and the corresponding classes of high schools for both boys and girls. The classes I—III of primary schools including maktabs shall henceforth be called the Infant class, class I and class II, respectively.

A. J. Dash,

Secretary to the Government of Bengal (offg.).

ENGLISH SYLLABUSES FOR SECONDARY SCHOOLS OF BENGAL.

Syllabus A.

CLASS III.

Speech Training, Writing and Reading.—Systematic training in the sounds of spoken English in connection with the pronunciation of easy words. In the later part of the course, the class should be able to carry on very simple conversation about familiar objects and actions.

The writing of English letters; written and printed small letters first, and then written and printed capital letters. As soon as the letters are known, words and sentences may be practised. Transcription from the black-board and from the reader are essential.

Reading should not be begun until some facility in speech and a fairly large vocabulary of common words have been acquired. A primer should be introduced during the second half of the year. The pupils will then have done a certain amount of reading from the black-board, and if the sentences in the primer are about equal in point of difficulty to those used in the conversational lessons, the transition should be easy.

There should be a considerable amount of reading aloud both by the teacher and by the pupils. Special attention should be paid to pronunciation.

The pupils may be asked to form easy sentences containing words from the primer, and should answer in English questions based on the matter of the primer.

Grammar.—The teaching should be incidental and should include:—Names connected with objects; ways of naming one thing and more than one thing; this and that, these and those, here and there, etc.; words showing action; present time, past time, future time; the numbers 1—20.

CLASS IV.

Reading.—On similar lines to Class III. Much individual reading aloud is desirable in order to correct mis-pronunciation of words and to secure reasonable fluency. The essential quality to be secured here is not expressiveness but clear utterance.

Pupils should give briefly and in their own words the substance of passages which they have read.

There should be one reader for detailed study. One or more readers should be provided for more rapid reading. The teacher should also read aloud stories or extracts.

Easy sentences from the primer should be rendered into the vernacular. A pupil should not be asked to translate any sentence of which he has not thoroughly grasped the purport.

Poetry.—A number of very simple poems should be read aloud by the teacher and the pupils during the year.

Speech Training and Composition.—Easy conversations about familiar objects and actions, and topics of the reading lessons; stories told by the teacher and retold by the class; descriptions of pictures shown to the class. New words from the readers to be used in simple sentences. The pupils should be encouraged to ask questions so as to show in what direction their vocabulary needs supplementing.

Transcription from the black-board and from readers. Spelling of words in the readers.

Dictation of words and sentences previously learnt in the readers. The average length of a piece should be six lines.

Easy written composition based on the exercises. The subjects should be concrete and simple, *e.g.*, accounts of common sights and experiences, descriptions of pictures, invention and reproduction of stories.

The pupils should possess a fairly complete stock of ideas about a subject before beginning to compose.

Commas and full stops should be required.

Grammar.—Some Grammar has already been taught in connection with the mother tongue; in the English lessons, it should be reviewed.

When the pupils have acquired a reasonable command of ordinary language, they may be told the names of the different parts of speech and their functions in the sentence. They need this knowledge in order to express their own meaning correctly and to ascertain with accuracy the meaning of passages.

Some formal grammar is necessary, and should include:—Division of a sentence into two parts; subject and predicate. Nouns, verbs, pronouns, adjectives and adverbs (without sub-classification); and their uses in simple sentences. Simple forms of sentences. The joining together of simple sentences. The full stop and the comma.

Oral and written work on the above.

CLASS V.

Reading.—Individual reading aloud from a reader. Special attention should be given to correct pronunciation.

The pupils should use the words of the reader in forming simple sentences, and should be able to answer in English questions based on the matter of the reader. The answer may now be in the form of connected and continuous narrative.

Though the initial difficulties of mechanical reading should by now have been overcome, the teacher will still constantly read aloud to assist the class in improving their standard of reading.

There should be one reader for detailed study; and one or more supplementary readers should be provided. The teacher should also read aloud short stories or extracts.

Sentences from the readers, the purport of which has been thoroughly grasped, should be rendered into the vernacular.

Poetry.—The treatment in Class IV should be continued. The pupils should learn a minimum of forty lines of poetry by heart.

(The main story or leading idea of each poem should be understood by the pupils; it is not necessary for them to understand every word or phrase.)

Speech Training and Composition.—The method used in Class IV should be developed. Sufficient subject matter should be available from within the range of the pupils' experience, *e.g.*, scenes which they have seen, descriptions of persons whom they know or of whom they have read, topics from their reading lessons. In giving accounts of what they have seen, heard or learnt, the pupils should speak for a longer time than in the former class. The teacher should now do less talking and allow the pupils to do more.

Spelling of words in the readers and in connection with mistakes in the composition.

Eight lines of dictation from the readers at a time. Transcription from the black-board and from the readers.

Composition as in Class IV. Graduated stories read aloud by the teacher. Original composition should be introduced, *e.g.*, six sentences on the subject of an oral lesson. Words and phrases from the readers should be used in simple sentences.

Grammar.—The subject should be taught in connection with the reading lessons, and with oral and written composition; and should be based on the vernacular grammar wherever possible. It should include:—Revision of previous grammar in connection with more difficult sentences. Number and gender of nouns and pronouns. Adverbs, prepositions and conjunctions (without sub-classifications). Interjections. The definite and the indefinite articles. The conjugation of the three simple tenses. The verb "to have" and the verb "to be.".

Oral and written answers on the above.

CLASS VI.

Reading.—Development of previous work. To read with correct pronunciation from readers; to use the words of the readers in simple sentences; and to answer in English questions based on the matter of the reader.

Reading aloud should be continued, but some silent reading should be introduced. The pupils should now have mastered mechanical difficulties, and be able to recognise and pronounce words rightly. They should now sometimes read as grown up people read, that is, silently. The teacher should exercise general supervision over this reading.

In addition to the reader for detailed study, one or more supplementary readers should be provided.

Passages from the readers and simple stories, the purport of which the pupils have fully grasped, should be rendered into the vernacular. Translation of simple sentences from the mother tongue into English should now be begun.

Poetry.—The treatment in Class V should be continued. A minimum of sixty lines should be learnt by heart.

The poems learnt by heart in the lower classes may sometimes be asked for.

Speech Training and Composition. As before, plenty of conversation by the members of the class. More difficult sentences should now be used. Fuller connected accounts of what the pupils have seen, heard or learnt should be required. These accounts should more often be substituted for the method of question and answer.

The written composition should include the reproduction of simple stories, and practice in the use of easy idiomatic sentences. The exercises should be on subjects within the range of the experience of the class. About half of the composition should be based on the matter of the reading lessons. Instruction should also be given in elementary points of arrangement, construction and punctuation.

Letters of a simple kind; home topics should be largely dealt with.

Spelling of words in the readers and of composition mistakes.

Dictation of passages from the readers—about ten lines on each occasion.

Grammar.—The use of words is understood by the recognition of their relation to other words, and not by the investigation of themselves. Some formal grammar is necessary, but the function of the parts of speech should receive most attention. The work should include:—Revision of previous work in grammar. Classification of nouns, pronouns, adjectives and adverbs. Cases of nouns and pronouns. The uses of relative, interrogative and demonstrative pronouns. Comparatives and superlatives. The nominative case after the verb. Participles and gerunds. Voices. The conjugation of the remaining tenses. Simple ideas of moods. Auxiliary verbs, *e.g.*, may, might, shall, will, should, would, must, can. The direct and the indirect objects. Analysis of simple sentences.

Exercises on the above chiefly in connection with errors found in the composition exercises.

CLASS VII.

Reading.—Reading aloud should be continued, but it should be less frequent. Silent reading, under the supervision of the teacher, should take its place. In addition to the reader for detailed study, one or more easy supplementary readers should be provided. Sentences should be formed and questions answered in English based on the vocabulary of the readers. The intelligent and expeditious use of a good dictionary should also be taught. More difficult passages from the readers and from compositions should be rendered into English. Translation from the mother tongue into English of easy passages should be prepared orally and then written.

Poetry.—On similar lines to Class VI. The teacher should still read aloud the longer poems. A minimum of eighty lines of poetry may be committed to memory in this class.

(The poems learnt by heart in the lower classes should sometimes be asked for.)

Spoken Language and Composition.—Development of previous work. Free conversation on the substance of the readers should be added. The practice of continuous oral narration should still be employed.

In the composition lessons, a beginning should be made of describing familiar scenes and objects; selections of these should be read out and criticised by the class. Subjects of topical interest, or obtainable from observation, or from books within the pupils' reach should be introduced. More difficult idiomatic sentences based on the matter of the readers should be required.

Short easy letters within the child's experience; directions borrowing and returning books or other articles necessitating replies, *e.g.*, invitations, refusals or acceptances; comparison of schools, towns, recreations.

Spelling of words in the readers and from composition errors. Dictation of passages of the standard of the prescribed readers.

Grammar.—General knowledge of the various parts of speech. Simple rules of syntax including the enlargement of subject and object; the extension of the predicate; clause analysis; compound and complex sentences; nouns, adjectival and adverbial clauses; and elementary instruction in direct and indirect speech.

CLASS VIII.

Reading.—As above, with more difficult readers. Reading aloud should be continued, but to a lesser extent than formerly. The teacher should occasionally read aloud passages of special literary merit.

Attention should now be paid to facility in silent reading; and for this purpose, supplementary readers should be used as unseen passages. One reader for detailed study should be selected, and at least one or more easy story books for silent reading should be provided. The aim should be to give children a liking for good books and the power of reading them intelligently and quickly.

Writing in the vernacular the substance of a lengthy passage of English read or heard. Translation of easy passages from the mother tongue into English from the vernacular reader prescribed for Class II.

Poetry.—On similar lines to the preceding classes. A general knowledge of a fair number of standard narrative poems should be expected. Poetry should be read aloud by both teacher and pupils. A minimum of one hundred lines of poetry should be committed to memory.

Spoken Language and Composition.—In addition to the continuation of the method used in Class VII, free conversation may now be given a large place in the work. The conversations on the subject matter of the readers should be of a more detailed character.

There should be brief reproduction of stories occurring in the readers. Original composition on interesting concrete subjects should be discussed, outlined on the black-board, and subsequently written. Description should now include description of games. Pupils should be set to get their own information unaided—to use books or works of reference.

The usual business and formal letters; the answering of enquiries and advertisements, and telegrams, should be taught.

Grammar should include the following:—Names and functions of the parts of speech. Familiarity with elementary terms as subject, object, singular, plural, active, passive, auxiliary. Idiomatic use of common words and phrases. Words in common use with different functions. Correct use of prepositions.

Relation of phrases and sentences. Turning statements into questions and questions into statements. Similar action with commands.

Punctuation and paragraphing.

Special differences between the English and the Vernacular grammar, (*e.g.*, time values of the tenses).

Correction of grammatical errors.

CLASSES IX AND X.

Head Masters should draw up their own Syllabuses for Classes IX and X guided by the Syllabus for the Matriculation Examination of Calcutta University which shows what is required at the end of the High School course.

The following should be kept in mind when drawing up the Syllabuses:—

(1) Some reading aloud, but much silent reading under the supervision of the teacher. Both prose and poetry should be included.

(2) Much practice in simple conversation in order to speak English with correct pronunciation and with some degree of facility, and to understand it when spoken.

(3) The writing of composition and essays on subjects within the powers of the pupils. The language should be simple and not "lofty"; grammatical correctness and facility should receive attention. Headings should sometimes be given on the black-board, but pupils should be encouraged to collect their own information from books or from works of reference.

(4) Letters should be written in correct and idiomatic English of a simple character. They should deal chiefly with the practical affairs of life.

(5) Preference should be given to a training in the English language rather than in English literature—as a preparation for the future professional or commercial duties of the pupils.

(6) Translation of both kinds should be practised as a preparation for future professional or commercial duties. Special attention should be given to simple idiomatic English.

(7) Some direct instruction should still be given in correct spelling.

(8) Little attention should be given to complex grammatical rules. An accurate knowledge of English will be produced rather by careful practice in reading, writing, and speaking English than by mere knowledge of grammatical theory.

Syllabus B.

This Syllabus is alternative to Syllabus A: either Syllabus may be used according to the preference of the Head Master, and according to his teaching facilities.

The general principles governing the construction of Syllabus B are:—

(1) That it is important that a Bengali boy should be enabled to read English with ease and enjoyment at as early a period of his school career as possible.*

(2) That the child's progress in reading should always be somewhat ahead of his progress in speaking and writing, in order that he may become accustomed to the meaning and correct use of new words and phrases in his reading, before he makes use of them in speaking and writing.

* See "Bilingualism—with special reference to Bengal" (Government of India Occasional Reports, No. 13).

(3) That progress in reading tends to be more rapid than progress in speaking and writing. (The course in reading is, therefore, kept separate from the course in speaking and writing so that the child may not be retarded in the former, nor hurried in the latter.)

Allocation of Periods.—The periods available for English should be so allocated between the course in reading and the course in speech and writing that the progress of the children in reading should always be in advance of their progress in speech and writing.

Grammar.—The Grammar Syllabus is the same as in Syllabus A. (Teachers are recommended not to devote more time to grammar than is justified by the resulting gain in accuracy of speech and writing.)

CLASS III.

First half year.

Reading.—Recognising letters; reading words and sentences formed with those letters. Reading questions and answering them in the vernacular; reading simple directions and fulfilling them. (The questions and directions should sometimes be read aloud to the class for practice in hearing and understanding.)

Speech.—Reading aloud, with great attention to pronunciation.

Writing.—Transcription from the reader. Later, dictation of passages which have been previously read and transcribed.

Second half year.

Reading.—Reading simple descriptions and stories, and answering questions on them (in the vernacular).

Speech.—Oral drill (vernacular to English) on new words, idioms and sentence forms encountered in the reader. Oral retranslation (viz., translation back into English of sentences translated from the reader into the vernacular). Answering very easy questions in English on pictures in the reader and, later, on stories in the reader. Reading aloud for pronunciation.

Writing.—Transcription from the reader. Dictation (after careful preparation to ensure accuracy).

CLASS IV.

Reading.—Reading and answering (in the vernacular) questions on the matter read. Listening to reading, and answering (in the vernacular) questions on the matter heard.

(The reader should consist of stories: informative articles and some very simple poetry may be introduced. One or more supplementary readers should be provided.)

Speech.—Oral drill on new words, idioms and sentence forms in the reader. Oral retranslation based on the reader. Answering questions (in English) on passages in the reader. Reading aloud, and recitation from memory of passages (both poetry and prose) from the reader, great attention being paid to correct pronunciation.

Writing.—The children should learn to write what they have previously learned to say correctly, viz., answers to questions, and retranslation of sentences. Transcription. Dictation (after careful preparation). Portions of passages, learned for recitation, may be written out from memory.

CLASS V.

Reading.—Reading, and answering (in the vernacular), questions on the matter read. Listening to reading, and answering questions on the matter heard. (The reader should contain stories, informative articles and simple poetry. Some prose written in the dramatic form may be included. One or more supplementary readers should be provided.) Writing in the vernacular the substance of passages from the supplementary reader.

Speech.—Oral drill on new words, idioms and sentence forms encountered in the reader. Oral retranslation. Answering questions (in English) on passages in the reader. Reproduction in English of short stories or incidents from stories in the reader. (The aim should be accuracy rather than quantity.) Reading aloud and recitation of poetry and prose. The children should learn the ordinary class directions and conversation, *e.g.*, "Clean the board", "Open your books", etc., in English. Material written in the dramatic form may be acted or recited.

Writing.—Writing answers in English to questions on the reader, writing retranslations previously prepared orally. Reproduction in English of short stories, or incidents from stories in the reader, previously reproduced orally, then written, corrected and rewritten in the correct form. (The aim should be accuracy rather than quantity.) Writing out from memory material, poetry and prose, learned for recitation. Dictation (after careful preparation).

CLASS VI.

Reading.—Reading and answering (in the vernacular) questions on the matter read. Listening to reading and answering (in the vernacular) questions on the matter heard.

(The reader should consist of stories, articles, poetry, and some prose written in the dramatic form. One or more supplementary readers should be provided). Substance writing in vernacular (from the supplementary reader).

Speech.—Oral drill on new words, idioms and sentence forms encountered in the readers. Answering questions on passages from the reader. Giving the substance of passages in the reader. Reproduction of stories or longer incidents from stories in the reader. Reading aloud and recitation. Short conversations on subjects within the vocabulary of the class.

Writing.—Writing in English the substance of stories or articles in the reader. Reproduction in English of longer stories or incidents from stories in the reader previously reproduced orally, then written, corrected, and rewritten in the correct form. Writing out retranslation prepared orally. Letter writing (to parents and friends) should be begun.

CLASS VII.

Reading.—Reading and answering (in the vernacular) questions on the matter read. Listening and answering (in the vernacular) questions on the matter heard. (Ample supplementary readers should be provided and some attention should be paid to facility.) Substance-writing in the vernacular (from the supplementary readers).

Speech.—Oral drill on new words, etc. Giving the substance of passages in the reader. Recitation. Longer conversation on easy subjects.

The children may prepare and deliver to the class short lectures on simple subjects suggested to them or selected by themselves.

Writing.—Writing the substance of stories and articles in the reader. Written retranslations. Short essays descriptive of familiar objects or incidents first prepared orally, then written, corrected and rewritten in the correct form. Writing the substance of short lectures to be delivered by the child himself and of those delivered by other children. Writing letters and replies.

CLASS VIII.

Reading.—Reading, and answering questions on the matter read. Listening and answering questions on the matter heard.

(Ample supplementary readers should be provided, and attention should be paid to facility. The children should sometimes be required to read and obtain the substance of a fairly long passage within a limited time. The use of books of reference should be taught.)

Speech.—Oral drill on new words, etc. Giving the substance of articles and stories in the reader. Recitation. Conversation. "Little lectures" as in Class VII.

Writing.—Writing the substance of passages in the reader. Retranslations. Descriptive essays written as in Class VII: also easy narrative essays, both first prepared orally, written, corrected and rewritten. Writing the substance of "little lectures". Substance-writing in English from the supplementary reader. Letter-writing, including simple business letters, applications for employment, etc., the correct form of address and conclusion should be carefully taught.

CLASSES IX AND X.

Head Masters will frame their own course guided by the Syllabus for the Matriculation or School Final Examination.

Silent reading should be encouraged both in and out of class.

Practice in conversation should be continued. English debates on simple subjects. Oral composition should be done as a preparation for written composition.

Essays. Substance-writing in English. Translation.

Letter-writing.—In written work the pupils should be taught to aim at writing a little correctly rather than a great deal incorrectly. Every mistake should be carefully noted by the individual pupil in order that it may never be repeated. Every pupil should possess a dictionary and should be allowed to use it at all times. (There should therefore be no excuse for spelling errors.) The teacher's aim should be to *prevent* errors, and pupils should be encouraged to ask, whenever they are in doubt as to the correctness of an expression, before committing it to writing.

SYLLABUS IN BENGALI FOR SECONDARY SCHOOLS OF BENGAL.

CLASS III.

Reading.—A fairly large vocabulary and some facility in reading have already been acquired in the primary stage. In this class, much individual reading aloud, correction of mispronunciation of words and insistence on clear utterance are required. Meanings of difficult words and expressions should be given, and individual readers should be questioned about the portions read. There should be pattern reading by the teacher; and at the end of each lesson, members of the class should give a summary in their own words of what they have read.

One or more supplementary readers should be selected for rapid silent reading. The teacher should occasionally test this reading by means of a few questions.

Poetry.—A number of poems should be selected and read aloud by teacher and pupils. The meaning of every word need not be explained, but the leading ideas of each poem should be understood. A minimum of 40 lines of poetry should be learnt by heart.

Speech Training and Composition.—Simple conversations about familiar objects and actions, and topics of the reading lessons; stories told by the teacher, and retold by the class; and verbal descriptions of pictures shown to the class. New words from the readers should be used in simple sentences. The pupils should be encouraged to ask questions so as to show in what way their vocabulary needs supplementing.

Transcription from the black-board and from the readers. Spelling of words in the readers.

Dictation of words and sentences previously learnt in the readers. The average length of a piece of dictation should be six lines.

Easy written composition on concrete and simple subjects, *e.g.*, accounts of common sights and experiences, descriptions of pictures, and reproduction of stories. The pupils should possess a fairly complete stock of ideas about a subject before beginning to write.

Great stress should be placed on simplicity of language.

Commas and full stops should be required.

Grammar.—Parts of a sentence. Nouns, verbs, pronouns, adjectives and adverb (without sub-classification) and their uses in simple sentences. Examples of simple স্বরসন্ধি (combination of vowels) and the connected rules.

CLASS IV.

Reading.—On similar lines to Class III. Much individual reading aloud is desirable in order to correct mispronunciation of words and to secure reasonable fluency. The essential quality to be secured here is clear utterance.

Pupils should give briefly and in their own words the substance of the passages which they have read.

There should be at least one reader for detailed study and reading aloud. At least two others should be provided for rapid and silent reading under the teacher's supervision. The teacher should also read aloud stories and interesting extracts to the class.

Poetry.—Poems should, of their kind, be first-rate. A number of simple poems should be read aloud by teacher and pupils during the year. At least 60 lines of poetry should be learnt by heart.

Speech Training and Composition.—The simple conversation, composition, dictation, transcription and spelling should be continued as in Class III, but in a more advanced way.

Great stress should be placed on simplicity of language.

Grammar.—Revision of previous grammar in connection with more difficult sentences. Number and gender of nouns and pronouns. Formation of common feminine forms of nouns and of adjectives. Numerals and ordinals. Adverbs and their uses in sentences. The conjugation of the chief tenses of verbs. More difficult cases of স্বরসন্ধি and ব্যঞ্জন সন্ধি। Easy examples of principal kinds of কারক and বিভক্তি। Uses of অব্যয়।

Translation.—Easy short paragraphs selected from the English textbooks into simple Bengali.

CLASS V.

Reading.—Individual reading aloud will be continued. Special attention should still be given to correct pronunciation, clear utterance and proper intonation.

Oral summaries of passages read aloud should now be of a more connected and continuous character.

The teacher should still frequently read aloud to the class in order to assist the members in improving their standard of reading.

There should be at least one reader for detailed study and reading aloud; and at least two others for more rapid and silent reading under the supervision of the teacher. The silent reading should be tested both orally and by means of written exercises.

Poetry.—The treatment in Class IV should be continued with more difficult poems. The central idea of each poem should be understood by the class. At least 80 lines of poetry should be learnt by heart.

Composition.—The possession by the pupils of a good stock of ideas about a subject before they begin to write is of great importance. It is well for the pupil to collect their ideas and state them orally before beginning to write. The teacher should now do less talking, and allow the pupils to do more.

The written work should include summaries of lessons, simple narrative and descriptive compositions, and construction of sentences based on words and expressions from the readers.

Each composition should consist of several paragraphs, and each paragraph should have its own central idea. Great stress should be placed on simplicity of language.

Punctuation marks should be taught.

Time should still be set apart for the learning of spelling from the readers. The teacher should select paragraphs of about ten lines from the readers for dictation tests.

Grammar.—Revision of previous grammar. Further discussion of ব্যঞ্জন সন্ধি, chief kinds of সমাস and their uses. Cases of nouns and pronouns. Comparatives and superlatives. Participles and gerunds. Change of voice. Conjugation of principal tenses. Simple ideas of অনুজ্ঞা। Enlargement of subject and predicate. Analysis of simple sentences.

Translation.—Short paragraphs from the English text-books into simple idiomatic Bengali. The result should not only be grammatical, but should read smoothly and naturally.

CLASS VI.

Reading.—As in Class V. In the case of the readers for detailed study, there should be full explanation of difficulties by the teacher, and connected accounts of what has been read by the pupils.

Silent reading under the teacher's supervision and testing of the knowledge thus acquired should be continued.

There should be at least one reader for detailed study and reading aloud; and at least three others for silent reading.

Poetry.—On similar lines to Class V. At least 100 lines of poetry should be learnt by heart.

Composition.—The pupils should collect their ideas about a subject beforehand, and state them orally before beginning to write. Fuller connected accounts of what the pupils have seen, heard or learnt should now be required.

The written composition should include descriptions, the invention and reproduction of simple stories, and practice in the use of easy idiomatic sentences. Exercise may also be given in the expansion of ideas contained in proverbs, and in the expansion of the same idea in different ways.

Letter-writing of a simple kind should be taught; home topics should be largely dealt with.

Instruction should be given in elementary points of arrangement and punctuation.

Great stress should be placed on simplicity of language.

Spelling of words in the readers and of the corrected forms of composition mistakes should be continued. Dictation of passages already prepared from the readers about 12 lines in length.

Grammar.—Revision of Sandhi and Samas. Rules of ণত্ব and ষত্ব। Formation of nouns from adjectives, and of adjectives from nouns. Cases of nouns and pronouns in greater detail. The extension of the predicate; compound and complex sentences; and noun, adjectival and adverbial clauses. Change of voice: conversion of sentences. কৃৎ and তদ্ধিত।

Translation.—As in Class V. Long sentences should be avoided.

CLASS VII.

Reading.—Reading aloud should be continued, but it should be of less frequent occurrence. Silent reading under the supervision of the teacher should be proportionately increased. There should be at least one reader for detailed study and reading aloud, and at least four others for silent reading. The silent reading should be systematically tested.

Each pupil should now possess a dictionary, and should use it constantly for the explanation of difficult words and phrases.

Poetry.—On similar lines to the preceding classes. A general knowledge of a fair number of standard narrative poems should be expected. Poems should be read aloud by both teacher and individual pupils. A minimum of 120 lines of poetry should be learnt by heart.

Composition.—This should now include descriptions of familiar scenes, subjects of topical interest or obtainable from observations, or from books within the pupils' reach; selections of these should be read out and criticised by the class. Exercises in the development of outlines.

The reduction of involved sentences into two or more easy ones; the expansion of ideas; and the construction of new sentences using words and expressions found in the readers may be dealt with. More difficult idiomatic sentences should be required.

Short easy letters about matters within the pupils' experience should be written.

Great stress should be laid on simplicity of language and on the proper arrangement of the composition.

Spelling of words from the readers and of the corrected forms of composition errors, and dictation of passages of about 12 lines should be continued.

Grammar.—Derivative nouns and adjectives in common use and sentences containing them. Change of voice. Causative verbs. Idiomatic use of common words and phrases. Exercises in word-building. Use of উপসর্গ, কৃৎ and তদ্ধিত।

Syntax of nouns, adjectives, pronouns and adverbs. Comparison of direct and indirect narration in Bengali and English.

Translation.—Comparatively long and difficult passages into idiomatic Bengali. The translation should not be rendered word for word; the phraseology should be altered, if necessary, but the result should really represent the thought of the original.

CLASS VIII.

Reading.—As in Class VII, but with more difficult readers. Reading aloud should still be continued, but to a less extent than in Class VII. The teacher should occasionally read aloud passages of special literary merit.

The time allowed for silent reading will be increased, but it will be carefully supervised and tested by the teacher. The aims should be to give pupils a liking for good books and the power of reading them intelligently and quickly.

The regular use of the dictionary should be encouraged. The importance of the clear understanding of the main ideas of a lesson in comparison with the explanation of difficult words should be borne in mind.

There should be one reader for detailed study and reading aloud; and at least four others for silent reading.

Poetry.—As in Class VII, with more difficult poems. Both teacher and pupils should still read poems aloud. A minimum of 120 lines of poetry should be learnt by heart during the year.

Composition.—General class conversation on the coming composition should be continued. Composition exercises should be varied and may include the summaries of lessons, expansion and condensation of ideas, descriptions of games, imaginary conversations, and stories made up from pictures. More difficult exercises in the development of outlines.

Pupils should be set to get their own information unaided, and to use books of reference.

Ordinary business and formal letters and the answering of enquiries and advertisements.

Grammar.—Derivative adjectives in common use and sentences containing them. কৃৎ and তদ্ধিত। Conversion of sentences from one form to another. *e.g.*, from simple to complex, from compound to complex, etc. Expression of ideas in a sentence in different ways. Use of the same word as different parts of speech. Common errors in speech. Differences between Bengali and English grammar. Accent, pauses, metre and grammatical peculiarities in connection with Bengali poetry. Simple figures of speech.

Translation.—Paragraphs from the English text-books should be rendered into idiomatic Bengali; simple Bengali sentences should be insisted upon; regular and systematic exercises should be given.

CLASSES IX AND X.

Head Masters should draw up their own Syllabuses for Classes IX and X guided by the Syllabus for the Matriculation Examination of Calcutta University.

The following should be kept in mind when drawing up the Syllabuses:—

(1) Reading aloud of standard pieces of prose and poetry by both teacher and pupils should be continued.

(2) Books for silent reading should be carefully chosen; the pupils are thus guided towards a taste for real literature.

(3) In silent reading, the pupils should acquire skill in the rapid extraction of meaning from the printed page.

(4) The writing of composition and essays should be on subjects within the powers of the pupils. The language should be of a simple character and grammatically correct. Headings should sometimes be given on the black-board, but pupils should be encouraged to collect their own information from books or from works of reference.

(5) Little attention should be given to complex grammatical rules. An accurate knowledge of Bengali will be gained more easily by careful practice in reading, writing and speaking Bengali than by mere knowledge of grammatical theory.

(6) Translation of both kinds should be practised as a preparation for future professional or commercial duties.

SYLLABUSES ON MATHEMATICS FOR SECONDARY SCHOOLS IN BENGAL.

Arithmetic.

CLASS III.

1. Notation and numeration to one lakh.
2. The four Simple Rules:—
   (*i*) Revision of addition and subtraction.
   (*ii*) Construction and memorising of multiplication tables up to 16×10.
   (*iii*) The multiplication table used as a division table
   (*iv*) Multiplication by any three figures; division by any two figures.
3. The four Compound Rules:—
   (*i*) Money tables—
      (*a*) Kara, ganda, pan.
      (*b*) Rupees, annas, pice and pies.
   (*ii*) Very simple bazar accounts dealing with addition and subtraction of money.
   (*iii*) Easy multiplication and division of money.
   (*iv*) Simple reduction of rupees, annas and pice both ways.
   (*v*) Weight table—Tola, chatak, seer, maund. Easy exercises in addition and subtraction connected with them.
4. Easy fractions, e.g., $\frac{1}{2}$ and $\frac{1}{4}$; their mental addition and subtraction. Construction and memorising of the multiplication tables up to $\frac{1}{4} \times 10$ and $\frac{1}{2} \times 10$.
5. Simple problems involving the four fundamental rules.

CLASS IV.

1. Notation and numeration to one crore.
2. The four Simple Rules—
   (*i*) Multiplication by four figures.
   (*ii*) Long division by three figures.
   (*iii*) Multiplication and division by factors.
   (*iv*) Easy problems involving two or more of the simple rules.
3. Compound Rules—
   (*i*) Money tables, both Indian and English.
   (*ii*) Multiplication and division of money.
   (*iii*) Reduction of money, both Indian and English.
   (*iv*) Easy reduction using the following terms:—
      (*a*) Yard, foot, inch.
      (*b*) Maund, seer, chatak, tola.
      (*c*) Hour, minute, second.
4. Decimals—
   (*i*) One place decimals.
   (*ii*) Easy exercises in addition and subtraction of decimals to one place.
   (*iii*) Easy exercises—
      (1) in multiplication of decimals to one place—
         (*a*) by 10, 20, 30, etc.,
         (*b*) by integers up to 9, and
      (2) in division of decimals by integers up to 9.
5. Simple bazar accounts and Jama-Kharach.
6. Meaning of vulgar fractions; finding $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{1}{8}$, $\frac{3}{4}$, etc., of any thing.
7. Simple problems (mental and written).

CLASS V.

1. Revision of previous work with more difficult exercises.
2. Division by factors.
3. More difficult exercises of weights and measures using the following terms: —
   (*i*) Maund, seer, chatak, kacha, tola.
   (*ii*) Mile, yard, foot, inch.
   (*iii*) Year, month, day, hour, minute, second.
4. Easy averages.
5. Shubhankari—Serkasha and Mankasha.
6. Prime and composite numbers, H.C.F. and L.C.M.
7. Easy addition, subtraction, multiplication and division of vulgar fractions. Easy simplification of fractions.
8. Simple cases of the method of unity.
9. Easy exercises in addition, subtraction, multiplication and division of decimals to two places.
10. Problems (mental and written).

CLASS VI.

1. Revision of previous work by means of miscellaneous exercises.
2. Averages.
3. Vulgar fractions of greater difficulty.
4. Multiplication and division of decimals of greater difficulty.
5. Conversion of vulgar fractions into decimal fractions to a given number of places and vice-versa (including recurring decimals).
6. Simple decimalisation of money.
7. Simple exercises in square root and square measure.
8. Practice (simple and compound).
9. Simple cases of unitary method.
10. Percentages.
11. Profit and loss.
12. Shubhankari—Serkasha, Mankasha and Masmahina.
13. Problems (mental and written).

CLASS VII.

1. Revision of previous work.
2. More difficult examples with decimal fractions (excluding recurring decimals).
3. Metric measures of length, weight and capacity; simple calculations.
4. More difficult decimalisation of money.
5. More difficult practice.
6. Simple cases of square and cubic measure. Bighakali and Kathakali.
7. Unitary method including simple problems relating to time and work.
8. Examples of simple proportion worked out by "multiplying-ratios."
9. Problems (mental and written).

CLASS VIII.

1. Thorough revision of essential rules.
2. Square root.
3. Easy cases of simple interest.
4. More difficult cases of square measure.
5. Percentages.
6. Problems relating to time and work.
7. Simple proportion. Rule of Three.
8. Problems (oral or written) including some on Shubhankari's Rules.

CLASSES IX AND X.

Headmasters should draw up their own Syllabuses for Classes IX and X guided by the Syllabuses of the Matriculation or other equivalent Examinations.

The following should be included:—

1. Revision of all former work.
2. Problems relating to time and distance, to clocks, and to races and games of skill.
3. More difficult problems in simple interest.
4. Profit and Loss.
5. Present Worth, Discount, Stocks and Shares.

Algebra.

CLASS VII.

1. The use of letters as symbols; positive and negative signs; simple substitution.
2. Positive and negative quantities; graphical illustrations.
3. The four simple rules.
4. The use of brackets.
5. The use of the following:—

$$(a+b)^2;\quad (a-b)^2;\quad (a+b)\,(a-b);\quad (a+b)^3;\quad (a-b)^3;$$
$$(a+b)\,(a^2-ab+b^2);\quad (a-b)\,(a^2+ab+b^2).$$

6. Easy simple equations.
7. Problems leading to simple equations.
8. Plotting of points.

CLASS VIII.

1. Revision of former work.
2. More difficult multiplication and division.
3. Simple equations.
4. Important formulæ and their graphical representation. Graphs of simple equations.
5. Simple factors.
6. H.C.F. and L.C.M. of simple expressions by factorisation.
7. Easy quadratic equations.
8. Easy indentities.
9. Easy fractions.
10. Simple problems involving the above.

CLASSES IX AND X.

1. Harder factors and identities.
2. The remainder theorem; divisibility.
3. More difficult cases of H.C.F. and L.C.M.
4. Harder fractions; fractional equations.
5. Fuller treatment of simple and simultaneous equations; easy problems.
6. Easy ratio and proportion.
7. The elementary laws of indices.
8. Extraction of square root.
9. Easy quadratic equations; simple problems.
10. Easy graphs of simultaneous equations.

Geometry.

CLASS VI.

PRACTICAL (without proof).

Drawing and measurement of straight lines and angles; construction of perpendiculars to straight lines; bisection of angles.

Drawing of parallel straight lines; measurement of angles of a triangle; construction of triangles, quadrilaterals, squares, and parallelograms. Finding the areas of rectangles with squared paper.

Dividing a line into 2, 4 or 8 equal parts.

THEOREMS.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

If two triangles have two sides of the one equal to two sides of the other, each to each and also the angles contained by these sides equal, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have three sides of the one equal to three sides of the other, each to each, the triangles are congruent.

If one side of a triangle is produced, the exterior angle is greater than either of the interior opposite angles.

CLASS VII.

PROBLEMS.

Bisection of angles, and straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

THEOREMS.

Revision of the work done in class VI.

If two sides of a triangle are unequal the greater side has the greater angle opposite to it; and the converse.

Any two sides of a triangle are together greater than the third.

Of all straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

When a straight line cuts two other straight lines, if—

(1) a pair of alternate angles are equal, or

(2) a pair of corresponding angles are equal, or

(3) a pair of interior angles on the same side of the cutting line are together equal to two right angles.

then the straight lines are parallel, and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

CLASS VIII.

PROBLEMS.

Division of straight lines into any number of equal parts.

Construction of triangles and quadrilaterals with sufficient data.

Construction of a triangle equal in area to a given quadrilateral.

THEOREMS.

The sum of the angles of a triangle is equal to two right angles; and the two corollaries thereto.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangle are congruent.

If two right-angled triangles have their hypotenuses equal and one other side of the one equal to one other side of the other, the triangles are congruent.

The opposite sides and angles of a parallelogram are equal; each diagonal bisects the parallelogram; and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

CLASS IX.

PROBLEMS.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

To bisect a given arc of a circle.

Construction of tangents to a circle and of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

THEOREMS.

If a straight line drawn from the centre of a circle bisects a chord which does not pass through the centre, it cuts the chord at right angles; and the converse.

There is one circle and only one which passes through three given points not in a straight line.

Equal chords in a circle are equidistant from the centre; and the converse.

The angle at the centre of a circle is double of an angle at the circumference standing on the same arc.

Angles in the same segment of a circle are equal; if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary, and the converse.

The angle in a semi-circle is a right angle; the angle in a segment greater than a semi-circle is less than a right angle; the angle in a segment less than a semi-circle is greater than a right angle.

In equal circles or in the same circle (1) if two arcs subtend equal angles at the centre they are equal; (2) conversely, if two arcs are equal they subtend equal angles at the centres. In equal circles or in the same circle, if two chords are equal they cut off equal arcs; and the converse.

The tangent at any point of a circle and the radius through the point are perpendicular to another.

The perpendicular to the tangent at the point of contact passes through the centre.

The two tangents to a circle drawn from an external point are equal; they subtend equal angles at the centre.

If two circles touch, the point of contact lies on the straight line through the centre.

If a straight line touch a circle and from the point of contact a chord be drawn, the angles which the chord makes with the tangent, are equal to angles in the alternate segments.

CLASS X.

PROBLEMS.

To bisect a triangle by a straight line drawn through a given point in one of the its sides.

To trisect a triangle by straight lines drawn from a given point in one of its sides.

Construction of a triangle equal in area to a given rectilineal figure.

On a given straight line to describe a segment of a circle which shall contain an angle equal to a given angle.

THEOREMS.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities:—

$$k\,(a+b+c) = ka+kb+kc.....$$
$$(a+b)^2 = a^2+2ab+b^2$$
$$(a-b)^2 = a^2-2ab+b^2$$
$$a^2-b^2 = (a+b)\,(a-b)$$

The square on one side of a triangle is greater than, equal or less than the sum of the squares on the other two sides according as the angle contained by those sides is obtuse, a right angle, or acute. The difference in the case of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

If two chords of a circle intersect either inside or outside the circle the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

The medians of a triangle are concurrent.

The perpendiculars from the vertices of a triangle to the opposite sides are concurrent.

N. B.—For Additional Mathematics the Calcutta University Syllabus is to be followed.

Mensuration and Surveying.

CLASS VIII.

PRACTICAL GEOMETRY.—As under class VI.

(The candidate is required to learn the use of dividers, compasses, straight rulers, protractors).

1. Properties of right-angled triangles.
2. Areas of—
   (*i*) Rectangles.
   (*ii*) Triangles.
   (*iii*) Parallelograms and quadrilaterals.
3. Altitude of a triangle.

CLASS IX.

1. Construction of plain and diagonal scales.
2. Areas of regular and irregular rectilineal figures and of circles.
3. Relation of the diameter to the circumference of a circle.
4. *Surveying.*—Use of the chain; use of the offsets; of the cross. General principles of chain surveying.

CLASS X.

1. Revision of former work.
2. Similar triangles, chords of a circle.
3. Surface area and volume (including the practical determination of the volume) of the parallelopiped, cylinder, pyramid, prism, cone and sphere.
4. *Surveying.*—Revision. The Field Book. Simpson's Rule.

HISTORY SYLLABUS FOR SECONDARY SCHOOLS OF BENGAL.

CLASS III.

Stories including the following:—

Agastya; Harish Chandra; Bhagirath; Viswamitra and Vashistha; Rama; the War between the Kauravas and the Pandavas; and Bhisma.

The Deluge; Joseph and his brothers; Moses; Solomon; and David.

Vikramaditya; Sohrab and Rustum; Hassan and Hossain; Harun al Rashid; and Dhatree Panna.

CLASS IV.

I. Stories including the following:—

Alexander and Puru; Chandra Gupta and the Nanda Princes; Asoka; Harshavardhan and his charities and brotherly affection; Subaktagin; Prithwiraj and Joychandra.

Babar and his courage and fatherly affection; Nanak; Akbar and his court; Rana Pratap and his patriotism; Durgavati; Chand Sultana; Jehangir and Mohabat Khan; Shah Jehan and the Tajmahal; Aurungzeb; and Shivaji.

Clive; Ahalya Bai; Victoria the Good; the Delhi Durbar; Sepoy Khodadad and the Victoria Cross.

II. Stories of Local History—

Bejoy Singha; Sultan Ghiasuddin and the Kazi; Pratapaditya; Chand Roy; Isa Khan; and Rani Bhabani.

CLASS V.

Outlines of Indian History from the Hindu Period to the end of the Pathan Period as shown below:—

1. The earliest inhabitants of India, viz., the aborigines and the Dravidians.
2. The Aryans; their settlement and civilisation.
3. The two Epics, viz., the Ramayan and the Mahabharat.
4. The important ancient Hindu Kingdoms.
5. Buddhism and Jainism.
6. Alexander's invasion and its consequences.
7. Chandra Gupta and his empire. Megasthenes' account of India.
8. Asoka the Great.
9. The interval of foreign invasion and darkness.
10. The Gupta Empire.
11. Description of India by Huang Chang. The University of Nalanda.
12. The story of Adisur.
13. The Pal and Sen dynasties in Bengal.
14. The rise and spread of Muhammadanism.
15. Early Muhammadan invasions. Mahmud Ghazni and Muhammad Ghori.
16. The Slave dynasty; Kutubuddin, Altamash, Rezia, Nasiruddin, and Balban.
17. The Khiliji dynasty; Jalaluddin and Alauddin.
18. The Tughlak dynasty; Muhammad Tughlak and his projects, Ferojshahu Tughlak, and the invasion of Taimur.
19. History of Bengal—Sultan Shamsuddin, Raja Ganesh, Hussain, and the Bargis.

CLASS VI.

I. Outlines of Indian History as shown below:—

1. The rise of Vijaynagar and of the Bahmini Kingdoms; the invasion of Babar; the foundation of the Moghul Empire; attempts to maintain Rajput ascendancy.
2. Sher Shah; his attempts to re-establish Pathan Supremacy, and his administration.
3. Akbar the empire builder; greatness of his reign.
4. Jehangir and the rise of Dacca; European merchant companies and their early settlements; Shah Jehan and the Taj.
5. Aurungzeb and the downfall of the Moghul Empire; causes of its disruption; the rise of Calcutta and Murshidabad.
6. Shivaji and the rise of the Mahrattas.
7. The material conditions of India under Moghul rule.

II. Outlines of English History—

Stories from a simple reader. The period should extend from the earliest times to the year 1603.

CLASS VII.

I. Outlines of the History of India as given below:—

1. Trade routes to India; old routes, the Cape of Good Hope route and modern routes.
2. Trade between Europe and India, and its importance; the English, the French and the Dutch merchant companies and their early settlements; the first charter of the East India Company.
3. The French in India; Dupleix. The English in India; Clive. Wars and territorial acquisitions in Madras, Bengal and Bombay. Early history of Calcutta.
4. The career of Warren Hastings, the first Governor-General; his administrative reforms.
5. Pitt's India Act; Lord Cornwallis and administrative reforms; the Permanent Settlement.
6. Sir John Shore; his non-intervention policy.
7. Lord Wellesley; his system of subsidiary treaties.
8. Lord Hastings; establishment of British Supremacy in India.
9. Lord Amherst.
10. Lord William Bentinck; his social and administrative reforms; renewal of the Company's charter.
11. Lord Dalhousie; the doctrine of lapse and the annexation policy; material progress of the country.
12. Lord Canning; the Indian Mutiny; the assumption of direct government by the Crown; the Queen's Proclamation.
13. The common life of the people in the middle of the nineteenth century.

I. Outlines of English History—

Stories from a simple reader. The period should extend from the year 1603 to the year 1820.

CLASS VIII.

I. Outlines of the History of India as shown below:—

1. The Mahrattas and their rise; Shivaji and his successors; Mahratta systems of war, administration and revenue; rise of the Peshwas; Baji Rao and his successors; origin of the chief existing Mahratta states.
2. Mysore. Hyder Ali; his wars with the Mahrattas, the Nizam, and the English. Tipu Sultan. Restoration of the Hindu dynasty.
3. The Sikhs; their origin and religion. Guru Govinda; struggle with Ahmed Shah Abdali. Ranjit Singh and his conquests. The Khalsa. Ranjit Singh's successors.

4. Extension of the relation of the British-Indian Government with foreign powers outside India. Afghan wars. The Burmese wars. Delimitation of frontier boundaries.
5. The King-Emperor's Visit and the Imperial Durbar; decisions about Delhi and Bengal.
6. India in the Great War.
7. The Reform Act of 1919. A broad survey of the development of the Indian constitution.
8. Outlines of material progress of India under British rule.

II. Outlines of English History—

A simple primer dealing with English history from the year 1820 to the present time.

III. Civics—

The idea of a community; its various forms from a school society to an empire. The necessity of rules or laws for each community. The necessity of machinery to see that the rules or laws are obeyed.

Need for the security of life and property. Comparison of law and order with might and right.

The ancient method of village self-government by panchayat. The modern method of government by a union board elected by the ratepayers.

The village chaukidar working under the supervision of the panchayat or union board.

The government of towns by municipal commissioners elected by the ratepayers and of the non-municipal areas of districts by district boards. The division of a province into districts and subdivisions.

The government of provinces by the Governor with his Executive Council and Ministers, and with the Legislative Council elected by all ratepayers and taxpayers. The duties of the Provincial Government in respect to the protection of life and property, education, public health, facilities of communication, encouragement of agriculture, industry and trade.

CLASSES IX AND X.

HISTORY OF INDIA.

Head Masters should draw up their own Syllabuses for Classes IX and X, guided by the Syllabus for the Matriculation Examination of Calcutta University, which states that the courses in History shall include "a Reader on the History of England and a Reader on Indian History with special reference to Bengal, including a short account of the administration of British India and of the progress of India under British rule."

The following should be borne in mind when drawing up the Syllabuses:—

(1) The aim should be to present a solid amount of definite historical knowledge, developing the sense of time and laying more stress on relationships of cause and effect as the pupil grows older.

(2) The treatment of the subject should be of a continuous nature.

(3) A text-book should be used and every pupil should posses a a copy. The teacher will pass lightly over certain parts, emphasise others by more careful treatment, and from his greater knowledge and more certain insight, introduce much explanation and illustrative matter orally.

(4) The text-book need not be read in class; the teacher will in his treatment of the matter keep fairly close to the order and context of the successive paragraphs.

(5) The teacher should set portions of the text to be read at home in advance, with questions set to keep the attention of the boys on what is of real importance. The actual lessons should be devoted to exposition, by a mixture of lecturing and questioning, of what the boys have read.

(6) Recent history should not be taught by reigns. Some teachers make use of connected stories under such heads as "The Growth of the Empire." Others teach through the lives and careers of the men who played a principal part in them, *e.g.*, the growth of the Moghul through the life and work of Akbar.

(7) There should be frequent reference to earlier events that bear upon the year's work as well as illustrations from the institutions and customs of to-day.

CLASS IX.

CIVICS.

The State and it duties. Organisation and work of each of the following Departments:—Army, Navy, Police and Jail, Justice, Posts and Telegraphs, Railway, Public Works, Education, Agriculture, Irrigation, Industries, Health, Sanitary, Revenue.

Imperial and Provincial Governments. The district officer and other executive officers of Government in districts. The Services and their recruitment.

The Indian States and their relationship to the British Government. The Chamber of Princes.

The League of Nations; its aims, machinery and achievements.

The questions to be considered by a voter. The rights and duties of a citizen. Public service. Social reform.

CLASS X.

The State and the encouragement of industries. Protection of inventions. Industrial exhibitions. Free scope for commercial and industrial enterprise.

The State and protective works against famine; famine relief.

The State and encouragement of thrift. Banking, co-operative credit societies, insurance companies, provident funds.

The State and control of vice. Laws against gambling. Control of the sale of liquor, ganja, and opium.

The municipal council or union board and its duties in regard to public health; the supply of good drinking water; and facilities of communication and education.

GEOGRAPHY SYLLABUS FOR SECONDARY SCHOOLS OF BENGAL.

CLASS III.

A

1. Simple lessons on the people of the locality: their daily life, their food and clothing, their homes, their occupations, and the natural means of travelling and of transport.

2. A very elementary idea of the main geographical facts of Bengal, those receiving most attention which are near the home district, and those at a greater distance having less emphasis.

3. Lessons about a few typical people whose lives are obviously controlled by their environment, but which differ from those of the people of Bengal.

B

1. The points of the compass.

2. Direction of well-known places of the locality in reference to the school building.

3. Observations as to the direction of wind; and of the shadow cast by the sun at midday throughout the year.

CLASS IV.

1. Simple outline plans of the class room, of the class room and adjoining rooms of the school, and of the school and adjoining streets. (Measurement of distance should be done by pacing).

2. To give the pupils some idea as to what a map means by relating map symbols to the facts of their own experience.

3. A survey of the world in very broad outline dealing with

(*a*) the general distribution of land and water masses, and

(*b*) the chief peoples and their special characteristics.

4. The geography of Bengal in more detail.

5. Ideas of length, e.g., a foot, a yard, twenty yards. Idea of scale. Plans of the class room and school surroundings drawn to scale.

6. Daily observation of the direction of the wind and the character of the weather.

CLASS V.

1. A simple regional study of the world with special reference to the effect of climatic conditions on the habits and occupations of the people living in the different regions.

Stories about great travellers and explorers.

2. The geography of India in general and in more detail, emphasis being placed on the following:—

Effect of the monsoons on the country; climatic contrasts; principal products and industries; development of important towns and ports; important railways; principal exports and imports; trade routes to India.

3. Simple ideas about the size and shape of the earth. Movements of the earth; day and night.

4. Map reading and map drawing, especially in connection with Bengal and India.

CLASS VI.

1. Elementary ideas about the geography of the British Empire.

2. Broad regional survey of Asia.

Contrasts with other continents.

3. Simple ideas about latitude and temperature. Rainfall and its causes. The zones of temperature.

4. Map reading and map drawing especially in connection with Asia and India.

5. Daily reading and observation of the thermometer and the rain-gauge.

CLASS VII.

1. Broad regional survey of Africa and Australia. Comparison with North and South America as regards climate and belts of vegetation.

2. Latitude and longitude. Finding the latitude and longitude of a place. Longitude and time.

3. Some well-known constellations. The sun's position at sunrise and at sunset at different times of the year.

4. Map reading and map drawing.

5. The daily reading of the thermometer and the rain-gauge.

CLASS VIII.

1. Broad regional survey of Europe and the Americas. Contrasts with the other continents.

2. Study of the British Isles in broad outline.

3. Winds and their causes; land and sea breezes; monsoon winds.

4. Map reading and map drawing.

5. Study of the daily weather chart and the barometer.

CLASSES IX AND X.

Headmasters should draw up their own Syllabuses guided by the Syllabus for the Matriculation Examination of the University of Calcutta. The following should receive special attention in these classes:—

Broad outline of world geography with special reference to the British Empire, and including the following:—

(*a*) The more important physical features of each continent.

(*b*) The main facts leading up to climate and vegetation.

(*c*) The major natural regions of the world.

(*d*) The occupations and characteristics of peoples in different regions. Distribution of people.

(*e*) Important railway centres of the world.

(*f*) A few chief towns.

N.B.—Comparison with Asia and India should constantly be made.

NATURE STUDY SYLLABUSES FOR SECONDARY SCHOOLS OF BENGAL.

CLASS IV.

A

1. The parts of a plant.
2. The seed and its helpers air, warmth and moisture. The growth of the seed.
3. Roots and their work.
4. The function of the stem.
5. Leaves and their work; examination of shape, margins and veining.
6. The parts of a flower; identification of a few common garden flowers.
7. Collection and examination of fruits.
8. Observation of plant adjustment to light.
9. Identification of some of the common trees of the neighbourhood.
10. The keeping of a nature diary.
11. Making a collection of wild flowers from the neighbourhood.

B

1. Some observation lessons from insect life, *e.g.*, the ant, bee, spider and mosquito.
2. The simple study of the sparrow and the crow; observation of their habits.
3. Life history of the frog and the butterfly.

CLASS V.

A

1. The life history of a plant from observation.
2. Study of the growth of a plant from (*a*) a bean and (*b*) maize.
3. The action of light on plants.
4. Kinds of roots and their structure.
5. Observation of the time of flowering of plants with the correlative natural phenomena.
6. Recognising and learning the names of a few common wild flowers; the structure of four of them.
7. Food materials of plants; how and where obtained.
8. The plant as a storehouse for food.
9. The relationship between insects and flowers.
10. Seeds and their dispersal.
11. Following the new leaf formation, flower and fruit production and leaf fall of four local trees.
12. The keeping of a nature diary.

B

1. Insect life in the local tank. Life history of the water-beetle, the water-snail and the water-spider.

2. Studying the habits of such creatures as the squirrel and the bat.

3. Recognition of a few local birds by sight and by their notes; studying their habits as far as possible.

CLASS VI.

A

1. Examination of a number of the common flowering plants of the neighbourhood with reference to roots, stems, leaves, flowers, fruits and seeds; observation of the functions of each part.

2. Study of a few typical flowers; recognising wild flowers resembling in general structure those studied in the class.

3. Following the seasonal activities of four more trees.

4. Study of a few water-plants of the neighbourhood, especially the lotus-lily and the water-hyacinth.

5. How some plants protect themselves.

6. Kinds of soil and their suitability.

7. Keeping of nature calendars and diaries

B

1. The common kinds of fishes and reptiles; their characteristics.

2. Observation of the habits of familiar birds—pigeon, hen, duck, kite, vulture.

3. The structural difference between the herbivorous and the carnivorous animals, and their distinctive habits.

C

Knowledge by observation of the broad phenomena of nature in the different seasons.

NOTE.—The lessons in connection with the above syllabuses should be of as practical a nature as possible. The work may include rambles and excursions to study plants and animals; collection of specimens; records of life histories of animals or plants with drawings; and school gardening.

SYLLABUS IN AGRICULTURE FOR SECONDARY SCHOOLS OF BENGAL.

CLASS V.

1. A plant—General description.

2. The root—
   (*a*) Types.
   (*b*) Functions.

3. The stem—
   (*a*) Kinds.
   (*b*) Functions.

4. The leaf—
   (*a*) Shape and Kinds.
   (*b*) Functions.

5. The flower—
   (*a*) Parts.
   (*b*) Functions.

6. The seed—
   (*a*) Parts.
   (*b*) Monocots and dicots.

7. Plants—Annual, biennial and perennial.

CLASS VI.

The soil—separation of clay and sand in a sample.
Physical properties of sand and clay.

3. Behaviour of sand and clay as regards moisture; absorption and retention.
4. Classification of soils according to their physical constitution.
5. Germination of seeds—
(*a*) observation of process;
(*b*) conditions necessary for germination of seeds; to be illustrated by experiments.
6. Depths of sowing of seeds of important farm crops (experimental work).
7. A desi-plough—its parts and their functions (in brief).
8. Ladder—its uses and importance.
9. Rake—its uses.
10. Preparation of seed-bed—methods of sowing and their applicability to the different conditions and crops.
11. Tilth—what it is, why important and how secured (pot experiment).
12. Crops—rabi and kharif—preparing a list of rabi and kharif crops and identifying them.
13. Methods of propagation—
(*a*) from seed;
(*b*) from parts of plants.
14. Transplantation, growing and transplanting rice and vegetables, such as cauliflower, etc.
15. Kharif crops.

CLASS VII.

1. Iron plough—its works and efficiency as compared with that of the desi-plough.
2. Seed testing—importance of keeping seed pure.
3. Methods of sowing—advantages of drill sowing illustrated by actual field sowing.
4. Interculture—why done; its importance; uses of hoes and harrows (by actual field observation).
5. Study of important weeds growing around the school—their habits and seasons of appearance—methods of eradication—where successful.
6. Harvesting and threshing of wheats; methods.
7. Storage of bhusa and grain; methods.
8. Retting of jute and making of ropes.

NOTE.—(1) Sowing of vegetables to be started from class IV and to continue titl the end of the course. (2) Lessons in all classes to be taken according to the agricultural calendar. (3) Crops to be grown according to the standard rotation of the tract.

9. An insect; its description; how to distinguish it from other animals.
10. Useful and injurious insects; study of a few typical ones.

CLASS VIII.

1. Study of rabi and kharif crops by actually growing them; identification, time, and methods of sowing and harvesting.
2. Fairly full information about the following crops:—
Jute, paddy, sugarcane, tobacco, cotton, rye, sesamum, gram, mung, kalai, maize, juar, wheat.
3. Rotation of crops, why necessary—chief rotations practised under different conditions.
4. Leguminous crops—their importance and crop rotation.
5. Fallowing—its advantage.
6. Manures—why applied. Farmyard manure—its value in agriculture. Other manures applied.
7. Collection and methods of storing farmyard manure. Why pit storage is better than heap storage, etc.
8. Study of common water lifts, importance of water to crops, loss of soil water and how to prevent it.
9. Principles governing cultivation of unirrigated lands and methods of conservation of moisture.
10. Study of chief insect pests—preventive and remedial measures.
11. Insects attacking stored grain—preventive measures.
12. Appraisement of crops; practice in measurement of fields.
13. Study of different types of jute, paddy, sugarcane, tobacco and cotton.
14. Housing and feeding of cattle; importance of sanitation.

SYLLABUS OF SCIENCE IN RELATION TO PHYSICAL GEOGRAPHY.

(The subject should be taught as far as possible by observation and experiment.)

CLASSES VII AND VIII.

1. Air—Physical properties; pressure of atmosphere barometer.
2. Transference of heat: thermometers.
3. Heating effect of sun.
4. The effect of heat on water—

(*a*) evaporation.
(*b*) water vapour in the air.
(*c*) condensation.

5. The effect of heat on air.
6. Hot air can hold more water vapour than cold air.
7. Effect of cooling on the water vapour of air;

(*a*) Dew, clouds, mist, fog.
(*b*) Rain.

8. Solids heat and cool more quickly than liquids.
9. Effect of wind and heat on the earth.
10. Main sources of water and its distribution.
11. The great rivers of Bengal; Fresh and Salt water; Pressure of liquids; Density of liquids.
12. The boats on the river—the country boat and its sails—pressure of the wind; the steamship—why does it float?

Buoyancy: Archimedes' principle: Density of solids: Sinking and Floating.

13. How does the sailor guide his boat?

(*i*) In sight of land.
(*ii*) Out of sight of land.

Use of sun and stars. latitude and the sun: measurement of height of sun above horizon at noon: cross staff: simple sextant. Longitude and the need for a good timekeeper or clock: the simple pendulum: pendulum clock: expansion of solids: how expansion is compensated and allowed for. Use of compass.

14. Lodestone: magnetisation: laws of magnetism: the earth as a magnet: the compass.
15. The simple cell, the wire carrying the current, and the compass: electro-magnet: electric bell.
16. Solution.
17. Filtration.
18. Distillation.
19. Crystals.
20. Burning and Rusting.
21. Composition of the air—oxygen and nitrogen.
22. Chemical and physical changes: Mixtures and Compounds.
23. How animals and plants use the air
24. Hydrogen.
25. Composition of water.
26. Natural waters.
27. Carbon, Coal, Combustion.
28. Chalk and Lime.
29. Hard and Soft water.
30. Acids and Alkalis.

SCIENCE SYLLABUSES FOR CLASSES IX AND X.

Head Masters should draw up their own Syllabuses for Classes IX and X guided by the proposed Syllabuses in Elementary Physics and Chemistry, in Experimental Mechanics, and in Botany of the University of Calcutta or of the Education Department.

THE SYLLABUS IN SANSKRIT FOR SECONDARY SCHOOLS OF BENGAL.

CLASS VII.

(*i*) The writing of Devanagri script. As soon as the letters are known words and sentences may be practised. Transcription from the blackboard and from the reader are essential.

(*ii*) Ordinary Sandhis (with illustrations from the Sanskrit reader); declension of typical nouns, pronouns and adjectives; conjugation of verbs in common use such as bhu (ভূ), stha (স্থা), path (পঠ্), drish (দৃশ্), kri (কৃ), gam (গম্), as (অস্), etc., in lat (লট্), lot (লোট্), lang (লঙ্), bidhiling (বিধিলিঙ্) and lrit (লৃট্); elementary distinctions of number, gender and simple case endings; concords of adjective and noun, nominative and verb; simple parsing (পদ পরিচয়).

Construction of simple sentences illustrating these.

(*iii*) Reading of the text-book and explanation of passages. The text-book should be a Sanskrit Primer printed in Devanagri characters and should contain about 30 pages. It should begin with easy sentences about familiar objects and actions within the range of the pupils' experience, and should lead up gradually to short stories and easy poems. Intricacies of Grammar should be avoided as far as possible in the text-book for beginners of this class.

Thirty lines of poetry should be committed to memory. All explanations by the teacher should be in the Vernacular or in English.

(*iv*) Writing of passages dictated from the reader

(*v*) Translations of simple sentences from the Vernacular or from English into Sanskrit.

CLASS VIII.

(*i*) Intelligent reading of the Sanskrit reader and explanation of its passages in the Vernacular or English. The Sanskrit reader should consist of about 40 pages; and should contain passages from Hitopodesha, Panchatantra, Vishnupuran, the Ramayana and the Mahabharata, and the Chanakya slokas.

Forty lines of poetry should be committed to memory.

(*ii*) Fuller knowledge of Sandhis; declensions; case endings and their application; cases; genders; conjugation in ten classes of verbs in all forms except lut (লুট্), lung (লুঙ্), lring (লৃঙ্), and ashirling (আশীর্লিঙ্); simple কৃৎ প্রত্যয় (তুমুন্, ত্বাচ্, ল্যপ্, শতৃ and শানচ্); use of আত্মনেপদ; and পরস্মৈপদ; principles of কর্তৃবাচ্য, কর্মবাচ্য and ভাববাচ্য; elementary knowledge of সমাস and তদ্ধিত।

Construction of simple sentences illustrating these.

(*iii*) Construction of sentences with words and expressions learnt from the text-book and the teacher.

(*iv*) Translation of passages from the Sanskrit reader and of easy unseen passages into the Vernacular or into English; and also translation of simple passages from the Vernacular or English into Sanskrit.

CLASSES IX AND X.

Head Masters should draw up their own Syllabuses guided by the Syllabus for the Matriculation Examination of Calcutta University.

The following points should be kept in mind when drawing up the Syllabuses:—

(*i*) At the end of the course, the pupils should be able to understand ordinary Sanskrit, and to express very simple ideas in Sanskrit.

(*ii*) Grammar and language; rules and examples should be taught together.

(*iii*) Proper stress should be laid on distinct pronunciation. Pauses should be determined by the sense of the text at the time of reading.

(*iv*) Progressive exercises in written composition and translation both from and to the Vernacular or English should form a regular part of the course.

(*v*) The various parts of the course in each class should be taught in correlation with each other.

[Schools may use the Devanagri or the Bengali script.]

SYLLABUS IN PERSIAN FOR SECONDARY SCHOOLS OF BENGAL.

CLASS VII.

(*i*) The writing of Persian script. As soon as the letters are known, words and sentences may be practised. Transcription from the blackboard and from the reader are essential.

(*ii*) Simple Persian words with their meaning. Compound words with their meaning. All explanation by the teacher should be in the Vernacular or in English.

(*iii*) Simple accidence including simple ideas of verbs and tenses; substantives and particles; kinds of verbs; tenses, moods and conjugations of verbs.

Construction of simple sentences to illustrate these.

(*iv*) Reading of the text-book and explanation of passages. The text-book should consist of about 30 pages. It should begin with easy sentences about familiar objects and actions within the range of the pupils' experience; and should lead up gradually to short stories and easy poems.

Thirty lines of poetry should be learnt by heart.

(*v*) Writing of passages dictated from the reader.

(*vi*) Translation of simple sentences from the Vernacular or English into Persian.

CLASS VIII.

(*i*) Accidence including nouns with their kinds, number, gender and case; adjectives and their comparison; pronouns, prepositions, conjunctions and interjections. Conjugations of the different tenses of verbs, active and passive voices.

Construction of simple sentences to illustrate the above.

(*ii*) Intelligent reading of the Persian reader, and explanation of its passages in the Vernacular or English. The Persian reader should consist of about 40 pages, and should contain easy extracts, easy stories and easy poetical pieces.

Forty lines of poetry should be learnt by heart.

(*iii*) Construction of sentences with words and expressions learnt from the text-book and the teacher. The writing of simple sentences and short stories.

(*iv*) Translation of passages from the Persian reader and of easy unseen passages into the Vernacular or English; and also translation of simple passages from the Vernacular or English into Persian.

CLASSES IX AND X.

Head Masters should draw up their own Syllabuses guided by the Syllabus for the Matriculation Examination of the University of Calcutta.

The following points should be kept in mind when drawing up the Syllabuses:—

(*i*) At the end of the course, the pupils should be able to understand ordinary written and spoken Persian, to write in Persian, and to express very simple ideas in Persian.

(*ii*) The reading matter should contain extracts not only from classical writers but also from modern authors.

(*iii*) Grammar should be taught more by reference to the prescribed texts than by learning by heart from grammar books.

(*iv*) More time and attention than formerly should be given to translation from the Vernacular or English into Persian and to Persian composition so that students may acquire some facility in writing correct and idiomatic Persian.

(*v*) The various parts of the course in each class should be taught in correlation with each other.

SYLLABUS IN ARABIC FOR SECONDARY SCHOOLS OF BENGAL.

CLASS VII.

(*i*) The writing of Arabic script. As soon as the letters are known words and sentences may be practised. Transcription from the blackboard and from the reader are essential.

(*ii*) Simple Arabic words with their meaning. Compound words with their meaning. All explanations by the teacher should be in the Vernacular or in English.

(*iii*) Simple accidence including substantives and particles; kinds of verbs; tenses, moods and conjugations of verbs. Construction of simple sentences to illustrate these.

(*iv*) Reading of the text-book and explanation of passages. The text-book should consist of about 30 pages. It should begin with easy sentences about familiar objects and actions within the range of the pupils' experience, and should lead up gradually to short stories and easy poems.

Thirty lines or poetry should be committed to memory.

(*v*) Writing of passages dictated from the reader.

(*vi*) Translation of simple sentences from the Vernacular or English into Arabic.

CLASS VIII.

(*i*) Accidence including nouns with their kinds, number, gender and case; adjectives and their comparison; pronouns, prepositions, conjunctions and interjections. Conjugation of the different tenses of verbs; active and passive voices.

Construction of simple sentences to illustrate the above.

(*ii*) Intelligent reading of the Arabic reader, and explanation of its passages in the Vernacular or English. The Arabic reader should consist of about 40 pages, and should contain easy extracts, easy stories and easy poetical pieces.

Forty lines of poetry should be committed to memory.

(*iii*) Construction of sentences with words and expressions learnt from the text-book and the teacher. The writing of simple sentences.

(*iv*) Translation of passages from the Arabic reader and of easy unseen passages into the Vernacular or English; and also translation of simple passages from the Vernacular or English into Arabic.

CLASSES IX AND X.

Head Masters should draw up their own Syllabuses guided by the Syllabus for the Matriculation Examination of the University of Calcutta.

The following points should be kept in mind when drawing up the Syllabuses:—

(*i*) At the end of the course, the pupils should be able to understand ordinary written and spoken Arabic, to write in Arabic, and to express very simple ideas in Arabic.

(*ii*) Grammar should be taught more by reference to the prescribed texts than by learning by heart from grammar books.

(*iii*) More time and attention than formerly should be given to translation from English or the Vernacular into Arabic and to Arabic composition so that students may acquire some facility in writing correct and idiomatic Arabic.

(*iv*) The various parts of the course in each class should be taught in correlation with each other.

SYLLABUS IN PALI FOR SECONDARY SCHOOLS OF BENGAL.

CLASS VII.

(*i*) Declensions of nouns, pronouns and adjectives (Saddarūpa), conjugations of simple roots in Vattamāna, ajjatanī, bhavissantī, pañcamī, sattamī and sandhikappa.

(*ii*) The following stories should be read for translation into the student's mother-tongue:—

Vanarinda Jātaka, Sīhacamma Jātaka, Sumsumara Jātaka, Kaṭāyamutthi Jātaka, Giridanta Jātaka, Kacchapa Jātaka, Javasukuna Jātaka and Kurungamiga Jātaka.

(*iii*) Simple sentences to be framed in Pali; and simple sentences in English or the Vernacular to be translated into Pali.

CLASS VIII.

(*i*) Revision of the portion prescribed for Class VII. Case-endings and their application (Kāraka). Compounds (Samāsa); derivative conjugations (passive, causative, denominative, intensives, desideratives and denominiatives) and indeclinables.

(*ii*) The following stories should be read for translation into English:—

Sasa-Jātaka, Cammasāṭaka-Jākata, Bāveru-Jātaka, Gangeyya-Jātaka, Kosiya-Jātaka, Suhakha-Jātaka, Ulūka-Jātaka, Vedabbha-Jātaka, Phala-Jātaka, Dadhivāhana-Jātaka.

(*iii*) Simple passages to be translated from Pali into English, and from English into Pali.

CLASSES IX AND X.

Head Masters should draw up their own Syllabuses guided by the Syllabus for the Matriculation Examination of the University of Calcutta.

The following should be kept in mind when drawing up the Syllabuses:—

(*i*) Grammar and language, rules and examples should be taught together.

(*ii*) The various parts of the course in each class should be taught in correlation with each other.

SYLLABUS IN URDU FOR SECONDARY SCHOOLS OF BENGAL.

CLASS VII.

(*i*) The writing of Urdu script. As soon as the letters are known, words and sentences may be practised. Transcription from the black-board and from the reader are essential.

(*ii*) Simple Urdu words with their meaning. Compound words with their meaning. All explanation by the teacher should be in the Vernacular or in English.

(*iii*) Simple accidence including simple ideas of verbs and tenses; substantives and particles; kinds of verbs; tenses, moods and conjugations of verbs.

Construction of simple sentences to illustrate the above.

(*iv*) Reading of the text-book and explanation of passages. The text-book should consist of about 30 pages. It should begin with easy sentences about familiar objects and actions within the range of the pupil's experience; and should lead up gradually to short stories and easy poems.

Thirty lines of poetry should be learnt by heart.

(*v*) Easy conversation. Much stress to be laid on a wide vocabulary and correct expression.

(*vi*) Writing of passages dictated from the reader.

(*vii*) Translation of simple sentences from the Vernacular or English into Urdu.

CLASS VIII.

(*i*) Accidence including nouns with their kinds, number, gender and case; adjectives and their comparison; pronouns, prepositions, conjunctions and interjections. Conjugations of the different tenses of verbs; active and passive voices.

Construction of simple sentences to illustrate the above.

(*ii*) Intelligent reading of the Urdu reader, and explanations of its passages in the Vernacular or English. The Urdu reader should consist of about 40 pages, and should contain easy extracts, easy stories, and easy poetical pieces.

Forty lines of poetry should be learnt by heart.

(*iii*) Construction of sentences with words and expressions learnt from the text-book and the teacher. The writing of simple sentences and short stories.

(*iv*) Easy conversation including simple idioms.

(*v*) Translation of passages from the Urdu reader and of easy unseen passages into the Vernacular or English; and also translation of simple passages from the Vernacular or English into Urdu.

CLASSES IX AND X.

Head Masters should draw up their own Syllabuses guided by the Syllabus for the Matriculation Examination of the University of Calcutta.

The following points should be kept in mind when drawing up the Syllabuses:—

(*i*) At the end of the course, the pupils should be able to understand ordinary written and spoken Urdu, to write in Urdu, and to carry on ordinary conversation in Urdu.

(*ii*) The reading matter should be composed chiefly of extracts from modern authors, and should be in simple language.

(*iii*) Grammar should be taught more by reference to the prescribed texts than by learning by heart rules from grammar books.

(*iv*) Special attention should be given to the acquirement of fluent speech in Urdu.

(*v*) The various parts of the course in each class should be taught in correlation with each other.

THE HANDWRITING SYLLABUS FOR THE SECONDARY SCHOOLS OF BENGAL.

CLASS III.

Bengali.—Copying of sentences from the blackboard. A copy-book for writing of medium size. Transcription of short paragraphs from the readers. Easy dictation with a minimum of ten words a minute.

English.—Small and capital letters in ordinary use. Small and capital letters as found in printed books. Easy English words and sentences. The figures 1—9. The letters should be taught in groups of similarity of form. The form should be of simple character, and those used in every-day life. All merely ornamental and useless strokes should be avoided.

Copying of letters, words and sentences from the blackboard and readers. A large-hand double-lined copy-book.

Particular attention should be given to the position of the body, the paper and the pen when writing.

All writing should be clean, neat and easily legible. The amount written at each lesson should be small. The quality of the writing is of chief importance.

CLASS IV.

Bengali.—Copy-book writing of ordinary size. Transcription of paragraphs from the blackboard and from readers. Dictation of paragraphs of about ten lines with greater speed than in Class III.

English.—Copy-book writing of medium size. Transcription from blackboard and readers. Easy dictation. Special attention should be given to the spacing between letters of the same word and between successive words; it should be neither cramped nor exaggerated.

CLASS V.

Bengali and English.—Copy-book writing, transcription and dictation as in Class IV. More attention should be given to rapidity of writing consistent with legibility.

CLASS VI.

Bengali and English.—Continuation of transcription, dictation and copy-book writing. All writing should now be of ordinary size and with single lines.

All written exercises should be done with the maximum degree of rapidity consistent with full legibility.

SYLLABUS OF MANUAL TRAINING AND HAND AND EYE TRAINING.

CLASS III.—Cardboard Modelling.

1. To construct a full-sized cardboard scale twelve inches long, showing inches, half inches, quarter inches, eighth inches and between the 9 and 12 inch marks) divisions of sixteenths of an inch.

2. To construct other cardboard scales of—

(*i*) Half full size or 6 inches to the foot.

(*ii*) Quarter full size or 3 inches to the foot.

(*iii*) One inch to the foot.

3. To construct two cardboard set squares, one 45°, 45°; and the other 30°, 60°.

4. To draw out and construct in cardboard the following geometrical solids:—

Cube, rectangular prism, triangular prism, any polygonal prism, rectangular pyramid, triangular pyramid, any polygonal pyramid.

5. To draw out and construct in cardboard simple geometrical solids built up of combinations of the foregoing, and also simple objects leading from the foregoing such as rectangular box with lid, boxes of match-box pattern, pencil case, pen tray.

6. The pupils should be instructed in the use of gum, paste and glue; and the scoring knife, cutting board, straight edge, scissors, holders and scales. They should also have some acquaintance with book-binders' cloth and calico strips for binding edges; and fancy and coloured surface papers for embellishing and mounting.

7. Cardboard should be used in three thicknesses, viz.: (*i*) thin, (*ii*) medium, and (*iii*) thick, depending on the dimensions of the model to be constructed.

CLASS IV.

1. With the practice gained in drawing out and constructing the geometrical models in class III, the pupil will now be able to proceed to more difficult but more interesting models.

2. The following models are suggested:—

(*a*) Cardboard protractor to read 180°.

(*b*) Box with inclined sides, stool, table, chair, house showing doors and windows, almirahs, bed, photograph frame, picture-frame, clock showing face, different shaped vases with flat sides, book-racks, chest of drawers, hinged boxes.

3. The pupils should also be given practice in drawing out and constructing models involving surfaces curved in one direction, such as:—

Cylinder with closed ends, cone, flower-pot, box with curved top, cylindrical pencil case, bath, curved photograph or picture frame, water-bucket, flower vases.

This work may be elaborated to include models having curved surfaces meeting in mitred edges such as fancy boxes and vases.

4. The manual instructor should vary or supplement the above suggested models by models of all sorts of simple school-room and domestic articles and utensils.

CLASS V.

1. In the two previous years the pupils will have mastered the drawing and construction of models involving plane surfaces with various shapes of perimeter, and models involving curved surfaces in one plane. In this class, he should now proceed to construct models involving combinations of the above. This year's course should also include a number of working models.

2. The following models are suggested:—

Folding camp stool and folding deck chair with any suitable cotton material for seats and pins for hinges; hand lanterns of different shapes; house with steps; plinth verandahs; doors; windows and roof; simple brick or masonry railway bridge; a sun-dial properly graduated; palki; country-boat with sculling oar; agricultural plough.

3. The following working models are suggested:—

Weighing scales; see-saw; swing; wheelbarrow; gharry; motor-car; railway truck; pull-punkah; windmill; railway signal; child's perambulator.

CLASS VI.

1. Cardboard modelling involving the use of other materials than cardboard, such as wood, sticks, wire, string and pins may be introduced.

2. The following models are suggested:—

Folding household steps; bed with plank top and mosquito poles; rocking chair.

3. The following working models are suggested:—

Cycle; railway locomotive; country-boat with sails; paddle steam-boat; working crane with pulley blocks; wheel and axle for raising water buckets from a well; bullock cart; oil pressing mill; sugarcane crushing mill; surki mill.

4. The pupils might collectively construct all the models comprising a railway station including railway sleepers and rails, signals, platforms, booking and station offices, gates, bridges, locomotives and rolling stock. A small part might be carried out by each pupil on a predetermined scale, and the whole finally pieced together.

The same idea might be applied to a market place, village street, etc.

CLASS VII.

1. The syllabus for this year should be chiefly concerned with wood strip work and should have a bias towards carpentry so as to be introductory to the carpentry courses of the following three years.

2. Models should, however, be constructed involving a use of all the materials of construction used in the preceding years. Any other suitable and available materials may also be pressed into use such as wood; thin turned metal sheets which can be cut and manipulated almost as easily as cardboard and joined at the edges by folded seams; and sheet glass which can be easily cut and used for windows. Portland cement and sand may be used in the walls of model houses, bridges, etc.

3. The following models are suggested:—

Letters of the alphabet with straight limbs only, post and rail wooden fences, wooden gates, various wooden roof trusses of the well-known types, lattice girder bridge, wooden photograph frame, wooden picture frame; models of buildings such as cowsheds, cookhouse, bungalow; masonry or brick bridges.

4. Corrugated iron sheds or godowns should also be made, and brick and mud used for the internal part of masonry.

5. Iron rails and standards should be made from the wire and corrugated iron out of the tinned sheet; doors, wooden frames and woodwork out of the wood strips; and the sheet glass cut to size and used in the windows.

Thatched roofs can be made from dried grass or cocoanut fibre.

6. In cutting, fitting, joining and nailing the woodwork, the pupil should be shown how to use the tenon saw and sawing block, straight edge, marking knife, measuring rule, hammer, nails and trysquare; and how to finish smooth with glass paper.

CLASS VIII.

Woodwork.

1. Preliminary drawing lessons showing the proper use of the drawing board, teesquare, setsquares, scales, compass, pencils, papers and drawing-pins. In each lesson there should be a definite connection between the drawing demonstration and benchwork.

2. The drawing should be confined to plans, side views, sections and isometric projections; and the drawing course should be so arranged as to develop these in order of difficulty. The pupil should be taught to use only the minimum number of views necessary (*e.g.*, an article may possibly be completely represented by a dimensioned isometric projection only).

3. The use of the following should be demonstrated:—

Bench, footrule, steel rule, carpenters' pencil or mark knife, bench vice, tenon saw, rip saw, trysquare, benchsquare, trying plane, jack plane, smoothing plane, mallet, firmer chisels, marking gauge, bradawl, carpenter's hammer, screwdriver, gimlet, glass paper, straight edge.

Pupils should not be allowed to sharpen their own tools in this course.

4. The making of definite models or woodwork articles should not be attempted by pupils until they have become familiar with the use of the above tools. They should be given simple wooden test pieces about 12 to 15 inches long, and an inch or two in cross sectional dimensions. These pieces should always be a little longer than the dimensions intended for the finished piece and should be rough sawn only.

5. The execution of the test pieces should involve the following operations:—

Sawing and marking by pencil and square or by gauge; planing, trying, squaring, smoothing, levelling and grooving; making such carpentry joints as mortice and tenon.

6. Towards the end of the year, the pupils may be allowed to make a few simple woodwork articles, such as simple bracket, soap-box, match-box stand, toothbrush rack, inkpot, stand, simple picture-frame, wooden rulers, and pointers.

CLASS IX.

1. The use of the few remaining carpenters' tools should be learnt, and the test pieces should consist of simple woodwork articles. The pupils should work from dimensioned drawings supplied to them. They should also be required to measure a few woodwork articles, draw their measurements to scale, and make reproductions of them.

2. The chief remaining carpenters' tools are as follows:—

Shooting board, wing compass, spokeshave, wood files and rasps, brace and bits, cramps, gauges, bow saw and rabbit plane, dovetail saw, nail punch, mortice chisels, holdfasts, grindstone, water and oil stones.

3. The test pieces or models should also include the operations of glueing and pinning joints, the use of wire and screw nails, countersinking, panelling and cutting out designs with fret or bow saw, chamfering, beading and grooving.

4. The pupils should be shown how to grind and sharpen their tools, and keep them in order.

5. The following models or articles are suggested as test pieces:—

Book-shelf, corner bracket, footstool, boxes of various kinds, camp stool, deck chair, small tables of various kinds, flower-pot stand, wooden tray, hanging shelves, wall plaques, drawing board, teesquare, stationery case, curtain brackets and rods, water-pot stand.

CLASS X.

1. The pupils will continue to make woodwork articles, and they should be of a more advanced nature. They will also learn how to embellish, finish and polish them.

2. The embellishment of woodwork articles by bevelling and chamfering, beading, grooving, simple carving, panelling and piercing, glass papering and French polishing may be attempted in a simple way.

3. The following test pieces or models are suggested:—

Folding table, simple chair, fancy picture-frame, small medicine chest, nest of drawers for stationery or other purposes, cycle stand, hanging towel rail, fern box, wheelbarrow, wash-basin stand, wooden cradle.

4. Any apparatus that would be useful in the school should also be constructed. Such apparatus should include school rulers, pointers, drawing boards, gymnasium and drill apparatus such as bar bells, Indian clubs, horizontal bar, parallel bars, ladder and vaulting horse.

5. Simple examples of wood turning may also be executed by using the ordinary frame and bowstring arrangement as used in the bazars.

List of Requisites for Cardboard Modelling, Wood Strip Work, etc., for Classes III to VII.

Cardboard (white pulpboard) in three thicknesses—thin, medium, thick.

Fancy papers for covering.

Surface paper for folding and mounting (assorted colours).

Bookbinder's cloth $\frac{3}{8}''$ and $\frac{1}{2}''$ wide and gummed (assorted colours):—

Calico strips.

Glue pot, glue brushes and glue.

Cutting out knife (Leipsic pattern).

Cutting boards about $14'' \times 10'' \times 1''$

Straight edge steel, $12''$.

Scissors.

Folders (bone), $5''$ long.

Steel squares, $16'' \times 9''$.

Brass setsquares.

Footrules or scales.

Water hone for sharpening knives.

List of Materials and Tools required for Wood Strip Work in Classes VI and VII.

Materials.—Strips of planed wood 12 inches to 18 inches in length of three wide—1″, ¾″, and ½″, and of three thicknesses, ¾″, ½″, and ⅜″. Wire nails ⅝″, ½″ and ⅜″. Glass paper for smoothing.

Tools.—Sawing block; lead pencils; metal ruler or scale; small hand saw or tenon saw; trysquare; carpenter's hammer.

Materials and Tools required for Carpentry Work in Classes VIII, IX and X for each class of 20 boys.

[Woodworkers' benches should each be provided with planing stop and bench screw or vice. Four scholars may work at each bench; and there may be five benches.]

Bench holdfasts	...	2
Bench brush	...	1
Bradawls	...	8
Screwdrivers	...	20
Firmer chisels, ⅛″	...	5
Firmer chisels, ¼″	...	10
Firmer chisels, ⅜″	...	10
Firmer chisels, ½″	...	20
Firmer chisels, ⅝″	...	10
Firmer chisels, ¾″	...	10
Firmer chisels, 1″	...	10
Mortise chisels, ¼″	...	4
Mortise chisels, ⅜″	...	4
Mortise chisels, ½″	...	4
Brace and bits (American pattern), set complete	...	2
Trysquare, 4½″	...	20
Bevelsquares	...	5
Wing compasses	...	4
Steel clamp	...	1
Half round files (various)	...	12
Marking gauges	...	20
Gimlets	...	8
Glass paper, Nos. 0, 1, 1½, one quire of each	...	1
Glue pot, glue and brushes, set	...	1
Gouges, ¼″ to ¾″	...	5
Grindstone with iron trough and grinding support	...	1
Carpenters' hammers	...	20
Carpenters' mallets (small)	...	20
Marking knives	...	20
Oil stones	...	3
Pincers	...	4
Jack planes	...	20
Smoothing planes	...	4
Trying planes	...	4
Steel rules	...	20
Tenon saws (10 inches)	...	20
Panel saws	...	5
Rip saws	...	4
Bow saws (8 inches)	...	2
Spokeshaves	...	8

A sufficiency of the following requisites should also be provided:—

Chalk, carpenters' pencils, foolscap paper, nails, screws, linseed oil, soap, towels, drawing books and paper, dusters, labels, gum brushes and cord.

THE CLAY-MODELLING SYLLABUS FOR SECONDARY SCHOOLS OF BENGAL.

CLASS III.

1. To model easy common fruits and vegetables, such as peach, mango, orange, apple, lichi, plantain, potato, brinjal, tamarind, radish, tomato.

2. To model simple objects, such as ink-pot, horse-shoe, spear, knife, book, fan saw, bowl.

3. To model in relief a simple flower or fruit or leaf.

4. To model from memory objects, etc., similar to those studied above. They may be shown to the pupils for a short time and then taken away.

CLASS IV.

1. To model natural objects, such as papaya, dharash, jhinga, cocoanut, onion, sugarcane.

2. To model common objects, such as axe, pitcher, cooking-pot, drinking-glass, tea-cup and saucer, kettle, sandal, padlock.

3. To model simple birds and animals, such as duck, parrot, hare, rat, frog.

4. To model in relief a simple fruit or flower with leaves.

5. To model from memory objects, etc., named above. Pupils may afterwards be provided with the original objects, etc., to test the accuracy of their work.

Greater precision should be required than in class III.

CLASS V.

1. To model fruits of more difficult form, e.g., pomegranate, custardapple, jackfruit, pineapple. Each should show a portion of the twig on which it grew.

2. To model objects of common use, such as water jug, nut-crakers, conchshell, candlestick, shoe, flower-vase.

3. To model insects and animals, such as butterfly, beetle, lizard, snake, spider, snail, dog.

4. To model physical features illustrating geographical terms, such as river, lake, delta, island, hill.

5. To model in relief fruits, flowers and leaves of more difficult design.

6. To model from memory objects named above and previously studied.

The pupils should now be critical of their own products, and no longer satisfied with crude results.

They may be required to paint the models in their natural colours.

CLASS VI.

1. To model sections of fruits attempted in the previous classes.

2. To model more difficult objects of common use.

3. To model more difficult animals, birds and insects, e.g., giraffe, peacock, spider, mosquito.

4. To model, in relief, Bengal and India.

5. To model in relief more difficult fruits, flowers and leaves arranged according to the pupils' own imagination and fancy.

6. To model from memory objects, etc., named above.

SYLLABUS IN PHYSICAL TRAINING FOR THE SECONDARY SCHOOLS OF BENGAL.

N. B.—(*a*) Marching and running should take place early at the beginning and at the end of each lesson and should be followed by one or two breathing exercises. One of the games described at the end of the Drill Book should preferably be included in the lesson and played after the physical exercises.

(*b*) The B. Section of the course may be taught during the second half of the year.

CLASS III.

I. The following movements should be taught during the first two months of the course, so that exercises may be practised and made perfect during the remainder of the year:—

(*a*) (1) Fall-in, (2) Attention, (3) Stand-at-ease, (4) Stand-easy, (5) From the right in twos or threes or fours-number, (6) Right-turn, (7) Left-turn, (8) Right (or left)-dress, (9)Eyes-front, (10) Quick mark-time, (11) Halt, (12) Half right or left-turn.

(*b*) (1) Right about-turn, (2) Left about-turn, (3) About-turn, (4) ...steps forward (or backward)-march, (5) Right, left or about-turn while marking time, (6) Double mark-time.

II. **Exercises after taking Open Order.—**

Arm Exercises.—(A) (1) Arms across bend. (2) Alternate arms across bend and arms sideways stretch. (3) Arms across bend, sideways stretch, across bend, to attention. (4) Wrist bending in four positions of (*a*) attention, (*b*) raised forward, (*c*) upwards and (*d*) sideways. (5) Forearm bending in same positions as (4).

(B) (1) Neck rest. (2) Alternate neck rest and arms sideways stretch. (3) Arms sideways stretch to neck rest, to arms sideways stretch, to attention. (4) Rotation of arms and forearms in the four positions of (*a*) attention,(*b*) forward, (*c*) upward, and (*d*) sideways. (5) Small arm circles in the four positions of (4).

(C) Breathing exercises.

Leg Exercises.—(A) (1) On the toes, rise. (2) Knee raising with left knee, right knee, and alternately. (3) Forward toe touch, with left foot, right foot, and alternately. (4) Full knee bending. (5) Left side toe touch with jump, right side toe touch with jump, and alternately.

(B) (1) Backward toe touch, with left foot, right foot and alternately. (2) Leg raising forward with left leg, right leg and alternately. (3) Full knee bending. (4) Forward toe touch with jump with left foot, right foot, and alternately.

(C) Breathing exercises.

Head and Body Exercises.—(A) (1) Head to the left bend. (2) Head to the right bend. (3) Head to the left and right alternately, bend. (4) Body forward, bend. (5) Body backward, bend.

(B) (1) Head to the left turn. (2) Head to the right turn. (3) Head to the left and right alternately turn. (4) Body to the left bend. (5) Body to the right bend. (6) Body to the left and alternately, bend.

(C) Breathing exercises.

Combination Exercises.—(A) (1) Arms raising sideways with forward toe touch, to attention. (2) Arms across bend with full knee bending, to attention. (3) Arms across bend, to forward body bend with arms raised sideways, arms across bend, to attention.

(B) (1) Neck rest with backward toe touch, to attention. (2) Neck rest position, to body forward bend, to body raise, to attention. (3) Neck rest with body bending forward, to attention.

(C) Breathing exercises.

(D) Reform ranks.

CLASS IV.

I. The following movements should be taught in addition to those for former classes:—

(1) Forward—quick march. (2) Backward—march. (3) Side step to the left or right—march. (4) While marching, right, left or about—turn.

II. **Exercises after taking Open Order.—**

Arm Exercises.—(A) (1) Arm swinging in four positions of (*a*) attention, (*b*) arms raised forward, (*c*) arms upward, (*d*) arms sideways. (2) Arms bend. (3) Arms bend, to arms stretch sideways, to arms bend, to attention. (4) Arms bend, to arms stretch upwards, to arms bend, to attention. (5) Arms bend, to arms stretch forward, to arms bend, to attention. (6) Large arm circles in and out.

(B) (1) Arms across bend, to attention. (2) Arms sideways stretch. (3) Arms across bend, to sideways stretch, to arms bend, to attention. (4) Arms sideways and upwards raised. (5) Large arm circles in and out.

(C) Breathing exercises.

Leg Exercises.—(A) (1) On the toes rise. (2) On the heels rise. (3) Leg raising to the left, to the right and alternately. (4) Backward toe touch with jump, left foot, right foot and alternately. (5) Forward charge with left foot, right foot and alternately.

(B) (1) Feet open and close. (2) Half knee bend. (3) Side toe touch with left foot, right foot and alternately. (4) Leg raise forward with left leg, right leg and alternately. (5) Astride jump with left foot forward and right foot backward, change feet, and alternately.

(C) Breathing exercises.

Head and Body Exercises.—(A) (1) Head forward bend. (2) Head backward bend (3) Head forward and backward alternately bend. (4) Body to the left turn. (5) Body to the right turn. (6) Body to the left and right alternately turn.

(B) (1) Head to the left bend. (2) Head to the right bend. (3) Head to the left and right alternately, bend. (4) With arms raised sideways (*a*) body to the left bend (*b*) to the right bend; body to the left and right alternately bend.

(C) Breathing exercises.

Combination Exercises.—(A) (1) Arms bend with forward charge, to attention. (2) Arms bend, to forward charge with arms thrust sideways, to arms bend, to attention. (3) Arms bend, to backward toe touch with arms thrusting upward, to arms bend, to attention.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

CALCUTTA IMPROVEMENT TRUST.

The accounts of the Calcutta Improvement Trust for the year 1926-27 having been audited by an Auditor appointed by Government, the following Abstract of Accounts is published in accordance with the provisions of Section 136 of the Bengal Act V of 1911.

(Sd.) J. A. L. SWAN,
Chairman,
Calcutta Improvement Trust.

The 24th November 1928.

CHAIRMAN,

Annual Account for the year ended 31st March 1927.

I beg to submit the Accounts for the year ended 31st March, 1927.

CAPITAL ACCOUNT.

RECEIPTS.—The receipts for the year ended 31st March 1927, amounted to Rs. 29·60 lakhs against the Annual Budget Estimate of Rs. 22·51 lakhs. The actuals and estimates of the different sources of receipts compare as follows :—

	Budget.	Actuals.	Difference.
	Rs.	Rs.	Rs.
Fees under Section 78	2,00,000	2,14,076	+14,076
Sale of Land	20,00,000	26,50,650	+6,50,650
Sale of Buildings	50,000	1,25,494	+75,494
Fees for Footings	....	*Dr.* 39,641*	—39,641
Sale of Old Materials, etc.	1,000	9,509	+8,509
Total ..	22,51,000	29,60,088	+7,09,088

EXPENDITURE.—The total expenditure for the year was Rs. 55,76,345 or Rs. 21·62 lakhs below the Budget Provision. The main items of difference between the actuals and estimates compare as follows :—

	Budget.	Actuals.	Difference.
	Rs.	Rs.	Rs.
Cost of Land	52,71,000	39,94,176	—12,76,824
Engineering Works (including Stores) ..	16,84,500	13,55,651	—3,28,849
Bridges	3,55,000	*Cr.* 25,000	—3,80,000
Corporation Advances for adjustment during year	2,96,000	Nil	—2,96,000
Other Charges	1,31,697	2,51,518	+1,19,821
Total ..	77,38,197	55,76,345	—21,61,852

No value is included in the assets side of the Balance Sheet in respect of surplus land in possession of the Trust nor in respect of Mortgages and Rent Charges executed by the purchasers. These at 31st March 1927, were estimated as follows :—

	Rs.
Surplus land available for auction	1,65,00,000
Re-housing Schemes	27,50,000
Storeyard	99,000
Mortgages and Rent Charges	76,45,000
Total ..	2,69,94,000

The total loans raised by the Trust amount to Rs. 2,73,50,000.

* This represents the amount made over to Corporation during the year in terms of the Resolution No. 10, of the Meeting held on 15th June 1926.

The closing balance on Capital Account which it was estimated would amount to Rs. 288·26 lakhs stood at Rs. 258·47 lakhs arrived at as follows :—

	Estimated.	Actuals.
	Rs.	Rs.
Opening Deficit	233·39 lakhs.	232·31 lakhs.
Receipts	22·51 „	29·60 „
	210·88 „	202·71 „
Expenditure	77·38 „	55·76 „
Closing Deficit at 31-3-27 ..	288-26 „	258·47 „

REVENUE ACCOUNT.

RECEIPTS.—The total receipts for the year are Rs. 47·24 lakhs against a Budget Estimate of Rs. 41·41 lakhs. The increase is due mainly to the receipts from Terminal Tax, Duty on Jute, Municipal Contribution and Rebate of Interest on Debenture Loans exceeding the annual Budget Estimate.

EXPENDITURE.—The expenditure for the year was Rs. 28·36 lakhs against a Budget Provision of Rs. 30·73 lakhs. The decrease of Rs. 1·37 lakhs is due to savings against the provision for expenditure on Debenture Loans, Establishment, Stamp Duty, etc.

The closing balance on Revenue Account shows a surplus of Rs. 3,43,33,116-6-6 of which a sum of Rs. 2,58,47,296-11-9 has been spent on Capital Account to meet payments in excess of Capital Receipts. The net balance of Rs. 84,85,819-10-9 was held as follows :—

Appointment.

CALCUTTA, THE 10TH DECEMBER 1928.

RESOLUTION—No. 13689A.

READ—

Resolution of this Government, No. 1646 A. D., dated the 21st June 1920.
Letter No. 426 A. D., dated the 16th June 1922, to the Secretary, Superior Civil Service Association.
Letter No. 1666-1670 A. D., dated the 15th September 1925, to all Commissioners of Divisions.
Letter No. 1026-1030 A. D., dated the 31st May 1926, to all Commissioners of Divisions.
Letter No. 1422 A. D., dated the 7th September 1926, to the Honorary Secretary, Bengal Junior Civil Service Association.
Letter No. 4617-4621 A., dated the 10th April 1926, to all Commissioners of Divisions.

On the 3rd November 1927, a deputation of the Bengal Junior Civil Service Association waited on the Hon'ble Member in charge of the Appointment Department and the Chief Secretary to Government and explained the grievances of the service in respect of their pay, prospects, and status. In particular, they asked that—

(1) the Bengal Junior Civil Service should be amalgamated with the Bengal Civil Service (Executive);

(2) Sub-Deputy Magistrates and Collectors should be eligible for the grant of higher magisterial and revenue powers;

(3) members of the Bengal Junior Civil Service should be called Additional Deputy Collectors instead of Sub-Deputy Collectors;

(4) a revised scale of pay should be introduced substituting a biennial increment of Rs. 20 for the present triennial increment of Rs. 25, with a selection grade on Rs. 650 for six per cent. of the total service;

(5) the prescribed age-limit of 40 for promotions from the Bengal Junior Civil Service to the Bengal Civil Service (Executive) should be removed;

(6) the percentage of appointment made to the Bengal Civil Service (Executive) by promotions from the Bengal Junior Civil Service should be raised from 35 per cent. to 75 per cent;

(7) increased pony allowances should be granted to members of the service on training in settlement;

(8) the amount of rewards payable to the members of the service for passing examinations in certain tribal languages should be raised;

(9) house and travelling allowances of circle officers should be increased, and that general permission should be granted to them to reside at the headquarters of districts and subdivisions.

2. **Items (1) and (2)** above received the careful consideration of the Governor in Council in 1920 and 1926, and in this Government Resolution No. 1646 A.D., dated the 21st June 1920, and circular letter to the Commissioners of Divisions, No. 1026-1030 A.D., dated the 31st May 1926, it was announced that, for the reasons given therein, the two services, namely the Bengal Civil Service (Executive) and the Bengal Junior Civil Service, would be kept distinct from each other and that Sub-Deputy Magistrates and Collectors would not be vested with higher magisterial and revenue powers. The deputation was informed that these decisions were final and that Government were not prepared to reopen the question.

As regards **item (3)** the deputation was informed that if the Association could invent another name which was not open to objection, Government would consider it. The Association has not, however, offered any further suggestion. As regards the other items the Association was informed that they would be examined and that the decisions arrived at would be announced later. Government have now investigated these matters and their decisions are stated below.

Item (4).—The Governor in Council is not prepared to entertain the proposal for a revision of the scale of pay, as the present scale does not compare unfavourably with the scales of other provinces, and the proposed substitution of a biennial for the existing triennial increment would involve large additional expenditure which in the present state of the provincial finances would not be justified.

Item (5).—Government have decided that the age-bar for promotion to the Bengal Civil Service (Executive) shall be relaxed, but no officer who has not been recommended for promotion before he is 40 years of age will have his claims considered after he has attained that age. A letter dealing with this point and prescribing a new procedure for the submission of recommendations for promotion will shortly issue to all concerned.

Item (6).—Government are not prepared to entertain the proposal of the Association that the percentage of appointments made to the Bengal Civil Service (Executive) by promotions from the Bengal Junior Civil Service should be raised from 35 per cent. to 75 per cent., but have decided that it shall be increased from 35 per cent. to 50 per cent.

Item (7).—Government have decided that the pony allowances of members of the Bengal Junior Civil Service, while on settlement training, shall be the same as those allowed to members of the Bengal Civil Service (Executive), and rule 165 (*a*) of the Survey and Settlement Manual will be amended to make this clear.

Item (8).—The suggestion for increasing the rewards admissible on passing certain tribal language examinations has already been accepted and given effect to in Government notification No. 199A., dated the 10th January 1928.

Item (9).—Government do not consider that there are any grounds for increasing the travelling, or house allowances of Sub-Deputy Collectors employed on circle work, and the existing rates will therefore stand. The existing orders regarding the residence of Circle Officers within their respective circles will also stand.

ORDER.—Ordered that the Resolution be published in the *Calcutta Gazette* for general information.

Ordered also that copies of the resolutions be forwarded to the Local Self-Government and the Revenue Departments of this Government and to the Bengal Junior Civil Service Association for information.

By order of the Governor in Council,

W. D. R. PRENTICE,
Chief Secretary to the Government of Bengal.

POLICE DEPARTMENT.

NOTIFICATIONS.

No. 5673Pl.—The 6th December 1928.—In exercise of the power conferred by section 2 of the Bengal Public Gambling Act, 1867 (Bengal Act II of 1867), the Governor in Council is pleased to extend all the sections of the said Act (except section 13 which already applies) to the whole of the mauza Nalhati (J. CALCUTTA, THE 8TH DECEMBER 1928.

RESOLUTION—No. 3347 EDN.

Minister-in-charge : The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

By resolution No. 142Edn., dated the 21st January 1918, the Government of Bengal constituted the Council of the Calcutta Sanskrit Association consisting of fifteen ordinary members (six representing Calcutta, the Burdwan and Presidency Divisions, six representing the Dacca, Chittagong and Rajshahi Divisions, and three representing the province of Assam) and of five additional members consisting of scholars trained in western methods. Under the constitution originally prescribed in 1918, one representative of each of the Western and Eastern Divisions of Bengal was to be elected by the pandits themselves, the remaining members being appointed by the Governments of Bengal and Assam. The President of the Council is appointed by Government and the Principal of the Sanskrit College is the Secretary. The members of the Council appointed by Government hold office for one year. The original constitution sanctioned in the resolution referred to, still holds good, with the modification that the Government of Assam having started a separate Board of Sanskrit Examination in Assam do no longer desire to continue their representation on the Calcutta Sanskrit Association. The term of office of the members of the Council appointed by this department resolution No. 3981Edn., dated the 2nd September 1927, having expired, the Government of Bengal are pleased to reconstitute the Council as follows for a period of one year, pending consideration of the recommendations of the Sanskrit College Committee, appointed in resolution No. 2522Edn., dated the 27th August 1923:—

President:

Sir Naliniranjan Chatterjea, KT., M.A., B.L.

Ordinary members, Calcutta, the Presidency and Burdwan Divisions:

Mahamahopadhyaya Kamakhya Nath Tarkabagish of Navadwip.
Pandit Nishi Kanta Naya-Tarkatirtha of Moolajore.
Pandit Rambrahma Tarkatirtha.
Pandit Bireswar Tarkatirtha, Bijoy Chatuspati, Burdwan.
Pandit Ram Raksha Tarkatirtha, Aliganj Chatuspati, Midnapore.

Dacca, Rajshahi and Chittagong Divisions:

Pandit Girish Chandra Vedantatirtha, Hemanta Kumari Sanskrit College, Rajshahi.
Pandit Kali Krishna Tarkatirtha, Bokainagar Chatuspati, Mymensingh.
Pandit Kali Kishore Smritititirtha, Faridpur.
Pandit Naba Chandra Nyayaratna of Babupur, Noakhali.
Pandit Rajani Kanta Kavyatirtha, Chittagong.

Additional members:

Mr. W. C. Wordsworth.
Dr. S. N. Das Gupta, Professor, Presidency College, Calcutta.
Mahamahopadhyaya Dr. Bhagabat Kumar Goswami Shastri, Professor, Hooghly College.
Professor Nilmani Chakrabarti, Presidency College.
Dr. S. K. Chatterjea, Professor, Calcutta University.

Ex-officio Secretary:

The Principal of the Sanskrit College, Calcutta.

2. Pandits Dev Krishna Vedantatirtha and Upendra Chandra Tarkacharyya, who were elected by the Convocation of the Calcutta Sanskrit Association as members representing Western and Eastern Bengal, were appointed to hold office for one year with effect from the 4th April 1928 under Government notification No. 782T.-Edn., dated the 13th June 1928. On the death of the former, Mahamahopadhyaya Kamal Krishna Smritititirtha of Bhatpara was appointed under Government notification No. 811T.-Edn., dated the 11th September 1928, as an elected member representing West Bengal on the Council of the Calcutta Sanskrit Association to hold office for the unexpired term of the late Pandit's membership.

3. The term of office of the last Council, which expired on 29th September 1928, is continued to the date of the present resolution.

ORDER—Ordered that the Resolution be published in the *Calcutta Gazette* and that copies be forwarded to the President and members of the Council, the Director of Public Instruction, Bengal, and the Accountant-General, Bengal, for information.

By order of the Government of Bengal
(Ministry of Education),

A. J. DASH,
Secretary to the Government of Bengal (offg.).

NOTIFICATIONS.

No. 8-I.—The 4th December 1928.—In modification of Bengal Government notification No. 222, dated the 6th June 1865, published at page 1022 of the *Calcutta Gazette* of the 7th June 1865, and in exercise of the powers conferred by section 13 of the Canal Act, 1864 (Bengal Act V of 1864), the Governor in Council is pleased to appoint the District Magistrate of Chittagong to be *ex-officio* Supervisor of the undermentioned three navigable channels in the district of Chittagong:—

Chittagong.

1. The line of channel connecting the Karnafuli and the Sangoo rivers known in its various parts as Boalkhali, Benoud Faree and Chandkhali.
2. The line of channel connecting the Sangoo river with the Julkudder Creek as far as Julkudder Ghat and known in its various parts as the Banskhali, Kooki Cherra and Balukhali.
3. The Mohiskhali Nala or Khal from its junction with the Karnafuli to its opening into the Bay of Bengal.

No. 9-I.—The 4th December 1928.—The following draft of revised rules and rates of tolls for the undermentioned three navigable channels in the district of Chittagong, which in exercise of the powers conferred by sections 11 and 6 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix in supersession of all previous rules and rates for these channels, is hereby published for the information of persons likely to be affected thereby:—

1. The line of channel connecting the Karnafuli and Sangoo rivers, known in its various parts as Boalkhali, Benoud Faree and Chandkhali.
2. The line of channel connecting the Sangoo river with the Julkudder Creek as far as Julkudder Ghat and known in its various parts as the Banskhali, Kooki Cherra and Balukhali.
3. The Mohiskhali Nala or Khal from the junction with the Karnafuli to its opening into the Bay of Bengal.

The draft will be taken into consideration on or after the 31st January 1929, and any objections or suggestions received by the undersigned before that date will be considered.

Draft Rules.

1. Every vessel on entering any of the above navigable channels shall be liable to measurement by the officer in charge of the Toll Station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purpose of the Canals Act and of these rules, be determined by the following measurements:—

(*a*) The product of half of the length of the vessel from stem to stern measured along the waterline multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the bottom of the vessel is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied any fraction of 100 maunds less than 50 maunds is to be omitted and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into any of the channels in excess of 50 feet in length or 5 feet in breadth. No timber, bamboo or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering any of the channels shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. Vessels employed exclusively on works connected with the maintenance and improvement of the lines of channels in question or on the conveyance on duty of Government servants or of members or employees of the District Board shall be exempted from paying toll. No other vessels shall be exempted.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through any one of the channels, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channels longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one half of the toll paid. Every vessel or raft remaining in any one of the channels more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules or wilfully interfering in their enforcement shall be liable under section XI of the Canals Act to a fine not exceeding fifty rupees for any one offence.

Schedule of rates of tolls.

The following rates of toll will be charged on vessels and rafts per reach of the canals:—

I. Boalkhali and Chandkhali channels from Boalkhali to Chandkhali.
II. Murali channel from Murali to Sikalbaha.
III. Kumirachara channel from Banskhali to Julkudder.

B.Sc. EXAMINATION, 1931.

MATHEMATICS.

The following books are recommended:

Pass Course.

1. Higher Plane Trigonometry—
   Todhunter. Plane Trigonometry, edited by Hogg.
   Loney. Plane Trigonometry.

2. Plane Analytical Geometry—
   C. Smith. Elementary Treatise on Conic Sections.
   Loney. Elements of Co-ordinate Geometry.

3. Differential Calculus—
   Girijabhushan Mitra. Differential Calculus.
   Ganesh Prasad. Differential Calculus.

4. Integral Calculus and Differential Equations—
   Edwards. Integral Calculus for Beginners.
   Ganesh Prasad. Integral Calculus.

5. Hydrostatics—
   Besant. Elementary Hydrostatics.
   Loney. Elements of Hydrostatics.

6. Astronomy—
   D. N. Mallik. Elements of Astronomy.
   Parker. Astronomy.

(Students are recommended to read Tancock's Descriptive Astronomy as an introduction to the subject, and to use 'Stars in the Northern Tropics' by T. Bhattacharyya.)

Honours Course.

1. Higher Algebra—
   Hall and Knight. Higher Algebra.
   C. Smith. A Treatise on Algebra.

2. Elementary Theory of Equations—
   Raicharan Biswas. Theory of Equations and Complex Variables.
   Burnside and Panton. Theory of Equations, Vol. I.

3. Higher Plane Trigonometry—
   Todhunter. Plane Trigonometry, edited by Hogg.

4. Plane Analytical Geometry—
   C. Smith. Elementary Treatise on Conic Sections.
   Salmon. Conic Sections.
   Askwith. Plane Co-ordinate Geometry.

5. Elementary Solid Geometry—

C. Smith. Elementary Treatise on Solid Geometry.
Bell. Analytical Geometry of Three Dimensions.

6. Elementary Principles of Vector and Vector Analysis—

Kelland and Tait. Introduction to Quaternions, Third Edition, edited by Knott.
A. S. Hardy. Elements of Quaternions.
J. G. Coffin. Vector Analysis (New York).

7. Differential Calculus—

Edwards. Differential Calculus.
Williamson. Differential Calculus.
Carey. Infinitesimal Calculus, Sections I and II.

8. Integral Calculus and Differential Equations—

Williamson. Integral Calculus.
Murray. Introductory Course in Differential Equations.
Bateman. Differential Equations.

9. Statics—

Minchin. Statics, Vol. I.
Lamb. Statics.
Loney. Statics.

10. Dynamics of a Particle—

Loney. Dynamics of Particle.

11. Hydrostatics—

Besant. Elementary Hydrostatics.
Minchin. Hydrostatics, Part I.
Greaves. Hydrostatics.

12. Astronomy—

Young. Manual of Astronomy.
Barlow and Bryan. Astronomy.

Students are recommended to read Tancock's Descriptive Astronomy as an introduction to the subject, and to use 'Stars in the Northern Tropics' by T. Bhattacharyya.

N.B.—Candidates who take up Mathematics at the B.A. or B.Sc. Examination are recommended to refer to the following books:—

(1) Leathem. Mathematical Theory of Limits.
(2) Benny. Plane Geometry.

PHYSIOLOGY.

Books recommended to be used in studying the subject in accordance with the syllabus:—

Pass Course.

Flack and Hill. Text-book of Physiology.
Halliburton. Handbook of Physiology.

Practical.

Schafer. Essentials of Histology.
Halliburton. Essentials of Chemical Physiology.
Schafer. Experimental Physiology.

Honours Course.

(In addition to the books recommended for the Pass Course.)

Howell. Principles of Human Physiology.
Starling. Principles of Human Physiology (latest edition).

Books recommended for consultation—

Lovatt Evans. Recent Advances in Physiology.
Pryde. Recent Advances in Bio-Chemistry.
Bayliss. Principles of General Physiology.
McLeod. Physiology and Bio-Chemistry in Modern Medicine.

(Practical).

(The same as for the Pass Course.)

SYLLABUS IN EXPERIMENTAL PHYSIOLOGY.

Pass Course.

The induction coil; single shocks, short circuiting key; effect of single shocks on the tongue; break-shock is stronger than the make-shock; Helmholtz's modification; Meef's hammer.

Pithing a frog; nerve-muscle preparation. Mechanical, chemical, thermal and electrical stimulation of muscle and nerve.

The graphic method; simple lever, crank lever (myograph), moist chamber, minimal and maximal excitation with single induction shocks (make and break). Stimulation by constant current; contraction of muscle only at make and break.

The muscle curve.—Single contraction of a frog's muscle; the latent period, the period of contraction and the period of relaxation. Time-tracing by tuning-fork, method of after-loading. The influence of temperature and of load on muscular contraction.

The work performed by a muscle during a twitch.

Elasticity and extensibility of muscle.

Summation of muscular contraction; tetanus.

Fatigue of muscle.

Thickening of a muscle on contraction.

Barnard's curare experiment.

Stimulation of a motor nerve; unequal excitability (greater nearer the centre of a motor nerve), excitability of flexor and extensor nerves.

Velocity of nerve-impulse (myographic method).

Electro-physiology.—Galvani's experiment of contraction with metals; Galvani's experiment of contraction without metals.

The frog's heart:—Beating of the heart; effect of heat and cold (heart *in situ*); section of the heart; effect of heat and cold on excised heart.

Stannius' experiment.

Graphic record of the beat of the heart (suspension method and also direct registration with heart-lever).

Pulse-Sphymographic tracing.

Blood-pressure in man. Sphygmometer and Sphygmomanometer.

Reflex action (simple experiments on a pithed frog).

Vision.—Accommodation, Scheiner's experiment, near and far point.

Purkinje-Sanson's images. Phakoscope; Blind Spot; Yellow Spot; Colour vision; Complementary colours.

Honours Course.

Additional Experiments.
The induction coil—Break extra-current of Faraday.
The Rhoonome—Effect of sudden variation of current.
Isotomic and isometric contraction.
Influence of veratrine on muscular contraction.
Indefatigability of nerve.
Excitation of muscle by a constant current, Polar excitation of a muscle.
Electrotonus. Electrotonic changes in excitability of a nerve.
Kuhne's experiment of contraction without metals.
Examination of currents in muscle nerve and heart by means of the reflecting galvanometer.
Frog's heart—Minimal stimulus causes maximal contraction.
"Staircase effect." Single contraction of the ventricle.
Tetanisation. Refractory period. Stimulation of the vagus.
Action of drugs (Muscaring digitalin, Pilocarpin and Atropin) on the heart.
Voice and Speech Laryngoscope.
Vision, Ophthalmoscope, Perimeter.

EXPERIMENTAL PSYCHOLOGY.

The subject is to be studied as defined by the syllabus. Students are recommended to use one or more of the following books:—

Pass Course.

1. General Psychology—

Yerkes. Introduction to Psychology.
Wundt. Human and Animal Psychology.
Titchener. Text-book of Psychology.
Lickley. The Nervous System (Longmans & Co.).
Angell. Psychology.

Preparatory Reading.—Students are advised to read Titchener's Primer of Psychology before joining the regular class.

2. Experimental Psychology—

Sanford. Course in Experimental Psychology.
Myer. Text-books of Experimental Psychology, Part I—Text-book.

Preparatory Reading.—Students are advised to read Myer's Primer of Experimental Psychology before joining the regular class.

Laboratory Course.

Titchener's Experimental Psychology, Vol. I, Part I, and Vol. II, Part I (Student's Manual, Qualitative and Quantitative).
Myer's Text-book of Experimental Psychology, Part II (laboratory Course).

Honours Course.

I. General Psychology—Same as in Pass Course with the addition of Kulpe's Outlines of Psychology.)

II. Physiological and Comparative Psychology—

Wundt. Principles of Physiological Psychology, Vol. I, Part I. (The Bodily Substrate of Mental Life.)
Ladd. Elements of Physiological Psychology.
Lloyd Morgan. Comparative Psychology.
M. Greenwood (Jr.). Physiology of Senses.
McDougall. Physiological Psychology (Home University Library).
Holmes. Evolution of Animal Intelligence.

III. Experimental Psychology—In addition to the books recommended for the Pass Course the following:—

Scripture. New Psychology.
Titchener. Lectures on the Psychology of the Thought Processes.
Titchener. Instructor's Manual—Quantitative (Introduction).

ANTHROPOLOGY.

(To be notified hereafter.)

PHYSICS.

Books recommended to be used by the students in studying the subject in accordance with the syllabus:—

Pass Course.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third Forecast of the Cotton Crops of Bengal, 1928-29.

(NOTE.—On an average of the five years ending 1926-27, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State, and to a small extent also in other districts. The "late" crop is chiefly grown in Bankura and Midnapore.

Character of the season.—As reported in the second forecast, the early crop suffered from drought in the beginning and from excessive rainfall in the Tripura State and in parts of Midnapore during the early period of growth. Subsequent weather conditions were generally favourable and a fairly satisfactory crop has been reaped for the province.

The prospects of the late variety, so far, are promising.

Area sown.—The total area sown with early cotton is returned at 77,381 acres, and that with late at 753 acres, against 76,773 acres and 803 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 20,450 bales and the late crop at 117 bales, against 19,757 bales and 90 bales, respectively, in the corresponding forecast of last year.

IRRIGATION DEPARTMENT.

NOTIFICATION.

[Second publication.]

No. 9-I.—The 4th December 1928.—The following draft of revised rules and rates of tolls for the undermentioned three navigable channels in the district of Chittagong, which in exercise of the powers conferred by sections 11 and 6 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix in supersession of all previous rules and rates for these channels, is hereby published for the information of persons likely to be affected thereby:—

1. The line of channel connecting the Karnafuli and Sangoo rivers, known in its various parts as Boalkhali, Benoud Faree and Chandkhali.
2. The line of channel connecting the Sangoo river with the Julkudder Creek as far as Julkudder Ghat and known in its various parts as the Banskhali, Kooki Cherra and Balukhali.
3. The Mohiskhali Nala or Khal from the junction with the Karnafuli to its opening into the Bay of Bengal.

The draft will be taken into consideration on or after the 31st January 1929, and any objections or suggestions received by the undersigned before that date will be considered.

Draft Rules.

1. Every vessel on entering any of the above navigable channels shall be liable to measurement by the officer in charge of the Toll Station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purpose of the Canals Act and of these rules, be determined by the following measurements:—

(*a*) The product of half of the length of the vessel from stem to stern measured along the waterline multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the bottom of the vessel is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied any fraction of 100 maunds less than 50 maunds is to be omitted and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into any of the channels in excess of 50 feet in length or 5 feet in breadth. No timber, bamboo or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering any of the channels shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. Vessels employed exclusively on works connected with the maintenance and improvement of the lines of channels in question or on the conveyance on duty of Government servants or of members or employees of the District Board shall be exempted from paying toll. No other vessels shall be exempted.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through any one of the channels, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channels longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one half of the toll paid. Every vessel or raft remaining in any one of the channels more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules or wilfully interfering in their enforcement shall be liable under section XI of the Canals Act to a fine not exceeding fifty rupees for any one offence.

Schedule of rates of tolls.

The following rates of toll will be charged on vessels and rafts per reach of the canals:—

I. Boalkhali and Chandkhali channels from Boalkhali to Chandkhali.
II. Murali channel from Murali to Sikalbaha.
III. Kumirachara channel from Banskhali to Julkudder.

No. 4667M.—The following draft by-laws have been framed by the District Board of Bogra, under section 139 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), as amended by Act I of 1914. It is proposed to confirm the said by-laws under clause (*2*) of the said section, and they are published for the information of persons likely to be affected thereby.

2. The draft by-laws will be taken into consideration on the 31st January 1928, and any objections or suggestions received by the undersigned through the Magistrate of the district before that date will be duly considered:—

Draft by-laws.

Definition.—"Motor vehicles" excludes motor cycle, road roller or vehicle which runs on rails.

(*a*) No person shall drive over any road or bridge a vehicle whose weight, when unladen, exceeds the weight prescribed by the District Board as the maximum weight of a vehicle that may be driven over such road or bridge, or at a speed greater than the maximum speed prescribed by the District Board for such road or bridge.

(*b*) No person shall drive a motor vehicle over any road or bridge which has been closed to motor vehicles by order of the District Board with the sanction of the Commissioner.

(*c*) No motor vehicle shall run on any road unless the tyres of the wheels are pneumatic.

(*d*) A breach of any of the above by-laws shall be punished with fine which may extend to Rs. 50. A continuing breach shall be punished with a further fine which may extend to Rs. 5 for every day during which the breach is continued after the offender has been convicted of such breach.

DEPARTMENT OF INDUSTRIES AND LABOUR.

RESOLUTION.

New Delhi, the 28th November 1928.

No. S.-465.—In their Resolution No. S.-217, dated the 13th September 1928, which was published in Part I of the *Gazette of India* of the 15th September 1928, the Government of India announced their decision to replace the existing arrangements for the supply of articles required for the public service by a system of rupee tenders for delivery in India, and published for criticism the draft rules which had been framed to give effect to that policy.

2. For the successful working of the Rupee Tender System it is necessary to provide expert advice in the matter of the preparation of technical projects, specifications and drawings and of the examination of tenders for technical stores, and also to establish an organisation which will enable purchasing authorities to ascertain the status and capacities of tendering firms abroad.

3. The Government of India consider that Messrs. Rendel, Palmer and Tritton, who have for the past fifty years been employed as Consulting Engineers to the India Office and latterly to the High Commissioner for India in respect of numerous classes of stores, will be in the best position to afford the necessary service, and they have accordingly arranged with that firm for the establishment of a branch office in India.

4. This office will be opened on or about the 1st December 1928 and will be located in the Tower House Building, Esplanade East, Calcutta. Its functions will comprise the following, among other services:—

I. *Supplies of technical stores.*

(*a*) When required, to prepare specifications and drawings needed for certain classes of stores, or to furnish technical advice on specifications, etc., prepared by the authorities concerned.

(*b*) To advise on technical points in connection with the purchase of stores generally and in particular to advise, if and when required, on tenders received for supply of technical stores.

(*c*) To advise in regard to the capacity and standing of manufacturing firms abroad.

II. *Engineering Projects.*

To advise in connection with the preparation and examination of technical projects, such as bridge designs, workshop layouts, and engineering schemes generally.

III. *Standardisation.*

To advise on the standardisation of technical stores.

IV. *General.*

To act as a *liaison* office between the Head Office of the Consulting Engineers in London and the Departments in India utilising their services.

5. These services will not be limited to matters affecting the Central Government and the minor local Governments only, but will extend to matters concerning the major local Governments, *quasi*-public bodies and Indian States, provided that they are referred to the Consulting Engineers through a Department of the Central Government. This arrangement will, however, not interfere in any way with arrangements which have already been concluded between Messrs. Rendel, Palmer and Tritton and any of the latter authorities.

6. In return for the services, the firm will receive payment from Government of sums representing the annual estimated cost of operating the branch office. This arrangement, which will cover a period of three years in the first instance, will, the Government of India believe, prove of valuable assistance in the efficient operation of the new system of purchase.

7. The branch of the Consulting Engineers will be attached to the Indian Stores Department and its relations to the latter will be similar to those of the firm in England to the India Store Department, London; but Departments of the Central Government which are authorized to utilise its services will have free access to it.

8. Charges, according to a scale which will be drawn up and published, will be made to the various authorities for the services rendered by the Consulting Engineers on their behalf.

9. A procedure to regulate references to the firms will be drawn up by the Indian Stores Department in consultation with Messrs. Rendel, Palmer and Tritton and will be communicated to all authorities concerned in due course.

UNIVERSITY OF CALCUTTA.

NOTICE.

It is hereby announced for general information that, as it has been proposed to destroy all diplomas of all dates earlier than 1920, formal applications, together with the usual fee of Rs. 5 for each, are invited from the candidates concerned or their guardians, to take delivery of the same through the proper channel (viz., through the Principal of the College concerned in case of regular students, and through a Government Inspector of Schools, or a member of the Senate, in case of non-collegiate students), on or before the 31st March 1929.

By order of the Vice-Chancellor and Syndicate,

N. SEN, *Controller of Examinations.*

SENATE HOUSE, *the 10th December 1928.*

CALCUTTA UNIVERSITY.

NOTIFICATION No. R.—33.

It is announced for general information that, under section 25 (*1*) of the Indian Universities Act, 1904 (VIII of 1904), as amended by the Calcutta University Act, 1921 (VII of 1921), the Government of Bengal in the Ministry of Education have sanctioned the following changes in the Regulations (Chapter XXXVII of the Regulations relating to M. Sc. Examination):—

"That, in section 7, Chapter XXXVII of the Regulations, page 271 of the edition of 1927, under the head 'Chemistry', the paragraph beginning with the words '*candidates who have taken their B. Sc. Degree with Honours*' and ending with the words '*half* the marks assigned to the whole examination' be replaced by the following:—

'Candidates, who have taken their B. Sc. Degree with Honours in Chemistry, may offer a piece of research work in the special branch selected by them in lieu of examination in the Practical papers of the other two branches and in lieu of half of the Practical Examination in their special subject, provided that each candidate who submits a piece of research work in accordance with this rule should submit a certificate to the effect that he has satisfactorily completed a Practical course of study in at least one group of subjects other than that which constitutes his research work. The maximum number of marks assigned to research work shall be three-eighths (*i.e.*, 300 out of 800) of the marks assigned to the whole examination.'"

By order of the Vice-Chancellor and Syndicate.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

NOTIFICATION.

No. 3145L., dated Calcutta, the 12th December, 1928.—The following report of the Select Committee on the Indian Universities (Bengal Amendment) Bill, 1928, with the Bill as amended by the Committee, is hereby published for general information :—

REPORT OF THE SELECT COMMITTEE ON THE INDIAN UNIVERSITIES (BENGAL AMENDMENT) BILL, 1928.

We, the undersigned members of the Select Committee, to which the Calcutta University Bill, 1927, by Dr. Pramathanath Banerjea, was referred, have considered the provisions of the Bill and the following papers relative thereto:—

Papers Nos. 1 to 11 and letter No. L—12—28, dated the 11th August, 1928, from the Secretary, Indian Chamber of Commerce, relating to the Bill.

We also considered the Calcutta University Bill of Babu Manmatha Nath Roy.

2. We have the honour to submit this our Report with the Bill as amended by us annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

3. Before proceeding with the examination of the Bill in detail, we discussed the question of the practical utility of bringing such a measure into operation at present, in view of the far more comprehensive Bill contemplated by the Government for the reorganisation of the University. As it will be a considerable time before the proposed Government Bill can be placed before the Council, the majority of us consider that the Bill may be usefully proceeded with in order to reconstruct the Senate on more democratic lines as soon as possible.

4. **Long title, preamble and short title.**—The necessary formal alterations have been made to indicate that the Bill amends the Indian Universities Act, 1904, so far as it applies to the University of Calcutta. Assam has not been mentioned anywhere in the Bill, the reason being the necessity of avoiding any legal difficulty which might otherwise present itself. We have not, however, been unmindful of the interests of Assam as will appear from our observations in regard to clause 7 of the Bill.

Clause 1 (2).—The extent clause has been omitted on account of the legal difficulty in regard to Assam, and also because a certain portion of Bengal is within the jurisdiction of the Dacca University.

Clause 1 (3).—The date for the coming into operation of the proposed Act has been changed to the 1st January, 1929, in order that elections may be held and nominations made under the Act as early in the year as possible.

Clause 2 has been omitted as being unnecessary in view of the formal changes made.

Clause 3, which indicates generally the various classes of electorates, has been revised in accordance with our decisions in this respect, the details of which are embodied in our revised clause 7.

In the electorate of teachers appointed by the University [which has been substituted for the Professors and Lecturers in clause 3 (*v*) of the Bill] we consider that honorary teachers may suitably be given the power of election, and the words "and paid" have therefore been omitted.

The provision in clause 3 (*viii*) of the Bill in regard to the representation of the municipalities and district boards has been omitted, as we do not consider such representation to be justified. Members of these bodies have no special qualifications justifying their election as Fellows, nor do these bodies contribute towards the upkeep of the University.

As regards the proposal in Babu Manmatha Nath Roy's Bill that there should be an electorate of benefactors and donors, we are of opinion that the present practice of appointing benefactors of the University as Honorary Fellows is appropriate and should be continued. If necessary, suitable persons among them may be nominated also as Ordinary Fellows.

Electorates of Head Masters and of Head Mistresses of high schools have been substituted for that of graduate teachers in such schools. We recommend that it be provided in any subsequent legislation on the subject that the electorates from high schools should cease to function immediately the proposed Board of Secondary Education comes into operation. Governing bodies of Colleges, Chambers of Commerce, Literary Associations, and the *ex-officio*, elected and nominated Fellows have been added to the electorates mentioned in the Bill.

Clause 4.—A necessary formal alteration has been made in this clause.

Clause 4 A.—Sub-clauses (*1*) and (*2*) contain formal alterations.

In sub-clause (*3*) the proviso to sub-section (*1*) of section 5 has been added for the purposes of the proposed alternate *ex-officio* representation of the Principals of the Colleges mentioned in clause 14.

Clause 5.—In place of sub-section (*2*) of section 5 (including the proviso) a new provision has been made to enable the Senate, with the approval of the Government, to make necessary changes in the list of *ex-officio* Fellows in Parts I and II of the Schedule.

Clause 6 contains a necessary formal amendment.

Clause 7.—The proposed sub-section (*1a*) in section 6 of the Act shows in detail the persons who are to form the various electorates recommended by us. We recommend that of the proposed one hundred and eleven Ordinary Fellows eighty-one should be elected and thirty nominated by the Chancellor. The details in sub-section (*1a*) are self-explanatory. We have increased the number of nominated members from twenty to thirty because, in our opinion, such increase will enable the Chancellor to supply deficiencies which may impede the proper formation of the different Faculties and to secure the representation of the various educational interests to an adequate extent. This will also enable at least five Fellows to be nominated from Assam in addition to the two *ex-officio* Fellows mentioned in the present schedule. The majority of us also hope that a sufficient number of Muhammadans will be nominated by the Chancellor so that the total number of Muhammadan members on the Senate, including elected and *ex-officio* members, may be thirty.

In the proposed sub-section (*1aa*) in section 6, to which the majority of us agreed, it has been provided that the reservation of seats for Muhammadans shall terminate at the end of ten years from the date of the reconstitution of the Senate under this Bill.

Clause 8.—Clauses 9, 10 and 11 of the Bill have also been dealt with together in this clause. In section 7 (*2*), in the proviso to section 7 (*2*) and in section 7 (*3*) the initial fee in respect of the registering of graduates as well as the annual fee has been fixed at " five rupees " instead of " two rupees " as suggested in the Bill. In the proviso to section 7 (*3*) the sum of " fifty rupees " suggested in the Bill has been retained.

Clause 12.—The changes made in this clause are merely formal consequential changes.

Clause 12 A contains two new sections 11A and 11B relating to casual vacancies and certain transitory provisions providing for the continuance in office of nominated or elected Fellows until the new nominations and elections take effect.

Clause 13 shows the omissions from, and the additions to, the list of *ex-officio* offices in the first Schedule proposed by us.

The Chief Justice of the High Court, the Lord Bishop of Calcutta, and the Member of the Council of the Governor-General in charge of the Department of Education so rarely attend the meetings of the Senate that it is not considered of any practical utility to retain these offices on the list of *ex-officio* Fellows. As regards the Secretary to the Government of Bengal in the Department of Education, it does not seem to be necessary to retain this office on the list as the Member or Minister in charge of the Department of Education, Bengal, is an *ex-officio* Fellow.

Ex-Vice-Chancellors resident in India have been included as permanent *ex-officio* Fellows.

The Principal of the Presidency College, Calcutta, is now included in the list of *ex-officio* Fellows in Part II of the Schedule who are to hold office alternately.

As regards the inclusion of Principals in Part II of the Schedule we do not consider it wise to leave the appointment of eminent Principals to the vagaries of election.

When the Board of Secondary Education and the Board of Madrasah Education are established, we recommend that the Presidents of these two Boards be made *ex-officio* Fellows.

For convenience of reference it may be noted that the list of persons who will be permanently *ex-officio* Fellows under our proposed reconstitution of the Senate will be as follows:—

His Excellency the Governor of Assam.

The Member of the Executive Council of the Governor of Bengal, or the Minister appointed by the Governor to be, in charge of the Department of Education.

Every ex-Vice-Chancellor resident in India.

The Minister for Education, Assam.

The Director of Public Instruction, Bengal.

The Director of Public Instruction, Assam.

The Mayor of the Corporation of Calcutta.

The Principal of the Calcutta Madrasah.

The Principal of the Bengal Engineering College, Sibpur.

The Principal of the Bethune College.

The Principal of the David Hare Training College.

The Principal of the Islamia College.

Clause 14 contains a list of the colleges the Principals of which are to be *ex-officio* Fellows alternately—*see* the proviso to sub-section (*1*) of section 5 in sub-clause (*3*) of clause 4A.

It is not considered necessary that the Principals of these colleges should always be *ex-officio* Fellows, but the opportunity will be given to them in turn to present their views to the Senate.

5. The Bill was published in the *Calcutta Gazette* on the 29th December, 1927.

6. We do not consider that the Bill has been so altered as to require re-publication.

7. We recommend that the Bill, as amended by us, be passed.

*Signed subject to the Note of dissent annexed.

N.B.—The signatures of Rai Harendranath Chaudhuri and Mr. Akhil Chandra Datta had not been received up to the time of printing the report.

Joint note of dissent by the Hon'ble Nawab Musharruf Hossain, Khan Bahadur, and Messrs. A. J. Dash and H. E. Stapleton and Dr. W. A. Jenkins.

We do not consider that the Bill as amended by the Select Committee should be passed by the Legislative Council and hold this opinion for the following reasons:—

1. **Procedure.**—The Bill has been so altered in Select Committee that we feel that it should be again published. In particular copies should be forwarded to the University of Calcutta and the Government of Assam and their opinions carefully studied before the Council proceed to take the Bill into consideration.

Consultation with the Government of Assam in our opinion seems particularly necessary. While the Bengal Legislative Council has full power to legislate for the Calcutta University, it must be remembered that Assam desires to have its educational interests adequately represented on the governing bodies of the University and any alteration in the constitution of the University must necessarily affect Assam. Consequently we hold that before legislation in Bengal is undertaken, it is only appropriate that Assam should be fully consulted, and every consideration given to the opinions expressed by the Government of Assam. This has not been done in the present case.

2. We object to this Bill coming before the Legislative Council now, because Government proposals for reconstituting the whole structure of University Government will shortly be published. The passing of the present Bill into law will seriously prejudice the prospect of carrying through the legislation which will be required to effect the very necessary reorganisation of the University. We see no force in arguments to the contrary, as it can hardly be expected that a Senate constituted under the present Bill would acquiesce in a revision of their powers and functions.

The constitution under the present Bill is not in any way a suitable basis for a more comprehensive scheme of reform.

3. Our main objection to the present Bill is that it is an unsatisfactory compromise between conflicting interests. In particular we dislike the sacrifice of academic to other interests inevitable when academic jurisdiction is vested in a body constituted for the exercise of general powers. We are fully alive to the necessity of increasing Musalman influence in the University and believe that when a readjustment takes place amongst the different authorities which may be created, of the powers now exercised by the Senate, it will be possible to provide adequate scope for all interests without in any way sacrificing academic interests. But such a result is necessarily unattainable with an elective Senate exercising the powers now held by that body.

Note of dissent by Babu Jogindra Chandra Chakravarti, M. L. C.

1. I am not in favour of reservation of seats for Muhammadans as recommended in sub-section (*1a*) in clause 7. Representation on the Senate on a communal basis seems to me to be objectionable on principle.

2. I do not agree that the initial fee in respect of the registering of graduates or the annual fee should be five rupees. I would retain *two* rupees as the initial fee as well as the annual fee as in the Bill.

With these observations, I sign the report.

Note of dissent by Babu Jitendralal Bannerjee, M. L. C.

I have two serious objections of principle to the Bill [The Indian Universities (Bengal Amendment) Bill] as it has been modified by the Select Committee: *first*, the qualified recognition that has been extended to the principle of communal representation in the election of fellows; and *secondly* the number and variety of small, pocket constituencies which the Bill seeks to create, and where the field of selection is further narrowed by the ear-marking of a specified number of seat for the graduates in the different faculties.

2. So far as the second is concerned, let me point out some of the anomalies that are sure to result from the adoption of the scheme recommended by the Select Committee:—

(1) The Select Committee recommend that, out of the total number of elected fellows, 12 shall be elected (from among themselves) by the teachers appointed by the University and 15 by the teachers in affiliated colleges. The injustice of this unequal distribution is patent on the face of it. The University teachers form a small and compact body, numbering not more than 150, while the college teachers scattered all over Bengal, number at least 1,000; and yet these 1,000 teachers will return practically the same number of fellows as the 150 University teachers. The college teachers are men possessing the same qualifications, and, in the existing state of things, doing practically the same kind of work as the University teachers; and yet the latter are accorded a representation more than five times in excess of the representation granted to the former. I can see no justice behind the arrangement, and no reason for it beyond the desire—so obvious in some quarters of controlling the Senate by the members of the post-graduate department.

3. Again, just as the representation accorded to the post-graduate department is in excess of its fair share, equally noticeable is the excessive representation granted to the graduates in the medical faculty. Leaving aside the Faculty of Engineering, the number of graduates in the medical faculty is the fewest in any of the faculties, certainly fewer than the number of graduates in the Faculty of Law and far, far fewer than the number of graduates in Arts. And yet, where election upon a faculty basis is concerned, the number of representatives allotted to the medical graduates is in excess of the numbers allotted to the Law and Arts graduates. Thus of the 23 fellows to be elected on the faculty basis (12 from the registered graduates of the Calcutta constituency and 11 from the teachers in affiliated colleges), so many as 6 are required to be medical graduates while Arts graduates are 5 and the Law graduates only 4.

4. Again, there is no justification why two seats or any should be allotted to the members of the Bengal Legislative Council, except that the generous members of the Select Committee may have thought it necessary to provide seats for certain gentlemen who might otherwise find none. In this connection one should like to know whether the British Parliament as such has the privilege of electing any representative to the Senate or governing body of any of the British universities.

5. And just as there is no reason why any seat should be assigned to the Bengal Legislative Council, so there is no reason why any seat should be assigned to the different Chambers of Commerce. The Bengal Chamber of Commerce (which is the most influential of these bodies) does not seem to be at all keen upon this point; and on principle there is no reason why the commercial (of all interests) should be singled out for special representation on the Senate. In fact the only intelligible motive behind this infinite splitting up of constituencies seems to be a very natural and understandable desire to provide a constituency for every one who is anxious to have a seat on the Senate.

6. On a point of detail, I hold that an injustice has been done to the mufassal in the distribution of the representatives of registered graduates as between Calcutta and mufassal. Instead of allotting 15 to Calcutta and 10 to the mufassal, the proportion should have been just the reverse—10 to Calcutta and 15 to the 5 mufassal divisions.

Speaking for myself, I should like to have two broad, general constituencies one, Academic, and one, non-Academic for the election of fellows to the Senate. The first should consist wholly of teachers (college and University teachers both) and furnish the academic wing of the Senate while the second should consist of (*a*) registered graduates, (*b*) members of the Legislative Council, (*c*) members of municipalities and district boards, (*d*) school teachers of a recognised status, say, five years' standing or so, and (*e*) members of the governing bodies of colleges. This second wing of the Senate would, broadly speaking, represent the guardians and tax-payers of the country—a body which, I hold, is fully entitled to have an effective voice in the deliberations of the Senate. It may be objected against this second body that it will be too cumbrous and unwieldy. But that difficulty can be easily avoided by having the election from this body upon a regional or divisional basis—Calcutta ranking as a division, and the number of seats allotted to each division being in proportion to the numerical strength of the electorate in that division. I would further suggest that all elections from this constituency may be under the system of proportional representation by the single transferable vote. This, by allowing Muhammadan electors to plump their votes upon Muhammadan candidates, would secure an adequate Muhammadan element in the Senate.

As for election upon a communal basis, I regard it as an unmitigated evil—evil everywhere, and specially and glaringly so in an academic and educational body like the Senate. It is a matter of infinite regret that our Muhammadan brothers should be so keen upon the point. I can well sympathise with their desire for an "adequate and effective" Muhammadan representation upon the Senate. But I

submit that the same end could be equally well served by adopting the method of "proportional election by the single transferable vote" so far as elections on a regional basis are concerned.

Subject to the above observations, I have pleasure in signing the report of the Select Committee.

Note of dissent by Dr. Bidhan Chandra Roy, M. L. C.

I sign this report subject to the following note of dissent:—

2. On behalf of the Congress party to which I belong I enter my emphatic protest against any acceptance of the principle of communal representation in University matters, where proficiency in one of the branches of knowledge should be the only qualification for admission. No University in India except Dacca has accepted this principle in spite of the findings of the Sadler Commission. I am free to admit that if communal protection is to be guaranteed in any association, it is best that the members from the community should be elected by a joint electorate rather than nominated by the Government. From that point of view it is satisfactory that the period during which reservation of seats will be guaranteed is limited to nine years from the date of the passing of the Bill.

3. While the whole department of education is supposed to have been transferred to a popular minister, nomination to the University Senate, if any, should be made by a Chancellor who has nothing to do with the administration of any of the departments of Government.

4. The mere alteration in the composition of the Senate will not, to my mind, reform the University, but in future a comprehensive Bill affecting the University which the Government might bring forward should and ought to be considered not by a Senate as at present constituted but by one whose composition is more democratic. It is in that view that I support this Bill.

Note of dissent by Mr. F. E. James, M. L. C.

I sign the above report subject to the view which I expressed more than once in Select Committee, viz., that the Senate as constituted by this Bill will be too unwieldy for a body which at present is charged with so much executive and administrative work. I do not consider that the total number of the Senate should exceed 100, though I admit the difficulty of satisfying within this figure the claims of all the academic, sectional, professional, communal, official and non-official interests, which were, at times, pressed to the detriment of the main structure of the Bill.

Note of dissent by Dr. Pramathanath Banerjea, M. L. C., and Dr. Sir Deva Prasad Sarvadhikary, M. L. C.

We sign the report subject to the following note of dissent:—

In our opinion, communal representation on the governing body of an educational institution like the Calcutta University is unsound in principle. We admit that the reservation of seats for a community is open to less serious objection than a scheme of separate electorates, and the suggestion of the Select Committee that the reservation will terminate at the end of ten years is a sincere attempt to limit the duration of the evil. But as we are convinced that it is undesirable to make religion a basis for the constitution of the Senate, we are unable to assent to the proposals contained in section 7 of the Bill, as amended by the Select Committee, for the representation of Muhammadans.

Note of dissent by Babu Bejoy Krishna Bose, M.L.C.

I am strongly opposed to communal representation in any form as retarding the growth of the nation. Such a representation by reservation of seats even for a limited period in the field of *Education* is vicious in principle, and I beg to dissent from the report so far as that aspect of it is concerned. Educated Indians should be left to make their free choice unhampered by any consideration other than academic qualifications.

Though I do not quite agree on some other minor points, I do not wish to write a separate note on them but reserve my observations.

Note of dissent by Maulvi Abul Kasem, M.L.C.

I am of opinion that there should be 125 ordinary fellows, of whom 90 should be elected and 35 nominated by His Excellency the Chancellor.

2. The Chief Justice of the Calcutta High Court and the Principals of the Presidency and Sanskrit Colleges should be permanently *ex officio* fellows.

The Chief Justice of the Calcutta High Court is the head of the Judiciary in Bengal, and as such should have a permanent place on the Senate of the University.

The Presidency College is the premier College of Bengal and the Principal of that College should always be a member of the Senate. The Sanskrit College is not an ordinary first grade College, but an institution which along with other subjects provides special facilities for the study and research of an important Oriental classical language and philosophy, and the Principal of that College is always wanted in the Senate. The idea of the majority was that these two Principals would be nominated by the Chancellor, but in my opinion the Chancellor's nominations should be used for the purpose mentioned in clause 7 of our Report and not for rectifying defective legislation.

3. In clause 7 of the Bill, sub-section (*1a*) of section 6, in the list of electorates the following should be added, each electing 1 ordinary fellow:—

(1) Muhammadan Literary Society of Calcutta.

(2) Bangiya Muslim Shahitya Parishad.

4. In clause 7, clause (*2*) (*a*) of sub-section (*1a*) of section 6, at least 2 shall be Muslims. In clause (*4*) of sub-section (*1a*) of section 6 the number should be 8, of whom at least 4 shall be Muslims and the electorate shall include assistant headmasters as well. In clause (*6*) of sub-section (*1a*) of section 6 the number should be 7, of whom at least 3 shall be Muslims.

In clause (*7*) of sub-section (*1a*) of section 6 of the 2 members to be elected by the Legislative Council, one shall be a Muslim.

In clause (*13*) of sub-section (*1a*) of section 6 the number should be 12, of whom 4 shall be Muslims.

5. The managing committees of high schools affiliated to the University should elect 2 ordinary fellows, each managing committee having one vote.

6. In clause 7, sub-section (*1aa*) should be omitted. I would hope that a sufficient number of Muslims will be nominated by the Chancellor, so that the total number of Muslim members on the Senate, including elected and *ex officio* members, may be 40 per cent. of the ordinary fellows.

7. I would further suggest that provision should be made in the Statute or the Rules wherever convenient by which a certain proportion of the ordinary fellows should vacate their offices every year and their places filled up by nomination or election as the case may be, so that there may not be an entire change in the personnel of the Senate at one time.

Note of dissent by Mr. S. C. Bose, M.L.C.

There are just a few matters in the above report, in regard to which I hold somewhat different views, and I am afraid, therefore, I must express my dissent.

Clause 3.—As regards (*e*) (*iv*) of clause 3, I am of opinion that the electorate should not be restricted to head masters and to head mistresses of high schools, but should be extented to graduate teachers of such schools.

Clause 7.—I am of opinion that—

(*1*) instead of the provision in sub-section (*1a*) that "the number of ordinary fellows shall not exceed one hundred and eleven," the provision that "the number of ordinary fellows shall not exceed one hundred and twenty" should be substituted,

(*2*) that instead of the provision in sub-section (*1a*) (*4*) that "six shall be elected from their own number by head masters in high schools," the provision that "fifteen shall be elected from their own number by graduate teachers of high schools" should be substituted; and

(*3*) in the place of the expression "Head mistresses" in sub-section (*1a*) (*5*) the expression "graduate teachers" should be substituted.

It is not possible for me to reconcile myself to the principle (if it can be called one) of reservation of seats for any particular community in the constitution of a University. But for reasons into which it is unnecessary for me to enter here, I shall refrain from striking a wholly discordant note. I shall only support that in the proposed sub-section (*1aa*) in the place of the expression "ten years," the expression "five years" be substituted.

Note of Dissent by Mr. A. K. Fazl-ul Huq, M.L.C.

I strongly oppose the insertion of sub-section (*1aa*) in clause 7, recommending the termination of the provisions for the reservation of seats for Muhammadans automatically at the end of ten years. In my opinion, the provision for reservation of seats for Muhammadans should not be taken away until and unless the Muhammadan community make it clearly manifest that these provisions are no longer wanted.

I am also of opinion that the provisions for the representation of Muhammadans are extremely inadequate and should be at least double of what has been provided in the Bill. Further, it should be made clear that the figures suggested for Muhammadan representation are to be the minimum and that it should be open to Muhammadans to participate in the election of the members other than those representing the Muhammadan community.

Note of Dissent by Babu Manmathanath Roy, M.L.C.

I regret I have to differ from my Colleagues in the following respects:—

(*i*) The alternate *ex-officio* representation of Principals of Colleges is wrong on principle. It is a most mechanical method wholly unsuited to the constitution of the Senate. The Principals of Colleges should form a separate electorate which will elect, say, eighteen Fellows (the same number as is proposed in the amended Bill). The Principals should have the right to select those amongst them who are most suited to represent them. Any apprehension of the vagaries of election is unfounded, is inconsistent with the policy of the Bill and would be an unfair and unmerited reflection on the whole body of Principals. The electorate would be a very small one which would return half its number and there need be no apprehension that the most eminent among them will be left out. The Principals may certainly be trusted with the franchise which has been given to the other electorates.

(*ii*) The District Boards and the Municipalities should be given the right of representation. It would be wrong to ignore the general public interested in education. The Bill aims at the democratic ideal needed to raise the University to a great national institution, thoroughly representative of public opinion in the country.

(*iii*) The fee for registered graduates should be two rupees, as orginally proposed in the Bill. The amount of fee should not deter graduates from exercising their right of representation.

(*iv*) It would not be fair to the graduate teachers in high schools to restrict the franchise to the head masters. The graduate teachers in schools form an important body by themselves whose interests are not always identical with the interests of the head masters, and in constituting the Senate, it would be wrong to ignore the interests of the graduate teachers other than the head master.

(*v*) The number of nominated members should not exceed twenty-five. After the various electorates have made their choice to secure the representation of the different interests, there will hardly be any necessity for the nomination of an unduly large number of members.

(*vi*) The Presidents of the Post-Graduate Councils occupy such an important position in the higher teaching in the University that they should always be *ex-officio* members of the Senate.

(*vii*) The reservation of as many as eight seats for Professors out of a total of twelve to be returned by the University teachers would be unfair to the teachers who are not Professors and who form by far the large majority in the electorate.

THE INDIAN UNIVERSITIES (BENGAL AMENDMENT) BILL, 1928.

(As amended by the Select Committee.)

(NOTE.—All changes made by the Select Committee have, so far as possible, been underlined.)

A

BILL

to amend the Indian Universities Act, 1904, in its application to the University of Calcutta.

Preamble. WHEREAS it is expedient to amend the Indian Universities Act, 1904, in its application to the University of Calcutta, in the manner hereinafter appearing; VIII of 1904.

It is hereby enacted as follows:—

Short title and commencement. **1.** (*1*) This Act may be called the Indian Universities (Bengal Amendment) Act, 1928.

(*2*) [*Omitted.*]

(*3*) It shall come into force on the first day of January, 1929.

2. [*Omitted.*]

Amendment of section 4 (*1*) of Act VIII of 1904. **3.** For clause (*e*) of sub-section (*1*) of section 4 of the Indian Universities Act, 1904, hereinafter referred to as the said Act, the following shall be substituted, namely:—

"(*e*) in the case of the University of Calcutta, the Ordinary Fellows—

(*i*) elected by the registered Graduates;

(*ii*) elected by the Teachers appointed by the University;

(*iii*) elected by the Teachers in affiliated Colleges;

(*iv*) elected by the Head Masters and by the Head Mistresses of High Schools recognised by the University;

(*v*) elected by the Governing Bodies of affiliated Colleges;

(*vi*) elected by the Bengal Legislative Council;

(*vii*) elected by the Chambers of Commerce;

(*viii*) elected by Literary Associations;

(*ix*) elected for the Faculties by the *ex-officio* Fellows and the elected and nominated Fellows referred to in sub-clauses (*i*) to (*viii*) and (*x*); and

(*x*) nominated by the Chancellor."

Amendment of section 4 (*4*). **4.** In sub-section (*4*) of section 4 of the said Act for the words "either class" the words "any class" shall be substituted.

The Indian Universities (Bengal Amendment) Bill, 1928.

(*Clauses 4A.—7.*)

Amendment of section 5 (*1*).

4A. In sub-section (*1*) of section 5 of the said Act—

(*1*) for the words "the First Schedule to this Act," the following shall be substituted, namely:—

"Parts I and II in the portion of the First Schedule to this Act relating to the University of Calcutta;"

(*2*) for the words "the University," the words "the University of Calcutta" shall be substituted; and

(*3*) to the said sub-section the following proviso shall be added, namely:—

"Provided that the Principals of the Colleges bracketed together in pairs in Part II of the said schedule shall be *ex-officio* Fellows alternately in successive rotation, the Principal of the first mentioned College in each pair to hold such alternate office in the first instance."

Amendment of section 5 (*2*).

5. For sub-section (*2*) of section 5 of the said Act the following shall be substituted, namely:—

"(*2*) The Senate may, with the approval of the Government, make such necessary changes in Parts I and II of the First Schedule to this Act as may be required by the abolition of any of the offices mentioned in either of the said Parts or the inclusion therein of persons holding offices corresponding to those offices."

Amendment of section 6 (*1*).

6. In sub-section (*1*) of section 6 of the said Act, the word "Calcutta" shall be omitted.

New sub-sections (*1a*) and (*1aa*) in section 6.

7. After sub-section (*1*) of section 6 of the said Act, the following sub-sections shall be inserted, namely:—

"(*1a*) In the case of the University of Calcutta the number of Ordinary Fellows shall not exceed one hundred and eleven, and of such number—

(*1*) twenty-five shall be elected from among their own number by registered Graduates, including Licentiates in Medicine and Surgery of the University, and for the purposes of such elections—

(*a*) there shall be two electorates, one consisting of Graduates registered as resident in Calcutta who shall elect fifteen representatives and the other consisting of Graduates registered as resident in any one of the five mufassal divisions of Bengal who shall elect ten representatives;

The Indian Universities (Bengal Amendment) Bill, 1928.

(*Clause 7.*)

(*b*) of the fifteen Calcutta representatives, three shall be Muhammadans, and of the remaining twelve—

(*i*) three shall be Graduates in the Faculty of Arts;

(*ii*) three shall be Graduates in the Faculty of Science;

(*iii*) two shall be Graduates in the Faculty of Law;

(*iv*) one shall be a Graduate in the Faculty of Engineering; and

(*v*) three shall be Graduates in the Faculty of Medicine;

(*c*) of the ten representatives for the five mufassal divisions, the registered Graduates of each division shall elect from amongst themselves two representatives (of whom one shall be a Muhammadan);

(*2*) twelve shall be elected from among their own number by Teachers appointed by the University, and of these—

(*a*) at least one shall be a Muhammadan; and

(*b*) at least eight shall be Professors, and of these eight four shall be Professors of Science;

(*3*) fifteen shall be elected from among their own number by Teachers in affiliated Colleges, and of these—

(*a*) at least four shall be Muhammadans; and

(*b*) of the other eleven—

(*i*) two shall be Graduates in Arts;

(*ii*) three shall be Graduates in Science;

(*iii*) two shall be Graduates in Law;

(*iv*) one shall be a Graduate in Engineering;

(*v*) three shall be Graduates in Medicine;

(*4*) six shall be elected from among their own number by Head Masters in High Schools for boys, recognised by the University, and of the persons so elected two shall be Muhammadans;

(*5*) one shall be elected from among their own number by Head Mistresses of High Schools for girls, recognised by the University;

(*6*) five shall be elected from among their own bodies by the Governing Bodies of all affiliated Colleges, each Governing Body having one vote;

The Indian Universities (Bengal Amendment) Bill, 1928.

(Clauses 8—12.)

(*7*) two shall be elected from among its members by the Bengal Legislative Council;

(*8*) one shall be elected from among its members by the Bengal Chamber of Commerce;

(*9*) one shall be elected from among its members by the Bengal National Chamber of Commerce;

(*10*) one shall be elected from among its members by the Indian Chamber of Commerce;

(*11*) one shall be elected from among its members by the Asiatic Society of Bengal;

(*12*) one shall be elected from among its members by the Bangiya Sahitya Parishad;

(*13*) ten shall be elected by the *ex-officio* Fellows and the elected and nominated Fellows referred to in clauses (*1*) to (*12*) and (*14*), and of such number two shall be elected for each of the Faculties of Arts, Science, Law, Medicine and Engineering;

(*14*) the remainder shall be nominated by the Chancellor.

(*1aa*) The reservation of seats for Muhammadans elected under sub-section (*1a*) shall terminate at the end of ten years from the date of the reconstitution of the Senate under the Indian Universities (Bengal Amendment) Act, 1928."

Amendment of section 7.

8. In section 7 of the said Act—

(*1*) in sub-section (*2*) for the words "such amount as may be prescribed by the regulations," the words "five rupees" shall be substituted;

(*2*) in the proviso to the same sub-section for the words "and of such further sum as may be prescribed by the regulations," the words "and of the further payment of five rupees" shall be substituted;

(*3*) in sub-section (*3*) for the words "of such amount as may be prescribed by the regulations," the words "five rupees" shall be substituted;

(*4*) in the proviso to sub-section (*3*) for the words "prescribed in this behalf by the regulations," the words "of fifty rupees" shall be substituted.

9, 10, 11. [*Embodied in clause 8.*]

New section 9A.

12. After section 9 of the said Act the following section shall be inserted, namely:—

Procedure for election of Ordinary Fellows.

"9A. In the case of the University of Calcutta the election of Ordinary Fellows by the electorates mentioned in clauses (*2*) to (*13*) of sub-section (*1a*) of section 6 shall be held in accordance with such regulations as may be prescribed in this behalf."

The Indian Universities (Bengal Amendment) Bill, 1928.

(Clauses 12A—13.)

New sections 11A and 11B.

12A. After section 11 of the said Act the following sections shall be inserted, namely:—

Casual vacancies.

"11A. When the place of a nominated or elected member of the Senate becomes vacant, a new member shall be nominated or elected as the case may be; and such member shall hold office for the residue of the term of office of the member whose place he fills."

Transitory provisions.

"11B. All persons who are nominated or elected Fellows of the University of Calcutta at the commencement of the Indian Universities (Bengal Amendment) Act, 1928, under the provisions of any previous enactment, shall continue to be Fellows until such time as the nominations and elections of Fellows shall take effect under the provisions of that Act."

Amendment of First Schedule.

13. (*1*) From the list of offices in the portion of the First Schedule to the said Act relating to the University of Calcutta, as amended by the Bengal Government Notification No. 145 T.—Education, dated the 4th May, 1926, the following offices shall be omitted, namely:—

"(*i*) the Chief Justice of the High Court of Judicature at Fort William in Bengal;

(*ii*) the Lord Bishop of Calcutta and Metropolitan of India;

(*iii*) the Member of the Council of the Governor-General in charge of the Department of Education;

(*iv*) the Secretary to the Government of Bengal in the Department of Education; and

(*v*) the Principal, Presidency College, Calcutta."

(*2*) In the said list for the words "The Member of the Executive Council of the Government of Bengal" the following words shall be substituted, namely:—

"The Member of the Executive Council of the Governor of Bengal."

(*3*) Before the entry in the said list "The Minister for Education, Assam" the following office shall be inserted, namely:—

"Every ex-Vice-Chancellor resident in India."

(*4*) To the said list the following offices shall be added, namely:—

"The Mayor of the Corporation of Calcutta.

The Principal of the Calcutta Madrasah.

The Principal of the Bengal Engineering College, Sibpur.

The Principal of the Bethune College.

The Principal of the David Hare Training College.

The Principal of the Islamia College."

The Indian Universities (Bengal Amendment) Bill, 1928.

(Clause 14.)

(5) The said portion of the First Schedule to the said Act relating to the University of Calcutta as so amended shall be included under the following sub-heading, namely:—

"*Part I. Ex-officio Fellows.*"

Further amendment of First Schedule.

14. After the said Part I of the First Schedule to the said Act the following shall be inserted, namely:—

"PART II.

Alternate ex-officio Fellows—Principals of Colleges.

1. The Presidency College.
2. The Sanskrit College.
3. St. Xavier's College.
4. The Scottish Churches College.

CALCUTTA, THE 13TH DECEMBER 1928.

RESOLUTION—No. 20043 L.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1927-28.

Mr. K. C. De, C.I.E., held the office of the Member, Board of Revenue, from the beginning of the year under report till the 25th January 1928, when he was succeeded by Mr. J. N. Gupta, C.I.E., M.B.E., who remained in charge of the office during the rest of the year.

2. The year was not free from natural calamities In the Contai subdivision of the district of Midnapore the winter crop over a considerable area was destroyed by floods. Portions of the districts of Chittagong and Noakhali also suffered from severe storms. Later in the year parts of the districts of Burdwan, Birbhum, Bankura, Murshidabad, Nadia, Malda and Dinajpur suffered from deficient rainfall, resulting in failure of winter crops which has caused acute distress, particularly to the cultivating classes and the landless labourers. To meet the situation, relief operations were started by the District Boards concerned with their own funds, supplemented by advances from Government. Land improvement and agriculturists' loans amounting to Rs. 4,19,218 were also distributed according to requirements. Besides, various relief committees were organised to help the affected people. Government supplemented the resources of these bodies by allotting money for gratuitous relief. But most of these measures were undertaken in the current year 1928-29

Barring a temporary fall in the areas affected by the failure of the winter crop, the rates of wages for labour continued generally to rule high. Landless middle class people with fixed incomes continued to suffer from high prices and dearth of employment for intellectual labour. Malaria, kala-azar, cholera and small-pox were as in previous years, prevalent in most of the districts. It is, however, a gratifying feature that there has been an awakening of the people themselves to the importance of improving the public health.

3. The depression of the coal industry continued and the condition of the iron industry became unfavourable during the year. Cotton, jute and rice mills fared well, and the year was a fairly prosperous one for tea The weaving industry, which is the most important home industry of the Presidency, was on the whole carried on satisfactorily. During the year, the Port of Chittagong was converted into a major port and its control transferred to the Imperial Government Motor-buses and taxis were introduced in large numbers in all the districts of the Presidency, thus facilitating communication with the interior.

There were no labour troubles except in the district of Howrah, the most important of which was the strike of the East Indian Railway Workshop employees at Lillooah which started in the beginning of March and continued after the close of the year. The number of co-operative societies in the province continued to increase and exercise an indirect influence in lowering the rate of interest charged by private moneylenders

4. There was a fall in the demand of land revenue in the permanently-settled estates from Rs. 2,15,71,482 to Rs. 2,15.67,732; but the temporarily-settled estates and estates under direct management showed an increase of Rs. 2,28,113. Collection suffered to some extent on account of distress in several districts, and the Sale Law was administered with moderation. Only 8·65 per cent. of the defaults actually came to sale.

5. The percentage of cost of management on the current demand was 10·55 and a sum of Rs. 2,12,468, representing 3·9 per cent. of the current demand, was spent on agricultural, sanitary and miscellaneous improvements. The scheme by which Sub-Deputy Collectors in charge of certain khas mahals were replaced by settlement kanungos is reported to be working well. It is satisfactory to note that both the number of schools in Government estates and the pupils attending them are on the increase from year to year.

6. The colonization scheme in the Bakarganj Sunderbans, which covers an area of 163 square miles comprised in 22 estates, was in its 21st year and is likely to be completed within a year or two. The total expenditure incurred by Government for the reclamation of the area and the total receipts derived therefrom up to the end of the year under review were Rs. 14,53,878 and Rs. 18,72,100, respectively, resulting in a net profit of Rs. 4,18,222. The number of primary schools and pupils in the colonization area shows a steady increase, and a scheme has recently been evolved with the approval of Government to encourage primary education in the area.

The Governor in Council has noticed with regret the local officers' gloomy description of the colonists, specially of the Bengali settlers, who through indolence and improvidence are fast selling their holdings. In the Bengal Tenancy Amendment Bill, just passed by the Legislative Council, provision has been made for the extension of the protection afforded by section 49A of the present Act to such areas in the Sunderbans as may be considered necessary.

7. The colonization scheme in the 24-Parganas Sunderbans, which was in its 13th year, made fair progress during the year. In order to protect the Santhal tenants from money-lenders and middlemen, the provisions of Chapter VIIA of the Bengal Tenancy Act have been made applicable to them. Steps are also being taken for the organization of rural co-operative banks amongst them.

8. The most common causes of friction between the landlords and their tenants were, as in previous years, enhancement of rents, exaction of abwabs, levy of interest on arrear rents and mismanagement by the local agents of absentee landlords.

9. The special provisions of the Bengal Tenancy Act, imposing restrictions on the alienation of land by aboriginals, were extended during the year to certain aboriginal tribes in the districts of Birbhum, Bankura, Malda, the 24-Parganas and Murshidabad.

10. The thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the branches of work under it.

By order of the Governor in Council,

W. H. NELSON,

Secretary to the Government of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for November 1928.

I. **Character of the season.**—The rainfall during the month was markedly in defect of the normal throughout the Presidency, excepting only in the districts of Jalpaiguri and Darjeeling and in the State of Cooch Behar, where it was above the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for and sowings of spring crops and reaping of winter paddy were progressing under favourable conditions.

III. **State of standing crops.**—The condition of sugarcane and other standing crops was reported to be generally satisfactory.

IV. **Prospects and probable outturn.**—The outturn of *bhadoi* crops is estimated at 95 per cent. of the normal and that of winter paddy is expected to be about 105 per cent.

V. **Damage to standing crops.**—No damage to standing crops is reported from any part of the Province except that by insect-pests in parts of the Tripura State and by hailstorm in parts of the Cooch Behar State.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Stray cases of cattle-disease, however, were reported from about thirteen districts of the Province.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be sufficient throughout the Presidency except in parts of Dinajpur only.

VIII. **Prices of food-grains.**—During the second fortnight of the month the price of common rice of the cheapest quality rose in two districts, fell in ten and remained stationary in the rest of the Presidency. It ranged from 4¾ seers per rupee at Rangpur to 7¾ seers per rupee at Burdwan.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair except in parts of Murshidabad, Birbhum and Bankura, where distress continued to prevail owing to partial failure of the winter rice crop last year. Test relief works continued to help the people of these districts. In Birbhum the relief works were closed during the latter part of the month.

CHAS. A. BENTLEY, M.B., D.P.H., D.T.M. & H., *Director of Public Health, Bengal.*

CALCUTTA, *the 14th December 1928.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Bhadoi Crops of Bengal, 1928-29.

(NOTE.—On an average of the five years ending 1926-27, the area under autumn rice in Bengal has represented some 6·0 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the preliminary forecast, early sowings were slightly retarded by drought in some places, but the rainfall in April and May was generally helpful. Subsequent conditions, as a result of timely monsoon showers, were also beneficial to the growth and development of the crops, though slight damage by excessive rain was reported, especially from some West Bengal districts and from Bakarganj. The season on the whole was a favourable one.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,444,700 as against 5,833,100 acres last year. Of this, the area under *autumn rice* is estimated at 5,649,000 acres as against 5,072,400 acres last year. The increase in area is due to favourable weather at the time of sowing.

Outturn.—According to District Officers' estimates, the outturn of *autumn rice* as well as that of the different *bhadoi* crops together for the Presidency works out at 82 per cent. of the normal this year as against 80 per cent. last year. I am, however, of opinion that the outturn of *autumn* crops is an under-estimate and that the crops will not fall short of 95 per cent. of the normal this year.

On the basis of a normal yield of 10¾ maunds of clean grain per acre the gross outturn of *bhadoi* paddy (autumn rice) is estimated at 2,119,200 tons this year as against 1,602,500 tons last year, or an increase of about 32 per cent.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Winter Rice Crop of Bengal, 1928-29.

(NOTE.—On an average of the five years ending 1926-27, the area under winter rice in Bengal has represented some 18·4 per cent. of the total area under rice in British India.)

Character of the Season.—As reported in the first forecast, weather at the outset continued practically dry, resulting in slow progress in preparatory tillage for deep-water paddy; but moderate rain in April facilitated sowings. Good showers in May favoured the growth of the germinated paddy and sowings of transplanted winter paddy in seed-beds. As the monsoon established itself earlier than usual, transplantation of paddy seedlings commenced in good time. Good rainfall in July and August also favoured rapid progress in the operation, with the result that a considerably increased area was brought under cultivation. Although rainfall in early September was a little defective, subsequent weather conditions were greatly helpful to the growth and development of the crops. On the whole, a very good crop may be expected throughout the Province.

Acreage.—According to the estimates returned by the District Officers, the total area under winter rice is 15,323,900 acres as compared with 13,391,700 and 13,210,100 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that Bankura and Rangpur report more than a normal crop (*i.e.*, 110 and 105 per cent., respectively). Fourteen districts report a normal crop of 100 per cent.; nine districts a crop varying from 80 to 98 per cent. Only two districts, viz., Nadia and Jessore, report a crop of 67 and 75 per cent., respectively. According to the above estimates, the provincial outturn works up to 97 per cent. as against 75 and 78 per cent. of the normal, respectively, in the corresponding and final forecasts of last year. I consider the outturn will not fall short of 105 per cent.

Accepting 105 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean grain per acre, is estimated and 7,388,300 tons this year as against 4,611,900 and 4,731,400 tons, respectively, in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

LOCAL SELF-GOVERNMENT DEPARTMENT.

NOTIFICATIONS.

Minister-in-charge: The Hon'ble Raja Bhupendra Narayan Sinha Bahadur, of Nashipur.

No. 5166 L.S.-G.—The 17th December 1928.—In exercise of the power conferred by section 5 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), and after consideration of the views of the Mymensingh District Board and the Netrakona local board, the Government of Bengal (Ministry of Local Self-Government) are pleased to direct that each of the following local areas in thana Mohanganj in the Netrakona subdivision of the Mymensingh district shall be declared a union for the purpose of the Act.

Mymensingh.

2. In exercise of the power conferred by sub-section (*1*) of section 6 of the said Act, the Government of Bengal (Ministry of Local Self-Government) are pleased to establish union boards for each of the unions hereby declared and to fix nine as the number of members of each union board.

3. In exercise of the power conferred by sub-section (*3*) of section 6 of the said Act, the Government of Bengal (Ministry of Local Self-Government) are pleased to direct that one-third of the members of each union board shall be appointed by the District Magistrate on the grounds that the electors are inexperienced and that such appointment is necessary for the due representation of minorities:—

Midnapore.

No. 3026P.H.—The 20th December 1928.—In pursuance of section 37F. of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), it is hereby notified for general information that the scheme submitted by the Commissioners of the Tamluk Municipality, in the district of Midnapore, for providing a good water-supply in the municipality has been approved by the Government of Bengal (Ministry of Local Self-Government), and that the particulars of the said scheme are as follows:—

(*a*) The scheme provides for a daily supply of 25,000 gallons of water to be pumped from a 3" diameter tube-well into galvanised iron tanks located at different suitable points in the town and supplied through a distribution system.

(*b*) The estimated capital cost of the scheme is Rs. 38,300.

(*c*) The annual maintenance cost is estimated at Rs. 2,500.

(*d*) The sum of Rs. 39,300 on account of the capital cost of the scheme will be met as follows:—

			Rs.
Government grant	...	...	13,100
Loan from Government	...	...	6,000
Local contribution	...	..	20,200
			39,300

(*e*) The maintenance cost and the charges on account of the payment of the loan with interest will be met from water-rates.

(*f*) The loan of Rs. 6,000 will be repaid with interest in 20 annual instalments of Rs. 523-1-9 each.

(*g*) Water-rate will be levied at 4½ per cent. on the annual value of holdings within a radius of 400 feet from the nearest hydrant and at 3 per cent. on the annual value of holdings beyond 400 feet but within a radius of ¼th of a mile.

(*h*) The average incidence of the water-rate per head of population will be 5¾ annas.

2. The said scheme will be taken into consideration on or after the 1st March 1929, and any objections or suggestions with regard thereto which may be received by the undersigned before that date will be duly considered.

[Third publication.]

No. 9-I.—The 4th December 1928.—The following draft of revised rules and rates of tolls for the undermentioned three navigable channels in the district of Chittagong, which in exercise of the powers conferred by sections 11 and 6 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix in supersession of all previous rules and rates for these channels, is hereby published for the information of persons likely to be affected thereby:—

1. The line of channel connecting the Karnafuli and Sangoo rivers, known in its various parts as Boalkhali, Benoud Faree and Chandkhali.
2. The line of channel connecting the Sangoo river with the Julkudder Creek as far as Julkudder Ghat and known in its various parts as the Banskhali, Kooki Cherra and Balukhali.
3. The Mohiskhali Nala or Khal from the junction with the Karnafuli to its opening into the Bay of Bengal.

The draft will be taken into consideration on or after the 31st January 1929, and any objections or suggestions received by the undersigned before that date will be considered.

Draft Rules.

1. Every vessel on entering any of the above navigable channels shall be liable to measurement by the officer in charge of the Toll Station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purpose of the Canals Act and of these rules, be determined by the following measurements:—

(*a*) The product of half of the length of the vessel from stem to stern measured along the waterline multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the bottom of the vessel is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied any fraction of 100 maunds less than 50 maunds is to be omitted and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into any of the channels in excess of 50 feet in length or 5 feet in breadth. No timber, bamboo or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering any of the channels shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. Vessels employed exclusively on works connected with the maintenance and improvement of the lines of channels in question or on the conveyance on duty of Government servants or of members or employees of the District Board shall be exempted from paying toll. No other vessels shall be exempted.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through any one of the channels, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channels longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one half of the toll paid. Every vessel or raft remaining in any one of the channels more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules or wilfully interfering in their enforcement shall be liable under section XI of the Canals Act to a fine not exceeding fifty rupees for any one offence.

Schedule of rates of tolls.

The following rates of toll will be charged on vessels and rafts per reach of the canals:—

I. Boalkhali and Chandkhali channels from Boalkhali to Chandkhali.

II. Murali channel from Murali to Sikalbaha.

III. Kumirachara channel from Banskhali to Julkudder.

LAND SALE NOTICES.

FORM 27.

Advertisement of sale.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the E. I. Railway, in the district of Burdwan, will be put up to sale at 10-30 A.M. at Barabani Railway Station on the 16th February 1929, corresponding with the 3rd Fulgoon 1335.

The purchasers of the several plots of land will be subject to the following conditions :—

1st—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd—If the amount of purchase money does not exceed Rs. 100 the whole amount must be paid down at once.

3rd—If the amount of purchase money exceeds Rs. 100 one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchasers after issue of advertisement, as in the case of original sale.

4th—The plots of land will be sold revenue-free to the highest bidders.

5th—The sale will become final on receipt by the Collector of the orders of the Commissioners confirming it, and a regular conveyance will then be granted to the purchaser.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

WHEREAS under sections 7 and 35 of the Court of Wards Act, IX (B.C.) of 1879, as amended up to date, the Court of Wards has assumed charge of the property of Babu Manindra Chandra Roy Chaudhury and Babu Surendra Chandra Roy Chaudhury, zamindars of Sadyapuskarni in the district of Rangpur.

Notice is hereby given under section 10A of the said Act that all creditors having claims against the said Babu Manindra Chandra Roy Chaudhury and Babu Surendra Chandra Roy Chaudhury or their immoveable property are hereby required to submit the same in writing to the Collector of Rangpur at his office at Rangpur within six months from the date of publication of this notice.

Creditors are hereby warned that claims not submitted as required by this notice are liable to be deemed to have been duly discharged.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Spring Oilseed crops of Bengal, 1928-29.

(NOTE.—On an average of the five years ending 1926-27, the area under linseed in Bengal has represented some 3·3 per cent. and that under rape and mustard 11·6 per cent. of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are grown chiefly in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions, the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 877,400 acres this year as against 858,500 and 900,600 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September was much in defect of the normal, while the fall in October was in excess. As a consequence, the preparatory tillage and sowings, though commenced under favourable conditions at the outset, were retarded by excessive rain later on. Dry weather since November has been favourable on the whole for further sowings, and the present condition of the crops is reported to be fairly favourable except only in the districts of Dinajpur and Bogra where it is reported to be poor.

R. S. FINLOW,
Director of Agriculture, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 19th December 1928.

Summary.—Dry weather continued. Sowing of spring crops is approaching completion. Harvesting of winter paddy is advanced. The state and prospects of standing crops are reported to be generally fair. The average price of common rice for the Provinces has fallen by about 0·60 per cent. as compared with that of the previous week.

GOVERNMENT OF BENGAL.

Irrigation Department.

CALCUTTA, THE 8TH DECEMBER 1928.

At the Bengal Legislative Council during its last August Session a question (Starred Question No. 154) was asked by Mr. Subhas Chandra Bose requesting Government to lay on the table—

(*i*) the note by the Consulting Engineer to the Government of India in connection with the revival of the Grand Trunk Canal Scheme; and

(*ii*) the correspondence that passed between the Governments of India and Bengal in this connection after the Government of Bengal had decided to drop the scheme.

With the previous consent of the Government of India the Governor in Council is now pleased to direct that the following correspondence including the note of the Consulting Engineer to the Government of India referred to above be published in the *Calcutta Gazette* for general information.

NOTE.—The note by the Consulting Engineer to the Government of India was communicated demi-officially by the Government of India to this Government, with the intimation that it had not been taken into consideration by the Government of India, but was forwarded as an independent professional view in case it might be of interest or use to the Local Government.

W. H. NELSON,
Secretary to the Government of Bengal (offg.).

Letter No. I.-47—30, dated the 16th March 1928, from the Government of India, Department of Industries and Labour (Public Works Branch), to the Secretary to the Government of Bengal, Irrigation Department.

Grand Trunk Canal Project.

I am directed to forward herewith a copy of a letter No. E. & O. 1016—28, dated the 22nd February 1928, from the Secretary, Economic and Overseas Department, India Office, on the above subject, and to request that, with a view to a reply to this letter being given, the Government of India may be furnished at an early date with the information asked for in this department's letter No. I.-47—25, dated the 5th December 1927.

(Economic and Oversens.)

No. E. & O. 1016—28, dated the 22nd February 1928.

Navigation—Grand Trunk Canal Scheme.

With reference to the Government of India's Despatch No. 1-Public Works, dated 15th January 1920, I am directed by the Secretary of State for India to forward copy of a question in the House of Commons and of the reply thereto.

2. I am to request that this office may be informed as soon as possible of the present position as regards the abovementioned project. If the answer to the second part of the question, which presumably refers to a recent report, is in the affirmative, it would be convenient if two copies of the report could be enclosed with the Government of India's reply.

Question No. 10, dated 20th February 1928.

Mr. Kelly —To ask the Under-Secretary of State for India, whether it is proposed to proceed with the scheme for a Grand Trunk Canal between Calcutta and the eastern districts of Bengal; and whether the committee appointed to consider the matter has issued a report.

Answer to Mr. Kelly's question No. 10, dated 20th February 1928.

I have no recent information but will enquire.

Endorsement by the Government of India, Department of Industries and Labour (Public Works Branch), No. I.-47—32, dated New Delhi, the 4th April 1928.

A copy of question No. 17, dated 12th March 1928, in the House of Commons, and the reply thereto, is forwarded to the Secretary to the Government of Bengal, Irrigation Department, for information, in continuation of this department letter No. I.-47—30, dated the 16th March 1928.

Question No. 17, dated 12th March 1928.

Mr. Gardener—To ask the Under-Secretary of State for India, whether it is proposed to proceed with the scheme for a Grand Trunk Canal between Calcutta and the eastern districts of Bengal; whether the committee appointed to consider the matter has issued a report; and if so, whether he will state the terms of the committee's findings.

Answer to Mr. Gardener's question No. 17, dated 12th March 1928.

I would refer the honourable member to the reply I gave on the 20th February to the honourable member for Rochdale. The reply of the Government of India to the enquiry made has not yet been received.

Note, dated the 28th February 1928, by Mr. D. G. Harris, C.I.E., Consulting Engineer to the Government of India, on the Sunderbans Steamer Route.

(Communicated demi-officially by the Government of India to this Government.)

During my recent tour in Bengal I had an opportunity of examining *inter alia* the western portion of the Sunderbans steamer route. The following note incorporates the views which I formed regarding the possibility of its maintenance in a navigable condition.

2. There is at present no direct inland steamer route leading eastwards from Calcutta. Steamers making the voyage to Eastern Bengal and Assam have to proceed almost due south down the Hooghly until, some 80 miles below Calcutta, they reach the Doa Agra channel which, with the connected Hetalcah khal, leads eastwards into the Subtermukhi River. Having crossed the Subtermukhi, they pass into the Habilla

Creek and thence into the complicated network of channels which form the Sunderbans. Short of going round by the sea face, for which the light draught steamers employed on the service are quite unsuitable, there is no alternative route.

3. The trouble arises from the fact that all the rivers in the south-western portion of the delta, including those mentioned in the preceding paragraph, are gradually dying owing to the deposit of silt in them. The reason for this phenomenon is easily explicable. Originally the tides carrying large quantities of silt swept up the main rivers along the cross channels connecting them laterally, and over the adjacent country which formed, as it were, a reservoir for its reception. A large quantity of silt was deposited on this country; on the ebb of the tide the water, rendered cleaner by such deposit, flowed back into and down the rivers with sufficient velocity to carry the remaining silt back into the sea. In this way the *regimé* of the various river channels was automatically maintained.

4. Owing, however, to reclamation in the previously tide swept area, this action no longer takes place. Embankments to keep out the water have been erected along the banks of the rivers, and much of the silt, which formerly deposited itself over the countryside, now deposits in the river-bed. The ebb of the tide, robbed of the force which it previously possessed owing to the rush of drainage from the tidal reservoir, has no longer the velocity necessary to remove and carry away this silt, and so the river gradually dies. The death of the rivers is an inevitable consequence of reclamation in a tidal basin.

5. In the course of my tour, I examined the threatened portion of the present route with Mr. Addam-Williams, Chief Engineer, Bengal, and with the managers and technical experts of the two principal steamer companies, the India General and Rivers Steam Navigation Companies. We arranged our programme so as to arrive at the mouth of the Doa Agra about an hour and a half before low water, thus enabling us to reach the Subtermukhi crossing in time to inspect it at dead low tide. We then anchored for the night in the Subtermukhi, and examined it again at a similar stage in the early morning.

6. The first point where difficulty arises is at the mouth of the Doa Agra channel. Channel Creek, the eastern arm of the Hooghly as it flows past Saugor Island, is divided longitudinally into two branches by Crommelin Island, and the Doa Agra has its head on the branch between this island and the main land. For some time past the river has tended to set towards Saugor Island, with the result that Crommelin Island has been extending both up and down stream the spits thus formed, threatening to join the mainland. In consequence both the entrance to and the exit from the branch are steadily contracting and bars are forming across them; if this action continues, as there is every probability of its doing, the mouth of the Doa Agra will in a short time become completely masked and inaccessible.

7. The Doa Agra is in an extremely bad condition. This channel was, thirty years ago, a fine river half a mile wide at its western entrance; it is now a small stream 200 feet wide with a depth, at low water, of only about six feet in its deepest channel. It was all that we could do to scrape through in a lightly loaded steamer. It is in urgent need of dredging and should, properly, have been dredged last year. The frequency with which dredging has been necessary is a fair measure of the rate of its deterioration; it was dredged first in 1912, again in 1920, again in 1925, and should have been dredged in 1927, the intervals between successive dredgings being thus 8, 5, and 2 years. It will only be a matter of a short time before nothing but continuous dredging will keep the channel open at all, and, owing to the restricted area available for the deposit of spoil, heavy dredging could only be carried on for a very limited period.

8. The condition of the Hetaleah came, I think, as a most unpleasant surprise to all concerned; its bed is usually from three to five feet deeper than that of the Doa Agra, but the soundings taken on the day of our visit showed exactly the same depth in both channels. I attribute this to the fact that steamers passing through the shallow water of the Doa Agra, with their bottoms close to the bed, stir up the silt and thus allow the weak tides to carry off at least some portion of it in suspension, thus temporarily retarding the deterioration in that channel; in the meantime the Hetaleah has deteriorated at the normal rate (or possibly at a somewhat greater rate owing to the ingress of silt from the Hooghly through the Gheapathy cut, to which reference is made in paragraph 10 below), and both rivers have now come to the same condition.

9. The most serious point is, however, that where the Subtermukhi River crosses the steamer route. A comparison of a chart of this crossing to-day with that of 1878 shows dry land where there were formerly 18 feet of water, and 3 feet where there were formerly 30. My predecessor, Sir Frederick Gebbie, who inspected the crossing in 1923, came to the conclusion that the silt coming down the Subtermukhi would block it and render it impossible to open within seven years. He may have been pessimistic as regards the time which it would take for the river to shoal up (such a process is not necessarily regular, but may be retarded in one year while accelerating in another), but that it is shoaling and will continue to shoal there is not, in my view, the slightest doubt. It is already a serious source of delay; it is impassable at low tide, there not being more than two to three feet of water on the top of the bar, and steamers arriving at low water have to wait on either side for the tide to rise—a wait

which may, by making them miss the tide in the Hooghly, cause them to arrive twenty-four hours late in Calcutta. The bar is steadily getting worse, and it is only a question of time before it becomes an island dividing the river into two channels and thus completely blocking the route. I agree entirely with Sir Frederick Gebbie that this crossing is inevitably doomed.

10. Various methods have been suggested for saving the route through this portion of the delta, but none which have, in my opinion, the least chance of success. Steamer locks in Channel Creek and the Subtermukhi, at the ends of the Doa Agra Hetaleah reach, have been proposed, to pass the traffic but exclude the silt, but it is clearly useless to build locks when the approaches to them are threatened with closure. Nor is it possible to short circuit the Doa Agra, as the natural forces at work will attack an artificial channel as readily as a natural one; an attempt at such a short circuit was made when the Gheapathy cut, giving a direct connection from Channel Creek to the Hetaleah, was opened in 1923, but, as might have been foreseen, it silted up again almost immediately.

11. It has further been suggested that the route can be kept open by dredging. I have already explained the difficulty of getting rid of spoil from the Doa Agra, owing to the limited space upon which it can be deposited; the same remarks apply to the Hetaleah, and, but with doubled force, to the Subtermukhi also. In the last-mentioned case, the dredging operations would themselves accelerate the deterioration of the river. The spoil removed must be deposited somewhere, and since the banks are too far away from the bar to be reached by the dredger, the only places where it can be so deposited are on the shoals on either side and in the deeper channels. This means still further restriction of the area in which the tide can spill and the filling artificially of those portions of the bed which otherwise would still be left for nature to fill; it would entail, in other words, intensifying the very conditions which have made the river die. Moreover, the restricted area available for spoil sets a definite term upon the period during which dredging would be possible: once the hollows in the bed are filled and the shoals increased to the height and width to which the discharge pipes of the dredgers can reach, the operations must come to a permanent standstill.

12. To attempt to maintain the present route by dredging will, I am afraid, merely result in the waste of a huge sum of money. The Chief Engineer has worked out a twenty years' programme of dredging operations, to meet the progressive deterioration which may reasonably be anticipated during this period, assuming (a doubtful assumption, to say the least of it) that it is possible to keep the route open at all for so long. The cost varies from about Rs. 8 lakhs a year for the earlier years to Rs. 20 lakhs a year at the end; the total cost during the 20 years is estimated to be Rs. 332 lakhs, or more than the whole cost of the Grand Trunk Canal. As I said, no one can say for certain exactly at what rate the deterioration will progress. After going carefully into the Chief Engineer's figures I consider that, although there is a probability that they would prove to be on the high side, there is quite a possibility that the full amount might be required. If it were a question of sanctioning now a consolidated estimate for the twenty years, I should not be prepared, in view of the uncertainties involved, to recommend any reduction of the amount. It has, I believe, been suggested that the Grand Trunk Canal is a more expensive project than Bengal can afford, but it seems to me that it will, in any event, prove a far lighter burden (if, indeed, it proves a burden at all) upon the finances of the province than an attempt to maintain the existing route must ultimately do. It must be remembered that dredging is very expensive; a large dredger such as would have to be used costs about Rs. 2,250 a day when working, and Rs. 1,300 a day when standing idle—to which charge must be added the cost of the acquisition of land on which to deposit the spoil and of embankments to retain it when so deposited.

13. In other words, my personal opinion is that, if the Grant Trunk Canal is not built, the Government of Bengal will be faced with either the complete stoppage of the steamer route, or the incurring of a large and wholly unremunerative expenditure on dredging which may average as much as Rs. 16 lakhs a year. By means of an expenditure of this order they may manage to keep the route alive for a limited period, but it will ultimately deteriorate to a point where dredging can no longer avail; it will then die, and the whole of the money spent upon it will have been spent in vain.

14. It seems almost certain that the Grand Trunk Canal will have to be built sooner or later. It is the only means of preventing the vast area in Eastern Bengal and Assam, the inhabitants of which are responsible for exporting and importing the 50 million maunds of goods carried by the steamers, from being cut off from its principal, and in some cases its only, market. An extension of the railway is too costly seriously to be considered. A pre-war estimate for a single branch line from Khulna to Barisal amounted, I understand, to more than the whole cost of the Grand Trunk Canal, and the additional traffic would almost certainly necessitate, in addition, the doubling of the line from Khulna to Calcutta and the provision of further marshalling facilities at the latter terminus. Even with such a branch, the railway would touch only the fringe of the traffic and it is very doubtful whether the steamers could or would continue their services into the interior were they denied all possibility of access to Calcutta. In a country such as is here in question, containing, in general, one of the finest systems of natural waterways in the world, it would, in my view, be

a thousand pities to fall back upon a railway to which they would merely be a serious obstruction, while steamer services are a practical proposition, and it is possible to ensure their continuance by the construction of a comparatively simple canal project.

15. The Grand Trunk Canal scheme was designed not only to surmount the difficulty created by the deterioration of the Sunderbans channels, but to cut off a detour of 135 miles now necessary in the voyage to Khulna, which may be regarded as the eastern centre of the services. I understand that the decision of the Government of Bengal to abandon it was actuated largely by the receipt from the Bengal Chamber of Commerce of a letter emphasizing the desire of the Steamer Companies that, even if the Grand Trunk Canal is constructed the Sunderbans shall still be kept open as an alternative route, and communicating their opinion that the latter route can be maintained by dredging for a considerable period. As regards the first point, the desire is easily comprehensible, but to give effect to it is, in my opinion, not only financially but also physically impossible. As I have already explained, the fact that the channels in the south-western Sunderbans keep open at all is largely due to the heavy steamer traffic upon them; if this traffic ceased owing to its diversion through the Grand Trunk Canal, the deterioration of the channels would be even more rapid than it is at present, and the term of their lives correspondingly reduced. This effect has been clearly demonstrated elsewhere. Until about ten years ago the Angeria Creek formed part of the main steamer route, and, like the Doa Agra, was maintained mainly by the steamer traffic upon it; on its being discovered that its deterioration was inevitable an alternative route was provided and the traffic diverted to it. Heavy silting immediately set in, and the bed of the creek has risen so high that it is now being disposed of for cultivation.

16. So far as I can ascertain, it has never been squarely put to the Steamer Companies that the maintenance of the two routes is wholly impossible, and that the choice lies between the Grand Trunk Canal on the one hand and the staking of the whole future of the steamer services on the continuance of the Sunderbans route on the other. Were it so put, I do not think that there can be any doubt as to which they would elect. It is pertinent to remark that, in asking for an alternative, the Companies are asking for something which they do not at present enjoy, as, until the Grand Trunk Canal is built, there is no alternative to the rapidly dying Sunderbans route.

17. As regards their opinion that the present route can still be kept open for a long period, I shall be interested to hear whether it is still held by the representatives of the Companies after our recent inspection. It appears to me to be a view which it is impossible for anyone to take who has seen the Subtermukhi crossing as it is at present, has compared its condition with that shewn on the older charts, and knows anything about the natural tendency of tidal rivers.

18. To sum up, I agree, as I have already said, with the opinion expressed by my predecessor that it is impossible to maintain the Sunderbans route, and that its closure is inevitable. If this view is correct, the only means of preventing the steamer traffic from being simultaneously closed down, and Assam and half Bengal cut off from reasonable communication with the other half, is the provision of an alternative route. If it has to be provided, the sooner it is provided the better, as money spent upon a dying route is money wasted, and the cost of keeping the Sunderbans open is likely to prove a substantial and annually increasing amount. The construction of such an alternative will probably take six or seven years, and no one can foresee how far, in that period, the deterioration of the present route will progress; it is hardly too much to say that unless it is taken in hand now, it may be too late to save the situation.

Letter No. 20 T.-I., dated the 24th April 1928, from the Government of Bengal, Irrigation Department, to the Secretary to the Government of India, Department of Industries and Labour (Public Works Branch).

Subject: Abandonment of the Grand Trunk Canal Project.

I am directed to acknowledge the receipt of your letter No. I.-47—25, dated the 5th December 1927, as well as letter No. I.-47—30, dated the 16th March 1928, from the Consulting Engineer to the Government of India. It is requested that the Government of India may be furnished, both for their own information and for the purpose of submitting a report to the Secretary of State for India, with a statement of the reasons which led this Government to the abandonment of the Grand Trunk Canal Project. As there is a question in the House of Commons as to whether it is proposed to proceed with the scheme, and whether the Committee appointed to consider the matter has issued a report, the Secretary, Economic and Overseas Department, India Office, desires to be informed of the present position with regard to the project.

2. In reply, I am to state for the information of the Government of India that since the issue of this Government letter No. 8666-I., dated the 19th November 1927, intimating that it has been decided not to proceed further with the Grand Trunk Canal Project, this Government, in view of a note dated February 28th, 1928, made by the Consulting Engineer to the Government of India, consequent upon a visit paid to the Sunderbans Steamer routes with representatives of the Irrigation Department and the Joint Steamer Companies, has decided to review the whole situation.

3. I am to add that a further communication on the subject will be made in due course.
